Q.1. In your community, how many parents do you think have access to good preschool programs that they can afford for their three- and four-year-old children--would you say that almost all parents have access to these programs, most parents, about half of parents, or fewer than half of parents have access to these programs for their young children?

Q.5a. Now I'm going to describe an approach that some people have suggested for panding opportunities for three- and four-year-old children to participate in program programs and then get your reaction.

State government would provide funding and financial support so that all parents in the state who want to send their children to a high-quality preschool program can afford to do so. Parents would be able to choose which program to send their child to depending on their needs and preferences--for example, parents could select a public or a private program, and parents could select a program that is part-time or one that is full-time, as long as the program meets state standards for teacher qualifications, class size, and safety.

How do you feel about this approach--do you strongly agree, somewhat agree, feel neutral, somewhat disagree, or strongly disagree with this approach?

* Asked of one-half the respondents (FORM A).

** Asked of one-half the respondents (FORM B).

	Oklahoma Voters -----	Men -----	Women -----	18-49 -----	50 and over -----
Many children who participate in preschool programs do better when they enter elementary school and score higher on basic skills tests	60	51	68	59	61
Many children who participate in preschool programs are more self-confident, better adjusted, and less likely to be disruptive and cause problems that affect other children in the classroom when they enter elementary school *	59	51	67	56	64
Good preschool programs help motivate young children to become problem-solvers who are more successful in school, work, and in their communities	53	47	58	51	55
Having children participate in preschool programs strengthens families by giving parents the resources and support they need to help their children get a good start	52	48	57	52	53
Good preschool programs cost a lot more than most working families can afford, leaving many parents with few alternatives	46	39	53	46	46
Children who participate in preschool programs are less likely to get involved with things like gangs and drugs as they get older and more likely to grow up and become productive, contributing members of the community *					

42 42 41 37 48

Good preschool programs benefit the economy and save taxpayers two dollars for every dollar invested, because these programs prevent school failure and crime and produce a better educated, more productive workforce **
