Total Centers	69
■ Head Start	24
■ Early Head Start	28
■ Head Start & Early Head Start	1
■ AIAN Head Start & Early Head Start	14
■ Migrant and Seasonal Head Start	2

STATE VARIATION

The location of Head Start programs in relation to where children in poverty live varies greatly by state.

In some states centers tend to be concentrated in higher poverty counties; but in other states, the location of Head Start centers is related to population density.

States should ensure programs are accessible to eligible families. This could include ensuring programs are located in neighborhoods near children living in poverty and/or providing transportation to a greater number of children.
