# Appendices Table of Contents

#### Appendix A: State Survey Data 2015-2016

#### Access

Program availability

Program enrollment including age, PDG, special education, Head Start, home language, lunch status, ethnicity, and race

Program setting

#### **Operating Schedule**

#### Age Eligibility

Preschool and kindergarten age eligibility requirements

Exceptions to age requirements

#### Income Requirement

#### Other Eligibility Policies

Risk factors for eligibility Reassessment of eligibility

#### **Program Standards**

Class sizes

Staff-child ratio

Meal requirement

Screening and referral services

Comprehensive services

Supports for Dual Language Learners

#### Early Learning & Development Standards & Curriculum

#### Personnel

Teacher degree requirements and specialized training

Teacher education levels

Assistant teacher degree requirements and specialized training

Teacher and assistant teacher salary and benefits parity

Teacher and assistant teacher professional development requirements

## Resources

Fiscal year 2016 spending (state, federal, and local amounts)

School funding/state aide formula

Agencies eligible to receive funding directly and indirectly

Required local match

#### Accountability

Structured observations of classroom quality

Other information collected for monitoring, method and frequency of collection

How monitoring information is used at the state level

Formal evaluations of the preschool program

Assessments used in preschool

Availability of state-wide data on children and classrooms

Assessments used in kindergarten

#### **Footnotes**

#### Appendix B: Head Start Data

#### Appendix C: U.S. Census Population Data

## Appendix D: Pre-K Special Education Enrollment Data

STATE	Name of state-funded preschool program
Alabama	First Class Pre-K: Alabama's Voluntary Pre-Kindergarten Program
Alaska	Alaska Pre-Elementary
Arizona	Quality First Scholarships
Arkansas	Arkansas Better Chance/Arkansas Better Chance for School Success
California SPP	California State Preschool Program
California TK	California Transitional Kindergarten (TK)
Colorado	Colorado Preschool Program
Connecticut CDCC	Connecticut Child Day Care Contracts
Connecticut SRP	Connecticut School Readiness
Connecticut Smart Start	Connecticut Smart Start
Delaware	Delaware Early Childhood Assistance Program (ECAP)
District of Columbia	D.C. Public Pre-K
Florida	Florida Voluntary Prekindergarten Program
Georgia	Georgia's Pre-K Program
Hawaii	Hawaii's Executive Office on Early Learning Public Prekindergarten Program
Illinois	Illinois Preschool for All
Indiana	On My Way Pre-K
Iowa Shared Visions	lowa Shared Visions
Iowa SWVPP	Iowa Statewide Voluntary Preschool Program
Kansas Preschool	Kansas Preschool Program
Kansas State Pre-K	Kansas State Pre-Kindergarten Program
Kentucky	Kentucky Preschool Program
Louisiana 8(g)	Louisiana 8(g) Student Enhancement Block Grant Program
Louisiana LA 4	Cecil J. Picard LA 4 Early Childhood Program
Louisiana NSECD	Louisiana Nonpublic Schools Early Childhood Development Program (NSECD)
Maine	Maine Public Preschool Program
Maryland	Maryland Prekindergarten Program
Massachusetts IPLE	Massachusetts Inclusive Preschool Learning Environments Grant (IPLE) - Fund Code 391
Massachusetts UPK	Massachusetts Universal Pre-Kindergarten (UPK)
	Michigan Great Start Readiness Program
Michigan Minnesota	Minnesota Head Start
	Mississippi Early Learning Collaborative
Mississippi Missouri	Missouri Preschool Program
	•
Nebraska	Nebraska Early Childhood Education Program
Nevada	Nevada State Pre-Kindergarten Program
New Jersey Abbott	New Jersey Former Abbott Preschool Program
New Jersey ECPA	New Jersey Former Non-Abbott Early Childhood Program Aid
New Jersey ELLI	New Jersey Former Early Launch to Learning Initiative
New Mexico	New Mexico PreK
New York	New York State Prekindergarten Program
North Carolina	North Carolina Pre-Kindergarten Program
Ohio	Ohio Early Childhood Education
Oklahoma	Oklahoma Early Childhood Four-Year-Old Program
Oregon	Oregon Head Start Prekindergarten
Pennsylvania RTL	Pennsylvania Ready to Learn Block Grant
Pennsylvania HSSAP	Pennsylvania Head Start Supplemental Assistance Program
Pennsylvania K4 & SBPK	Pennsylvania Kindergarten for Four-Year-Olds and School-Based Pre-K
Pennsylvania Pre-K Counts	Pennsylvania Pre-K Counts
Rhode Island	Rhode Island State Prekindergarten Program
South Carolina 4K/EIA	South Carolina EIA Child Development Program (4K)
South Carolina CDEP	South Carolina Child Development Education Program (CDEP)
Tennessee	Tennessee Voluntary Pre-K
Texas	Texas Public School Prekindergarten
Vermont	Vermont Universal Prekindergarten Program (Act 166)
Virginia	Virginia Preschool Initiative
Washington	Early Childhood Education and Assistance Program (ECEAP)
West Virginia	West Virginia Universal Pre-K
Wisconsin 4K	Wisconsin Four-Year-Old Kindergarten (4K)
Wisconsin HdSt	Wisconsin Head Start State Supplement
Guam	Guam Department of Education Pilot Prekindergarten Program

## OPERATING SCHEDULE

STATE	Is there a formal partnership at the state-level with other agencies to extend the program day?	Days per week of operation using state funds
Alabama	No	7 1
Alaska	No No	5 days per week  Determined locally <sup>2</sup>
	Yes, blended funding is allowed to support full time enrollment or additional children <sup>5</sup>	,
Arkansas	No <sup>8</sup>	3 days per week <sup>4</sup>
	Yes, to extend beyond school day to extended-day (wrap-around),	5 days per week
California SPP	to extend part-day to school-day or extended-day <sup>6</sup>	5 days per week⁴
California TK	Determined locally	5 days per week³
Colorado	No <sup>4</sup>	Determined locally <sup>4</sup>
Connecticut CDCC	No	5 days per week
Connecticut SRP	No	5 days per week
Connecticut Smart Start	No	5 days per week
Delaware	No	5 days per week
District of Columbia	Yes, DCPS Title I-eligible Pre-K classrooms incorporate	5 days per week
Florida	Head Start services through a blended classroom model <sup>4</sup> No <sup>5</sup>	Determined locally <sup>5</sup>
		,
Georgia	Yes, to extend beyond school-day to extended-day (wrap-around) <sup>5</sup>	5 days per week
Hawaii	No Na 2	5 days per week
Illinois	No <sup>2</sup>	5 days per week
Indiana	No <sup>9</sup>	Determined locally <sup>8</sup>
Iowa Shared Visions	No <sup>6</sup>	Determined locally <sup>5</sup>
lowa SWVPP	No <sup>8</sup>	Determined locally, must be at least 10 hours per week <sup>8</sup>
Kansas Preschool	No No	Determined locally <sup>1</sup>
Kansas State Pre-K	No	Determined locally
Kentucky	No	Determined locally <sup>7</sup>
Louisiana 8(g)	No	5 days per week
Louisiana LA 4	No	5 days per week
Louisiana NSECD	No	5 days per week
Maine	No	Determined locally <sup>6</sup>
Maryland	Yes, to extend beyond school day to extended-day (wrap-around), to extend part-day to school-day or extended-day <sup>4</sup>	5 days per week³
Massachusetts IPLE	Yes, with Head Start <sup>6</sup>	Determined locally
Massachusetts UPK	Yes, with Head Start	Determined locally <sup>3</sup>
Michigan	Yes, the GSRP/Head Start blend option <sup>7</sup>	4 days per week <sup>7</sup>
	Yes, to extend part-day to school-day or extended-day;	, ,
Minnesota	Through partnerships with Early Learning Scholarships <sup>3</sup>	Determined locally <sup>3</sup>
Mississippi	No	5 days per week
Missouri	No	Determined locally <sup>4</sup>
Nebraska	No	Determined locally <sup>2</sup>
Nevada	No	Determined locally
New Jersey Abbott	Yes, to extend beyond school-day to extended-day (wrap-around) <sup>5</sup>	5 days per week
New Jersey ECPA	Yes, to extend beyond school-day to extended-day (wrap-around)⁵	5 days per week

## INCOME REQUIREMENT

How is the income requirement applied to determine eligibility?

Alabama	NA		
Alaska	Not reported		
Arizona	100% of children must meet the income requirement		
Arkansas	90% or more of the children meet the income criteria; other children may qualify with other characteristics and/or be on a sliding fee scale?		
California SPP	Once all children meeting the income criteria are served, other children can enroll <sup>8</sup>		
California TK	NA		
Colorado	Income is one of many eligibility criteria <sup>6</sup>		
Connecticut CDCC	100% of children must meet the income requirement <sup>8</sup>		
Connecticut SRP	60% of children must meet the income requirement		
Connecticut Smart Start	NA		
Delaware	At least 90% of each program's ECAP-funded seats must meet the income requirement		
District of Columbia			
Florida	NA NA		
	NA NA		
Georgia			
Hawaii	Priority is given to families meeting the income requirement <sup>5</sup> NA <sup>4</sup>		
Illinois			
Indiana	100% of children must meet the income requirement <sup>11</sup>		
Iowa Shared Visions	At least 80% must meet the income requirement <sup>9</sup>		
Iowa SWVPP	NA Section 1997		
Kansas Preschool	50% of children must meet the income requirement <sup>2</sup>		
Kansas State Pre-K	Children must meet at least one of eight specified risk factors		
Kentucky	Once all at-risk 4-year-olds (160% of FPL) and 3- and 4-year-old children with disabilities are served, other children can enroll if space is available 10		
Louisiana 8(g)	Priority is given to students who qualify for free or reduced price lunch <sup>3</sup>		
Louisiana LA 4	100% of children must meet the income requirement		
Louisiana NSECD	100% of children must meet the income requirement		
Maine	NA <sup>®</sup>		
Maryland	All children are at 185% FPL or below; PDG must be 200% FPL or below; State PreK Expansion must be 300% FPL or below		
Massachusetts IPLE	NA NA		
Massachusetts UPK	NA CORRECT TO THE PARTY OF THE		
Michigan	90% of children must meet income eligibility of 250% of FPL, with exceptions for up to 300% if sufficient numbers of children cannot be recruited at 250% of FPL?		
Minnesota	Per Federal Head Start requirements <sup>4</sup>		
Mississippi	NA NA		
Missouri	NA		
Nebraska	70% of children must meet the income requirement <sup>4</sup>		
Nevada	NA <sup>7</sup>

STATE	State requirements for alignment between child assessments and ELDS
Alabama	State policy requires specific child assessment(s) that are aligned with the ELDS <sup>9</sup>
Alaska	State policy requires specific child assessment(s) that are aligned with the ELDS
Arizona	Child assessments are not required to align with the ELDS <sup>13</sup>
Arkansas	State policy requires specific child assessment(s) that are aligned with the ELDS
California SPP	There is a state-level approval process for locally selected child assessments
California TK	Child assessments are not required to align with the ELDS
Colorado	State policy provides an approved list of child assessments aligned with the ELDS
Connecticut CDCC	Child assessments are not required to align with the ELDS <sup>11</sup>
Connecticut SRP	State policy requires specific child assessment(s) that are aligned with the ELDS <sup>12</sup>
Connecticut Smart Start	Child assessments are not required to align with the ELDS <sup>11</sup>
Delaware	State policy provides an approved list of child assessments aligned with the ELDS
District of Columbia	State policy requires specific child assessment(s) that are aligned with the ELDS <sup>13</sup>
Florida	State policy requires child assessments are aligned with the ELDS
Georgia	State policy requires specific child assessment(s) that are aligned with the ELDS
Hawaii	Teaching Strategies GOLD is aligned with the ELDS but child assessments are not required to align with the ELDS <sup>9</sup>
Illinois	There is a state-level approval process for locally selected child assessments <sup>7</sup>
Indiana	ISTAR KR is aligned with ELDS but there is no requirement that all assessments are aligned with ELDS <sup>15</sup>
Iowa Shared Visions	State policy requires specific child assessment(s) that are aligned with the ELDS
Iowa SWVPP	State policy requires specific child assessment(s) that are aligned with the ELDS
Kansas Preschool	State policy requires specific child assessment(s) that are aligned with the ELDS
Kansas State Pre-K	State policy provides an approved list of child assessments aligned with the ELDS
Kentucky	Child assessments are aligned with the ELDS <sup>16</sup>
Louisiana 8(g)	State policy requires specific child assessment(s) that are aligned with the ELDS <sup>8</sup>
Louisiana LA 4	State policy requires specific child assessment(s) that are aligned with the ELDS <sup>10</sup>
Louisiana NSECD	State policy requires specific child assessment(s) that are aligned with the ELDS <sup>8</sup>
Maine	There is a state-level approval process for locally selected child assessments <sup>13</sup>
Maryland	State policy provides an approved list of child assessments aligned with the ELDS
Massachusetts IPLE	State policy provides an approved list of child assessments aligned with the ELDS
Massachusetts UPK	State policy provides an approved list of child assessments aligned with the ELDS <sup>13</sup>
Michigan	State policy provides an approved list of child assessments aligned with the ELDS
Minnesota	State policy provides an approved list of child assessments aligned with the ELDS
Mississippi	State policy requires specific child assessment(s) that are aligned with the ELDS
Missouri	State policy provides an approved list of child assessments aligned with the ELDS
Nebraska	State policy requires specific child assessment(s) that are aligned with the ELDS
Nevada	Child assessments are required to be aligned with the ELDS; however the state does not require specific child assessments
New Jersey Abbott	State policy requires specific child assessment(s) that are aligned with the ELDS
New Jersey ECPA	State policy requires specific child assessment(s) that are aligned with the ELDS
New Jersey ELLI	State policy requires specific child assessment(s) that are aligned with the ELDS

STATE	State supports for curriculum decision-making and implementation
Minnesota	Offers guidance on criteria for selecting evidence-based curriculum models; Provides a list of state approved curricula; Provides a list of state recommended curricula; Requires adoption of specific curricula by all programs and sites; Requires alignment of curricula with ELDS; Provides SEA/Office of Early Learning sponsored training; Develops and/or provides supporting materials; Delivers on-going technical assistance on curriculum implementation
Mississippi	Offers guidance on criteria for selecting evidence-based curriculum models; Provides a list of state approved curricula; Requires alignment of curricula with ELDS
Missouri	Provides a list of state approved curricula; Requires alignment of curricula with ELDS; Delivers on-going technical assistance on curriculum implementation; Provides funding to support curriculum implementation or training
Nebraska	Requires alignment of curricula with ELDS; Provides SEA/Office of Early Learning sponsored training
Nevada	Offers guidance on criteria for selecting evidence-based curriculum models; Requires alignment of curricula with ELDS; Provides SEA/Office of Early Learning sponsored training; Develops and/or provides supporting materials; Delivers on-going technical assistance on curriculum implementation
New Jersey Abbott	Offers guidance on criteria for selecting evidence-based curriculum models; Provides a list of state approved curricula; Requires alignment of curricula with ELDS; Delivers on-going technical assistance on curriculum implementation; Provides funding to support curriculum implementation or training
New Jersey ECPA	Offers guidance on criteria for selecting evidence-based curriculum models; Provides a list of state approved curricula; Requires adoption of specific curricula by all programs and sites; Requires alignment of curricula with ELDS; Provides SEA/Office of Early Learning sponsored training; Develops and/or provides supporting materials; Delivers on-going technical assistance on curriculum implementation; Provides funding to support curriculum implementation or training
New Jersey ELLI	Provides a list of state approved curricula; Requires adoption of specific curricula by all programs and sites; Requires alignment of curricula with ELDS; Delivers on-going technical assistance on curriculum implementation; Provides funding to support curriculum implementation or training
New Mexico	Offers guidance on criteria for selecting evidence-based curriculum models; Requires alignment of curricula with ELDS; Provides SEA/Office of Early Learning sponsored training; Develops and/or provides supporting materials; Delivers on-going technical assistance on curriculum implementation; Provides funding to support curriculum implementation or training; Other supports: consultation model <sup>10</sup>
New York	Offers guidance on criteria for selecting evidence-based curriculum models; Requires adoption of specific curricula by all programs and sites; Requires alignment of curricula with ELDS; Provides SEA/Office of Early Learning sponsored training; Develops and/or provides supporting materia
North Carolina	Offers guidance on criteria for selecting evidence-based curriculum models; Provides a list of state approved curricula; Requires alignment of curricula with ELDS; Provides SEA/Office of Early Learning sponsored training; Develops and/or provides supporting materials; Delivers on-going technical assistance on curriculum implementation; Provides funding to support curriculum implementation or training; Other supports <sup>10</sup>
Ohio	Offers guidance on criteria for selecting evidence-based curriculum models; Requires alignment of curricula with ELDS; Provides SEA/Office of Early Learning sponsored training; Delivers on-going technical assistance on curriculum implementation; Other supports: purchase of curriculum for rated programs who do not have one
Oklahoma	Offers guidance on criteria for selecting evidence-based curriculum models; Provides a list of state approved curricula; Requires alignment of curricula with ELDS; Provides SEA/Office of Early Learning sponsored training; Develops and/or provides supporting materials; Delivers on-going technical assistance on curriculum implementation; Provides funding to support curriculum implementation or training; Other supports <sup>9</sup>
Oregon	Offers guidance on criteria for selecting evidence-based curriculum models
Pennsylvania RTL	Provides a list of state recommended curricula <sup>5</sup>
Pennsylvania HSSAP	Offers guidance on criteria for selecting evidence-based curriculum models; Provides a list of state approved curricula; Provides a list of state recommended curricula; Requires alignment of curricula with ELDS
Pennsylvania K4 & SBPK	Provides a list of state recommended curricula; Requires alignment of curricula with ELDS <sup>5</sup>
Pennsylvania Pre-K Counts	Offers guidance on criteria for selecting evidence-based curriculum models; Provides a list of state approved curricula; Requires alignment of curricula with ELDS; Provides funding to support curriculum implementation or training; Other supports <sup>9</sup>
Rhode Island	Offers guidance on criteria for selecting evidence-based curriculum models; Provides a list of state approved curricula; Provides a list of state recommended curricula; Requires alignment of curricula with ELDS; Provides SEA/Office of Early Learning sponsored training; Develops and/or provides supporting materials; Delivers on-going technical assistance on curriculum implementation; Provides funding to support curriculum implementation or training
South Carolina 4K/EIA	Offers guidance on criteria for selecting evidence-based curriculum models; Provides SEA/Office of Early Learning sponsored training;  Provides funding to support curriculum implementation or training
South Carolina CDEP	Offers guidance on criteria for selecting evidence-based curriculum models; Provides a list of state approved curricula; Provides a list of state recommended curricula; Requires adoption of specific curricula by all programs and sites; Requires alignment of curricula with ELDS; Provides SEA/Office of Early Learning sponsored training; Develops and/or provides supporting materials; Delivers on-going technical assistance on curriculum implementation; Provides funding to support curriculum implementation or training
Tennessee	Offers guidance on criteria for selecting evidence-based curriculum models; Provides a list of state approved curricula;  Requires alignment of curricula with ELDS <sup>4</sup>
Texas	Provides a list of state approved curricula; Provides a list of state recommended curricula

Mississippi	Requires alignment of curricula with ELDS
Missouri	Provides a list of state approved curricula; Requires alignment of curricula with ELDS;  Delivers on-going technical assistance on curriculum implementation; Provides funding to support curriculum implementation or training
Nebraska	Requires alignment of curricula with ELDS; Provides SEA/Office of Early Learning sponsored training
Nevada	Offers guidance on criteria for selecting evidence-based curriculum models; Requires alignment of curricula with ELDS; Provides SEA/Office of Early Learning sponsored training; Develops and/or provides supporting materials;
New Jersey Abbott	Delivers on-going technical assistance on curriculum implementation  Offers guidance on criteria for selecting evidence-based curriculum models; Provides a list of state approved curricula; Requires alignment of curricula with ELDS; Delivers on-going technical assistance on curriculum implementation;  Provided funding to support surjection proteins of the provided funding to support surjections.
New Jersey ECPA	Provides funding to support curriculum implementation or training  Offers guidance on criteria for selecting evidence-based curriculum models; Provides a list of state approved curricula;  Requires adoption of specific curricula by all programs and sites; Requires alignment of curricula with ELDS;  Provides SEA/Office of Early Learning sponsored training; Develops and/or provides supporting materials;  Delivers on-going technical assistance on curriculum implementation; Provides funding to support curriculum implementation or training
New Jersey ELLI	Provides a list of state approved curricula; Requires adoption of specific curricula by all programs and sites; Requires alignment of curricula with ELDS; Delivers on-going technical assistance on curriculum implementation; Provides funding to support curriculum implementation or training
New Mexico	Offers guidance on criteria for selecting evidence-based curriculum models; Requires alignment of curricula with ELDS; Provides SEA/Office of Early Learning sponsored training; Develops and/or provides supporting materials; Delivers on-going technical assistance on curriculum implementation; Provides funding to support curriculum implementation or training; Other supports: consultation model <sup>10</sup>
New York	Offers guidance on criteria for selecting evidence-based curriculum models; Requires adoption of specific curricula by all programs and sites; Requires alignment of curricula with ELDS; Provides SEA/Office of Early Learning sponsored training; Develops and/or provides supporting materia
North Carolina	Offers guidance on criteria for selecting evidence-based curriculum models; Provides a list of state approved curricula; Requires alignment of curricula with ELDS; Provides SEA/Office of Early Learning sponsored training; Develops and/or provides supporting materials; Delivers on-going technical assistance on curriculum implementation; Provides funding to support curriculum implementation or training; Other supports <sup>10</sup>
Ohio	Offers guidance on criteria for selecting evidence-based curriculum models; Requires alignment of curricula with ELDS; Provides SEA/Office of Early Learning sponsored training; Delivers on-going technical assistance on curriculum implementation; Other supports: purchase of curriculum for rated programs who do not have one
Oklahoma	Offers guidance on criteria for selecting evidence-based curriculum models; Provides a list of state approved curricula; Requires alignment of curricula with ELDS; Provides SEA/Office of Early Learning sponsored training; Develops and/or provides supporting materials; Delivers on-going technical assistance on curriculum implementation; Provides funding to support curriculum implementation or training; Other supports
Oregon	Offers guidance on criteria for selecting evidence-based curriculum models
Pennsylvania RTL	Provides a list of state recommended curricula <sup>5</sup>
Pennsylvania HSSAP	Offers guidance on criteria for selecting evidence-based curriculum models; Provides a list of state approved curricula; Provides a list of state recommended curricula; Requires alignment of curricula with ELDS
Pennsylvania K4 & SBPK	Provides a list of state recommended curricula; Requires alignment of curricula with ELDS <sup>5</sup>
Pennsylvania Pre-K Counts	Offers guidance on criteria for selecting evidence-based curriculum models; Provides a list of state approved curricula; Requires alignment of curricula with ELDS; Provides funding to support curriculum implementation or training; Other supports°
Rhode Island	Offers guidance on criteria for selecting evidence-based curriculum models; Provides a list of state approved curricula; Provides a list of state recommended curricula; Requires alignment of curricula with ELDS; Provides SEA/Office of Early Learning sponsored training; Develops and/or provides supporting materials; Delivers on-going technical assistance on curriculum implementation; Provides funding to support curriculum implementation or training
South Carolina 4K/EIA	Offers guidance on criteria for selecting evidence-based curriculum models; Provides SEA/Office of Early Learning sponsored training;  Provides funding to support curriculum models; Provides SEA/Office of Early Learning sponsored training;
South Carolina CDEP	Offers guidance on criteria for selecting evidence-based curriculum models; Provides a list of state approved curricula; Provides a list of state recommended curricula; Requires adoption of specific curricula by all programs and sites; Requires alignment of curricula with ELDS; Provides SEA/Office of Early Learning sponsored training; Develops and/or provides supporting materials; Delivers on-going technical assistance on curriculum implementation; Provides funding to support curriculum implementation or training
Tennessee	Offers guidance on criteria for selecting evidence-based curriculum models; Provides a list of state approved curricula;  Requires alignment of curricula with ELDS <sup>4</sup>
Texas	Provides a list of state approved curricula; Provides a list of state recommended curricula
Vermont	Determined locally
Virginia	Offers guidance on criteria for selecting evidence-based curriculum models; Requires alignment of curricula with ELDS
Washington	Offers guidance on criteria for selecting evidence-based curriculum models; Provides a list of state approved curricula; Requires alignment of curricula with ELDS; Provides SEA/Office of Early Learning sponsored training; Develops and/or provides supporting materials; Delivers on-going technical assistance on curriculum implementation; Provides funding to support curriculum implementation or training; Other supports <sup>8</sup>
West Virginia	Offers guidance on criteria for selecting evidence-based curriculum models; Provides a list of state approved curricula; Requires adoption of specific curricula by all programs and sites; Requires alignment of curricula with ELDS; Develops and/or provides supporting materials; Delivers on-going technical assistance on curriculum implementation; Provides funding to support curriculum implementation or training
Wisconsin 4K	Offers guidance on criteria for selecting evidence-based curriculum models; Provides SEA/Office of Early Learning sponsored training; Develops and/or provides supporting materials; Delivers on-going technical assistance on curriculum implementation; Other supports <sup>16</sup>
Wisconsin HdSt	Offers guidance on criteria for selecting evidence-based curriculum models; Develops and/or provides supporting materials; Other supports <sup>13</sup>
Guam	Provides a list of state approved curricula; Provides a list of state recommended curricula; Requires adoption of specific curricula by all programs and sites; Requires alignment of curricula with ELDS; Provides SEA/Office of Early Learning sponsored training; Develops and/or provides supporting materials; Delivers on-going technical assistance on curriculum implementation; Provides funding to support curriculum implementation or training

STATE	Does state dedicate additional resources to support teaching quality, implementing curriculum, and/or assessment?
Alabama	Yes: Direct training or technical assistance by state or regional staff; Direct training or technical assistance provided by vendors paid by the state;  A system of regular coaching for teachers; State grants to local agencies or providers for training and other professional development;  State dedicates additional funds to support these activities: Annual Pre-K Conference
Alaska	Unknown
Arizona	Yes: Direct training or technical assistance provided by vendors paid by the state; A system of regular coaching for teachers; State grants to local agencies or providers for training and other professional development
Arkansas	Yes: Detailed guidance and materials developed by the state and made available to local providers; Direct training or technical assistance by state or regional staff; Direct training or technical assistance provided by vendors paid by the state; State dedicates additional funds to support these activities: \$7.3 million
California SPP	Yes: Detailed guidance and materials developed by the state and made available to local providers;  Direct training or technical assistance by state or regional staff; Direct training or technical assistance provided by vendors paid by the state;  A system of regular coaching for teachers; State grants to local agencies or providers for training and other professional development;  State dedicates additional funds to support these activities: \$50 million (QRIS Block Grant)
California TK	Yes: Detailed guidance and materials developed by the state and made available to local providers; Direct training or technical assistance by state or regional staff; Direct training or technical assistance provided by vendors paid by the state; A system of regular coaching for teachers; State grants to local agencies or providers for training and other professional development; State dedicates additional funds to support these activities: \$15 million
Colorado	Yes: Detailed guidance and materials developed by the state and made available to local providers; Direct training or technical assistance by state or regional staff; Direct training or technical assistance provided by vendors paid by the state
Connecticut CDCC	Yes: Detailed guidance and materials developed by the state and made available to local providers;  Direct training or technical assistance by state or regional staff; Direct training or technical assistance provided by vendors paid by the state;  State grants to local agencies or providers for training and other professional development;  State dedicates additional funds to support these activities: Approximately \$1 Million <sup>12</sup>
Connecticut SRP	Yes: Detailed guidance and materials developed by the state and made available to local providers;  Direct training or technical assistance by state or regional staff; Direct training or technical assistance provided by vendors paid by the state;  State grants to local agencies or providers for training and other professional development;  State dedicates additional funds to support these activities: Approximately \$1 Million <sup>13</sup>
Connecticut Smart Start	Yes: Detailed guidance and materials developed by the state and made available to local providers; Direct training or technical assistance by state or regional staff; Direct training or technical assistance provided by vendors paid by the state; State grants to local agencies or providers for training and other professional development; State dedicates additional funds to support these activities: Approximately \$1 Million <sup>12</sup>
Delaware	Yes: Detailed guidance and materials developed by the state and made available to local providers; Direct training or technical assistance by state or regional staff; Direct training or technical assistance provided by vendors paid by the state; State grants to local agencies or providers for training and other professional development
District of Columbia	Yes: Direct training or technical assistance by state or regional staff; Direct training or technical assistance provided by vendors paid by the state;
Florida	State grants to local agencies or providers for training and other professional development  Not reported
Georgia	Yes: Detailed guidance and materials developed by the state and made available to local providers;  Direct training or technical assistance by state or regional staff; State grants to local agencies or providers for training and other professional development; State dedicates additional funds to support these activities
Hawaii	Yes: Direct training or technical assistance by state or regional staff; A system of regular coaching for teachers
Illinois	Yes: Detailed guidance and materials developed by the state and made available to local providers;  Direct training or technical assistance by state or regional staff; Direct training or technical assistance provided by vendors paid by the state;  A system of regular coaching for teachers; State dedicates additional funds to support these activities: \$1.8 million
Indiana	Yes: Direct training or technical assistance provided by vendors paid by the state; A system of regular coaching for teachers
Iowa Shared Visions	Yes: Detailed guidance and materials developed by the state and made available to local providers; Direct training or technical assistance by state or regional staff; Direct training or technical assistance provided by vendors paid by the state
Iowa SWVPP	Yes: Detailed guidance and materials developed by the state and made available to local providers;  Direct training or technical assistance by state or regional staff
Kansas Preschool	No
Kansas State Pre-K	Yes: Detailed guidance and materials developed by the state and made available to local providers; Direct training or technical assistance by state or regional staff; A system of regular coaching for teachers; State grants to local agencies or providers for training and other professional development
Kentucky	Yes: Detailed guidance and materials developed by the state and made available to local providers;  Direct training or technical assistance by state or regional staff; Direct training or technical assistance provided by vendors paid by the state;  State grants to local agencies or providers for training and other professional development;  State dedicates additional funds to support these activities; Other resources <sup>18</sup>
Louisiana 8(g)	Yes: Detailed guidance and materials developed by the state and made available to local providers; Direct training or technical assistance by state or regional staff; A system of regular coaching for teachers; State grants to local agencies or providers for training and other professional development
Louisiana LA 4	Yes: Detailed guidance and materials developed by the state and made available to local providers; Direct training or technical assistance by state or regional staff; A system of regular coaching for teachers; State grants to local agencies or providers for training and other professional development
Louisiana NSECD	Yes: Detailed guidance and materials developed by the state and made available to local providers;  Direct training or technical assistance by state or regional staff; A system of regular coaching for teachers;  State grants to local agencies or providers for training and other professional development
Maine	Yes: TA provided to districts as funds allow
Maryland	Yes: Detailed guidance and materials developed by the state and made available to local providers; Direct training or technical assistance by state or regional staff; Direct training or technical assistance provided by vendors paid by the state; State grants to local agencies or providers for training and other professional development
Massachusetts IPLE	Yes: Detailed guidance and materials developed by the state and made available to local providers; Direct training or technical assistance provided by vendors paid by the state; A system of regular coaching for teachers; State grants to local agencies or providers for training and other professional development; State dedicates additional funds to support these activities: \$3,950,000; Other resources: The Educator Provider Support (EPS) Grantees, the Assessment Grantee and the QRIS Measurement Tools Grantee
Massachusetts UPK	Yes: Detailed guidance and materials developed by the state and made available to local providers; Direct training or technical assistance by state or regional staff; Direct training or technical assistance provided by vendors paid by the state; A system of regular coaching for teachers; State grants to local agencies or providers for training and other professional development; State dedicates additional funds to support these activities: \$3,950,000; Other resources: The Educator Provider Support (EPS) Grantees, the Assessment Grantee and the QRIS Measurement Tools Grantee

How is monitoring information used at the state level for program improvement?

Alabama	To identify needs that will guide teacher training or professional development; To create a program improvement plan at the site level; To create a program improvement plan at the state level; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To target funding for quality improvement efforts; To provide feedback to parents
Alaska	Not reported
Arizona	To identify needs that will guide teacher training or professional development; To create a program improvement plan at the site level; To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To target funding for quality improvement efforts; To measure program on a Quality Rating and Improvement System;  To provide feedback to parents <sup>24</sup>
Arkansas	To identify needs that will guide teacher training or professional development; To create a program improvement plan at the site level; To create a program improvement plan at the state level; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To target funding for quality improvement efforts; To measure program on a Quality Rating and Improvement System; To provide feedback to parents
California SPP	To identify needs that will guide teacher training or professional development; To create a program improvement plan at the site level;  To create a program improvement plan at the state level; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring;  To make changes to state policies regarding the preschool program; To target funding for quality improvement efforts;  To measure program on a Quality Rating and Improvement System; To provide feedback to parents
California TK	To identify needs that will guide teacher training or professional development; To create a program improvement plan at the site level; To create a program improvement plan at the state level; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring;  To target funding for quality improvement efforts
Colorado	To identify needs that will guide teacher training or professional development; To create a program improvement plan at the site level; To create a program improvement plan at the state level; To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To measure program on a Quality Rating and Improvement System; To report child progress for state legislature
Connecticut CDCC	To create a program improvement plan at the site level; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To provide program staff with technical assistance and/or mentoring
Connecticut SRP	To create a program improvement plan at the site level; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program
Connecticut Smart Start	To create a program improvement plan at the site level; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program
Delaware	To identify needs that will guide teacher training or professional development; To create a program improvement plan at the site level;  To create a program improvement plan at the state level; To identify programs for corrective action or sanctions; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program;  To target funding for quality improvement efforts; To measure program on a Quality Rating and Improvement System
District of Columbia	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions;  To provide program staff with technical assistance and/or mentoring
Florida	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To provide feedback to parents; To assist teachers with understanding individual children's strengths and areas where additional support may be needed; To create a program improvement plan <sup>17</sup>
Georgia	To identify needs that will guide teacher training or professional development; To create a program improvement plan at the site level;  To create a program improvement plan at the state level; To identify programs for corrective action or sanctions;  To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To target funding for quality improvement efforts;  To measure program on a Quality Rating and Improvement System; To provide feedback to parents
Hawaii	To identify needs that will guide teacher training or professional development; To create a program improvement plan at the state level; To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To target funding for quality improvement efforts
Illinois	To identify needs that will guide teacher training or professional development; To create a program improvement plan at the site level; To create a program improvement plan at the state level; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To target funding for quality improvement efforts; To measure program on a Quality Rating and Improvement System
Indiana	To identify needs that will guide teacher training or professional development; To create a program improvement plan at the site level; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To target funding for quality improvement efforts; To measure program on a Quality Rating and Improvement System
Iowa Shared Visions	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program
Iowa SWVPP	To identify needs that will guide teacher training or professional development; To create a program improvement plan at the site level; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To measure program on a Quality Rating and Improvement System; To provide feedback to parents
Kansas Preschool	To identify needs that will guide teacher training or professional development; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To provide data to the grantor
Kansas State Pre-K	To identify needs that will guide teacher training or professional development; To create a program improvement plan at the site level;  To create a program improvement plan at the state level
Kentucky	To identify needs that will guide teacher training or professional development; To create a program improvement plan at the site level; To identify programs for corrective action or sanctions; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To provide feedback to parents; To support design and implementation of Kentucky's QRIS <sup>29</sup>
Louisiana 8(g)	To identify needs that will guide teacher training or professional development; To create a program improvement plan at the site level; To create a program improvement plan at the state level; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To provide program staff with technical assistance and/or mentoring

How is monitoring information used at the state level for program improvement?

SIAIE	now is monitoring information used at the state level for program improvement:
Louisiana LA 4	To identify needs that will guide teacher training or professional development; To create a program improvement plan at the site level; To create a program improvement plan at the state level; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To target funding for quality improvement efforts; To measure program on a Quality Rating and Improvement System; To provide feedback to parents
Louisiana NSECD	To identify needs that will guide teacher training or professional development; To create a program improvement plan at the site level; To create a program improvement plan at the state level; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To target funding for quality improvement efforts; To measure program on a Quality Rating and Improvement System; To provide feedback to parents
Maine	To identify needs that will guide teacher training or professional development; To create a program improvement plan at the site level;  To create a program improvement plan at the state level; To identify programs for corrective action or sanctions;  To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To target funding for quality improvement efforts
Maryland	To identify needs that will guide teacher training or professional development; To create a program improvement plan at the site level; To create a program improvement plan at the state level; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To target funding for quality improvement efforts; To measure program on a Quality Rating and Improvement System; To provide feedback to parents
Massachusetts IPLE	To identify needs that will guide teacher training or professional development; To create a program improvement plan at the site level; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To target funding for quality improvement efforts; To measure program on a Quality Rating and Improvement System
Massachusetts UPK	To identify needs that will guide teacher training or professional development; To create a program improvement plan at the site level; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To target funding for quality improvement efforts; To measure program on a Quality Rating and Improvement System; To provide feedback to parents; Information is used in other ways <sup>20</sup>
Michigan	To identify needs that will guide teacher training or professional development; To create a program improvement plan at the site level; To create a program improvement plan at the state level; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To measure program on a Quality Rating and Improvement System; To provide feedback to parents
Minnesota	To identify needs that will guide teacher training or professional development; To create a program improvement plan at the site level; To create a program improvement plan at the state level; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To target funding for quality improvement efforts; To measure program on a Quality Rating and Improvement System
Mississippi	To identify needs that will guide teacher training or professional development; To create a program improvement plan at the site level; To create a program improvement plan at the state level; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To target funding for quality improvement efforts
Missouri	To identify needs that will guide teacher training or professional development; To create a program improvement plan at the site level; To create a program improvement plan at the state level; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To target funding for quality improvement efforts
Nebraska	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To provide feedback to parents
Nevada	To identify needs that will guide teacher training or professional development; To create a program improvement plan at the site level; To identify programs for corrective action or sanctions; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program
New Jersey Abbott	To identify needs that will guide teacher training or professional development; To create a program improvement plan at the site level; To create a program improvement plan at the state level; To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To target funding for quality improvement efforts; To measure program on a Quality Rating and Improvement System; To provide feedback to parents
New Jersey ECPA	To identify needs that will guide teacher training or professional development; To create a program improvement plan at the site level; To create a program improvement plan at the state level; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To target funding for quality improvement efforts; To measure program on a Quality Rating and Improvement System
New Jersey ELLI	To identify needs that will guide teacher training or professional development; To create a program improvement plan at the site level; To create a program improvement plan at the state level; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To measure program on a Quality Rating and Improvement System; To provide feedback to parents
New Mexico	To identify needs that will guide teacher training or professional development; To create a program improvement plan at the site level; To create a program improvement plan at the state level; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To target funding for quality improvement efforts; To measure program on a Quality Rating and Improvement System; To provide feedback to parents
New York	To create a program improvement plan at the site level; To create a program improvement plan at the state level; To identify programs for corrective action or sanctions; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To measure program on a Quality Rating and Improvement System
North Carolina	To identify needs that will guide teacher training or professional development; To create a program improvement plan at the site level; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To target funding for quality improvement efforts; To measure program on a Quality Rating and Improvement System; Provide feedback to the public about the quality of services and teacher effectiveness <sup>21</sup>
Ohio	To identify needs that will guide teacher training or professional development; To create a program improvement plan at the site level; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To measure program on a Quality Rating and Improvement System; To provide feedback to parents

## How are preschool child assessments used by the state agency?

New Jersey ECPA	To guide teacher training, professional development, or technical assistance; To make adjustments to curricula; To track child and program level outcomes over time; To make changes to state policies regarding the preschool program; To evaluate teacher performance; To provide a measure of kindergarten readiness
New Jersey ELLI	To guide teacher training, professional development, or technical assistance; To make adjustments to curricula; To track child and program level outcomes over time; To make changes to state policies regarding the preschool program; To provide a measure of kindergarten readiness
New Mexico	To guide teacher training, professional development, or technical assistance; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To make adjustments to curricula; To track child and program level outcomes over time; To make changes to state policies regarding the preschool program
New York	Data from preschool child assessments are not used by the state agency
North Carolina	To guide teacher training, professional development, or technical assistance; To make adjustments to curricula; To evaluate teacher performance <sup>22</sup>
Ohio	To guide teacher training, professional development, or technical assistance; To make adjustments to curricula; To track child and program level outcomes over time; To make changes to state policies regarding the preschool program
Oklahoma	NA
Oregon	To guide teacher training, professional development, or technical assistance; To make adjustments to curricula; To track child and program level outcomes over time; To make changes to state policies regarding the preschool program; To provide a measure of kindergarten readiness
Pennsylvania RTL	NA
Pennsylvania HSSAP	To guide teacher training, professional development, or technical assistance; To track child and program level outcomes over time;  To make changes to state policies regarding the preschool program
Pennsylvania K4 & SBPK	NA
Pennsylvania Pre-K Counts	To guide teacher training, professional development, or technical assistance; To track child and program level outcomes over time; To make changes to state policies regarding the preschool program
Rhode Island	To guide teacher training, professional development, or technical assistance; To identify programs for corrective action or sanctions; To make adjustments to curricula; To make changes to state policies regarding the preschool program; To provide a measure of kindergarten readiness
South Carolina 4K/EIA	To guide teacher training, professional development, or technical assistance; To make adjustments to curricula; To track child and program level outcomes over time; To evaluate teacher performance; To provide a measure of kindergarten readiness
South Carolina CDEP	To guide teacher training, professional development, or technical assistance; To make adjustments to curricula; To track child and program level outcomes over time; To provide a measure of kindergarten readiness <sup>15</sup>
Tennessee	To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To make changes to state policies regarding the preschool program; To evaluate teacher performance <sup>9</sup>
Texas	NA
Vermont	Not reported
Virginia	To guide teacher training, professional development, or technical assistance; To make adjustments to curricula; To track child and program level outcomes over time; To provide a measure of kindergarten readiness
Washington	To guide teacher training, professional development, or technical assistance; To make adjustments to curricula; To track child and program level outcomes over time; To provide a measure of kindergarten readiness; To individualize instruction and supports for each child (done at the local level)
West Virginia	To guide teacher training, professional development, or technical assistance; To make decisions regarding a child's enrollment in kindergarten; To track child and program level outcomes over time; To make changes to state policies regarding the preschool program; To provide a measure of kindergarten readiness
Wisconsin 4K	Data are used at the local level
Wisconsin HdSt	As determined by federal Head Start performance standards
Guam	To make decisions regarding a child's enrollment in kindergarten; To provide a measure of kindergarten readiness

STATE	Are statewide classroom observation data available for the 2014-2015 or 2015-2016 school years?
Alabama	Yes, on a random sample of classrooms: CLASS in 169 randomly selected classrooms
Alaska	No
Arizona	Yes, on a random sample of classrooms: ERS, CLASS, and Quality First Points Scale
Arkansas	Yes, on a random sample of classrooms: ECERS-R in 383 classrooms (Average score: 5.32)
California SPP	No
California TK	No
Colorado	No
Connecticut CDCC	No
Connecticut SRP	No
Connecticut Smart Start	No
Delaware	No State of the st
District of Columbia	Yes, on all classrooms: CLASS in 802 classrooms (Average scores: 5.83 on Emotional Support, 5.62 on Classroom Organization, 2.62 on Instructional Support)
Florida	Not reported  Yes, on a random sample of classrooms: 2015-2016: CLASS in 99 randomly selected classrooms
Georgia	(Average scores: 5.79 on Emotional Support, 5.62 on Classroom Organization, 2.26 on Instructional Support)
Hawaii	No  Yes, on a random sample of classrooms: 2015-2016: ECERS-R in 546 classrooms (Average scores: 4.05 on Space and Furnishing,
llinois	4.94 on Language and Reasoning, 4.90 on Activities, 5.11 on Interaction, 4.96 on Program Structure)
ndiana	No No
owa Shared Visions	No
owa SWVPP	Yes, on a non-random sample of classrooms: Iowa Quality Preschool Program Standards and Criteria <sup>27</sup>
Kansas Preschool	Yes, on all classrooms: Classroom Practices Survey
Kansas State Pre-K	Yes, on a random sample of classrooms: Classroom Practices Survey
Kentucky	Yes, on a random sample of classrooms: ECERS-R; on all classrooms: Danielson Framework  Yes, on all classrooms: CLASS in 5,744 publicly-funded classrooms (2% of sites were rated Excellent, 61% Proficient,
ouisiana 8(g)	37% Approaching Proficient, and 1% Unsatisfactory) <sup>17</sup>
ouisiana LA 4	Yes, on all classrooms: CLASS in 5,744 publicly-funded classrooms (2% of sites were rated Excellent, 61% Proficient, 37% Approaching Proficient, and 1% Unsatisfactory) <sup>20</sup>
ouisiana NSECD	Yes, on all classrooms: CLASS in 5,744 publicly-funded classrooms (2% of sites were rated Excellent, 61% Proficient, 37% Approaching Proficient, and 1% Unsatisfactory) <sup>20</sup>
Maine	Yes, on a non-random sample of classrooms: 2015-2016 data on new and expanded classrooms
Maryland	No
Massachusetts IPLE	No
Massachusetts UPK	Yes, on a non-random sample of classrooms: ERS on programs at a QRIS Level 3
Michigan	Yes, on all classrooms: PQA aggregate score of 4.3 out of 5.0 based on 1,675 classrooms
Minnesota	Yes, on a random sample of classrooms
Mississippi	Yes, on all classrooms: 2015-2016: CLASS in 102 classrooms (Average overall score was 4.76)
Missouri	No
Nebraska	Yes, on a non-random sample of classrooms: ECERS-R
Nevada	Yes, on all classrooms: ECERS (2014-2015 average: 4.22); ELLCO (2014-2015 average score: 3.41)
New Jersey Abbott	Yes, on a random sample of classrooms: 2015-2016: ECERS-3 in 293 classrooms (Average score: 4.61)
New Jersey ECPA	No
New Jersey ELLI	No
New Mexico	No
New York	No
North Carolina	Yes, on a random sample of classrooms: NC Pre-K State Evaluation 2014-2015: ECERS-3, CLASS, ELLCO, CIS
Ohio	No
Oklahoma	No
Dregon	Yes, on all classrooms
Pennsylvania RTL	No
Pennsylvania HSSAP	Yes, on a random sample of classrooms: ECERS-R
Pennsylvania K4 & SBPK	No
Pennsylvania Pre-K Counts	Yes, on a random sample of classrooms: ECERS-R
Rhode Island	Yes, on all classrooms: ERS and CLASS in 12 classrooms
South Carolina 4K/EIA	No
South Carolina CDEP	Yes, on a non-random sample of classrooms: ELLCO
ennessee	No
exas	No
/ermont	Not reported
/irginia	No
Vashington	No
West Virginia	No
Visconsin 4K	No
Wisconsin HdS+	

Footnotes are grouped by state at the end of Appendix A. Unless noted, all data are for the '15-'16 school year, except Florida where most data are for the '13-'14 school year.

Wisconsin HdSt

Guam

No

Yes, on all classrooms: Prekindergarten Program Observation Form

STATE	Are statewide child outcome data available for the 2014-2015 or 2015-2015 school years?
Alabama	Yes, on all children in the state-funded preschool program: Teaching Strategies GOLD <sup>16</sup>
Alaska	Yes, on a random sample of children: Teaching Strategies GOLD
Arizona	No
Arkansas	Yes, on all children in the state-funded preschool program: Work Sampling (Average Scores: Personal/Social - 81.9%; Language/Literacy - 77.3%; Mathematical/Thinking - 73.5%; Scientific Thinking - 77.3%; Social Studies - 77.6%; The Arts - 85.1%; Physical Development - 88%)
California SPP	Yes, 18,000 children on the Desired Results Developmental Profile (DRDP)
California TK	No
Colorado	Yes, on all children in the state-funded preschool program <sup>17</sup>
Connecticut CDCC	No
Connecticut SRP	No
Connecticut Smart Start	No
Delaware	No No
District of Columbia	Yes, on a non-random sample of children in the state-funded preschool program: Early Development Instrument (EDI) on 4,423 children (73% of PK-4 children were "ready" for school) <sup>21</sup>
Florida	Not reported
Georgia	Yes, on all children in the state-funded preschool program: Work Sampling System
Hawaii	No
Illinois	
Indiana	No
Iowa Shared Visions	Yes, on a random sample of children in the state-funded preschool program: Teaching Strategies GOLD on 350 children
Iowa SWVPP	Yes, on all children in the state-funded preschool program: Teaching Strategies GOLD online on 19,969 children
Kansas Preschool	Yes, on all children in the state-funded preschool program: Assessments used are determined locally (Pearson Work Sampling, mylGDls (literacy and numeracy), Teaching Strategies Gold, ASQ-3, ASQSE-2, KELI 4, Brigance)
Kansas State Pre-K	Yes, on a random sample of children in the state-funded preschool program: KELI-4
Kentucky	Yes, on all children in the state-funded preschool program: AEPS, Carolina Curriculum, Teaching Strategies GOLD, COR Advantage (High/Scope Work Sampling System
Louisiana 8(g)	Yes, on all children in the state-funded preschool program: Teaching Strategies Gold
Louisiana LA 4	Yes, on all children in the state-funded preschool program: Teaching Strategies GOLD on over 20,000 4-years-olds
Louisiana NSECD	Yes, on all children in the state-funded preschool program: Teaching Strategies GOLD on over 20,000 4-years-olds
Maine	Yes, on a non-random sample of children in the state-funded preschool program: 2015-2016 in new and expanded classrooms
Maryland	No
Massachusetts IPLE	No <sup>31</sup>
Massachusetts UPK	Yes, on a non-random sample of children in the state-funded preschool program <sup>23</sup>
Michigan	No
Minnesota	Yes, on a non-random sample of children in the state-funded preschool program <sup>15</sup>
Mississippi	Yes, on all children in the state-funded preschool program: 2015-2016: Mississippi Kindergarten Readiness Assessment on 1,407 children in Early Learning Collaboratives (71.78% scored at or above 498, indicating mastery of 70% of assessment items)
Missouri	No
Nebraska	Yes, on all children in the state-funded preschool program: Teaching Strategies GOLD

### **APPENDIX A: STATE SURVEY DATA 2015-2016**

### ALABAMA - First Class Pre-K: Alabama's Voluntary Pre-Kindergarten Program

- <sup>1</sup> The 562 children listed as "Other Races" are Latino/Hispanic.
- Extended day programs are locally determined and are not part of the 6.5-hour state-funded Pre-K day.
- <sup>3</sup> For First Class Pre-K, a child has to be 4 years old and a resident of the state of Alabama; other locally determined school system boundaries may be applicable.
- 4 All classrooms have a 1:9 staff to child ratio and a maximum enrollment of 18 students with the exception of Head Start, which is allowed to have a 1:10 staff to child ratio and maximum of 20 students.
- <sup>5</sup> Classrooms must provide at least one mealtime per day. Additional snacks and/or meals are optional but suggested.
- 6 Screenings are to be provided on site at no cost by a medical professional. The Office of School Readiness has partnered with Alabama Partnership for Children to offer 2-1-1 Help Me Grow referrals to parents as needed.
- <sup>7</sup> All nonpublic school programs are encouraged to participate in the food subsidy program.
- <sup>8</sup> Alabama has partnered with the University of Alabama Birmingham to participate in a Dual Language Learner (DLL) Professional Development grant that will offer DLL language and literacy supports to teachers who choose to participate.
- 9 The state uses Teaching Strategies GOLD and it has been aligned with the Alabama Developmental Standards for Preschool Children.
- <sup>10</sup> Each classroom is assigned a coach who works directly with teachers on best practices and self-reflection, including incorporation of the developmental standards into daily planning and reviewing assessment practices.
- 11 The state does not endorse any one particular curriculum, but a curriculum must promote appropriate instructional practice and enhance learning and development while being consistent with the intent of the Office of School Readiness First Class Framework. It should also align with the state required assessment tool, Teaching Strategies GOLD
- <sup>12</sup> A salary parity plan was put in place in 2015-2016 to ensure lead teachers were paid at least the minimum starting salary for a public school teacher. Incremental yearly step raises have been put in place to help elevate teacher pay.
- 13 Alabama's Pre-K program uses a tiered model of coaching so the teacher is continuously setting goals and self-reflecting throughout the year.
- There are three types of grants: Excellence (\$45,000), Tiered (range from \$80,100-\$92,800), and Plus (new grants for start-up funds, \$120,000-\$150,000). The Tiered grants and the Plus grants require the use of the sliding scale based on family income and percentage of poverty and cannot charge fees that exceed the amount allowed in the sliding scale. Classrooms that receive Excellence grants may charge parents the normal cost of child care that is common in the local community, unless they receive federal funds.
- <sup>15</sup> First year teachers are not CLASS trained until their second year and at that time would receive structured observations. All teachers receive CLASS observations after their first year and all classrooms are coached and monitored a minimum of once per month.
- 16 Teaching Strategies GOLD performance data are available at http://children.alabama.gov/uploadedFiles/File/First\_Class\_PreK\_Gold\_Performance.pdf

#### ALASKA - Alaska Pre-Elementary

- <sup>1</sup> The exact number of special education students is unknown, but it is estimated at 10% of enrollment.
- Hours per day and operating schedule are locally designed to fit district needs. Programs may partner with child care or other services to provide wraparound care, but, by state definition, state-funded pre-K cannot operate more than five hours a day.
- Exceptions to age requirements may be made for children with IEPs. If parents and members of the IEP team determine that pre-K is the least restrictive environment for the child, the child could receive services through pre-K even if he or she did not meet the age requirements.
- <sup>4</sup> This is a local decision and may vary.
- 5 All programs follow state pre-elementary statute and regulations. School districts partnering with Head Start programs must follow federal Head Start requirements. Support services include parenting support or training, health services for children, and nutrition information.
- 6 Teachers must be state certified with a BA in ECE or a related field or specialized training in a related field, and assistant teachers must have a current CDA, 12 ECE credits, an AA in ECE, or specialized training in Early Education or a related field.
- Ocaching and mentoring services are being piloted to some lead and assistant teachers on a voluntary basis. Alaska uses the My Teaching Partner Coaching System and currently has 27 teachers enrolled.
- <sup>8</sup> Alaska is working with REL Northwest to develop a preschool evaluation tool. The evaluation tool is expected to be complete by Fall 2017.

## **ARIZONA** - Quality First Scholarships

- <sup>1</sup> First Things First was designed to meet the diverse needs of Arizona communities. Decisions about which early childhood strategies will be funded are made by 28 regional partnership councils composed of community volunteers. More information about the Regional Partnership Councils can be found here: http://www.azftf.gov/pages/yourregionalcouncil.aspx2
- <sup>2</sup> Quality First Scholarships served a total of 7,632 children. In addition to serving 5,365 preschool children in center-based care, an additional 207 preschool children were served in regulated family child care homes. A total of 1,865 children under 3 were also served in center-based care, and an additional 195 children under 3 were served in regulated family child care homes. In previous years, enrollment totals have included children age 0 to 5.
- 3 In addition to the 80 preschool-aged children served in center-based programs, there are 15 children under age 3, and four children served in regulated family child care homes with an IFP/IFSP
- <sup>4</sup> A minimum of three days per week and a minimum of three hours per day is required. A full-time slot is defined as 28 hours per week or more, and a part-time slot is defined as 12 hours per week.
- <sup>5</sup> The state preschool program can be blended with other funding to support a full-day or extended-day, or to support additional children who are on a wait list and unable to be served with the program's current funding.
- <sup>6</sup> All children must be at or below 200% FPL.
- <sup>7</sup> Some early care and education programs charge a co-payment to the family in addition to the funding that the state provides, but this is a local decision.
- 8 Eligibility is re-determined each fiscal year based on child's age and family's income. Children who are deemed ineligible are disenrolled from the program.
- <sup>9</sup> Group size and teacher-child ratio are based on the age of the youngest child in attendance.
- <sup>10</sup> Programs are required to follow state child care licensing regulations. Children enrolled two to four hours receive one or more snacks; children enrolled four to eight hours receive one or more snacks and a meal; children enrolled nine or more hours receive two snacks and a meal.
- 11 There is a requirement that programs participating in the state-funded preschool program have a written procedure for screening. Programs may provide screening themselves or refer families to receive screening from other organizations.
- Programs are assessed on their provision of transition to kindergarten activities, parent conferences and/or home visits, and screening/referral policy every 24 to 27 months.
- No specific child assessment tools are required nor are they required to be aligned with the ELDS. However, the tools used by a program must include the domains of social development, emotional development, cognitive development, and physical development. In addition, the evidence required for the assessment must include a variety of methods such as anecdotal record, photograph, family input, and work samples.

- 14 All programs participating in the state preschool program receive on-site coaching that can support the implementation of the ELDS.
- 15 The minimum requirement is that 25% of lead teachers and administrators must have 12 college credit hours in early childhood or related fields or a Certificate of Completion in ECE or Child Development, or a CDA. However, all programs must have a minimum star rating to participate in the state-funded preschool.
- <sup>16</sup> Fifty percent of Quality First Scholarships assistant teachers must have a minimum of six months of experience working in an early care and education program. However, all programs must have a minimum star rating to participate in the state-funded preschool.
- <sup>17</sup> For Quality First Scholarships, there is no salary parity or benefit parity requirement. However, there is a requirement in some Local Education Agencies (LEAs) for salary and benefit parity for pre-K teachers and assistant teachers. Salary and benefit parity is a requirement of the Preschool Development Grant.
- 18 Quality First Scholarships requirements for ongoing professional development are aligned with the State Licensing standards.
- 19 Those who participate in professional development on the implementation of curricula and assessments have an individual professional development plan.
- <sup>20</sup> Coaching is provided to all programs participating in Quality First Scholarships. The coaching can be used to support teachers, assistant teachers, and administrators. While the coaching is required, the audience receiving the coaching is not dictated by the state.
- <sup>21</sup> In 2015-2016, Arizona spent an additional \$11,178,526 for children birth to age 3 for Quality First Scholarships, not included in the total.
- <sup>22</sup> First Things First is funded through a voter initiative tobacco tax. Part of this funding is used for Quality First Scholarships.
- <sup>23</sup> Each assessor must achieve initial reliability on any tool that they are using for structured classroom observations. Additionally, every 10th assessment, a reliability check with another reliable observer occurs to check for drift. In addition, CLASS assessors are reassessed through Teachstone annually and ERS lead assessors participate in annual drift testing through ERSI.
- <sup>24</sup> All programs participating in Quality First Scholarships must also participate in Quality First, Arizona's Quality Improvement and Rating System. Each program receives a program assessment every 24 to 27 months that includes assessments in one-third of the total number of classrooms at the site using the ERS (ITERS, ECERS, FCCERS), the CLASS (Toddler, Pre-K), and the Quality First Points Scale that includes reviewing curriculum, child assessment, ratios and group sizes, staff qualifications, staff turnover, and policies for kindergarten transition and screening/referral. The assessments are used to determine if the program is eligible to participate in the state-funded preschool program, Quality First Scholarships, and to support the program in improving or maintaining quality.
- <sup>25</sup> The Quality First Validation study is currently underway. Results from Phase I of the study will be available in June 2017. Phase I is reviewing the theoretical framework, the data system, and the validity of the rating scale. The next phase will include review of the components (coaching, assessment, quality improvement plan, financial incentives, etc.), followed by child outcomes.

### ARKANSAS - Arkansas Better Chance/Arkansas Better Chance for School Success

- State funding is provided through the Arkansas Department of Education (ADE). The ADE has an agreement with the Division of Child Care and Early Childhood Education (DCCECE) to have the administrative oversight of the ABC Programs to ensure compliance with the state law and regulations. The ADE Board of Education must be informed of and/or approve grant awards, program standards/regulations and the impact of these services as it relates to school readiness.
- <sup>2</sup> School districts classified as being in academic distress, appearing on the school improvement list, or where more than 75% of fourth graders score below proficient on benchmark exams, are required to establish an ABC/ABCSS pre-K program. Funding goes to either the school district or a community provider in the identified locations.
- The 54 children enrolled in pre-K who were age-eligible for kindergarten had to submit a waiver and obtain approval prior to this occurring. The waivers approved indicated that the child had disabilities resulting in a need of time for maturation. The enrollment total does not include children who received ABC home-visiting services only during the 2015-2016 program year. Children who are dually served in center-based care and home visiting are included in the enrollment total.
- <sup>4</sup> There are additional children receiving services via private contracts but are not a part of IDEA or Part C or B. These data only reflect those children who are a part of IDEA
- <sup>5</sup> Home language is missing for 389 children.
- <sup>6</sup> Totals include only 3- and 4-year-olds.
- All state-funded preschool services are expected to operate for a minimum of seven hours per day. All children are served in a school-day program with the day being a minimum of seven hours per day for a total of 178 days per year. This is considered the regular school day and not an extended day.
- Programs may apply for Child Care Development Funds (CCDF) to assist with before- and after-school care, provided the children meet the requirements of eligibility for CCDF. CCDF will also fund ABC summer school to provide an extended year for those programs interested in providing these services. Funding for before- and after-school care and the summer program has been reduced due to limited funding.
- The \$10 Million (Arkansas Better Chance) uses other individual child or family characteristics to determine eligibility and can serve children beginning at birth. Children eligible to participate in an ABC program shall have at least one of the following characteristics: family with gross income not exceeding 200% FPL; a parent without a high school diploma or GED; low birth weight (below 5 pounds, 9 ounces); parent who was under 18 years of age at child's birth; immediate family member with a history of substance abuse; a demonstrable developmental delay identified through screening; eligible for services under IDEA; income-eligible for Title I programs; limited English proficiency; a parent who has a history of abuse or neglect, or who is a victim of abuse or neglect; meets the state's homeless criteria; in foster care; or has an incarcerated parent. The \$101 Million (Arkansas Better Chance for School Success) uses income eligibility and targets children ages 3- and 4-years-old or those children who are not eligible for kindergarten without an approved waiver. To be eligible to participate in the ABCSS program, the family must have a gross income not exceeding 200% FPL and be age-eligible. A sliding fee scale applies to families with incomes between 200 and 250% FPL.
- Translators or bilingual staff are available if some children do not speak English.
- $^{11}$  Current ELDS are in alignment with the State K-3 Standards and link to the kindergarten entry assessment (KEA).
- 12 The state strongly supports the ELDS and has approved these standards via the Early Childhood Commission which is an advisory group. Funding is being provided to contractors to disseminate training statewide to EC Providers.
- <sup>13</sup> Funding is provided to programs that may be used for TA to support curriculum implementation. The use of the TA funding is a decision made at the local level. Professional Development is available via state support that will support enhancements to any curriculum.
- 14 There are state-developed curricula, Adventures in Learning Curriculum and Adventures for Toddlers, that correlate with the State Framework.
- The lead teacher in a public school shall hold a standard Arkansas teacher license with P-4 certification. The lead teacher in a nonpublic school-based program must have a minimum of a BA in Early Childhood Education or Child Development. For all programs with multiple classrooms at a single location, the teacher of the second classroom shall hold, at a minimum, an AA in Early Childhood Education or Early Childhood Development. State policy does allow programs to hire staff under an approved staff qualifications plan while completing coursework to obtain minimum credentialing.
- 16 Some teachers are close to completing their degree. When there is another degreed person on staff, the individual must submit a request for a staff qualification plan for approval by the state and remain under the guidance of the certified or credentialed staff.
- <sup>17</sup> The Birth to Pre K Credential, AA Degree in ECE/CD, and Technical Certificate in ECE/CD are also options for the state-funded preschool program.
- <sup>18</sup> Salary parity has been highly recommended and was initially expected but because the program has been flat-funded with only a minimal increase, the salary schedule may vary. Many districts do pay their teachers on a comparable pay scale as other teachers in K-3 depending on their educational level and credentials.
- 19 The professional development requirements were changed in 2015 to require no less than six days of professional development per year. Beginning with the 2015-2016 school year, educators are required to obtain a minimum of 30 hours per year of professional development for licensure renewal and contractual agreement.
- <sup>20</sup> Classroom-embedded support is not required by state policy but is encouraged at the local level. There is TA available for the environmental rating scale and for the state assessment in recording anecdotal recording and observation.
- <sup>21</sup> All programs must provide a 40% match based on the amount provided by the state. The local match may be in-kind and not necessarily currency. In 2015-2016, the state received a one time \$1.5 million Cost-of-Living adjustment from the Governor's budget that was prorated per child.
- <sup>22</sup> The USDA/CACFP and NSLP do provide support for the ABC Program but the dollar amount being utilized is not known. ABC programs are in some Head Start Programs

- and Head Start also coordinate services with the ABC programs, which is not financially tracked other than the funding provided through DCCECE. The same is true of IDEA in that the ABC children may receive additional services from IDEA but the dollar amount is not tracked separately.
- <sup>23</sup> QUALLS Early Learning Inventory is the State Kindergarten Entry Assessment for "K." Each LEA can choose a tool for the ongoing assessment of children's learning and development. This will be changing in the upcoming year.

### **CALIFORNIA** - California State Preschool Program

- <sup>1</sup> Enrollment is from one point in time in October 2015. Cumulative enrollment during the 2015-2016 program year was 179,297.
- <sup>2</sup> Home language is missing for 504 children.
- Data is only available on enrollment by agency with administrative and/or fiscal responsibility: There were 361 LEAs (public schools) that served 92,652 children; 26 other public agencies that served 3,293 children; and 257 private agencies that served 38,564 children. A total of 525 children are counted twice.
- The part-day program is funded to operate at least three hours per day for a minimum of 175 days per year, unless the contract specifies a lower minimum of days of operation. The full-day program is funded to operate at least six hours per day for a minimum of 246 days per year unless the contract specifies a lower minimum days of operation.
- <sup>5</sup> A total of 207 children are included in both the part- and school-day counts.
- 6 California regulation allows Head Start to braid and blend funding. Partnerships with Head Start are determined locally.
- Preschool age eligibility definitions for enrollment and reporting of children and families in a California State Preschool Program (CSPP) are: "Three-year-old children" are children who will have their third birthday on or before September 1 of the fiscal year they are being served. "Four-year-old children" are children who will have their fourth birthday on or before September 1 of the fiscal year they are being served. Children whose fifth birthday are on or between September 2 and December 2 of the fiscal year they are being served, are eligible for transitional kindergarten.
- <sup>8</sup> Family eligibility is established by one of the following: current aid recipient, income eligible, homeless, or has children who are recipients of protective services, or whose children have been identified as being abused, neglected, or exploited, or at-risk of being abused, neglected or exploited. A family is income-eligible when the family's adjusted monthly income is at or below 70% of the state median income, adjusted for family size, and adjusted annually. For part-day services children whose family's income is no more than 15% above the income eligibility threshold may be enrolled only after all eligible children are enrolled. No more than 10% of the children enrolled may be filled with families that are above this income eligibility threshold for part-day services.
- 9 CalWORKs cash-aided (TANF) families are excluded from paying the family fee. Children in Child Protective Services and those children at risk of being abused, neglected, or exploited may be excluded from family fee payment for up to 12 months.
- Part-day CSPP services only require families to establish eligibility at time of enrollment. A family that enrolls in full-day care must continue to meet the family income criteria and need for care for school day programs to remain in the full-day program. However, if a family no longer meets the need criteria for full-day services they may remain in part-day services for the remainder of the school year based on the eligibility at enrollment.
- <sup>11</sup> Although there is no limit to class size, programs typically enroll 24 children in a class.
- 12 Contractors must provide meals and snacks that meet nutritional requirements specified by the federal CACFP or the National School Lunch Program. For the part-day program, one meal or snack is required. For the full-day program, one meal and two snacks or two meals and one snack are required, depending on hours of operation.
- 13 Other health screenings are determined locally. If screenings are not provided by parents, local programs must address them.
- <sup>14</sup> English Language Development is one of the domains of learning listed in our California Preschool Learning Foundations and Preschool Curriculum Framework. The California Preschool Program Guidelines also include a chapter dedicated to research-based practices to support dual language learners. Recruitment and enrollment materials are provided in the home language if 10% or more of the local population speaks a specific language other than English. Effective September 2013, the primary language in the home is reported by the parent at the time of eligibility determination. This information is collected by the California Department of Education (CDE). Children whose home language is not English are identified as a part of the child assessment system, Desired Results Developmental Profile (DRDP).
- <sup>15</sup> California does not recommend specific curricula or keep a list of recommended curricula. However, the three volumes of the California Preschool Curriculum Framework give guidance on best practices to implement whatever chosen curriculum a program uses.
- 16 The California Preschool Curriculum Framework, while not a curriculum, does provide guidance for implementing subject specific curricula in the areas of Social-Emotional Development, Language & Literacy, English Language Learners, Mathematics, Visual and Performing Arts, Physical Development, Health, History-Social Science, and Science.
- <sup>17</sup> The California Child Development Associate Teacher Permit is the minimum requirement for a teacher in a California State Preschool Program (CSPP) classroom and exceeds the requirement of the CDA. The permit requires 12 units in ECE or child development and 50 days of work experience in an instructional capacity. It may be renewed one time for a five-year period. A teacher may also have the full Child Development Teacher Permit, which requires a minimum of 40 semester units of education including a minimum of 24 units in ECE or child development, and 175 days of work experience, or a Master Teacher permit.
- <sup>18</sup> Assistant teachers in CSPP (both public and non-public employees) are required to have a high school diploma or equivalent. The optional Child Development Assistant Teacher Permit requires six credits in ECE or CD. The permit is issued for five years and is renewable for successive five-year periods upon completion of 105 hours of professional growth.
- <sup>19</sup> Funding totals represent unaudited expenditures as of October 2016. The fiscal year 2015-2016 budget provided a five percent increase and a one percent increase to the part-day rate to expand professional development activities for teachers and increase training for parents. Funding was also shifted so that all programs operated by LEAs are funded by only Proposition 98 education funding, resulting in a decrease in federal funding for the program.
- <sup>20</sup> Optional domains include Visual and performing arts (VPA), History, and Social Science.
- <sup>21</sup> While DRDP is the only required tool, locally many programs use several other assessments in addition to DRDP.
- <sup>22</sup> Although the General CSPP funding is not determined by the DRDP results, those programs who are participating in the CSPP QRIS block grants may receive additional points when they are rated and this may lead to additional funding at the local level.

## **CALIFORNIA** - California Transitional Kindergarten (TK)

- Transitional Kindergarten (TK) is administered by California Education Code 48000(c).
- <sup>2</sup> When calculating the number of children eligible for Free and/or Reduced-Price Lunch, the California Department of Education (CDE) includes a socioeconomically disadvantaged filter which allows for a slightly broader number because it includes parent education level parents who did not graduate from high school.
- 3 TK programs operated by a district must be of equal length to any kindergarten programs operated by the same school site and/or district, unless there is an approved State Board of Education waiver on file.
- <sup>4</sup> It is locally determined whether students who turn 5-years-old during the school year and after December 2 may be admitted to TK at the beginning of the school year or at another point during the school year.
- 5 Local educational agencies (LEAs) are required to make available, free or at a reduced price, one nutritionally adequate meal to each needy student who qualifies according to specified family size and income standards every school day. California public LEAs are enrolled in the National School Lunch Program which assists schools and other agencies in providing nutritious lunches to children at reasonable prices.
- <sup>6</sup> The California Department of Health Care Services regulations allow for the health examination to be completed up to 18 months prior to entry into first grade or within 90 days thereafter. The screenings indicated are based on the first grade requirement, with the exception of the immunizations which are required before TK entry. The first grade screening also includes a nutritional assessment; blood, urine, and blood lead tests.
- Some policies to support DLL/ELLs in TK (or kindergarten) programs are locally determined. The following instruction or programs are permitted or available with an approved waiver: Bilingual instruction in child's home language, dual language immersion programs, transitional bilingual programs.

- 8 CDE provides many statewide, in-person trainings, certifications, online modules, and engaging professional web sites for early childhood professionals. CDE professional resources are aligned to CA ELDS.
- 9 CA provides the following resource and training: TK Implementation Guide: http://www.cde.ca.gov/ci/gs/em/documents/tkguide.pdf#search=Tk%20implementation%20 guide&view=FitH&pagemode=none
- 10 The California Preschool Curriculum Framework and the TK Implementation Guide are used as guides for the California Learning Foundations. It is the intent that TK curricula are aligned with the California Preschool Learning Foundations.
- 11 A school district or charter school shall ensure that credentialed teachers who are first assigned to a TK classroom after July 1, 2015, have, by August 1, 2020, one of the following: (1) At least 24 units in early childhood education, or childhood development, or both; (2) As determined by the LEA employing the teacher, professional experience in a classroom setting with preschool-aged children that is comparable to the 24 units of education; or (3) A child development teacher permit issued by the Commission on Teacher Credentialing. Teachers hired prior to July 1, 2015 are required to have a teaching credential.
- 12 Title I paraprofessionals whose duties include instructional support must have: (1) High school diploma or the equivalent, and (2) Two years of college (48 units), or (3) AA degree (or higher), or (4) Pass a local assessment of knowledge and skills in assisting in instruction. Many districts use the California Basic Educational Skills Test for this purpose.
- <sup>13</sup> TK teachers and assistant teachers are on the same pay scale as public K-12 teachers and assistant teachers, respectively, which is locally determined. TK teachers work the same number of hours as K-3 teachers.
- 14 This data comes from the National Education Association (NEA) Research, Rankings and Estimates 2013, 2014, and 2015. It reflects the average salary for TK and K teachers who are on the same salary scale.
- 15 The need for ongoing classroom-embedded support is locally determined. The General Education Induction Consortium is an approved induction program to assist TK-12 beginning teachers, experienced teachers, and school site administrators to ensure beginning teacher success and retention through at least one hour per week of support and/or mentoring.
- <sup>16</sup> Total state funding for TK is an estimate.
- 17 TK is funded through the Local Control Funding Formula (LCFF) based on Average Daily Attendance (ADA) in the TK/K-3 grade span. The ADA in this grade span does not distinguish between ADA in grades TK/Kindergarten, 1, 2 or 3. Furthermore, the funds apportioned on the basis of ADA in the TK/K-3 grade span are not "dedicated" to serving TK students; they are general purpose funds apportioned to LEAs as part of their LCFF entitlement. LEAs can blend and braid federal sources to support TK.
- The California Basic Educational Data System (CBEDS) is an annual data collection administered in October and reported through an Online Reporting Application to collect data about schools and districts, as well as some aggregate data on students and staff. LEAs may be selected for an on-site or online monitoring every two years. Several factors, including compliance history, academic achievement, program size, and fiscal analysis are considered in identifying LEAs for reviews. Using these established selection criteria, approximately 120 LEAs are selected each school year for on-site or online monitoring.
- <sup>19</sup> The American Institutes for Research (AIR) studied the impact of TK in CA on children's academic and social-emotional skills in kindergarten, and how these impacts are related to program quality characteristics. This study, however, did not measure child outcomes.
- 20 It is the intent of the CA Legislature that the TK curriculum be aligned to the California Preschool Learning Foundations developed by the CDE.
- <sup>21</sup> State policy does not require kindergarten programs to assess children's learning and development but the use of the Desired Results Developmental Profile (DRDP) is encouraged by the State department.

## **COLORADO - Colorado Preschool Program**

- School districts can contract with community preschool sites in their district, as well as provide services in district classrooms. Colorado has 178 traditional school districts and 1 Charter School Institute, making a total of 179 school districts in the state.
- <sup>2</sup> District advisory councils are encouraged to blend Colorado Preschool Program (CPP) funding with other sources, such as Head Start, so that children can participate in full-day programs.
- 3 Enrollment by race does not equal the total enrollment because there is some overlap between the Biracial and Hispanic/Latino numbers.
- <sup>4</sup> The program is funded for five days per week, although the statute requires children attend four days per week or the equivalent, with the fifth day being funded for home visits, teacher planning time, completion of child assessments, or staff training. Programs may extend the hours and days beyond the minimum requirement of ten hours per week. These opportunities are determined locally and based on the needs of children and families. While district advisory councils are encouraged to blend CPP funding with other sources such as Head Start, child care subsidy, and parent tuition so that children can participate in full-day programs, enrollment by schedule is not collected. Half-day CPP funding requires 360 hours per year at a minimum and full-day CPP funding requires 720 hours per year at a minimum.
- <sup>5</sup> Under the early childhood councils, three school districts have waivers to serve children younger than age 3 in CPP. In 2015-2016, 363 children under age 3 participated in CPP. Under certain conditions, highly advanced, gifted children may be granted early entrance to kindergarten. There is no designated cut-off date for the maximum age a child could be served in preschool; this is locally determined. However, there is a state policy limiting children to two years of participation. A kindergarten-eligibility date is established by the local school board. Children must turn 5 by October 1 in order to be funded, so no school district establishes a cut-off date later than October 1. However, school districts may establish dates as early as June 1 for eligibility for kindergarten.
- 6 Income eligibility may be the sole factor or may be one of several eligibility factors. In some areas of the state where the cost of living is extremely high, district advisory councils have increased the eligibility to 200-225% of FPL. Locally determined risk factors that have been selected by the district advisory councils include: parent is incarcerated, parent is on active military duty, and developmental delay that raises concerns for school readiness but does not require special education services. Four-year-olds can qualify with one risk factor. Three-year-olds must have three or more risk factors.
- Meals and nutritious snacks must be served at suitable intervals. Children who are in the program for more than four hours per day must be offered a meal that meets at least one-third of their daily nutritional needs.
- <sup>8</sup> Although not required, of the 175 districts serving CPP, 165 have hearing and vision screenings during their enrollment process.
- 9 CPP must meet the Colorado Department of Education Quality Standards for Early Childhood Services. This includes providing information in lay terms, in the family's native language, and through a variety of communication methods.
- The Professional Development Information System (PDIS) is the statewide web-based system supporting professional development for Colorado's early childhood workforce. There is a training course on the Early Learning and Development Guidelines in PDIS.
- <sup>11</sup> There is no specific category for assistant teacher, but staff aides must meet Colorado Department of Human Services Licensing Requirements (at least 16 years of age with favorable background checks).
- <sup>12</sup> In the Colorado School Finance Formula, each preschool slot is funded at 0.5 FTE and provides for both a local and state share. Local school districts are required to contribute to their per-pupil revenue according to the school finance formula. This local share varies widely by school district.
- 13 District Advisory Councils use Colorado Quality Standards two times per year. Although not required, many districts serving CPP use ERS/ECERS and CLASS for classroom observations.
- Each year, participating programs submit an annual report that is reviewed in depth. State staff use a rubric for review and feedback about these annual applications and reports. Programs also submit audited revenue and expenditures for district-level programs, documentation of family outcomes, longitudinal data on children's performance in statewide assessment in grades K-12, graduation rates, retention rates, and placement in special education in grades K-12. Programs are required to conduct self-assessments through Colorado Quality Standards or NAEYC Accreditation, but the state does not collect this data. Status and growth data are reported to the Colorado Legislature through an annual report provided at the commencement of the legislative session. Under Results Matter, the process for evaluating the program's effectiveness is ongoing and based on performance-based assessments, parent surveys, K-12 assessment data and retention rates, and program quality ratings. State policy required the use of an approved assessment system to measure child outcomes. In 2015-2016, all programs chose to use Teaching Strategies GOLD®.
- 15 Approaches Toward Learning is assessed through objectives embedded in other developmental domains in state-approved assessment tools.

- 16 While only one tool is currently approved, other tools are reviewed periodically and must meet certain requirements including online infrastructure, assessment of whole-child domains of learning and development, automated federal reporting, and well-defined objective progressions of development.
- <sup>17</sup> Additional information can be found in the CPP legislative report: http://www.cde.state.co.us/cpp/legreports.htm
- One state law requires school readiness assessment at kindergarten entry only. Another law requires ongoing assessment of literacy skills for children identified with a significant reading deficiency. State policy requires the use of an approved assessment tool to measure school readiness at kindergarten entry. Approved kindergarten school readiness assessments include: GOLD® by Teaching Strategies, Riverside Early Assessment of Learning (REAL), and Desired Results Developmental Profile for Kindergarten (DRDP-K). In addition, state policy requires interim assessment for all kindergarteners in the area of literacy. Approved interim reading assessments include: Aimsweb; i-Ready; DIBELS Next; IDEL; FAST; ISIP ER Istation (English and Spanish); PALS (English and Spanish); and STAR. Approved diagnostic assessments include: i-Ready, PALS Marketplace Phonological Awareness (English and Spanish), STAR Early Literacy Assessment, NWEA-CPAA, PPVT, TVIP, VRMT-III, DIBELS Deep, Amplify Burst Reading Assessments, and Woodcock-Munoz LS. Approved optional summative assessments include i-Ready, NWEA-MPG, and Terra Nova.

## **CONNECTICUT** - Connecticut Child Day Care Contracts

- Child Day Care Contracts (CDCC) are with individual contractors which by statute may be municipalities, human resource development agencies or nonprofit corporations. However, information about the location of Child Day Care Services is available by town. No towns are required to offer these services and the funds are currently distributed through purchase of service contracts.
- <sup>2</sup> There is no cut-off date for enrollment in CDCC. Enrollment numbers reflect the average enrollment for the months of October, November, and December 2015. A breakdown by age is not available for this program.
- There are a total of 712 Preschool Development Grant spaces in Connecticut: there are 433 expansion spaces which are not included in enrollment totals for any of the three state-funded preschool programs in this report, and 279 are improved spaces, with 244 included in the School Readiness enrollment total and 35 included in the CDCC enrollment total.
- 4 All CDCC enrollment is in nonpublic schools, which may be Head Start, publicly operated programs or private programs.
- <sup>5</sup> CDCC programs are required to be in operation for 10 hours per day; however, individuals do not necessarily attend for the full amount of time. For those enrolled in part-day and wrap-around services, the total hours provided through both programs must total 10 hours.
- 6 Programs generally operate for 52 weeks a year; however, they are allowed up to 22 days of closure per year. Funding for this program is a combination of state and federal (SSBG) funds, with differing income thresholds for the two funding sources; therefore, it is not possible to break down how many hours per year were funded with state funds.
- <sup>7</sup> Children may enroll in preschool spaces funded by CDCC at any point of the year, however they must be at least 2 years, 9 months of age as required by licensing.
- <sup>8</sup> All children enrolled in CDCC must be below 75% SMI. Children funded by the federal Social Service Block Grant funds supporting this program must be from families at or below 200% FPL.
- 9 Programs are required to participate in CACFP, but can apply for a waiver due to financial hardships or lack of a facility.
- 10 Crosswalks were completed to document the alignment of the CT ELDS to the Next Generation Science Standards and CT's new Social Studies Framework. A crosswalk to document alignment with the Head Start Early Learning Outcomes Framework is in progress.
- 11 An assessment aligned to the CT ELDS is under development. This tool is being designed to facilitate a formative assessment process and to summarize child progress. This assessment will replace the one currently being used in CDCC. Currently, CDCC programs are required to meet NAEYC accreditation standards related to assessment practices.
- 12 On-going technical assistance is provided on a limited basis. Currently CDCC programs are required to meet NAEYC accreditation standards related to curricular practices.
- 13 The minimum requirement for lead teachers is a CDA plus 12 credits in early childhood, per licensing. In addition, CDCC programs are required to be Head Start approved or accredited by NAEYC and therefore need to meet the requirements for lead teachers defined in their accreditation/approval system.
- Seventeen CDCC teachers have ECE teaching endorsements.
- 15 CDCC programs are required to be licensed, which requires professional development (PD) for staff that totals 1% of the total annual hours worked. Content may include, but is not limited to, early childhood education and child development, licensing and regulations, health issues, nutrition, first aid, social services, child abuse laws, and programming for children with disabilities or special health care needs. The programs are required to develop, implement, and maintain a written PD plan and to document and maintain the PD plan for each program staff member and make it available for review.
- <sup>16</sup> In state funds, \$18,786,146 was allocated for FY 2016; however, only \$17,387,750 of this funding was expended. An additional \$54,895 of state funds is dedicated to support children enrolled in Child Day Care PDG spaces who did not meet the federal enrollment guidelines.
- <sup>17</sup> State statute specifies that contractors may be municipalities, human resource development agencies or nonprofit corporations.
- 18 Any programs that are not yet NAEYC accredited or Head Start approved, or who have lost their accreditation or approval status, are required to have an ECERS completed annually.
- <sup>19</sup> Review of facilities and safety requirements (licensing) occurs annually and documentation of this status must be provided. CDCC programs submit monthly reports detailing children and families served. Documentation of program-level outcomes (NAEYC accreditation or Head Start approval) is required.
- <sup>20</sup> The CT Kindergarten Entrance Inventory was developed by the state for kindergarten teachers to provide a global rating of children across four areas of development.

## **CONNECTICUT - Connecticut School Readiness**

- <sup>1</sup> Of the 67 communities, 20 are priority districts and 47 are competitive municipalities as defined by legislation. The 20 priority school districts are not required to participate in the School Readiness Program, but funds are available to all eligible districts.
- <sup>2</sup> There is no cut-off date for enrollment in the School Readiness Program. Enrollment numbers reflect the enrollment for the month of May 2016, and an age breakdown is not available.
- There are a total of 712 Preschool Development Grant spaces in Connecticut: there are 433 expansion spaces which are not included in enrollment totals for any of the three state-funded preschool programs in this report, and 279 are improved spaces, with 244 included in the School Readiness enrollment total and 35 included in the CDCC enrollment total.
- <sup>4</sup> The hours of operation are locally determined. Program options include: 6-hour pre-K funded school-day with before and after care provided by individual grantees; 6-hour pre-K funded school-day with before and after care provided but paid for by families; School Readiness/Head Start blend; Wraparound; or Home-based.
- Operating schedules are locally determined and hours vary by program. Extended-day programs operate 10 hours per day, 50 weeks per year, while school-day programs operate 6 hours per day, 180 days per year. Part-day programs operate 2.5 hours per day, 180 days per year. Funding from another source can be used to extend programs.
- <sup>6</sup> As defined by legislation, communities may allow a small number of kindergarten-eligible children to remain in the program (up to 5% of the total served) if the child has been enrolled in the School Readiness program for one year and if the parent or guardian, School Readiness provider, and the local or regional school district agree that the child will not enter kindergarten.
- All families, regardless of income levels, can apply for School Readiness spaces in Competitive and Priority municipalities. However, 60% of the children enrolled in each municipality must meet the income requirement of being at or below 75% of state median income.
- 8 All children remain eligible for the program but the fee is reassessed annually and residency is verified (although a School Readiness Council does have the local option whether to accept non-residents). Parent fees can change depending on a change of income and/or family size. Programs work with families to keep children enrolled.
- 9 Programs are required to serve one snack to children who attend fewer than 5 hours per day and one snack plus one meal to children in school for 5 to 8 hours per day.

Children attending more than 8 hours per day must be provided one snack and two meals or two snacks and one meal. Either the program or the parent may provide the food

- Programs are not required to conduct screenings, but they are required to refer children who may need to be screened. This includes: vision, hearing, height/weight/BMI, blood pressure, immunizations, psychosocial/behavioral, dental, developmental, full physical exam.
- 11 Crosswalks were completed to document the alignment of the CT ELDS to the Next Generation Science Standards and CT's new Social Studies Framework. A crosswalk to document alignment with the Head Start Early Learning Outcomes Framework is in progress.
- 12 An assessment aligned to the CT ELDS is under development. This tool is being designed to facilitate a formative assessment process and to summarize child progress.
- <sup>13</sup> Ongoing technical assistance is provided on a limited basis.
- <sup>14</sup> Programs must meet either NAEYC or Head Start requirements for assistant teachers.
- 15 Public school lead teachers that are certified by the Department of Education are required to have annual PD plans. For those who are not certified, it is a local decision.
- <sup>16</sup> Individual sites may receive federal USDA CACFP funding but specific information is not collected.
- <sup>17</sup> The funding level is based on previous year's space capacity and local requests for proposals addressing ability to increase capacity.
- 18 Programs not yet NAEYC accredited or Head Start approved are required to have an ECERS completed annually for up to three years until accreditation is achieved.
- 1º Licensed programs are required to have health and a safety inspection annually. School Readiness programs are required to be observed quarterly by the School Readiness Liaison. Programs are required to submit monthly reports regarding utilization revenue, income, health and special education services.
- <sup>20</sup> All programs that are not accredited by NAEYC or Head Start approved are required to be evaluated using the CT School Readiness Preschool Program Evaluation System (CSRPPES) which is completed collaboratively by the School Readiness Liaison, the program director, and a School Readiness Parent.
- 21 There is no policy regarding how the pre-K assessment data is used. Communities have been known to use this data to guide teacher training and professional development, make decisions about kindergarten enrollment, to adjust curricula and track child and program outcomes over time.
- <sup>22</sup> The Connecticut Kindergarten Entrance Inventory requires teachers to provide a global rating of children in each of four areas of development.

#### **CONNECTICUT - Connecticut Smart Start**

- Only local or regional boards of education are eligible to apply for Smart Start program funds.
- <sup>2</sup> There is no cut-off date for enrollment in the Smart Start Program. The enrollment total is based upon an average of enrollment for the months of October, November and December 2015. Aggregate enrollment information is collected and not separated by 3- and 4-year olds.
- <sup>3</sup> The percentage of children with an IEP in a Smart Start classroom must meet or exceed the percentage of K-12 students enrolled in special education in the district in order for it to receive Smart Start funding. A local or regional board of education must treat children with and without IEPs equally with regard to enrollment in Smart Start. Data cannot be disaggregated into 3- and 4-year-olds.
- <sup>4</sup> Sites are required to report information on either eligibility for free and reduced-price lunch or if a family is below 75% SMI, and some report both. Smart Start averaged 39% enrollment of children eligible for Free and Reduced Lunch and 53% at or below 75% SMI, these are unduplicated percentages.
- <sup>5</sup> Smart Start programs must operate the same number of days as the rest of the school system, which is a minimum of 180 days/year.
- 6 Regarding the minimum age for preschool eligibility, children age 2 years and 9 months may attend, but it is locally determined if they can start prior to their 3rd birthday.
- Districts may prioritize enrollment based on local need.
- 8 It is a local decision whether to charge tuition, however if the district chooses to charge tuition, they must use the Office of Early Childhood (OEC) Sliding Fee Scale.
- 9 Smart Start does not require comprehensive services, but local School Districts provide a variety of services unique to their communities.
- 10 Crosswalks were completed to document the alignment of the CT ELDS to the Next Generation Science Standards and CT's new Social Studies Framework. A crosswalk to document alignment with the Head Start Early Learning Outcomes Framework is in progress.
- 11 An assessment aligned to the CT ELDS is under development. This tool is being designed to facilitate a formative assessment process and to summarize child progress.
- <sup>12</sup> Ongoing technical assistance is provided on a limited basis.
- 13 The State Department of Education certification, which must include pre-K or early childhood specialization, is required for all Smart Start teachers.
- <sup>14</sup> Thirty-nine lead teachers have ECE teaching endorsements.
- 15 Based on local bargaining decisions, Smart Start teachers are paid the same as K-12 teachers in the LEA by which they are employed.
- 16 Professional development is locally determined. Lead Teachers are certified by the State Department of Education (SDE) and must meet SDE professional learning requirements and professional learning plans.
- 17 Any programs that are not yet NAEYC accredited or Head Start approved are required to have an ECERS completed annually.
- 18 The Connecticut Kindergarten Entrance Inventory requires teachers to provide a global rating of children in each of four areas of development.

### **DELAWARE** - Delaware Early Childhood Assistance Program (ECAP)

- <sup>1</sup> The Office of Early Learning and the Early Development and Learning Resources Workgroup merged in 2015 into one branch within the Department of Education called the Office of Early Learning.
- <sup>2</sup> ECAP serves all three of Delaware's counties: New Castle County, Kent County, and Sussex County.
- 3 ECAPs can apply for a waiver to meet the 10% enrollment of children with disabilities requirement per the federal Head Start Program Performance Standards.
- Programs are required to provide a minimum of 3.5 hours of services per day. Schedule requirements are indicated by the Head Start Program Performance Standards and Delaware's QRIS requirements. Programs that operate longer than 3.5 hours per day have funding from multiple sources to support the additional service hours. Some ECAP programs align with school district schedules. Some programs use state subsidy (Purchase of Care) dollars to extend the program day for children. Programs operate for at least 9 months but do not necessarily follow the school district calendar. The program year for state-funded ECAPs extends from July 1 to June 30th of the following year; programs determine operating schedules within this program year. Schedule requirements are indicated by the Head Start performance standards.
- <sup>5</sup> There is no state policy on exceptions to the age requirement for kindergarten entry, this is a local school district decision
- <sup>6</sup> ECAP children must meet the federal Head Start Program Performance Standards eligibility guidelines. Ten percent of available slots must be provided for children with disabilities; programs can apply for waivers to this requirement. Effective as of 2007, 35% of enrollment may be children whose family incomes are between 100% and 130% FPL after priority is given to children at or below 100% FPL.
- As per the federal Head Start Program Performance Standards, each program establishes selection criteria annually based on community needs identified in its community needs assessment.
- 8 ECAPs follow the requirements for screenings per the federal Head Start Program Performance Standards. All screenings are conducted within the first 45 calendar days of the program year. Screening procedures are locally determined.
- 9 ECAPs follow the federal Head Start Program Performance Standards for serving DLL children. Some of the ECAP sites are participating in the WIDA projects for DLL.
- 10 Curriculum decision-making and implementation is guided by Delaware Stars for Early Success, Delaware's Quality Rating and Improvement System. All ECAPs are a Star 4 or 5, and thus follow curricula guidelines for a Stars Level 4 or 5 center.
- 11 ECAPs' approved curriculum list also includes Core Knowledge, DLM Early Learning Express, Family Child Care, Funshine Express, Investigators Club, Mother Goose

- Time, and Scholastic.
- <sup>12</sup> For a nonpublic school lead teacher, federal Head Start Program Performance Standards require at least an associate degree in early childhood education or in a related field in addition to coursework equivalent to a major relating to early childhood education and experience teaching preschool-age children.
- Assistant teachers in public schools are most likely paraprofessionals, which requires an associate degree, high school diploma or equivalent, or a qualifying score on the Para Pro assessment. For nonpublic school assistant teachers, federal Head Start Program Performance Standards require that he or she must have at least a CDA, be enrolled in a program leading to an associate or baccalaureate degree, or be enrolled in a CDA program to be completed within 2 years.
- 14 ECAPs participate in Delaware Stars for Early Success, the state QRIS system. Structured observations of classroom quality are done in accordance with the QRIS.

### **DISTRICT OF COLUMBIA - D.C. Public Pre-K**

- <sup>1</sup> An additional 22 pre-K programs are run out of community-based organizations (CBO).
- <sup>2</sup> All elementary schools in the District of Columbia Public Schools (DCPS) and Public Charter School offer pre-K for age-eligible students. Additionally, the pre-K grant is available to highly-qualified community-based organizations that are awarded funds through a competitive grant process. D.C. Public Charter Schools that are approved by way of their charters to provide pre-K may offer it to all age-eligible students who are D.C. residents.
- <sup>3</sup> Head Start programs are offered in public schools and private child care centers. These schools and centers serve children who are funded by Head Start, as well as children not funded by Head Start. In order to provide unduplicated counts, children are not listed as being served in Head Start.
- <sup>4</sup> All DCPS Title I-eligible Pre-K classrooms incorporate Head Start services through a "blended" classroom model, where federal Head Start and local pre-K funding is combined to offer a more comprehensive education for at-risk children.
- <sup>5</sup> A small number of LEAs may use later cutoff dates.
- <sup>6</sup> All students in D.C. Public Pre-K must be residents of the District of Columbia.
- <sup>7</sup> Ratios and group size requirements are only applicable to DCPS and CBOs.
- 8 As a result of D.C.'s Healthy Tots Act, all DC Public Pre-K programs are required to follow CACFP dietary guidelines as identified by the USDA.
- 9 Psychosocial/behavioral and developmental screenings are required within 45 days of enrollment for CBOs and DCPS Title I schools with public pre-K. Health exams are provided directly in some, but not all, programs. All students must have a completed DC Universal Health Certificate, completed by the health provider, and must verify screenings for vision, hearing, health, dental, language/speech, developmental/behavioral, height/weight/BMI, and completion of immunizations.
- 10 If children are screened positive for developmental delays, CBOs and DCPS (along with some charter schools) make referrals to the Early Stages DC program.
- <sup>11</sup> CBOs and DCPS Title I schools with pre-K programs are required to provide comprehensive services.
- 12 All D.C. Public Pre-K students are assessed using DC's ELL assessment, ACCESS for ELLs 2.0, except those in CBOs (policy is not applicable to CBOs).
- 13 Child assessments are required to align with approved pre-K curriculum models in DCPS and the CBO sector. These curriculum models, in turn, are aligned with ELDS.
- <sup>14</sup> Frog Street, Core Knowledge and Houghton Mifflin Pre-K are also pre-approved by the Office of the State Superintendent of Education (OSSE) for use by pre-K programs in the CBO sector.
- D.C. provides pre-K programming through three sectors: D.C. Public Schools (DCPS), Public Charter Schools (PCS), and in community-based organizations (CBO). Each sector has different teacher requirements. In DCPS and CBOs, lead teachers must have a Bachelor's degree. The District gives Public Charter Schools the authority to establish their own requirements for teacher education and credentials.
- 16 Assistant teachers in DCPS and CBOs are required to have at least an associate degree. OSSE does not mandate specific credentials for assistant teachers at PCS schools.
- 17 While there are health and safety training requirements for CBOs that participate in the Pre-K Enhancement Program, they are not in terms of credit or clock hours.
- 18 D.C.'s Uniform Per-Student Spending Formula (UPSFF) links program funding to student enrollment. Each year, the District sets a "foundation level" of funding for each student. To the foundation are added various amounts (called "weightings") for students at certain grade levels, or with certain characteristics.
- 19 The District requires that children enrolled in a CBO pre-K program be assessed using a curriculum-aligned tool at least three times during the program year. These programs provide assessment results for each child to OSSE. Pre-K programs from all three sectors (DCPS, PCS and CBO) are assessed on an annual basis using the CLASS Pre-K tool. Only CBO programs participate in D.C.'s QRIS. Likewise, only CBO programs receive site visits from child care licensing specialists and monitors for D.C.'s child care subsidy program.
- <sup>20</sup> For pre-K CBOs, child assessment tools are required to be aligned with the curriculum selected by pre-K programs. These curricula include all of the child development domains mentioned (e.g. literacy, math, science, etc.). Programs are required to conduct a developmental screening within 45 days of enrollment that includes assessments of social and emotional development.
- <sup>21</sup> In School Year 2015-2016, D.C. administered the Early Development Instrument (EDI) in Pre-K-4 classrooms across the city. A total of 4,423 4-year-olds were assessed using the EDI. Across D.C.'s neighborhoods, 73% of Pre-K-4 children were "ready" for school in other words, they did not show vulnerability in any of the five developmental domains measured by the EDI (physical health and well-being; social competence; emotional maturity; communication skills and general knowledge; cognitive and language development).

## **FLORIDA** - Florida Voluntary Prekindergarten Program

- <sup>1</sup> These state agencies shared responsibility for the implementation of the program in the 2013-2014 program year. Each agency was assigned responsibilities that align with their statutory functions.
- <sup>2</sup> All school districts are required to offer the 300-hour VPK program during the summer.
- <sup>3</sup> Participation in the VPK program is projected to follow Florida's 4-year-old population rate, anticipating a 1% growth in future years.
- <sup>4</sup> In Florida, faith-based centers are a subset of private child care centers. Students may move between provider types. In addition, there may be overlap between the school-year and summer program enrollment. The Florida Office of Early Learning exercises administrative rules that allow re-enrollment for certain hardships that may allow a child who had attended some portion of the school year program to enroll for summer in some circumstances.
- Minimum operating hours are 540 hours for the school-year program (most programs operate 3 hours per day, 5 days per week) and 300 hours for the summer program (most programs operate 8 hours per day, 5 days per week). Providers are allowed to determine their individual calendars in order to meet those requirements. Specialized Instructional Services programs offer reimbursement for services to children with disabilities for whom a traditional VPK program may not be appropriate. The funding for these specialized services for children with disabilities is equal to that for children in traditional school-year or summer VPK program and is used in lieu of attending a traditional VPK program. The school-year program cannot start earlier than two weeks before Labor Day, or before the first day of school according to the local school district calendar, and must end by June 30. The summer program may run between May 1 and the beginning of the next public school year. Most school-year programs operate on a 180-day calendar. Most summer programs operate on a two-month calendar.
- <sup>6</sup> Children must be 4 years old on or before September 1 to attend VPK. If a child's birthday falls between February 2 and September 1, parents can decide to postpone their child's enrollment in VPK until the following year.
- State policy permits exceptions to the age requirement for kindergarten only. A student who transfers from an out-of-state nonpublic school and does not meet regular age requirements for admission to Florida public school, may be admitted if he or she meets the age requirements for the public schools in the state from which he/she is transferring. Any student who transfers from an out-of-state public school, and who does not meet regular age requirements for admission to Florida public schools, will be admitted to kindergarten or first grade when certain data are presented, based on each district's pupil progression plan.
- 8 Child care providers are required to have a plan of scheduled daily activities, which includes meals and snacks as appropriate for the age and the times the children are in care. Meals and snacks are required for extended-day programs.
- 9 All children participating in programs in licensed child care facilities or public schools must have evidence of vision, hearing, and immunization/general physical health screenings. Referrals for follow-up are recommended by the health professional. For public school programs, referrals for further follow-up are required.

- The Florida Department of Education has the authority to grant Good Cause Exemptions (waivers) from performance requirements for specific populations, which may include children with disabilities and English language learners. To be eligible for a Good Cause Exemption, the provider must demonstrate learning gains, adherence to an improvement plan, and high health and safety standards.
- <sup>11</sup> The standards are aligned to the kindergarten Florida Standards.
- <sup>12</sup> These curricula are approved for VPK programs on probation.
- Lead teachers in the summer program must have a Bachelor's degree or higher in: Early Childhood Education, prekindergarten or primary education, preschool education, family and consumer science, or teacher certification in any area. Lead teachers in the school-year program are required to have a CDA or equivalent, plus specified training about performance standards and emergent literacy training. VPK requires lead teachers, whether working in public or nonpublic school settings, to maintain a valid CDA or the Florida Child Care Professional Credential (FCCPC) equivalent as a minimum credential for the school-year program. A CDA or FCCPC must be renewed every five years. Training in specified performance standards and emergent literacy is also required for school year teachers. Lead teachers in the summer program must have a Bachelor's degree in a specified major and/or teacher certification. All child care personnel in licensed facilities must complete a minimum of 10 clock hours of in-service training.
- <sup>14</sup> Assistant teachers do not have to meet any degree requirements, but must complete a 40-hour training course for those employed at licensed child care facilities. This training course is offered by DCF. Additionally, VPK providers on probation completing the Staff Development Plan as a part of their improvement plan are required to have directors, VPK instructors, and VPK assistants complete several additional trainings.
- <sup>15</sup> Funding is appropriated using estimated population counts and the base student allocations.
- <sup>16</sup> Other community programs that may help implement the parent outreach component of 4K and approved licensed or certified professionals who provide specialized instructional services for children with disabilities can also be subcontracted with.
- <sup>17</sup> Early Learning Coalitions monitor staff credentials and provide guidance to coalitions on elements for program monitoring. There is no requirement that each provider receive a site visit at least once during a specified period. Rather, the site visits are determined by random sample except where follow-up is needed due to technical assistance or corrective action plan follow-up. Each early learning coalition is responsible for the onsite monitoring of VPK providers and for monthly attendance records reviews. The coalition monitors a sample of VPK providers on an annual basis.
- 18 The Florida Kindergarten Readiness Screener (FLKRS), composed of FAIR and ECHOS assessments, is administered annually to all kindergarteners in public schools and to all available kindergarteners attending nonpublic schools as a state assessment by the Department of Education. Results of children participating in VPK are compared to those who have not participated in the program. Florida's VPK program is reviewed annually as part of the legislative appropriation process using the Florida Voluntary Prekindergarten (VPK) Assessment.

### **GEORGIA - Georgia's Pre-K Program**

- <sup>1</sup> Georgia has a separate state agency governing services for children birth to age five and their families. Bright from the Start: Georgia Department of Early Care and Learning (DECAL) administers Georgia's Pre-K Program.
- <sup>2</sup> Children must be 4-years-old by September 1st of the school year they are attending Georgia's Pre-K program. Five-year-olds can participate in the program if they did not previously attend Georgia's Pre-K Program or if specific approval is given. The exact number of 5-year-olds is unknown; however, eligible 5-year-olds served are included in the enrollment total.
- <sup>3</sup> Georgia's Pre-K Program does not collect data on how many children qualify for free and/or reduced lunch. There were 42,839 children who qualified for Category One child eligibility. This is defined as the child's and/or family's participation in one of the following programs: SNAP, SSI, Medicaid, TANF, CAPS (child care subsidy).
- DECAL offers a Rising Kindergarten Summer Transition Program. This program is offered through a competitive grant process. The grant funds a six-week program which supports children's early literacy skills throughout the last few months prior to kindergarten. The program is targeted for low-income families. To be eligible, children must be age eligible for kindergarten and did not attend either Georgia's Pre-K Program or Head Start during the prior school year. During the 2015-2016 school year DECAL served 2,048 students in 128 classrooms. The staff to child ratio for the Rising Kindergarten program is 1:8.
- 5 DECAL partners with child care centers and Head Start programs to offer before- and after-care services. DECAL also partners with Childcare and Parent Services (CAPS) to provide funding to families who need before- and after-care.
- <sup>6</sup> The maximum class size and teacher-to-student ratio were changed as of the 2011-2012 school year, as a result of budget constraints, and will continue at least until the 2016-2017 school year.
- All programs are required to serve lunch, but if a program participates in the Child and Adult Care Food Program (CACFP) then the program is required to also serve a snack during the pre-K day.
- Blended Georgia Pre-K Program/Head Start classrooms are required to have developmental screenings as well. All of Georgia's Pre-K programs are required to ask parents if a child has received his/her developmental health screening and provide a referral and appropriate follow-up to those children who have not. Children who are eligible for Medicaid or PeachCare, Georgia's State Children's Health Insurance Program (SCHIP) are required to have a 4-year-old full physical exam. Georgia's Pre-K Program providers work with families regarding follow up on any areas of concern related to screenings.
- 9 Additional comprehensive services are offered in the Summer Transition Program (STP). Each STP site is funded for a Transition Coach to work with families.
- DECAL offers a Rising Pre-K (RPK) Summer Transition Program which is targeted to low-income families whose children must be age eligible for Georgia's Pre-K Program in the upcoming school year. The RPK program is focused on children whose home language is Spanish. The instruction in these classrooms is taught in both English and Spanish. Classrooms are staffed with bilingual staff. During the 2015-2016 summer, DECAL served 588 children in 42 classrooms. The staff to child ratio for the RPK is 1:7.
- 11 DECAL provides a website (www.gelds.decal.ga.gov) which includes resources for families, teachers, and providers on the ELD. PEACH is a newly developed interactive website (www.peach.decal.ga.gov) that provides ELD aligned activities for teachers to use.
- DECAL completes a full curriculum review every three to five years to identify curriculum models that best support Georgia's Pre-K Program. DECAL's approved curriculum list also includes: Alpha Skills Pre-K, Beyond Centers and Circle Time, Big Day for Pre-K, CORE Knowledge, DIG, Frog Street, Galileo, Investigator Club, We Can, and Wings
- Lead teachers must have a minimum of a Bachelor's degree in Early Childhood Education or a related specified field (i.e., Child Development). Lead teachers who were approved in the 2009-2010 school year with an ECE Associate Degree will be considered approved as long as they continue employment as a pre-K lead teacher with the same company. Many teachers have an advanced degree beyond a BA; 124 teachers have their Specialist and 8 teachers have their Doctorate.
- 14 A CDA is the minimum requirement for assistant teachers in Georgia's Pre-K Program, though public school systems may require a higher credential.
- <sup>15</sup> Pre-K teachers in both public and private settings have the same starting salary as K-3 teachers if they hold the state certification. DECAL provides two types of salaries for lead teachers. The starting salary for a certified lead teacher is \$34,740. The starting salary for a lead teacher with a four-year degree is \$24,740.
- DECAL offers a minimum of 15 clock hours of training each year to all Georgia's Pre-K lead and assistant teachers. Training is customized for the participants based on their lead or assistant teacher role. Orientation training for all new employees in a child care center includes six hours of health and safety training. This is in addition to their required pre-K training for the year. DECAL also provides coaching to a group of teachers on the Instructional Support Domain of the CLASS observational tool. Teachers receive pre- and post-CLASS observations and training is provided in between.
- <sup>17</sup> Coaches observe each teacher monthly. They conference with the teacher on the same day to identify and discuss the effective interactions from the Instructional Support domain of the CLASS observational tool. The number of teachers assigned to a coach can vary depending on the type of coaching model being implemented.
- Georgia's Pre-K Program is supported by the state lottery dollars; the total amount for 2015-2016 is \$313,062,469. The Summer Transition Program is supported by state and federal dollars. The total amount for 2015-2016 is \$4,886,933 of which \$1,398,400 is state dollars and \$3,488,533 is federal dollars.
- 19 How often a classroom is observed is impacted by the professional development model in which the class/teacher is participating.

## HAWAII - Hawaii Executive Office on Early Learning Public Prekindergarten Program

1 The Executive Office on Early Learning (EOEL) is administratively attached to the Hawaii Department of Education (DOE).

- <sup>2</sup> Hawaii is unique in that it is comprised of one school district.
- <sup>3</sup> Enrollment numbers are from the spring of 2016 as they better represent enrollment for 2015-2016 than fall 2015 counts.
- 4 Although there is no minimum requirement specifically stated in statute, the understanding is that the publicly funded pre-K program will run on the same calendar and schedule as the DOE public elementary school in which the classrooms are housed. This is the equivalent of 30.5 hours per week.
- <sup>5</sup> Priority is given to families meeting the income requirement. However, if a school offering an EOEL Prekindergarten is unable to fill all spaces, the income requirement may be waived and the spaces can be offered to families who do not meet the income requirements.
- 6 Breakfast is offered before the start of the school day for a fee (unless the student qualifies for free or reduced-price meals).
- In order for a child to register and enroll in the EOEL Prekindergarten Program, which is offered on DOE public school campuses, he/she must have completed a physical exam which includes vision, hearing screening, height/weight, blood pressure, required immunizations, and a TB test.
- <sup>8</sup> Parent conferences are offered to all families who have children in DOE schools, which includes pre-K. While transition to kindergarten activities is not a requirement, most DOE schools offer support (determined by individual schools) to students entering kindergarten across the state. Home visits are not required and are done on a voluntary basis by teachers who choose to implement this practice.
- <sup>9</sup> Teaching Strategies Gold is aligned with the Hawaii Early Learning and Development Standards.
- 10 This does not meet the NIEER quality standard benchmark because the AA is not required to be in ECE or a related field.
- 11 Although there is no state requirement, the union contract requires 21 hours of teacher in-service professional development. All teachers are required to be in the union. The union contract is negotiated with the state. For EOEL Prekindergarten teachers, at least 60 hours of professional development in Early Childhood Education are offered to teachers per year in addition to the required 21 hours.
- 12 The frequency of coaching and mentoring is dependent upon the skill of the individual teacher and assistant teacher based on self-reporting as well as the CLASS assessment. Experienced teachers may receive coaching and/or mentoring 1-2 times a month while those needing more support may receive coaching/mentoring 1-2 times per week.

#### **ILLINOIS** - Illinois Preschool for All

- 1 Children from all counties participate. However, funding does not allow for services to be provided to all children whose parents want them to attend.
- There is not a formal partnership but child care centers are eligible recipients of Preschool for All (PFA) funding and provide wraparound services for the children in PFA who are also in their centers.
- 3 A child must be 3 years old to enroll in preschool. If a child turns 3 after September 1, he/she may enroll in PFA after turning 3 if there is space in the class. School districts may enroll children in kindergarten before they are age 5 based on local policy.
- 4 Low income is one of the risk factors taken into account in determining program eligibility. Programs use an eligibility form that consists of weighted criteria based on risk factors. Programs serve those children most in need in the community determined by those exhibiting the most at-risk factors.
- <sup>5</sup> Vision and hearing screenings must be conducted annually for preschool-age children by technicians or nurses trained and certified by the Illinois Department of Public Health. Evidence of completing the physical exam and immunizations must be provided by October 15. Programs work with parents to ensure children receive dental examinations but there is no state requirement to report on dental examinations until kindergarten.
- <sup>6</sup> Additional information regarding policies to support DLLs/ELLs can be found at: http://www.isbe.net/bilingual/pdfs/preschool\_faq.pdf and http://www.isbe.net/earlychi/preschool/preschool\_ell.htm.
- ExceleRate Illinois, the Quality Recognition and Improvement System, provides additional information about child assessment and a list of assessments that are aligned with the Illinois Early Learning and Development Standards (IELDS). Additional information can be found at: http://www.excelerateillinoisproviders.com/resources/resources-by-standard?id=51. The Illinois Early Learning Project provides resources, tip sheets, benchmark videos, etc.: (http://www.illinoisearlylearning.org/).
- 8 Ninety-six percent of the PFA programs are using Creative Curriculum. ExceleRate Illinois provides additional information about curriculum and a list of curricula that are aligned with the IELDS (http://www.excelerateillinoisproviders.com/resources/resources-by-standard?id=48%20).
- 9 Lead teachers are required to have a professional Educator License with early childhood endorsement. The lead teacher may also need a special education endorsement and/or bilingual/English as a second language endorsement depending on the children in the classroom.
- <sup>10</sup> These numbers are not mutually exclusive.
- The teacher assistant in the classroom must hold an Educator License with stipulations endorsed for paraprofessional educator. To be eligible, an individual must be at least 20 years of age and hold a high school diploma or its recognized equivalent (GED) and meet one of the following requirements: (a) Holds an associate degree (or higher) from a regionally accredited institution of higher education, (b) Completed at least 60 semester hours of credit from a regionally accredited institution of higher education, (c) Presents an official score report from Educational Testing Service (ETS) showing a score of 460 or higher on the ParaPro test, or (d) Presents evidence of earning the following scores on the Work Keys test: Reading for Information (4), Writing or Business Writing (3), and Applied Mathematics (4).
- Salaries for teachers in a public school are generally determined by a union contract. There are no state or district policies requiring salary, benefit, or paid planning or professional development time for lead or assistant teachers. However, 98.8% of school districts have union contracts. Therefore, most preschool teachers in public school settings in practice do have salary parity with other public school teachers.
- <sup>13</sup> Assistant teachers must work under the direct supervision of a licensed teacher.
- <sup>14</sup> Each program must have staff development assessment procedures and ongoing professional development activities that demonstrate how the results of the assessment were used to inform the program's staff development.
- <sup>15</sup> Coaching is provided to teachers in PFA classrooms based on the monitoring report for that PFA program. However, coaching is not required by state policy.
- Preschool for All is funded through the Early Childhood Block Grant, which constitutes the state funding for PFA. The total allocation for the Early Childhood Block Grant was \$314,238,100 and PFA funding was \$246,729,910. Other Early Childhood Block Grant funding included: Prevention Initiative for Birth to Age 3 Years (\$62,664,138) and Infrastructure/Administration (\$4,844,052).
- Additional monitoring includes annual health, life, safety inspection of school buildings. Child care centers must meet licensing requirements. All PFA programs are required to participate in ExceleRate Illinois, the state's Quality Recognition and Improvement System. All programs have a rating that is renewed after each monitoring visit. In addition to the ECERS or CLASS, assessors use a compliance checklist. Compliance reviews examine teacher certification, use of a research-based screening tool, research-based curriculum, kindergarten transition planning, community collaboration plan, and meeting requirements for serving homeless children and ELL students.
- Sixty-one percent of PFA programs use Teaching Strategies GOLD and 28% use Work Sampling. The state does not require a specific assessment tool and pre-K assessment tools are determined locally. Each program must use a research-based authentic assessment system that aligns with the curriculum and documents children's progress over time with measurable outcomes. The Illinois State Board of Education is developing and implementing a comprehensive kindergarten assessment process that was piloted in the 2012-2013 school year. The second phase pilot implementation in 2013-2014 doubled the number of school districts participating. Statewide implementation is planned for the 2017-2018 school year. The Desired Results Developmental Profile-School Readiness (DRDP-SR) is being adapted, piloted, field tested, and calibrated for the Illinois Kindergarten Individual Development Survey (KIDS).
- 19 KIDS was adapted from the DRDP-SR. It has been piloted, field tested, and calibrated. Fourteen measures have been identified for state reports. In school year 2017-2018, all schools must report to the state on those 14 measures for all kindergarten students.

## INDIANA - On My Way Pre-K

- <sup>1</sup> Statute requires Indiana Department of Education involvement in the administration of On My Way Pre-K. Additionally, prior to implementation, the State Board of Education must review and comment on the provision of the program.
- <sup>2</sup> Indiana code limited the program to include eligible providers in not more than five counties. Allen, Jackson, Lake, Marion and Vanderburgh counties were selected out

of a total of 18 who completed an assessment based on county readiness and need.

- On My Way Pre-K eligibility, set by Indiana code, limits enrollment to children at least four years of age and less than five years of age on August 1 of the state fiscal year for which the grant is sought. One of the pilot counties, Marion, has also created the Indy Preschool Scholarship Program (PSP) by an Indianapolis City Council ordinance. Indy PSP provides funding to serve additional Marion County children predominantly at age 3 but also some additional children at age 4 whose families earn less than 127% FPL. Indy PSP also provides the required matching funds for Marion County. FSSA, United Way of Central Indiana, and the Indianapolis Mayor's Office worked closely together to streamline services for children, families and providers by creating alignment across the eligibility requirements for providers and families, use of a shared data system, shared Intake Agents, joint family/provider applications and collaborative efforts for family outreach and capacity building. Those children are not included in the enrollment totals.
- 4 Some children enrolled in On My Way Pre-K receive special education services while enrolled in the program but this data is not collected.
- <sup>5</sup> Head Start programs participate in On My Way Pre-K and 113 children were dually enrolled in Head Start and the state preschool program. However, it is unknown if Head Start dollars are used to support these children. Programs may decide how to blend funds or provide half-day Head Start and half-day On My Way Pre-K to support the individual family's needs, with total reimbursement not to exceed the cost of providing such services.
- <sup>6</sup> The sum of enrollment by race exceeds the total number of children enrolled because some report more than one race.
- Public schools must meet eligibility requirements according to Indiana code by meeting requirements of Level 3 or Level 4 in Paths to QUALITY, Indiana's QRIS.
- Families have a choice of full-day or part-day, as well as calendar-year or school-year. Programs can set their schedules individually and may choose to operate on either a school- or calendar-year schedule, as long as the total operating hours and days reaches the minimum required amount. On My Way does not have a minimum number of hours per day requirement; however, the program requires a minimum number of program hours per year (450) and a minimum number of days per year (114) in order to determine program reimbursement. For a program to meet the minimum requirements for both hours and days per year, the program would need to run at least four hours per day. Programs are reimbursed based on the total hours of pre-k services offered. Children may be counted multiple times in the enrollment by operating schedule numbers if they attend a provider whose schedule is of varying hours of length throughout the week.
- 9 A formal partnership is not in place; however, many programs in public schools, CCDF, and Head Start are layering funding to provide full-day, full-year services as appropriate, with total reimbursement not to exceed the cost of providing such services.
- 10 Indiana Code limits an eligible child to an individual who is at least 4 years of age and less than 5 years of age on August 1 of the state fiscal year for which a grant is sought. A child that does not meet the August 1 deadline and will attend kindergarten the following year may be allowed to enroll in pre-K if signed documentation on school letterhead is received stating that the child will be allowed to enroll in kindergarten the following year. This is sometimes allowed for children whose birthday falls within the first week of August.
- 11 Age-eligible children must reside in one of the approved pilot counties to be eligible to receive a grant and be a member of a household with an annual income that does not exceed 127% FPL. Eligibility was also determined by a randomized, computerized lottery as family applications exceeded the funds made available for grants.
- Programs must provide nutritious meals and snacks at appropriate times. Part-day programs are required to provide a snack. Full-day programs provide meals according to licensing requirements.
- 13 Programs are required to have immunization records and current physicals on file for all children. However, no screenings are required.
- 14 Programs may choose their classroom options. There are no state requirements concerning DLL/ELL within the state funded pre-K program.
- 15 Indiana's Early Learning Guidelines are in alignment with the K-12 standards. The required assessment for On My Way Pre-K, Indiana Standards Tool for Alternate Reporting of Kindergarten Readiness (ISTAR-KR), is aligned with the ELDS. ISTAR-KR is aligned to the Indiana Standards for kindergarten in the areas of English/Language Arts and Mathematics and includes three functional areas: physical, personal care, and social-emotional skills. Programs receive technical support and coaching from the QRIS coaches to support ELDS
- <sup>16</sup> Targeted assistance grants were awarded to 41 programs in 2015-2016 to provide curriculum and implementation of a curriculum. The state did not provide support in decision making of choice of curriculum.
- <sup>17</sup> Educational requirements are based on requirements of the QRIS Paths to QUALITY™. Program eligibility is Level 3 or 4. Requirements for Level 3 are that 50% of staff has a CDA, equivalent, or higher. Level 4 requires accreditation and programs must meet an approved accrediting body's education or degree requirements. QRIS standards may be found at http://childcareindiana.org.
- There is not a requirement for a specific number of hours in health and safety for 2015-2016 but hours should be continuing education approved by the division and related to the age appropriate educational development, care, and safety of children. Also, to meet the requirements of the federal Child Care and Development Block Grant Act of 2014, health and safety pre-service or orientation training for lead teachers and assistant teachers in this state-funded preschool program is required.
- 19 Coaches are available to all enrolled Paths to QUALITY<sup>TM</sup> programs on an as-needed basis. State Licensing Consultants are also available to programs to provide assistance. Programs are assigned to coaches, not individual teachers and there are not state requirements as to the number of programs assigned a coach. Coaches are employees of entities under contract with the state and caseloads are addressed within that scope of work.
- <sup>20</sup> Programs are assessed with a state-developed assessment as part of QRIS, Paths to QUALITY™.
- <sup>21</sup> Purdue University has been selected to evaluate classroom quality and the improvement of school readiness and academic outcomes through 3rd grade of children receiving a grant. Structured observations are also completed by the Paths to QUALITY™ raters yearly.
- Program evaluation is ongoing. Programs must be highly rated on Paths to QUALITY™. The Office of Early Childhood and Out of School Learning (OECOSL) of the Indiana Family and Social Services Administration contracted with Purdue University to conduct an evaluation of Indiana's On My Way Pre-K. This evaluation is designed to inform stakeholders on program quality and growth of children's skills, as well as address the effectiveness of the pre-K program in improving children's school readiness, children's early school performance, and parents' school engagement. Evaluators will also examine the impact of part-day vs. full-day and part-year vs. full-year programming on children's learning outcomes.
- The purpose of ISTAR-KR is to measure skills in children from infancy to kindergarten. This web-based instrument is rated by teachers based on their ongoing observations of children engaged in typical daily routines and activities. It is available to all public schools in Indiana and to private early childhood education programs at no cost.

  Assessment results from ISTAR-KR can be used to determine which skills a child has mastered and to identify the skills a student needs to learn next. This assessment is required to be administered within six weeks of beginning and ending the program, but encouraged as needed throughout the year to inform practice.

#### **IOWA** - Iowa Shared Visions

- <sup>1</sup> There are 32 grants held within these 22 school districts. Additionally, there are 16 other organizations (including Head Start programs and licensed non-profit child care centers) which provide services through a total of 35 grants/locations.
- <sup>2</sup> The total enrollment numbers reflect children supported by the Shared Visions Preschool grant dollars and enrolled as of the third Friday in September of the grant year.
- <sup>3</sup> Of the 223 children in Shared Visions receiving special education services, 84 children were identified after enrollment in the program.
- There were 510 children enrolled in a Shared Visions program where the awarded grantee was a Head Start program. It is unknown how many additional children attended a part-day Shared Visions program and spent the remainder of the day in a Head Start program. Additional children enrolled in Shared Visions are also enrolled in Head Start but the number is unknown. Program designs include dually enrolled, part-day of each program, and state preschool with Head Start as wrap-around.
- <sup>5</sup> All program operating schedules are determined locally and are to be based on community need in the application process. There is no minimum number of hours required for the Shared Visions program.
- <sup>6</sup> In the 2015-2016 school year, some Shared Visions programs blended with the Statewide Voluntary Preschool Program (SWVPP) and/or Head Start programs to increase hours in order to meet the needs of children and families. SWVPP funds may be used to provide school- or extended-day services to children if the program meets NAEYC standards and adds at least 10 hours of instruction per week by an early childhood endorsed teacher. The daily and annual operating schedules are described as part of the competitive grant application process and address identified needs within the community.
- <sup>7</sup> Kindergarten-age eligible children who meet these other criteria may only enroll in Shared Visions if they meet eligibility criteria for income and/or other risk factors.
- <sup>8</sup> A minimum of 80% of funded slots must be filled by children whose families are at or below 130% FPL. No more than 20% of funded slots may be filled by children who

are over income but meet certain other risk factors.

- There must be at least one risk factor present for eligibility. Children who are not eligible based on income may enroll provided they are served on a sliding-fee schedule determined at the local level and are eligible according to one or more of the other eligibility criteria. Additional locally determined risk factors also considered include: parent is incarcerated, parent is illiterate, parent is chronically mentally ill, and other special circumstances which may be interpreted by the local program. Teen parent is defined as under the age of 18.
- 10 In accordance with NAEYC Standards and Accreditation Criteria, mixed-age classrooms with 3- and 4-year-olds must not exceed a maximum group size of 18.
- 11 The specific meals offered depend on the hours of operation but are required by NAEYC criteria. Programs must serve a meal and ensure a second meal is served if children are still in attendance at least two hours later but no more than three hours later. Depending on whether children attend for a full-day or part-day, as well as if the hours attended are in the morning or afternoon, will determine if breakfast, lunch and/or snack(s) are offered.
- Dental screenings are locally determined, but required as part of the full physical exam for 3-year-old children per routine screening schedule from American Academy of Pediatrics (AAP). Shared Visions program standards require following the AAP schedule. Screenings are typically conducted prior to enrollment but children may enroll if not yet conducted as long as proof of appointment can be provided. Full physical exams include routine screenings as outlined by AAP.
- Title III does not apply to pre-K. If state policy is silent on supports for DLLs, it does not restrict a district from providing these services or engaging in these practices, and therefore these policies are locally determined. Data is not collected by the state in order to determine which locally determined services and practices are in place. Program standards state that assessments and some program/classroom practices are to be sensitive to and informed by children's home languages. The home language survey is sent home at the beginning of the school year in public schools and Head Start, but is a local decision for other public, non-profit agencies.
- <sup>14</sup> During 2015-2016, materials were made available to districts, including the preschool grade-level, to support instruction at the universal tier level. Additionally, detailed guidance related to assessment is provided, a state-sponsored training was conducted in 2015-2016, and information was offered on assessment and curriculum.
- 15 All teachers employed by nonpublic schools must have a minimum of an AA or equivalent, and at least 75% of teachers must also have a minimum of a BA in ECE, CD, Elementary Education, or Early Childhood Special Education, and this training must include the development and learning of children birth through kindergarten. Lead teachers in nonpublic settings follow NAEYC standards, which increased in 2015 to require a minimum of an AA in ECE or CD. If there is only one classroom, the lead teacher must have a minimum of an AA and be working towards a BA. When there is more than one classroom, some teachers will be required to have a BA and some may have an AA. Lead teachers in Shared Visions classrooms that are blended with SWVPP are required to have an early childhood endorsement as part of their teaching license and meet the SWVPP requirements.
- All programs must follow NAEYC requirements to have assistant teachers with a minimum of a high school diploma. At least 50% of assistant teachers must have a CDA or equivalent and 100% of those without the CDA or equivalent must be working toward that qualification. An equivalent to the CDA is defined as a minimum of 12 college credits (semester hours) in ECE, CD, Elementary Education, or Early Childhood Special Education that encompass the following: child development and learning of children birth through kindergarten; family and community relationships; observing, documenting, and assessing young children; teaching and learning; and professional practices and development.
- <sup>17</sup> There are explicit salary requirements for state funded pre-K teachers in public schools. School districts determine the salary schedule for percent increases based on experience. There are no salary requirements for teachers in nonpublic settings.
- <sup>18</sup> Per program standards, initial orientation and training of staff members must include health, safety and emergency procedures. All program staff must receive professional development (PD) in curriculum, assessment, working with diverse families, child development, and working with children with special needs per requirements of program standards. Staff members (regardless of location) with a teaching license must renew their license every five years, including six credit hours of PD. Program standards also require each staff member to have an individualized annual staff development plan but the number of hours is not specified in these requirements. Nonpublic settings must be licensed by the Department of Human Services and require 6 clock hours of PD annually.
- Program standards require that all teaching staff: evaluate and improve their own performance based on ongoing reflection and feedback from supervisors, peers and families; add to their knowledge and increase their ability to put knowledge into practice; and develop an annual individualized professional development plan with their supervisor and use it to inform their continuous professional development.
- 20 Program standards state that mentoring, coaching, and professional development must be included in a program's professional development plan, but it is locally developed.
- <sup>21</sup> There is an annual state appropriation which funds programming for at-risk populations. Part of this appropriation is dedicated to the Shared Visions preschool program. The state source amount reported is the portion of the annual appropriation for preschool. The total appropriation is \$12,606,196.
- Review of facilities and safety requirements occurs through licensing site visits by DHS every two years (in nonpublic settings and licensed public settings) as well as every five years through NAEYC site visits. Review of program records occurs at the beginning and end of the year. A survey was sent out to collect information about professional development plans and further needs within programs.
- The state is currently contracting with the University of lowa to conduct a program evaluation to be completed by the end of this grant year. The purpose of the planned evaluation is to collect baseline data for years 1 and 2 of the grant cycle (2015-2016 and some of 2016-2017). This data will be used for program improvement in years 3-5 of the grant cycle. Additionally, information on professional development and support needs of teaching staff and information on the utilization of the required state assessment will be collected. A staff survey will be conducted and data from various sources will be utilized (annual reports, applications, assessment data, etc.).
- <sup>24</sup> Teaching Strategies GOLD is required, Individual Growth and Developmental Indicators (IGDIs) is optional. Documentation for science and technology, social studies, and the arts objectives in GOLD is not required based on guidance in Iowa GOLD Procedures.
- 25 State law requires an approved literacy screening assessment by October 1 for kindergartners so districts may address additional supports needed to help children be proficient in literacy by the end of third grade. Most districts use FAST (Formative Assessment System for Teachers); however, districts may use any screener that is state approved for this grade level.

## **IOWA** - Iowa Statewide Voluntary Preschool Program

- School districts may partner with Head Start and/or community-based preschools. The school district remains responsible for program and fiscal monitoring. Funds flow from the school district to community partners.
- <sup>2</sup> The total enrollment is an unduplicated count for the children enrolled in the Statewide Voluntary Preschool Program (SWVPP). Not all of these children receive the 0.5 funding for SWVPP as some children are supported with state special education funds or other sources of funding.
- <sup>3</sup> A total of 282 four-year-olds had support-only IEPs and were eligible for the 0.5 funding for SWVPP. There were 976 children with instructional IEPs who were supported by state special education funding.
- Children in the SWVPP may participate in both state-funded preschool and Head Start (dually enrolled); however, information about the ages and numbers of children dually enrolled is not collected systematically. The information provided was collected from Head Start directors of lowa grantees and it should be considered an estimate based on interview.
- <sup>5</sup> Community partners often do not request that families apply for free and/or reduced-price lunch. This information is also often not available from districts as families sometimes refuse to provide this information if children do not attend SWVPP during meal times. Therefore, these numbers may underestimate the number of children enrolled in SWVPP who qualify for free and/or reduced- price lunch.
- <sup>6</sup> Data totals for ethnicity and race do not include 5-year-old children (eligible for K) who are served in the SWVPP.
- All programs are under the auspices of the school district. Community partners such as Head Start, state-accredited nonpublic schools, licensed child care/preschools, and community-based preschool/child care also serve children. The number of children enrolled by location is based on preliminary data from Fall 2015 and should be considered estimates, particularly for Head Start locations.
- 8 Programs operate a minimum of 10 hours per week; the average is about 14 hours per week. Almost all programs operate at least three days per week; most operate four to five days per week. Although there is not a formal state partnership to provide extended-day services, partnerships with Head Start may exist at the local level to provide school-day programming.
- 9 State funding is not provided based on a minimum number of hours annually. State funding is provided based on meeting SWVPP assurances which include providing

- a minimum of 10 instructional hours weekly. An estimate is provided for minimum number of hours per year that may be offered based on a 180-day calendar year, accounting for five days to complete required home visits. Many programs offer more than the minimum required weekly hours.
- 10 Children who are age-eligible for kindergarten may enroll in the pre-K program if space and funding are available. Pre-k funding may not be used to support participation of children who are age-eligible for kindergarten. Kindergarten age-eligible students may generate the full 1.0 funding if they are provided additional hours comparable with part-time kindergarten and are working on the lowa Core in the pre-K classrooms.
- 11 All age-eligible lowa children may enroll in any participating district. Enrollment is not dependent on the district of residence.
- Programs are only required to offer a snack, although it is recommended that they serve a meal. If the program operates more than 15 hours per week, a meal is served. The majority of programs provide lunch or breakfast to children who qualify for free or reduced-price meals.
- 13 Record of physical exam within six weeks of enrollment is required based on program standards and criteria. The lowa Department of Public Health Administrative Code requires that immunizations be current prior to enrollment. Program standards and criteria provide guidance for appropriate referral practices in the event that a child has a positive screen.
- 14 Title III does not apply to pre-K. If state policy is silent on supports for DLLs it does not restrict a district from providing these services or engaging in these practices, and therefore these policies are locally determined. Data is not collected by the state in order to determine which locally determined services and practices are in place. Program standards state that assessments are to be sensitive to and informed by children's home languages. A home language survey is required.
- <sup>15</sup> Training for curricula adopted by programs is determined locally, but may occur by the local program, intermediate agencies (e.g., Area Education Agencies--AEAs-- in lowa), and/or vendors. Existing funds may be used to support professional development of SWVPP staff in the area of curriculum; additional funds are not provided specifically for this purpose.
- 16 During 2015-2016, materials were made available to districts, including the preschool grade-level, to support instruction at the universal tier level.
- <sup>17</sup> All teachers in the SWVPP have a BA, an lowa teaching license, and the early childhood endorsement. Appropriate endorsements in lowa include prekindergarten through grade three, including special education; prekindergarten through kindergarten; and prekindergarten through grade three. All lead teachers must hold one of these endorsements. A teacher who holds only an early childhood special education license is not appropriately licensed/endorsed.
- Requirements depend on the overseeing agency. Some classrooms follow lowa program standards, others NAEYC, and others Head Start. For lowa standards, classroom assistants may choose the lowa paraeducator certificate with early childhood or CDA. If they choose the lowa paraeducator certificate they must enroll in the classes and complete them within a year. A paraeducator certificate is required in Title I schools. If the program operates under NAEYC, annual reports and onsite monitoring require evidence that 50% of assistant teachers have a CDA and the rest are working toward a CDA. NAEYC defines an equivalent to the CDA as 12 college credits in ECE fields. In addition, assistant teachers participate in orientation prior to, or at the beginning of, employment.
- 19 There are explicit salary requirements for state-funded pre-K teachers in public schools. There is a minimum starting salary of \$33,500 for lead teachers in public settings. School districts determine the salary schedule for percent increases based on experience. There are no salary requirements for SWVPP teachers in Head Start or other community-based settings. Assistant teacher salary and benefit information is determined locally.
- Districts make available to any SWVPP teacher who is not employed by the district staff professional development that the district offers to the district's personnel to maintain the skills appropriate to the teacher's role. Career development for school district preschool teachers shall be addressed in the school district's career development plan implemented in accordance with Iowa Code section 284.6. The school district shall ensure that program staff members are provided appropriate staff development in early childhood education.
- State policy requires professional development but does not specify hours. Guidance recommends that SWVPP teachers have 15 clock hours of professional development each year. State policy and guidance does not specify a number of hours of professional development annually required for teacher assistants but does require that teacher assistants receive appropriate professional development in early childhood education. Each staff member should have an individualized professional development plan that is used to inform continuous professional development.
- Total state funding was \$73,282,654 plus additional special education funding. Pre-K students who are 4 years old by September 15 are funded at 50% of the K-12 student aid. The preschool budget enrollment is equal to 50% of the actual enrollment of eligible students participating in the program. Preschool foundation aid is calculated by multiplying the district cost per pupil for the base year times the district's preschool budget enrollment.
- 23 lowa flows funding directly to public schools. Public schools may subcontract 95% of the per-child allocation to Head Start, private preschool/child care centers and/or accredited nonpublic schools. The state does not support religious instruction during the 10 hours per week.
- <sup>24</sup> Classrooms in districts (and their community partners) that are newly implementing the SWVPP are visited in their second year of implementation. In addition, districts or community partners that are newly implementing the lowa Quality Preschool Program Standards receive site visits in their second year of implementation. Programs also receive visits at least each year by AEA staff.
- 25 lowa Code requires all district sponsored classrooms and SWVPP community partner classrooms to use Teaching Strategies GOLD online. Review of facilities and safety requirements are included in onsite monitoring and AEA visits; facilities that are DHS licensed would also be monitored by DHS licensing consultants. QRIS levels are currently reviewed every 2 years; however, QRIS participation is voluntary. For those programs receiving onsite visits, review of program records is included. All districts are required to report compliance information which the Department of Education cross checked with student reporting and teacher licensure.
- <sup>26</sup> Teaching Strategies GOLD is required, Individual Growth and Developmental Indicators (IGDIs) is optional. Documentation for science and technology, social studies, and the arts objectives in Teaching Strategies GOLD is not required based on guidance in Iowa Teaching Strategies GOLD Procedures.
- <sup>27</sup> Classroom observations use the lowa Quality Preschool Program Standards and Criteria. There are 172 criteria within 10 Program Standards. Data presented reflect the percent of criteria met within each program standard for the nine school districts and their community partners that were visited during the 2015-2016 school year. Program Standard 1: Relationships, 91%; Program Standard 2: Curriculum, 90%; Program Standard 3: Teaching, 87%; Program Standard 4: Assessment of Child Progress, 78%; Program Standard 5: Health, 89%; Program Standard 6: Teachers, 76%; Program Standard 7: Families, 99%; Program Standard 8: Community Relationships, 100%; Program Standard 9: Physical Environment, 87%; Program Standard 10: Leadership and Management, 89%.
- <sup>28</sup> State law requires an approved literacy screening assessment by October 1 for kindergartners so districts may address additional supports needed to help children be proficient in literacy by the end of third grade. Most districts use FAST (Formative Assessment System for Teachers); however, districts may use any screener that is state approved for this grade level.

### **KANSAS** - Kansas Preschool Program

- Programs must provide 465 hours per year of education. The actual schedule is determined at the local level, with most programs operating approximately three hours per day, five days per week, but some programs operate four days per week.
- <sup>2</sup> At least 50% of children enrolled must meet one of the risk factors, which include eligibility for free or reduced-price lunch. Priority for enrollment includes low parent education, non-English-speaking family, teen parent, parent on active military duty, single parent families, referrals of at-risk 4-year-olds from early childhood programs, developmentally or academically delayed based on assessments, and social rehabilitation services referral. Eligibility for the other 50% of children is based on the local program's discretion.
- <sup>3</sup> Other screenings may be conducted, but these are locally determined.
- 4 Selection of curriculum is a local decision, but the State Education Agency (SEA) does provide support for aligning curriculum according to the standards.
- <sup>5</sup> KELI-4 is administered two times per year. MyIGDI is administered three times per year.

## KANSAS - Kansas State Pre-Kindergarten Program

- 1 A total of 181 districts were selected to participate in this program. The districts remained the same for the 2015-2016 school year.
- <sup>2</sup> Three-year-olds are enrolled in Pre-K, but they cannot be disaggregated as part of State Pre-Kindergarten Program (At-Risk Pre-K) versus other types of Pre-K programs.
- <sup>1</sup> For classes with 21 to 25 students, a third teacher must be added. This additional teacher can be an assistant teacher.
- 4 The Early Childhood Special Education program has a curriculum list, and many Pre-K programs are blended and use the same tools.

### **KENTUCKY - Kentucky Preschool Program**

- <sup>1</sup> Children with disabilities are eligible for preschool services on or after their 3rd birthday.
- <sup>2</sup> Home language is reported by district and is currently not broken out by age. Next to Spanish the other most frequently spoken languages are Arabic, Burmese, and Bosnian
- Income eligibility, which only applies to 4-year-olds, is based on 160% FPL.
- <sup>4</sup> Race and ethnicity enrollment breakdowns do not match the total enrollment because the data were extracted from the system at different times. In addition, when there are fewer than 10 children in a grouping, those numbers are not reported to protect the privacy of those children.
- <sup>5</sup> Kentucky's database system does not specify if classrooms are physically located in a public school building or Head Start facility. A total of 46 out of 173 districts are fully blended with Head Start and the children could be served in a public school or in a Head Start building. Another 24 districts partially blend with Head Start, meaning that some of the classrooms could have both preschool and Head Start children.
- <sup>6</sup> The Kentucky Preschool Program (KPP) is required to serve children for at least 2.5 hours per day plus a meal which usually totals at least three hours. There are 1,033 part-day programs and 506 full-day programs.
- Standard program operation is four to five days per week. Other schedules must be approved by the Kentucky Board of Education. Districts may use one of the weekdays for home visits, parent education, special education evaluations, and other work related to providing comprehensive preschool services.
- The preschool program is required to follow the school year. However, because of the comprehensive nature of the program, school districts are permitted to have the children begin later and end the school year earlier than the other children in the district so that the teachers can complete the family components such as home visits and screenings.
- 9 Some IEPs for kindergarten children with severe disabilities specify that they may attend the preschool program under certain circumstances. The Admissions and Release Committee (ARC) decides the best placement for children with special needs. If the best placement for a 5-year-old child with disabilities is the preschool program and there is space available, the child is placed there but still coded as a first-year primary student (kindergarten). No preschool funds may be used to support this child.
- <sup>10</sup> Four-year-old children whose family income is up to 160% FPL are eligible to attend the preschool program. Children who have an identified disability may enroll on their third birthday or whenever they are identified. Eligibility based on homelessness and foster care applies to 4-year-olds. Homeless children are categorically eligible as free-lunch eligible.
- 11 If space is available, districts may charge tuition to non-eligible children. Some districts offer a sliding scale payment which is based on annual gross income and family size. Tuition children are not counted in enrollment figures as they are ineligible for KPP funding.
- 12 The school districts are required to serve breakfast or lunch for a half-day program. Full-day programs serve both breakfast and lunch.
- 13 A vision exam is required by January 1 of the year of enrollment by a qualified specialist. Districts are required to contact parents/legal guardians if any screening results indicate a need for further assessment by a specialist, follow-up, or referral for special education and related services or other appropriate resources.
- <sup>14</sup> Two home visits are required each year. Also, the preschool program has access to Family Resource Centers (FRCs) for support services and referrals. For districts that blend with Head Start, additional services may be available to state-funded students.
- 15 The preschool program does not have direct access to Title III funds and English Language services begin in kindergarten. However, schools may have access to the Title III coordinator or staff in the district for support and resources. According to the preschool regulation, there must be staff and program resources reflecting the racial and ethnic population of the children in the program and child assessments used are expected to consider the cultural background of the children.
- 16 KDE provides a list of assessments that are aligned with the ELDS. In addition, the Kentucky's common kindergarten entry screener must be aligned with the state's definition of school readiness and the state's early childhood standards
- 17 The Early Learning Leadership Networks (ELLNs) provided leadership, service and support to school districts with implementation of assessments and standards, focusing on math, English Language Arts, and science standards.
- <sup>18</sup> Technical Assistance includes the use of higher education faculty who were provided stipends for their time.
- 1º Curriculum decisions are made locally by school districts. However, curriculums must be developmentally appropriate, relevant and reflective of students needs, and integrate a variety of skills into activities that are targeted toward the interests of children. Support for making decisions about curriculum is provided to districts by the Kentucky Department of Education (KDE) and Regional Training Centers (RTCs).
- <sup>20</sup> The Interdisciplinary Early Childhood Education (IECE) certification, birth to primary (kindergarten), is the unified special and general education certification for Kentucky early childhood teachers.
- <sup>21</sup> Out of a total of 991 lead teachers, 754 (76%) had the IECE certification, 132 (13%) were exempted from holding this certification (hired with a bachelor's degree prior to 2004, or probationary or emergency certified) and another 105 (11%) were exempt (hired prior to 2014) and hold an associate's degree or Child Development Associate.
- <sup>22</sup> In Title I schools, assistant teachers must complete two years of higher education, hold an associate's degree or achieve an acceptable score on the Kentucky Paraeducator Assessment (KPA). Kentucky is still reviewing the possibility of recognizing the CDA as equivalent to the KPA for Title I qualification. All preschool assistant teachers are required to have 18 clock hours of training each year.
- <sup>23</sup> Teacher salary parity requirements went into effect in 2004 after the certification requirements for preschool teachers went into effect.
- <sup>24</sup> The pay scale of assistant teachers is a locally controlled decision made by school districts and nonpublic schools.
- <sup>25</sup> Lead teachers who are employed by public schools receive paid planning time and are required to have four days of professional development each year, the same as the other certified teachers (K-12). Assistant teachers employed by public schools are required to have professional development, but not paid planning time, which is a decision left to the district.
- <sup>26</sup> Kentucky follows the Danielson Framework in promoting teacher professional growth and development, for more information about Kentucky's Professional Growth and Effectiveness System (PGES): http://education.ky.gov/TEACHERS/PGES/Pages/PGES.aspx; and the Preschool PGES guidance: http://education.ky.gov/teachers/PGES/TPGES/Documents/TPGES%20Guidance%20for%20Preschool.pdf.
- State funds are appropriated to school districts through a non-competitive allotment system approved by the Kentucky Board of Education. This typically represents the highest portion of funding districts spend on preschool. However, most districts use local funds to support the program. In 2015-2016, the state legislature allocated \$90 million, but the programs spent \$92.6 million. The state-funded preschool formula is an average number of eligible children served on December 1 and March 1 of the prior academic year. The final award amount is achieved by multiplying the per-child rates for each eligibility category (e.g., at-risk, speech, developmental delay, severe) by the average number of students per category. There is a standard rate for the at-risk, speech, and developmental delay categories. There is a weighted rate for 3- and 4-year-old children with severe disabilities.
- The KPP evaluates local program quality through the Preschool Program Review (P2R) process. Every district receives a visit from a KDE site visit team once every five years, or a visit from the Regional Training Center (contractor with KDE) to conduct an ECERS-R observation. Additionally, 14 school districts are randomly selected to participate in a Consolidated Monitoring (CM) site visit. During this CM process each district receives a site visit from a KDE team that includes one or more preschool team members. After the CM visit, the district receives individual program reports (preschool, Title I, etc.), a consolidated monitoring report, and follow up technical assistance. The CM report includes collective strengths and concerns noted by individual program reviewers across the entire school district. Districts participating in the CM process are not exempt from the five year P2R schedule of ECERS-R site visits. In addition to using the ECERS-R, all pre-K classroom teachers are observed annually using the Danielson Framework. Data from the observation is used to create an improvement plan.
- <sup>29</sup> Preschool programs migrated into Kentucky All STARS, the state's QRIS, with a level 3 rating in July 2016.
- The preschool program was included in a third-party evaluation conducted by the University of Kentucky entitled the Early Care and Education Final Report 2012-2014. One finding of the study suggests that students attending preschool demonstrated higher gains in language and literacy by end of kindergarten than children who did not attend preschool.
- <sup>31</sup> Districts may choose one of five approved assessment tools for preschool: the AEPS, Carolina Curriculum, Teaching Strategies GOLD, COR Advantage (High/Scope), and WSS. See: http://www.kedsonline.org/preschoolhome.aspx
- <sup>32</sup> A winter assessment is limited to students enrolling mid-term or whose assessment data were not available.

33 Schools must administer the Brigance K to all students at kindergarten entry. Schools must assess K-3 students formatively in reading and math, but assessment choices are locally determined.

#### LOUISIANA - Louisiana 8(g) Student Enhancement Block Grant

- <sup>1</sup> Districts receive an allocation and they determine whether to use the funds for the pre-K focus area.
- <sup>2</sup> Many schools offer before- and after-school programs, but the state does not track or subsidize this activity.
- <sup>3</sup> Primarily, priority is given to students who qualify for free or reduced-price lunch. However, if all income-eligible children are otherwise served, additional students may also be served if they are screened and deemed "developmentally unprepared." After this, a decision could be made locally to serve a student with one of the aforementioned risk factors.
- <sup>4</sup> All meals and snacks must meet USDA/CACFP guidelines.
- <sup>5</sup> This program strongly encourages vision and hearing screenings.
- 6 School programs with large ELL populations perform screenings and assessment on a local level and address each child's needs individually.
- The Board of Elementary and Secondary Education (BESE) approved the new Birth to Five Early Learning and Development Standards in April 2013. Some schools chose to implement immediately; full implementation occurred in the 2013-2014 school year.
- <sup>8</sup> Programs must assess students using Teaching Strategies GOLD or another state-approved assessment tool.
- 9 Collaborative sessions are conducted several times a year to support programs in implementation of assessment, observations, and ELDS utilization.
- <sup>10</sup> In Louisiana, all districts are able to purchase instructional materials that are best for their local communities. The Louisiana Department of Education led an online review of instructional materials to determine the degree of alignment with state content standards to support districts with these decisions.
- 11 Effective June 1, 2002, Louisiana issued a Pre-K-3 license, instead of standalone Nursery School and Kindergarten licenses. A teacher with an elementary certification may be employed while working toward an approved early childhood certification within a maximum of three years.
- All paraprofessionals/teacher assistants must meet LEA specific requirements for employment and one of the following requirements: Meet the definition of "highly qualified," which may include passing the ParaPro test, achievement of a CDA or AA credential, possess a high school diploma or equivalent, have extended experience of assuming responsibility and care for a group of preschool-age children (children younger than 5 years of age), possess proficient oral and written communication skills, or meet all other district requirements for employment.
- Public agencies blend and braid 8(g) funds with other state and federal funding to provide programs. The Board allocated \$11,349,476 to local education agencies for the FY 2015-2016 8(g) Student Enhancement Block Grant Program. A total of \$9,142,013 was allocated to high-quality early childhood programs. Districts received a base amount of \$55,000 and \$8.92 per pupil amount. In addition, funds were allocated to the Louisiana Department of Education to administer the 8(g) Statewide Early Childhood Care and Education Network Expansion Program.
- 14 Coordinated observation is the local process by which each community network ensures that every classroom in a publicly funded site in the community network receives two CLASS observations each school year. All observers must be reliable, and maintain inter-rater reliability and fidelity. The community network must conduct inter-rater reliability observation checks for 10% of all classrooms observed.
- 8(g) maintains a regular monitoring cycle of site visits/evaluation. These visits were conducted by independent program evaluators employed by the oversight agency. BESE compliance officers conduct monitoring visits to make sure agencies are complying with state auditing practices and both fiscal and programmatic procedures relating to the project. Site visits, desk evaluations, and technical assistance is conducted by 8(g) staff on a regular basis. Since 8(g) students are likely intermixed in LA 4 classrooms, the LA 4 program monitoring covered the majority of the 8(g)-funded pre-K classes/sites during 2015-2016.
- Evaluations are conducted annually for districts by independent evaluators to measure the impact on student outcomes. In June 2013, the Cecil J. Picard Center for Child Development and Lifelong Learning conducted a longitudinal report entitled, Longitudinal Study: Longitudinal Impacts on Academic Achievement for Participants in Louisiana's LA 4, NSECD, and 8(g) Early Childhood Programs.
- <sup>17</sup> A total of 5,744 publicly funded classrooms statewide (98%) including classrooms in both school and diverse delivery settings were observed using the CLASS tool. Based on the approved scale, 2% of sites were rated Excellent, 61% Proficient, 37% Approaching Proficient, and 1% Unsatisfactory.
- <sup>18</sup> Each LEA shall require that every child entering kindergarten for the first time be given a nationally recognized readiness screening. The results of this screening shall be used in placement and for planning instruction. The pupil progression plan for each LEA shall include criterion for placement.

## LOUISIANA - Cecil J. Picard LA 4 Early Childhood Program

- A total of 64 out of 70 geographic school districts, 24 charter schools, and one tribal school received allocations for the LA 4 program during the 2015-2016 school year. Any LA 4 provider not under the school district's jurisdiction operates as its own district. This results in a total of 89 LA 4 participating districts.
- <sup>2</sup> Districts are not required to offer the program and, due to limited funds, programs must apply for funding. Priority is given to programs with previous history in the program.
- 3 The total enrollment figure does not include 563 tuition-paying students and an additional 3,654 students with braided funding from other sources for a total of 20,400 children. The enrollment data are based on October 2015 reports.
- <sup>4</sup> All children in the LA 4 program are in public settings, other than those in diverse delivery settings. These are not considered nonpublic schools as the allocation is still made directly to the district. These settings are required to meet the same qualifications as public school settings.
- <sup>5</sup> Many schools may offer before and after school care, but the state does not track or subsidize this activity.
- <sup>6</sup> Tuition may be charged for any child who does not meet eligibility requirements (at or below 185% FPL). Such children may be charged for all or part of the LA 4 class, in an amount not to exceed that necessary for the system to provide the LA 4 class to the child. Tuition will be no more than the average amount expended per pupil on those children from whom no tuition may be required, excluding any amount attributable to the provision of classroom space and utility costs.
- Schools are required to report annually who conducts screenings and when they are conducted. Screenings that are not required are strongly encouraged and determined at the local level.
- 8 School programs with large ELL populations perform screenings and assessments on a local level and address each child's needs individually.
- The Board of Elementary and Secondary Education (BESE) approved the new Birth to Five Early Learning and Development Standards in April 2013. Some schools chose to implement immediately; full implementation occurred in the 2013-2014 school year.
- Programs must assess students using Teaching Strategies GOLD or another state-approved assessment tool.
- 11 Collaborative sessions are conducted several times a year to support programs in implementation of assessment, observations, and ELDS utilization.
- <sup>12</sup> In Louisiana, all districts are able to purchase instructional materials that are best for their local communities. The Louisiana Department of Education (LDE) led an online review of instructional materials to determine the degree of alignment with state content standards to support districts with these decisions.
- For mixed-delivery LA 4 programs housed in child care centers, teachers must meet the same qualifications as those in public school settings. A teacher with an elementary certification may be employed while working toward an approved early childhood certification within a maximum of three years. Effective June 2002, Louisiana issued a Pre-K-3 license instead of stand-alone Nursery School and Kindergarten licenses.
- All paraprofessionals/teacher assistants must meet LEA specific requirements for employment and one of the following requirements: (a) meet the definition of "highly qualified," which may include passing of the ParaPro test or achievement of a CDA or AA credential, (b) possess a high school diploma or equivalent, (c) have extended experiences of assuming responsibility and care for a group of preschool age children (children younger than five years of age), or (d) possess proficient oral and written communication skills.
- 15 LDE determines the per-pupil allocation annually based on number of available slots. Allocations are based on a per-pupil formula. Non-required local contributions are not determined or allocated by the state; instead, they are funds that may vary annually to support local community programs. Districts must agree to maintain in each

year of participation in LA 4 the same total level of funding from any source for programs or classes of early childhood education or child care provided in the year prior to participation in LA4, therefore the local amount is an average as it varies from district to district.

- 16 Coordinated observation is the local process by which each community network ensures that every classroom in a publicly funded site in the community network receives two CLASS observations each school year. All observers must be reliable, and maintain inter-rater reliability and fidelity. The community network must conduct inter-rater reliability observation checks for 10% of all classrooms observed.
- All programs are monitored annually and required to provide documentation of program-level outcomes through compliance with program guidelines on an annual basis. Sites must meet all safety and sanitation requirements for BESE-approval and/or child care licensing. All classes are monitored to ensure appropriate teacher credentialing and entry of assessment information. Children's learning and/or child outcomes are assessed using the DSC annually, portfolios, and/or Teaching Strategies GOLD. Teacher self-assessments are also conducted during site visits. Monthly, quarterly, and semi-annual reports are conducted and reviewed. Monitoring of reports includes enrollment in a six-hour program, collaboration and provision of support services reports, vision/hearing screenings and referrals, and accommodations for students with disabilities and ESL students.
- <sup>18</sup> Informal evaluations were conducted to report child outcomes (DSC/Teaching Strategies GOLD) and program quality (CLASS). The last formal evaluation was conducted in 2012-2013 by the Picard Center at University of Louisiana at Lafayette.
- Publicly funded sites ensure all publicly funded children receive completed assessments in October, February, and May. Publicly funded sites must obtain approval from the department prior to using child assessment tools different from Teaching Strategies GOLD.
- <sup>20</sup> A total of 5,744 publicly funded classrooms statewide (98%), which includes classrooms in both school and diverse delivery settings, were observed using the CLASS tool. Based on the approved scale, two percent of sites were rated excellent, 61% proficient, 37% approaching proficient, and one percent unsatisfactory.
- <sup>21</sup> K-3 Literacy Screening Assessments are also used. These are district selected and LDOE approved.

## LOUISIANA - Louisiana Nonpublic Schools Early Childhood Development Program (NSECD)

- Seats are awarded to programs through the Early Childhood Community Network Coordinated Funding Request. Inclusion in this request for the NSECD Program is open to all state-approved nonpublic schools and quality-rated child care centers statewide. Due to funding limitations, the Department prioritizes slot allocation to schools and centers located in parishes found to be in greatest need based upon the Early Childhood Risk and Reach Report, the most recent copy of which can be found here: http://www.lsutuearlychildhood.org/EarlyChildhoodRiskLA\_Fall2012.pdf. In addition, not all parishes have representation in the application process.
- <sup>2</sup> The reported enrollment figure represents funded slots.
- <sup>3</sup> Many schools may offer before- and after-school programs, but the state does not track or subsidize this activity.
- Nonpublic schools determine their own tuition rates.
- <sup>5</sup> Screenings that are not required are strongly encouraged and determined at the local level.
- 6 School programs with large ELL populations perform screenings and assessments on a local level and address each child's needs individually.
- <sup>7</sup> The Board of Elementary and Secondary Education (BESE) approved the new Birth to Five Early Learning and Development Standards in April 2013. Some schools chose to implement immediately; full implementation occurred in the 2013-2014 school year.
- 8 Programs must assess students using Teaching Strategies GOLD or another state-approved assessment tool. In 2015-2016, all NSECD Programs used the GOLD assessment tool.
- 9 Collaborative sessions are conducted several times a year to support programs in implementation of assessment, observations, and ELDS utilization.
- <sup>10</sup> In Louisiana, all districts are able to purchase instructional materials that are best for their local communities. The Louisiana Department of Education (LDE) led an online review of instructional materials to determine the degree of alignment with state content standards to support districts with these decisions.
- In Louisiana, all districts are able to purchase instructional materials that are best for their local communities. The Louisiana Department of Education led an online review of instructional materials to determine the degree of alignment with state content standards to support districts with these decisions. The following are considered Tier I curricula: Abrams Learning Trends DIG Develop. Inspire. Grow. ECE Ages 3-4; Frog Street Press Frog Street Pre-K, ECE Ages 3-4; Pearson Education, Inc. Opening the World of Learning OWL, ECE Ages 3-4; Teaching Strategies, LLC The Creative Curriculum for Preschool, ECE Ages 3-4; Voyager Sopris Learning, Inc. We Can Early Learning Curriculum. ECE 3-4.
- 12 Incumbent and new NSECD teachers must be certified in early childhood or working toward certification; those not already certified must have passed the Praxis I and taken all prerequisites to enroll in a Pre-K-3 or Early Interventionist alternate certification program. They must continually be enrolled and complete certification within three years of their hire date. Teachers with a kindergarten or Elementary Education Certificate must become an Early Childhood certified teacher by either taking the Praxis II or completing 12 hours of coursework within 18 months of their hire dates.
- 13 Of 90 Lead Teachers, 60 were Early Childhood certified (67%) and seven were Elementary grade certified. Sixty teachers have a Bachelor's degree only (67%), 31 have a Master's or Master's plus 30 (28%), and two have a PhD/EdD.
- 14 New NSECD teacher assistants must be certified with at least a CDA or AA or higher in Early Childhood, Education, or Family Studies. Incumbent NSECD teacher assistants who are not state-certified must be enrolled in a CDA program or Early Childhood associate's degree program, be continually enrolled, and complete the certification within three years of hire dates.
- <sup>15</sup> Providers shall appropriately compensate staff for time spent attending required NSECD or LDE sponsored-events prior to the beginning of the school year, as well as travel expenses incurred. During the academic year, providers are responsible for travel expenses such as mileage, meals or hotel accommodations related to ongoing continuing education. Reimbursement for registration fees is determined at the discretion of the provider.
- 16 In 2012, Act 3 was enacted to promote and support collaborative mixed model delivery to assist programs in rural communities. Nonpublic and parochial schools must be licensed by the Louisiana Department of Education and adhere to the NSECD standards. Agencies are not allowed to combine funds with other funding streams (i.e., Title I, Head Start, or LA4) for NSECD students; however, agencies are allowed to serve multiple populations within a site.
- 17 Coordinated observation is the local process by which each community network ensures that every classroom in a publicly funded site in the community network receives two CLASS observations each school year. All observers must be reliable, and maintain inter-rater reliability and fidelity. The community network must conduct inter-rater reliability observation checks for 10% of all classrooms observed.
- Providers are required to use the Teaching Strategies Gold assessment tool (ongoing). They may choose to use the DSC or other age-appropriate tool, though this is not required. Sites must meet all safety and sanitation requirements for BESE-approval and/or child care licensing. Providers receiving public funds are required to participate in Community Networks. Information regarding performance is reported each academic year for each publicly funded site and Community Network composed of the site or Community Network's performance rating and informational metrics. Programs are audited annually by the NSECD Program Manager. In addition, NSECD End of the Year Reporting is collected annually.
- 19 Publicly funded sites ensure all publicly funded children receive completed assessments in October, February, and May. Publicly-funded sites must obtain approval from the department prior to using child assessment tools different from Teaching Strategies GOLD.
- <sup>20</sup> A total of 5,744 publicly funded classrooms statewide (98%), which includes classrooms in both school and diverse delivery settings, were observed using the CLASS tool. Based on the approved scale, two percent of sites were rated excellent, 61% proficient, 37% approaching proficient, and one percent unsatisfactory.

#### **MAINE** - Maine Public Preschool Program

- School administrative units have the following governance structures: cities or towns with individual supervision, regional school units, regional school uni
- <sup>2</sup> Children must be 4 years old by October 15. It is a local district's decision as to whether a School Administrative Units (SAUs) will continue to serve children who are not age-eligible in a public preschool program. If a child attended kindergarten in another state with a different age-eligibility requirement, this will be honored. Allowances

are made for children with IEPs who turn 5 between July 15 and October 15. The district receives the same level of subsidy for children pre-K through 2nd grade.

- Maine's Part B 619 is overseen by an Individual Educational Unit-Child Development Services. Children who receive special education services may attend state pre-K classrooms. A break out of which children were in public preschool programs is not available.
- <sup>4</sup> School administrative units and Head Start programs blend funds but the way funds are blended varies across the state. Thirty-five percent of public preschool programs are in partnership with Head Start.
- <sup>5</sup> Other languages include: Arabic, French, Passamaquoddy, Portuguese, and Somali. The language, ethnicity, and race breakdown data were collected at different points in time from the total enrollment count; therefore, the totals are different.
- <sup>6</sup> The number of hours and days per week a program operates is a local decision, however programs must operate a minimum of 10 hours per week to receive a per-pupil subsidy through the school funding formula.
- <sup>7</sup> It is a locally determined decision, but most preschool programs follow the kindergarten calendar.
- 8 All eligibility, beyond age, is locally determined. Some SAUs without universal capacity use a first come, first served basis; lottery; or targeted program. In addition, districts in partnership with Head Start programs may have eligibility requirements for a certain ratio of enrolled children.
- 9 If a child has been screened and evaluated and the IEP team determines the public four-year-old program is not the least restrictive environment, another placement may be found.
- 10 Each classroom must have two adults: an early childhood certified teacher and an Ed Tech II (60 college credits).
- $^{11}\,$  If a program operates fewer than three hours per day, only a snack is required.
- <sup>12</sup> The developmental screenings used must be research-based.
- 13 There is not an approved list of assessments. It is the responsibility of the district to show the Maine DOE how their assessment(s) align with Maine's ELDS.
- 14 The Maine DOE partnered with Maine Roads to Quality (Maine's Professional Development Network) to create and deliver training on the ELDS.
- <sup>15</sup> A teacher who is certified K-3 or K-8 may apply for "conditional" endorsement and may teach in a public preschool setting. If a public preschool program is in partnership with a Head Start or private preschool the teacher must meet the same requirements as a public school employee.
- 16 All assistant teachers must have an Educational Technician II (Maine DOE Certificate) that requires a minimum of 60 college credit hours, including coursework in early childhood or a related field.
- <sup>17</sup> Salary scales are locally determined for teachers employed by nonpublic schools and may be part-time depending on length of program day/week/year. All benefits (except state retirement) are locally determined.
- 18 Teachers employed by school districts are evaluated according to the state approved Performance Evaluation and Professional Growth (PEPG) plans.
- Public preschool in Maine is funded through the school funding formula (Essential Programs and Services School Funding Formula). Once a school has gone through an approval process for a public preschool program, student counts are factored in to compute the following year's Essential Programs and Services SAU allocation. Children who are 4 years old by October 15 and in a program a minimum of 10 hours a week receive a full per-pupil subsidy based on Maine's Essential Programs and Services school funding formula.
- <sup>20</sup> Schools are required to provide a local match to draw down the per-pupil state subsidy. The required local match is part of the school funding formula based on property wealth (state valuation) multiplied by a statewide mill rate.
- <sup>21</sup> Starting in 2015-2016, new and expanded programs are monitored during the first year of operation and then, every 3 years.

### MARYLAND - Maryland Prekindergarten Program

- A total of 2,732 children were served through PDG. A total of 707 of these students are served in a mixed delivery system of community-based child care and Head Start and not broken out by age, ethnicity, or race. Of the 2,732 PDG-funded slots, 1,459 were new slots and 1,273 were improved slots. All of the 2,732 slots were expected to increase quality by requiring programs receiving PDG funding to hire an ECE-certified teacher, participate in Maryland EXCELS Quality Rating and Improvement System (QRIS), achieve Maryland State Department of Education (MSDE) accreditation, and establish Memorandums of Understanding (MOUs) with the school system in which they were located to support students in need of IEP or ELL services.
- <sup>2</sup> Totals include only 3- and 4-year-olds.
- <sup>3</sup> Programs operate five days per week as a full school-day program or four days per week as a part-day program with the fifth day used for home visits and teacher planning.
- <sup>4</sup> Partnerships with Head Start provide some extended-day services. The state provided extended-day, extended-year services to 8,383 children ages 3 to 5 enrolled in Head Start.
- <sup>5</sup> Policy requires local school systems to have an early admissions policy to allow for enrollment of 3-year-olds who are otherwise eligible (economically disadvantaged or homeless) and who demonstrate educational needs warranting early admission into prekindergarten. Local school systems may create prekindergarten programs for 3-year-olds who are economically disadvantaged, homeless, or who lack school readiness.
- <sup>6</sup> All children must first meet the income, homelessness, or foster care requirement to qualify for enrollment. Remaining vacancies may be filled by enrolling 4-year-old applicants who are not from low-income families, but who exhibit a lack of readiness for school. Eligibility can be determined by other risk factors or criteria chosen by the local school system.
- State policy stipulates an average of 20 students per classroom. Exceptions may occur where individual classrooms exceed this number, provided an overall program average of 20 is maintained. By policy, 3-year-olds are not eligible for state pre-K, but state child care regulations require a maximum class size of 20 and a staff to child ratio of 1:10 for 3- and 4-year-olds.
- 8 Developmental and dental screenings are locally determined. Vision and health screenings and referrals are the responsibility of the school health services program, in conjunction with the Health Department under Title I, which applies to all children enrolled.
- Paraprofessionals in Title I schools must also have completed two years of college, hold an AA degree, or have a qualifying score of 455 on the Para Pro assessment administered by ETS.
- <sup>10</sup> For certified teachers funded out of pre-K Expansion funds served in public and nonpublic settings there is salary parity based on the starting salary for a teacher in a public setting. The parity is not required for all years of service in nonpublic settings. Benefits are not required to be the same in nonpublic settings.
- Maryland does not have a dedicated source of state funding for its pre-K program. Rather, pre-K funding is assumed to be adequately supported in K-12 funding distributed to the states via the Maryland school funding formula. Therefore, actual state spending on pre-K outside of the expansion grant was estimated based on 50% of the state per child amount from the K-12 average per pupil revenue multiplied by the number of children enrolled in the program not through the expansion grant.
- <sup>12</sup> Prekindergarten Expansion Act of 2014, (Senate Bill 332), provided \$4.3 million to expand access to pre-K for 4-year-olds from families with household incomes at or below 200% FPL.
- State aid accounts for foundation and compensatory funds. Foundation funds account for all mandatory state aid divided by the total enrollment for K-12. Compensatory funds account for weight associated with low-income, ELL, and special education students. Local school systems must provide services for all eligible 4-year-olds using state and/or local funds. There are no dedicated state aid dollars for pre-K. Pre-K Spending from federal and local sources is determined through a funding estimation scheme given that there are no dedicated pre-K funds from these sources. As such actual spending estimates cannot be provided for federal and local sources. In addition, the Prekindergarten Expansion Act of 2014 made possible \$4.3 million to expand the access to public pre-K for 4-year-olds from families with household incomes at or below 300% of FPL.
- 14 The University of Maryland is currently conducting an evaluation on pre-K expansion for the state's PDG grant. The Department of Education allows PDG to include state-funded pre-K if meeting the definition of high-quality pre-K required by PDG.
- 15 Child assessments could include those that align with the State recommended curriculum or the State developed Early Learning Assessment.

### MASSACHUSETTS - Massachusetts Inclusive Preschool Learning Environments Grant (IPLE) - Fund Code 391

- <sup>1</sup> Of the 351 towns/communities in Massachusetts, IPLE grant-funded preK sites were located within 118 cities and towns (34%). IPLE preK programs served children from 184 Massachusetts communities (52%).
- <sup>2</sup> The IPLE Grant was awarded through a renewal grant in 2015-2016.
- 3 A total of 2,309 children were also identified as low-income. This state-funded preschool program does not collect information about family income by age of the child.
- <sup>4</sup> The 896 children listed as "Other Races" are Latino/Hispanic.
- 5 Worcester Public School (WPS) is a Head Start Agency and a Public School District. WPS enrollment is reported under Head Start. All Head Start programs are also Department of Early Education and Care (EEC) licensed early education and care programs.
- <sup>6</sup> Formal state-level partnerships exist between federal Head Start Grantees and the commonwealths' Head Start state supplemental grantees. Nine of these grantees are also IPLE grantees.
- Multiple operating schedules are available through IPLE preschool programs. Schedules are determined locally to address local need and to support parent choice. The majority of the IPLE preschool programs follow the public school calendar year. On average, programs are in operation 39 weeks of a calendar year (range 32 to 52 weeks).
- 8 Most public school programs use September 1st as the cut-off date for age-eligibility for kindergarten. Per State Special Education Regulations, the IEP team may allow a child to remain in a program designed for 3- and 4-year-old children for the duration of the school year in which the child turns 5 years old (including the summer following the date of the child's fifth birthday).
- 9 IPLE grant-funded preschool programs that are supported by other supplemental funding sources, such as EEC financial assistance, IDEA, and Head Start, must also meet the eligibility criteria of those funding sources.
- 10 Although not used to determine eligibility at the state level, IPLE preschool programs may use other risk factors at the local level to prioritize the selection of eligible children without an IEP, due to the high demand for the program.
- 11 The sliding payment scale is determined by the IPLE Agency. Any programs receiving subsidy funds use the Massachusetts sliding fee scale.
- 12 When the classroom has up to five children with disabilities, total class size may not exceed 20. When the classroom has six or seven children with disabilities, total class size may not exceed 15 children.
- <sup>13</sup> Programs operating between four and nine hours must schedule a regularly scheduled meal in addition to a snack, while those operating more than nine hours must schedule two meals and two snacks. Parents or programs/providers may provide snack.
- The state funded preschool program (IPLE) does not specifically include a requirement for health screenings. The health screenings requirements are regulated by the State agency(ies) with administrative authority. For public schools, all LEAs are required to offer screenings and referrals under Child Find. These developmental screenings are available to children in non-LEA programs through services provided in the public schools. The types of health screening offered are not specified for public schools. Head Start Programs are required to meet the screening requirements for the federal Head Start Program (developmental, health, vision, and hearing). All EEC licensed programs are required to obtain documentation of immunizations, proof of physical exam (completed within 12 months of program admissions); and documentation of screening for lead poisoning.
- 15 The licensee shall have a written plan describing procedures for referring parents to appropriate social, mental health, educational, and medical services, including but not limited to dental check-up and vision or hearing screening for their child, should the program staff feel that an assessment for such additional services would benefit the child.
- Other types of comprehensive services may be required, as determined by other federal and state regulations and/or funding sources. Therefore, comprehensive services are not identified as a grant requirement for this state pre-K program at this time. EEC-licensed programs may provide referrals for appropriate social, mental health, educational and medical services, including but not limited to dental check-up and vision or hearing screening for their child, should the program staff feel that an assessment for such additional services would benefit the child, with written parental consent.
- <sup>17</sup> Early Education and Care (EEC) Licensing Regulations include requirements for child records, curriculum, and family engagement based on language needs. Licensing regulations also require that 10% of educator's annual professional development time is focused on children who have special needs, including linguistic. The Massachusetts Quality Rating and Improvement System (QRIS) includes quality standards related to having classroom materials that reflect the language and culture of the children in the classroom, their communities, and represent the diversity of society.
- The Massachusetts Standards for Preschool and Kindergarten in the Domains of Social and Emotional Learning, and Approaches to Play and Learning, released in 2016, focus on the following areas: Self-Knowledge, Self-Management, Social Knowledge, Relationship Skills, Responsible Decision-Making, Initiative, Curiosity, Engagement/ Persistence, Creativity, Cooperative Play and Learning, Problem Solving, Organizational Skills, and Memory. For additional information see: http://www.mass.gov/edu/birth-grade-12/early-education-and-care/curriculum-and-learning/pre-school-and-kindergarten-standards.html
- 19 The Educator and Provider Support (EPS) Grantees provide statewide professional development and coaching on how to implement the curriculum in the classrooms. A priority of this state-funded grant program is to provide professional development opportunities that align with EEC's Core Competencies, QRIS, and the early learning standards and guidelines. EEC provides these supports to nonpublic school programs in the state. The majority of public school supports for preschool curriculum decision-making and implementation are determined at the local level.
- Lead teachers in public schools are required to: (1) have a bachelor's degree, (2) pass the Communication and Literacy Skills test, (3) pass the subject matter knowledge test(s) appropriate to the license sought, and (4) meet additional requirements for the early childhood licensure, including seminars or courses that address teaching this population. Lead teachers in nonpublic schools are required to have certification which requires three credits in Child Development plus nine credits in three different categories of study within Early Childhood Education. Teachers are also required to have prior experience, the amount of which varies based on their other qualifications. When the IPLE-funded program elects to participate in the QRIS at a higher QRIS Level (Level 2 Level 4), the programs and schools are required to ensure that in programs at Level 2 in the QRIS, all members of the teaching staff have a minimum of three credits in ECE or a related field, and 50% of classrooms have an educator with a BA. For Level 3 programs, 75% of classrooms must have an educator with a BA.
- <sup>21</sup> The majority of lead teachers for this state-funded preschool program are public school employees. Data for 14 lead teachers is not available.
- Instructional paraprofessionals in public schools are not required to be licensed in the Commonwealth. Paraprofessionals must work under the direct supervision of a licensed teacher. The minimum requirements to be employed in this role are possession of a high school diploma or equivalent and one of the following: An Associates degree; completion of 48 credit hours at an Institution of Higher Education; or passing completion of paraprofessional exam. Assistant teachers in nonpublic schools must have a high school diploma or equivalent and must work at all times under the direct supervision of at least a teacher qualified staff person.
- <sup>23</sup> There is parity between preschool and K-3 at the local level (LEA). Public school preschool teachers are included in the teacher contract agreements, which are determined locally
- <sup>24</sup> For public schools, paid planning time and/or professional development are negotiated through teacher contractual agreements. Public school employee salary is based on school year calendar and nonpublic school employee salary is based on a calendar year.
- <sup>25</sup> All public school educators that hold a teacher's license must renew their professional license every five calendar years in order to keep it active. The number of inservice professional development hours required is based on the licensed type held and the type being sought or renewed. For teachers in public schools, the Educator License Renewal states that each standard educator certificate shall be valid for five years and continued every five years thereafter upon the successful completion of an individual professional development plan that meets the subject matter knowledge and teaching skill requirements set by the MA DESE board. Individual professional development that meet the subject matter and teaching skill requirements are designed to increase the ability of the teacher to improve student learning. A Professional Development Point (PDP) is equal to one clock hour of professional development.
- <sup>26</sup> Coaching or mentoring opportunities are available for nonpublic employees through the state's Educator Provider Support Grant, but not required.
- <sup>27</sup> IDEA Part B 619 funds are distributed in IPLE towns and communities. The portion of the Early Child Special Education Entitlement Grant (Fund Code 262) used in the specific IPLE Site, if any, is determined locally. Head Start funds are distributed through the state supplemental grant. The portion of funds allocated to IPLE funded sites (if any) is locally determined.
- 28 The IPLE grant does not require structured observations of classroom quality as a grant requirement. For programs participating QRIS, Massachusetts reviews self-

#### **MINNESOTA** - Minnesota Head Start

- By statute, state Head Start funding is non-competitively allocated to all federally designated Head Start grantees in Minnesota. This includes one school district, seven tribal governments, and 24 private, nonprofit agencies, each serving one or more counties. Head Start services are available to eligible residents in all parts of the state.
- <sup>2</sup> In accordance with Head Start regulations, at least 90% of children enrolled in the Minnesota Head Start program qualify for free lunch. Nearly all children are low-income.
- Programs comply with the federal Head Start requirement of at least 3.5 hours per day, four days per week, for 32 weeks per year, which is the most common schedule. A formal process that approves the use of Child Care Assistance funding for Head Start Integrated full-day programming has been established. Extended-day services are also provided through collaborations with the Early Learning Scholarships program.
- State pre-K children, as defined by NIEER, must meet the federal Head Start income guidelines. Effective as of 2007, 35% of enrollment may be children whose family incomes are between 100 and 130% FPL after priority is given to children at or below 100% FPL. Other criteria for eligibility include homeless families and foster children. Families may also be income-eligible if they qualify for child-care services as a participant in Minnesota's TANF program. Reported risk factors may be considered in prioritizing applicants for enrollment in a limited number of enrollment slots. Agencies may work with their parent council to establish additional priorities.
- <sup>5</sup> Eligibility is reassessed between Early Head Start and Head Start, and before a third year of Head Start. Income and other family circumstances are reassessed and support is provided for finding other options if children are found to be no longer eligible.
- <sup>6</sup> Federal Head Start Performance Standards require part-day programs to provide children with at least one-third of their daily nutritional needs (breakfast or lunch), and full-day programs to provide one-half to two-thirds of daily nutritional needs (breakfast, lunch, and a snack).
- <sup>7</sup> At minimum, follows Head Start regulations.
- State authorizing statute requires compliance with federal Head Start requirements. The Learning for English Academic Proficiency and Success Act was added to the state statute for Head Start in the last legislative session. Translators or bilingual staff must be available if 50% or more of children in a class speak a language other than English. Per Head Start Standards, information about enrolled children's program and performance must be presented to families in their home language. Programs are highly encouraged to screen and assess all children in their home language. State early childhood staff are working with K-12 DLL staff to align resources where possible. Many additional supports for DLLs are locally determined.
- Under the Head Start Reauthorization Act of 2007, all lead teachers were required to have at least an AA in Early Childhood Development by October 2011; by September 30, 2013, 50% must have at least a BA in ECE or a related field. By September 30, 2013, all assistant teachers must have at least a CDA or be enrolled in a program to receive a CDA, AA, or BA within two years. In a public school, teachers' union rules require that teachers have at least a BA. Programs are scrutinized annually by the federal Office of Head Start to assess continuing progress toward meeting these goals.
- 10 Assistant teachers must meet Department of Human Services (DHS) licensed child care center regulations which includes a CDA.
- 11 The requirement for in-service professional development is 2% of total work hours. As of December 2007, however, the Head Start reauthorization required 15 clock hours of professional development per year for teachers and assistant teachers. By federal law, Head Start staff must follow the highest standard. For those working full-time, that will be the 2% standard.
- 12 The state funding formula is based on federal resources and unmet need. The funding formula is calculated based on elements used federally to determine funding for the entire Head Start agency. It is then locally determined what proportion of funding goes to birth-to-3 and 3- to 5-year-olds.
- State staff review PIR information and enrollment data, conduct additional surveys throughout the year, and review and approve program work plans. Paperwork is submitted to the state. Head Start programs are monitored per federal Head Start requirements.
- 14 Required assessments of preschool children are determined locally and must comply with federal Head Start requirements. Programs are not required to submit data to the state.
- <sup>15</sup> Additional information can be found here: http://www.mnheadstart.org/outcomes.html.
- 16 Kindergarten assessments are locally determined. Districts are invited to be part of the statewide Kindergarten Entry Profile study but can decline. Districts also assess children throughout the kindergarten year as part of a high level option to receive additional funding.
- 17 Desired Results Developmental Profile (DRDP) is used for the Kindergarten Entrance Profile. Kindergarten staff can use any assessment throughout the year.

### MISSISSIPPI - Mississippi Early Learning Collaborative

- <sup>1</sup> The majority of the Early Learning Collaboratives (ELCs) are led by school districts, but some are led by nonprofit organizations. A few ELCs include multiple school districts. In addition to the school districts that offer preschool, 15 out of 82 counties in the state offer preschool programs.
- <sup>2</sup> On enrollment forms, parents do not identify themselves by both ethnicity and race. Therefore, parents who indicate an ethnicity are not also required to report their race. The Early Learning Collaborative has 45 children identified as Hispanic/Latino. The rest of the responses total 1,736.
- 3 Eligibility is coordinated with Head Start agencies in local areas and shall not cause a reduction in the number of children served by Head Start.
- 4 At least one meal is required. All programs voluntarily provide snacks. Of the 48 sites included in the collaborative, 39 report serving breakfast, lunch, and snack daily. Another nine reported serving breakfast and lunch daily.
- <sup>5</sup> Assistant teachers are required to have an associate degree in Early Childhood Education, Child Development, or an equivalent field; or an associate degree in any field and a Child Development Associate credential, a Montessori certification, or an equivalent certification.
- <sup>6</sup> A total of \$812,686 was donated for the 1:1 tax credit donations to the preschool program. Individuals or corporations may make a contribution to support the local matching fund of an approved early learning collaborative. The donated funds may be eligible to receive a state tax credit for the donated amount up to \$1,000,000. The Mississippi Department of Revenue can approve 1:1 tax credits up to the amount the Legislature appropriates to the Early Learning Collaborative Act each year.
- The state provides \$2,150 per full-time child enrolled. The ELC provides a 1:1 match to make the total investment for each child \$4,300.
- 8 The Mississippi State Kindergarten Readiness Assessment is administered twice a year. For preschool, the ELC also uses selected assessments that are aligned with the standards.

### MISSOURI - Missouri Preschool Program

- 1 Missouri Preschool Program (MPP) contracts are awarded through a competitive bid process, with the grants limited to five years. Therefore the number of programs and children served changes every year.
- <sup>2</sup> Enrollment is not collected on specific languages spoken, just the number of English Language Learners (ELL). The number of 3-year-old ELL children was 39 and the number of 4-year-old ELL children was 170 for a total ELL enrollment of 209.
- The program must provide 6.5 hours of educational activities appropriate to the developmental level of the child per day between the hours of 7:30 am and 5:00 pm. Only governmental entities or public school districts (awarded funding prior to FY16) can provide a part-day program (minimum of 3 hours) to better serve those children participating in other district programs, such as Title 1 and/or early childhood special education.
- Preschool programs are required to operate five days per week. However, public schools that implement a four-day school week for their K-12 grade levels can also implement a four-day schedule for the preschool program. The length of the preschool day is expected to mirror the length of the K-12 day.
- <sup>5</sup> Preschool programs must provide educational activities appropriate to the developmental level of the child 12 months a year. Governmental entities or public school districts only may provide preschool services for no less than the school year.
- <sup>6</sup> Eligibility is determined by age, with all other eligibility requirements determined locally.
- <sup>7</sup> If a preschool program charges a fee for preschool, they must implement a sliding scale fee. The sliding scale fee is required for families whose income does not exceed 185% FPI
- 8 Part-day programs are required to provide one meal or one snack. School-day programs are required to provide one meal and two snacks or two meals and one snack.

- 9 All preschool programs are required to partner with their local Parents as Teachers (PAT) program which provides parent education and health and developmental screenings. In addition, PAT also provides referrals to services that may be beneficial to the family based on need/request.
- 10 Missouri Early Learning Goals are inclusive of children infant to kindergarten entry; new K-12 standards were approved in April 2016.
- 11 Lead teachers must have Early Childhood Teacher Certification, Early Childhood Special Education Teacher Certification, or a four-year college degree in child development.
- 12 A total of 92 teachers have Early Childhood Certification; four teachers have Early Childhood Special Education Certification; six teachers have Early Childhood/Early Childhood Special Education Certification; and seven teachers have a four-year child development degree.
- 13 Assistant teachers must have a CDA, two-year Associate Degree in Child Care/Education or 60 college hours with a minimum of three college credit hours in early childhood, child development, or child/family related courses and experiences working in a program with young children and their families.
- <sup>14</sup> Salaries and benefits must be commensurate with other professionals in similar positions.
- 15 Classroom observations are used for teacher and program goal setting and planning for professional development.

#### NEBRASKA - Nebraska Early Childhood Education Program

- Some school districts begin a program, or add capacity, with the help of competitive grants. Other school districts may start a program without grant funding, and may receive state aid funding for their 4-year-olds after three years of program approval.
- Most programs operate 3.5 to four hours per day, four or five days per week. Schools are encouraged to partner with Head Start and community providers, but there is no formal agreement at the state level. Programs must operate at least 12 hours per week. Additionally, if districts receive State Aid (TEEOSA) or an early childhood grant, the program must operate at least 450 hours per year.
- Children with IEPs may participate, based on their IEPs. Kindergarten-age children with verified disabilities may enroll in preschool if their IEP team determines that the child can be served best in preschool. Districts may enroll children under age 3, but the district would have to meet staffing and group size requirements established for younger children. The state does not have a minimum age for preschool entry.
- <sup>4</sup> Eligibility may be determined by low income, disability or developmental delay, low parent education, non-English speaking family, teen parent, or low birth weight. While all prekindergarten age-eligible children may be served in a school district early childhood program, regardless of their abilities, disabilities, or the social, linguistic, or economic diversity of the children's families, funds are targeted to children with at least one risk factor. Some districts enroll all age-eligible children, while others may use locally determined risk factors in addition to those specified by the state. The program may serve children with no risk factors, including income.
- <sup>5</sup> If charging fees, districts must utilize a sliding fee scale, but may set the scale at whatever level they choose. Children who are receiving services through Head Start or IDEA pay nothing. For other children, districts must utilize a sliding fee scale, but may set the scale at whatever level they choose to fit with their community.
- <sup>6</sup> A meal and/or snack meeting USDA requirements must be served each session.
- Coaching is provided to district classrooms that participate in the state QRIS or are Pyramid Model full implementation sites.
- <sup>8</sup> If teachers have endorsements other than those listed, they must take college coursework and make annual progress until they obtain an early childhood endorsement. Regardless of where the classroom is housed, it is considered a public school program.
- 9 School districts who hire the teacher or assistant teacher put the teacher or assistant on the district salary schedule. Occasionally, in programs that partner with Head Start or child care, the non-school entity may employ the teacher or assistant. In those cases, the teacher or assistant may not receive a salary on par with elementary teachers.
- <sup>10</sup> Classroom embedded support is not required, but is available for school district classrooms that participate in the state QRIS. Teachers in schools that are implementing program-wide Pyramid Model must receive coaching.
- 11 Local sources include local district funds, parent fees, community agencies and resources, and other sources. Funding for the program includes an allocation for the grant program, as well as funding in the state aid formula. In the third year of approval by the Nebraska Department of Education, the count of 4-year-olds is put into the formula along with other data. Equalization aid is then calculated for the next year. A total of \$4,593,005 is included in the state funds. These are state flex funds for special education.
- <sup>12</sup> School districts that have met requirements to have an approved early childhood program for the required number of years are qualified to be part of the State aid calculations which is based on the number of 4-year-olds multiplied by the number of hours in session multiplied by 0.6. The district's overall need calculation is matched to their ability to fund the need. If the need outweighs the ability to fund the need, then the district is eligible to receive the state aid.
- New programs have two years of ECERS-R observations done by staff who are reliable with the state anchor (who is reliable with the authors of the tool). Additionally, beyond the second year of operation, schools can choose which tool, ECERS-R or CLASS, to be observed and rated on. After the new classrooms/teachers are identified, a percentage of the remaining classrooms are observed. The basis of those observations is: history of past observations, length of time between observations, etc. It is possible, however, that not all sites will receive a visit.

## **NEVADA** - Nevada State Prekindergarten Program

- State PreK grantees include 11 school districts and 1 community-based organization. Eleven out of 17 districts have State PreK that meet state pre-K guidelines; however, other districts do offer other prekindergarten programs funded through Title I and/or Zoom DLL funding.
- <sup>2</sup> Priority is given to 4-year-olds who will be entering kindergarten the following school year. However, if there is an opening and no other 4-year-olds are on the waiting list, programs may enroll younger children. The age of five children is unknown.
- <sup>3</sup> The enrollment by home language breakdown total does not equal the total enrollment because data are missing on 13 children.
- <sup>4</sup> Data are available by income range based on families, not children. Families with multiple children enrolled in pre-K are only listed once (for a total of 1,511 families): Not reported: 14 families; Under \$9,999: 193 families; \$10,000-\$19,999: 324 families; \$20,000-\$29,999: 292 families; \$30,000-\$39,999: 247 families; \$40,000-\$49,999: 164 families; \$50,000+: 277 families.
- <sup>5</sup> The majority of state-funded pre-K programs are half-day (minimum of 10 hours/week) unless braided with PDG funds which results in a full day (minimum of 25 hours/week).
- 6 Children who are eligible for kindergarten are not eligible for State PreK unless a local determination is made based on the child's IEP.
- <sup>7</sup> Districts or programs determine eligibility based on highest need (i.e., low income, DLLs, homeless, etc.).
- Redetermination is not included in state policy but is permitted at the discretion of districts if claims of irregular attendance are verified, or if claims that a family moves outside of the district are substantiated and it is determined appropriate to fill the space with another child on the waiting list.
- <sup>9</sup> Programs are required to follow NAEYC guidelines.
- 10 Most programs are half-day and therefore, only require snacks. Full-day programs, as supported by PDG grant, must provide meals.
- 11 Screenings are encouraged, and are locally determined. All programs are required to conduct the Brigance screener starting this year.
- <sup>12</sup> SB405/Zoom legislation provides support in PreK for DLLs.
- <sup>13</sup> A partnership with WIDA was formed to develop a new PreK DLL assessment.
- <sup>14</sup> The state is in the process of creating birth-3rd grade standards as a more comprehensive document.
- 15 State PreK funding is allocated each legislative session out of the DSA. The funding level has remained relatively flat since the program began more than 16 years ago.
- Previously, formal evaluations including ECERS observations were conducted in all State PreK programs; however, due to loss of evaluation funding, this is no longer possible. Only programs that are able to participate in QRIS are formally observed using ECERS-3 and CLASS. In 2015-2015, only PDG programs receive structured observations through the QRIS (using ECERS-3 and CLASS) at the beginning of the year, and another at the end of the year.

- 17 Previously, funding for evaluation was available annually, and then every other year. This funding has been cut and is no longer available.
- 18 Programs are currently required to use EOWPVT and WIDA for DLLs. In 2016-2017, programs will be required to use the Brigance screener that measures all domains. Many programs use Teaching Strategies GOLD, but assessment data are not collected at the state level.
- <sup>19</sup> Nevada will begin using the Brigance screener for all kindergarteners next school year.

#### **NEW JERSEY - New Jersey Former Abbott Preschool Program**

- Primary oversight for the preschool education program is through the state Department of Education's (DOE) Division of Early Childhood Education. The Department of Children and Families oversees licensing of private preschool providers. The Department of Human Services has oversight of the wraparound program. The State Head Start Collaboration office serves as a liaison between Head Start agencies and all of the above Departments.
- <sup>2</sup> Thirty-one districts are required to offer the program due to a state Supreme Court decision. The remaining four districts are required to offer the program after applying to expand their existing program, beginning in the 2008-2009 school year.
- 3 The enrollment includes only general education preschoolers. Preschoolers with disabilities are also included in the program, but are funded separately and are not included in the enrollment numbers.
- <sup>4</sup> This is out of 43,597 children.
- <sup>5</sup> The DOE funds the program for the school calendar year and day. All programs must operate for at least six hours. Some programs offer extended-day programs with an additional four hours of wraparound care for income-eligible children. The wraparound program is funded through the Department of Human Services (DHS). Some districts have also used surplus or Title 1 funds to provide summer programs.
- 6 Kindergarten age-eligible children with an IEP that requires enrollment in a preschool program may enroll in the program, but are funded through special education.
- <sup>7</sup> The program is offered in the poor urban districts initially identified by the New Jersey Supreme Court in 1990 as having at least 40% of children who qualify for free or reduced-price lunch and five additional districts designated by the legislature. All 3- and 4-year-old children within those districts are eligible to participate.
- 8 Only district residents are eligible for the program. Children who move outside of the district would no longer be eligible to attend the program. Districts continually monitor to ensure that children are still district residents and therefore still eligible for the program.
- 9 As part of the state's Race to the Top grant, all programs are required to offer Community Parent Involvement Specialists that connect families with social services such as mental health services and insurance.
- Bilingual classes are generally encouraged. In specific cases, monolingual non-English classes may be permitted as part of a transition into a bilingual model including English, but a bilingual, non-English class (while not prohibited) would not be encouraged. The quality of bilingual instruction is monitored through New Jersey's Self-Assessment Validation System (SAVS).
- Teachers with a Standard Elementary School Endorsement (preschool through grade eight) may teach preschool if they have an equivalent of two academic years of full-time experience teaching 3- and 4-year-olds or demonstrate content knowledge in line with a district's established documentation requirement. Additionally, teachers with the following certifications may apply for preschool licensure, take the Praxis exam, and begin the process of obtaining a P-3 certificate: K-5 certificate, out-of-state certificate that includes preschool, Teacher of the Blind or Partially Sighted, Teacher of the Deaf or Hard of Hearing, Teacher of the Handicapped certificate, or Teacher of Students with Disabilities certificate. Nursery school (P-K) certificates are no longer granted but still recognized for current holders.
- 12 In districts or schools supported by Title I funding, assistant teachers are required to meet the education/degree requirements specified for Title 1.
- 13 Coaches are provided at a ratio of one coach for 20 classrooms. Master teachers are provided at a ratio of one to 18 classrooms.
- Districts receive a per pupil amount for each projected child depending on where the child is being served (district, Head Start, or private provider setting). However, if this amount provides less for the district than it received in the 2008-2009 school year, the district's aid reverts back to what it was in the 2008-2009 school year.
- 15 School districts are permitted to subcontract with faith-based programs without religious content during the school day.
- 16 The former Abbott districts report their classroom and child assessment data, as well as their demographics, looking at absenteeism rates, etc. Every classroom in the Preschool Expansion Grant districts received a visit. All Abbott preschool classrooms also are observed by master teachers.
- <sup>17</sup> New Jersey switched to the ECERS-3 as the state believes it is a better measure of quality.
- 18 New Jersey has a Self Assessment and Validation System that is used to look at implementation of the components of high quality.

## NEW JERSEY - New Jersey Former Non-Abbott Early Childhood Program Aid

- <sup>1</sup> Primary oversight for the preschool education program is through the state Department of Education's (DOE) Division of Early Childhood Education. The Department of Children and Families oversees licensing of private preschool providers. The Department of Human Services (DHS) has oversight of the wraparound program. The State Head Start Collaboration office serves as a liaison between Head Start agencies and all of the above Departments.
- <sup>2</sup> The enrollment includes only general education preschoolers. Preschoolers with disabilities are also included in the program, but are funded separately and are not included in the enrollment numbers. Only districts that have between 20% to 40% of children eligible for free and reduced-price lunch receive funding for this initiative.
- 3 Children funded through the Preschool Expansion Grants are enrolled in ECPA or ELLI programs only. There are 883 additional 4-year-olds in the grant-funded program enrolled but not included in the total.
- 4 Preschool Expansion Grant districts serve some children in Head Start settings. Children in the ECPA program are served in public schools.
- <sup>5</sup> Districts may operate either a part- (2.5 hours per day) or school-day (six hours per day) program. DHS funding may be used to extend beyond a full-day for incomeeligible children. Some school-day children may receive extended-day services, but the number of students is unknown. The DOE funds the program for the school year. If the district or provider runs a wrap-around program through DHS, the program would then extend services for the full calendar year. The number of children in full- and part-day programs reflects children across all three New Jersey preschool programs.
- 6 Kindergarten age-eligible children with an IEP that requires enrollment in a preschool program may enroll in the program, but are funded through special education.
- Only district residents are eligible for the program. Children who move outside of the district would no longer be eligible to attend the program. Districts continually monitor to ensure that children are still district residents and therefore still eligible for the program.
- Breakfast, lunch, and snack are required for at-risk students in school- and extended-day programs. Although not specified in the Early Childhood Administrative Code, meals provided in school programs must meet USDA guidelines.
- Teachers with a Standard Elementary School Endorsement (preschool through grade eight) may teach preschool if they have an equivalent of two academic years of full-time experience teaching 3- and 4-year-olds or demonstrate content knowledge in line with a district's established documentation requirement. Additionally, teachers with the following certifications may apply for preschool licensure, take the Praxis exam, and begin the process of obtaining a P-3 certificate: K-5 certificate, out-of-state certificate that includes preschool, Teacher of the Blind or Partially Sighted, Teacher of the Deaf or Hard of Hearing, Teacher of the Handicapped certificate, or Teacher of Students with Disabilities certificate. Nursery school (P-K) is no longer granted but still recognized for current holders.
- 10 In districts or schools supported by Title I funding, assistant teachers are required to meet the education/degree requirements specified for Title 1.
- 11 All state funding is technically run from the state aid formula. However, for the 2015-2016 school year, the former ECPA districts were funded in a manner similar to prior years, which was not according to the funding formula. Districts may, but are not required to, contribute local funding to the operation of the program.
- Districts are required to do an annual self-assessment and are also required to use a curriculum that includes performance-based assessment measures. The results of these assessments are not collected by the state, however.

## **NEW JERSEY - New Jersey Former Early Launch to Learning Initiative**

1 Primary oversight for the preschool education program is through the state Department of Education's (DOE) Division of Early Childhood Education. The Department of

Children and Families oversees licensing of private preschool providers. The Department of Human Services (DHS) has oversight of the wraparound program. The State Head Start Collaboration office serves as a liaison between Head Start agencies and all of the above Departments.

- <sup>2</sup> The enrollment includes only general education preschoolers. Preschoolers with disabilities are also included in the program, but are funded separately and are not included in the enrollment numbers. These districts also reported serving 230 three-year-olds who are not funded with state dollars and were not included in the total enrollment. This enrollment also reflects only the districts that do not receive funding through the former ECPA program, so as not to double count any students.
- 3 Children funded through the Preschool Expansion Grants are enrolled in ECPA or ELLI programs only. There are 883 additional 4-year-olds in the grant-funded program enrolled but not included in the total.
- <sup>4</sup> Some programs are part-day, some programs are school-day, and some programs offer a combination of both. Some programs participate in DHS wraparound programs for before- and after-care. The DOE funds the program for the school year. If the district or provider runs a wrap-around program through DHS, the program would then extend services for the full calendar year. The number of children in full- and part-day programs reflects children across all three New Jersey programs.
- 5 Kindergarten age-eligible children with an IEP that requires enrollment in a preschool program may enroll in the program, but are funded through special education.
- 6 Children are required to qualify for free and reduced-price lunch (185% FPL) and be a resident of the district. However, districts may allow for other students in unusual circumstances to be eligible for the program. A district may make a case for establishing eligibility based on extenuating circumstances when submitting its annual plan.
- Only district residents are eligible for the program. Children who move outside of the district would no longer be eligible to attend the program. Districts continually monitor to ensure that children are still district residents and therefore still eligible for the program.
- <sup>8</sup> For half-day programs, only snack is provided. For a full-day program, breakfast and lunch may be provided.
- Teachers with a Standard Elementary School Endorsement (preschool through grade eight) may teach preschool if they have an equivalent of two academic years of full-time experience teaching 3- and 4-year-olds or demonstrate content knowledge in line with a district's established documentation requirement. Additionally, teachers with the following certifications may apply for preschool licensure, take the Praxis exam, and begin the process of obtaining a P-3 certificate: K-5 certificate, out-of-state certificate that includes preschool, Teacher of the Blind or Partially Sighted, Teacher of the Deaf or Hard of Hearing, Teacher of the Handicapped certificate, or Teacher of Students with Disabilities certificate. Nursery school (P-K) is no longer granted but still recognized for current holders.
- 10 In districts or schools supported by Title I funding, assistant teachers are required to meet the education/degree requirements specified for Title 1.
- 11 Some districts may use local funding to supplement state funding, but amounts are unknown. All state funding is technically run from the state aid formula. However, for the 2015-2016 school year, the former ELLI districts were funded in a manner similar to prior years, which was not according to the funding formula. Districts may, but are not required to, contribute local funding to the operation of the program. Districts must use local funds or charge tuition to serve regular income general education students and must also use special education funding to serve children with IEPs.

#### **NEW MEXICO - New Mexico PreK**

- 1 Children, Youth and Families Department funds NM PreK classrooms at Head Start sites. However, these PreK children are not enrolled in Head Start.
- <sup>2</sup> New Mexico's database combines Asian and Pacific Islander and does not have a biracial/multi-racial category.
- <sup>3</sup> New Mexico funds two program schedules: half-day which is 450 total classroom hours, and NM Extended-day which is 900 total classroom hours. Half-day programs must operate at least 2.5 hour per day and NM Extended-day programs must operate at least five hours per day.
- <sup>4</sup> Only programs funded by Children, Youth, and Families Department are allowed to serve 3-year-olds.
- <sup>5</sup> Funding priority is given to age-eligible children who live in the attendance zone of a Title 1 school.
- 6 Staff to child ratios may be smaller in classrooms with children with IEPs, for example one adult to four children.
- <sup>7</sup> One meal is required for half-day programs; two meals are required for NM Extended-day programs.
- 8 The components of a full physical exam are determined by the child's physician. All screenings must be completed by the third month of attendance.
- <sup>9</sup> Nurses who provide health services for children are available in public school settings only.
- 10 The PreK Consultation Model provides monthly three-hour classroom visits, which include a 30- minute debriefing period with the teacher and educational assistant.
- <sup>11</sup> Curricula are locally determined but must be aligned with the NM Early Learning Guidelines.
- Teachers in nonpublic settings who do not yet possess a state-issued Early Childhood teaching license or BA degree must complete a minimum of six credit hours annually toward the degree or license. Teachers in public schools must hold at least a BA/BS and a teaching license in Early Childhood. If a public school teacher is hired who holds either a special education PreK-12 license or an Elementary K-8 license, that person must complete all requirements for an early childhood B-3rd grade or PreK-3rd grade teaching license within two years of hire.
- <sup>13</sup> Assistant teachers in both public and nonpublic settings are expected to have an AA in Early Childhood Education, but may be hired without an AA with an approved professional development plan to complete at least six college credits annually toward the requirement. New Mexico offers an Education Assistant license for P-12 in public settings only.
- 14 The PreK Program Standards require that preschool program personnel are compensated with salaries and benefits that are comparable to other professional positions that have similar qualifications and responsibilities.
- $^{15}\,$  A minimum of two hours per week is required even if that exceeds what is provided in K-3.
- 16 Health and safety professional development is required and provided by Child Care Licensing and school districts, thus it is not funded by NM PreK.
- <sup>17</sup> Faith-based programs cannot have religious content during PreK hours.
- <sup>18</sup> Additional information can be found here: https://www.newmexicoprek.org/index.cfm?event=public.prek.MaterialsPolicy&cachefix=679
- 19 The Public Education Department requires (Administrative Code 6.30.5.12) schools with full-day kindergarten programs to conduct age-appropriate assessments to determine the placement of students at instructional level within the first 30 instructional days of the school year. Under the Race to the Top initiative, a state-wide Kindergarten Entry Assessment, the Kindergarten Observation Tool, will be fully implemented in the fall of 2016. School districts and charter schools that receive Reads to Lead funding from the state must conduct the DIBELS Next or IDEL assessments. Other districts have local control. The New Mexico Kindergarten Observation Tool was field tested in approximately 50% of school districts as a kindergarten entry assessment in 2015-2016. All districts used the instrument to assess children in 2016-2017.

#### **NEW YORK - New York State Prekindergarten Program**

- New York State has several separate pre-K funding streams, five of which are competitive awards. Universal PreK (UPK) is administered to school districts via an allocation grant award that is non-competitive. Of the approximately 700 school districts in New York State, roughly 440 districts have an award via this program. However, the funds and awardees for this program have been frozen for nearly a decade. For the last four years, school districts have been able to apply for additional funding via a competitive basis for five-year grant awards.
- One competitive grant, the Expanded Prekindergarten Program, allowed school districts to apply to serve both 3- and 4-year-olds as long as the number of slots for 3-year-olds did not exceed the number of slots for 4-year-olds in the district.
- <sup>3</sup> Preschool in two districts is entirely funded by PDG.
- Whether or not children are enrolled in Head Start and state-funded preschool varies by school district. A total of 6,040 children attended UPK at a Head Start provider. Additional UPK children may also receive Head Start services.
- <sup>5</sup> This is an estimation based on the aggregate three-year free and reduced-price lunch averages by districts that have state-funded prekindergarten.
- Funding is for a minimum of 2.5 hours per day, but many programs opt to run a school-day or extended-day program using local funds or other funding sources. Programs must operate five days per week for a minimum of 180 days per year. Some school districts are required to budget, plan, and operate for the full calendar year, but that does not necessarily mean that programs are being provided beyond the school year. However, all school districts can elect to provide prekindergarten

programming in the summer if they wish, using the same prekindergarten funds.

- Age-eligible children must be residents of the respective school district in order to enroll into state-funded prekindergarten. For children served by the Federal Preschool Development Grant, eligibility is determined by an income requirement.
- Programs that are less than three hours require a nutritional meal or snack. Programs that are more than three hours require meals and snacks to ensure the nutritional needs of the children are met. Meals are required to be offered for full-day programs.
- 9 Programs are required to ensure that children with limited English proficiency are provided equal access to the prekindergarten program and opportunities to achieve the same program goals and standards as other children. Districts can choose to implement specific supports for DLLs.
- Lead teachers in public school settings are required to have a BA if hired prior to 1978 and an MA if hired after 1978. Lead teachers in nonpublic settings hired prior to 2004 are required to have an AA or CDA. Since 2004, programs in nonpublic settings have been required to meet the same certification requirements as those in public settings. A legislative amendment allowed certain community-based organizations to be exempt from this requirement until at least 2013. These teachers must also have a plan to become certified within five years or by 2013. Effective July 1, 2010, all newly hired teachers in nonpublic settings must have a BA in Early Childhood Education or a related field and also have a written plan to earn a New York State (NYS) teaching license or certificate valid for services in the early childhood grades within five years. Nonpublic programs lacking licensed/certified lead teachers must employ an onsite education director possessing a NYS teaching license or certificate in early childhood or childhood grades.
- 11 The Level I Teaching Assistant Certificate, the entry-level certificate for teacher assistants, permits the holder to provide direct instruction to students under the general supervision of a certified teacher. Assistant teachers in nonpublic settings are required to have a HSD or meet standards of the licensing or registering agency. Some nonpublic school settings require a temporary license, or continuing certificate, which permits the continued employment of an individual who has completed one year of experience under a temporary license and who has six semester hours of study in education.
- 12 Guidelines indicate that assistant teachers with the Level III Teaching Assistant certificate complete 75 hours per five years of in-service professional development in order to maintain certification. However, local public school districts make decisions regarding the appropriateness of activities to fulfill this requirement.
- 13 State policy does not specifically require ongoing classroom-embedded support but local districts can decide to provide it.
- 14 Local grantees may access federal CCDF and USDA Child and Adult Food Program funds in addition to state general funds. The amount of these federal funds is unknown
- <sup>15</sup> A half-day state aid rate is based on each school district's combined wealth ratio. The state aid formula takes into account several factors including: foundation cost (the cost of providing the average student with an education that meets state learning standards), pupil need (the proportion of pupils eligible for free and reduced-price lunch), regional cost index, and expected local contribution.
- <sup>16</sup> School districts are required to establish a process for assessing the developmental baseline and ongoing progress of all children participating in the program in at least language, cognitive, and social skill development. Specific assessments used are determined locally. Additional information is found here: https://govt.westlaw.com/nycrr/Document/136610ef5c22211ddb29d8bee567fca9f?viewType=FullText&originationContext=documenttoc&transitionType=CategoryPageItem&contextData=(sc.Default)

#### NORTH CAROLINA - North Carolina Pre-Kindergarten Program

- <sup>1</sup> Although the North Carolina Department of Health and Human Services has authority over the state's pre-K program standards and fiscal components, the North Carolina State Board of Education Policy dictates teacher education and educator licensure.
- Wraparound services are determined locally. A few programs based in public schools may operate on a year-round calendar, but funding is limited to 10 months (36 weeks) of services.
- 3 State statute allows for a child's early entry into kindergarten using state-established guidelines and based on information submitted by the child's parent or guardian that the child is gifted and has the maturity to justify admission to school.
- 4 Twenty percent of a county's North Carolina Pre-K slots allocation may be used to serve children above 75% SMI, provided they have another designated risk factor.
- <sup>5</sup> Classrooms that provide for inclusive settings for children with disabilities may require an adult-to-child ratio lower than 1:9. For Local Education-administered public school exceptional children's preschool classrooms, ratios must be in compliance with the North Carolina Policies Governing Services for Children with Disabilities, Section 1508-2, (Appendix B) at: http://ec.ncpublicschools.gov/policies/nc-policies-governing-services-for-children-with-disabilities.
- <sup>6</sup> Per the North Carolina Child Care Rules, each NC Pre-K child must be screened for developmental delays within 90 days of entering program. The screenings are used solely for the purpose of identifying children who should be referred for further evaluation and testing based on concerns in one or more developmental domains. State forms are provided to families for obtaining children's health assessments that include health care provider statements to refer children for further assessments and tests.
- Other support services are provided as needed, such as family support and other types of health interventions (e.g., mental health, positive parenting services) for children with unique needs or challenging behaviors and their families.
- The Division of Child Development and Early Education (DCDEE) has developed a plan to better serve English Language Learners (ELLs), with additional efforts made at the local level to accommodate ELLs and to comply with Title VI laws. North Carolina birth through kindergarten (BK) licensed teachers receive formal, needs-based mentoring/coaching support linked to child assessment and teacher evaluation to improve instructional practices for children served. Coaches/mentors who support BK licensed teachers are required to use a variety of resources and strategies defined by the North Carolina Foundations for Early Learning and Development standards. North Carolina Mentor Teacher Standards align with the North Carolina Professional Teaching Standards.
- 9 North Carolina's early learning standards are aligned with the state's Standard Course of Study (Common Core State Standards and North Carolina's Essential Standards), the standards for what kindergarten children should know and be able to do. The focus of NC's early learning standards is on the early precursor skills that research suggests are important or lay the foundation for what children learn later. The early learning and development standards (ELDS) domains addressed in the standards include: Approaches to Play and Learning, Emotional-Social Development, Health and Physical Development, Language Development and Communication, and Cognition Development.
- <sup>10</sup> BK licensed teachers are assigned mentors to support the implementation of curricula and formative assessments that is informed by and aligned with the ELDS to support children's development and learning needs.
- $^{11}\ \ Additional\ information\ on\ curricula\ can\ be\ found\ at:\ http://ncchildcare.dhhs.state.nc.us/providers/pv\_sn2\_curriculum.asp.$
- 12 All lead teachers in NC Pre-K classrooms are required to hold a BA/BS in CD/ECE or a related field as well as a NC BK or PK/K add-on license. Teachers in public or nonpublic settings may begin in an NC Pre-K classroom with a minimum of a BA/BS in child development, early education or related field, and be eligible to hold a NC Lateral Entry BK license while working to attain an NC BK or Preschool initial and continuing license within three years. Teachers holding an NC BK initial or continuing license are formally mentored and required to receive formative and summative evaluations annually and according to the licensure cycle. The AA degree in ECE/CD is permitted only as the minimum education/degree requirement for a long-term substitute teacher (up to 12 weeks). The Intervention Specialists for P-12 in Vision or Hearing Impaired would be accepted if teacher had an endorsement related to early childhood or a BK license.
- <sup>13</sup> Teacher Assistants in public schools may meet requirements specified by NCLB. NC Pre-K generally requires assistant teachers who meet NCLB requirements but do not hold a CDA to have six semester hours of ECE coursework or two years of experience in an early childhood classroom. An AA in ECE is highly encouraged for assistant teachers.
- Professional development for assistant teachers applies only to those working toward AAS Early Child Education or CDA degrees. Teachers holding a Lateral Entry license and working toward the NC BK Continuing licensure requirements will participate in a minimum of six documented semester hours per year, prescribed by a Plan of Study, a professional development plan, and the three-year Beginning Teacher Support Program (BTSP). The BTSP requires mentoring/performance evaluation. The BTSP is a three-year in-service professional development requirement for any teacher holding less than a continuing license (initial or lateral entry).
- 15 All DCDEE regulated (licensed) programs are required to meet health and safety training requirements as stipulated under the NC Child Care Rules, which would include an NC Pre-K Programs.
- The amount of mentoring/coaching that a NC BK licensed teacher receives is based on formally assessed needs that result in different types of professional development plans, including specific strategies designed in collaboration with the teacher, evaluator, and site administer (private sites). Teachers need different amounts of onsite coaching/mentoring (scaffolding, role modeling, etc.), based on each teacher's formally assessed needs. Approximately 50 contact hours per teacher with less than a BK

- Continuing License are budgeted.
- <sup>17</sup> There is additional funding through a required local match, but the amount could not be reported.
- The North Carolina Rubric for Evaluating Teachers is used to conduct formative observations and summary evaluations of teacher effectiveness for all NC Pre-K teachers (public and private) based on level and type of BK license held. Work includes teacher self assessment, mentoring, evaluation and professional development defined by assessed needs; schedule set by NC State Education Board Policy. Additionally, every NC Pre-K site receives at least one onsite monitoring visit annually by the local contracting agency, which is monitored by the state. ECERS-R evaluations are conducted as part of the rated license system.
- 19 ECERS-R observations are conducted as part of the QRIS contracted agency; DCDEE regulatory child care consultants conduct regular compliance visits per NC Child Care Rules; BK teachers receive structured formative observations/summary evaluations per North Carolina Professional Teaching Standards based on level and type of license held.
- Documentation of children's learning data collected by each local NC Pre-K program and DCDEE child care consultants monitor for compliance with collection of data. Mentors and Evaluators (for BK licensed teachers) check to ensure use of data to inform child learning (includes families), teacher planning and professional development. Results of classroom quality ECERS-R assessments are collected and reported by independent assessor to DCDEE.
- The NC Educator Effectiveness System under NC State Board Policy requires BK licensed teachers to be formally mentored/coached and evaluated using formative and summative evaluation procedures annually, based on type and level of BK licensure held. Additional information is collected about the level and number of mentoring visits and formal evaluation of NC BK licensed teachers and the number of teachers, directors, mentors and evaluators who have completed required mentor and evaluator training to prepare for NC educator licensure services. Teacher performance data: developing, proficient, accomplished or distinguished ratings are required annually and by BK licensure type. The framework is required for teachers in both nonpublic and public schools. Teachers are required to use self-assessment and mentoring services based on teachers' assessed needs using the NC Rubric for Evaluating NC Teachers/NC Professional Teaching Standards
- <sup>22</sup> Classroom staff may select from a list of approved formative assessments (see: http://ncchildcare.dhhs.state.nc.us/PDF\_forms/NCPre-K\_Program\_Requirements\_ Guidance.pdf). Staff are required to conduct ongoing (regular) formative assessments to gather information about each child's growth and skill development, as well as to inform instruction. All formative assessments used by the NC Pre-K Program must be approved by the NC Child Care Commission based on the assessment tool's ability to collect information on children's behaviors, development, skills, knowledge, strengths, needs and interests across all domains of development. Assessment tools are aligned with the NC Foundation for Early Learning and Development to meet this requirement.
- <sup>23</sup> Additional information on kindergarten assessments is found here: http://www.ncpublicschools.org/curriculum/languagearts/elementary/k2literacy/

#### **OHIO** - Ohio Early Childhood Education

- <sup>1</sup> Since 2006-2007, grants have been awarded based upon a poverty index. With new funds added in 2015-2016, grants were awarded to high-quality preschool programs located within district boundaries that have high needs (i.e., high poverty and low achievement). Ohio expanded its eligible providers to also include public districts, chartered nonpublic districts, charter schools, and child care programs. Ohio has a total of 380 grantees.
- Ohio funded 14,765 children with a per-child allocation of \$4,000. Total enrollment exceeded 14,765 children, so all enrollment breakdowns are based on 14,765 figure. Enrollment breakdowns are estimated figures based on funded enrollment of 14,765 children only and not the total cumulative enrollment. Although legislation says that children should not be age-eligible for kindergarten (age 5) when in pre-K, there are two locally determined school entrance dates (August 1 or September 30) in Ohio, so 5-year-olds may enroll in the program if they are not eligible for kindergarten. Children can turn five after August 1 but before September 30, depending on the district of residence. As such, 2,719 children were over 4 years old but not yet eligible for kindergarten. These children are counted as 4-year-olds as per the NIEER Yearbook age groupings.
- 3 House Bill 64 allows preschool to extend the day using publicly funded child care dollars for children who are eligible at or below 130% FLP.
- <sup>4</sup> There are two locally determined school entrance dates for kindergarten in Ohio (August 1 or September 30). Depending on the local district's entrance date it is possible that 5-year-olds may enroll in the program if not age eligible for kindergarten or if they turn five after August 1 but before September 30, depending on the district of residence.
- <sup>5</sup> Family income is the determining factor for this program. The program is free for families up to 100% FPL. Families between 101% and 200% FPL may pay a fee based on the district's sliding-fee scale. Programs may offer services to children above 200% FPL, but those families pay full tuition.
- <sup>6</sup> All programs are required to participate in Ohio's QRIS, Step Up To Quality (SUTQ), and are given additional points for meeting a 1:10 staff to child ratio or maximum class size of 20. Most programs are meeting this requirement and rated four or five and are receiving points for meeting these ratios.
- <sup>7</sup> Programs are required to provide breakfast, lunch, or snack depending on hours of attendance.
- In the fall of 2014, Ohio began administering the Kindergarten Readiness Assessment (KRA) to assess all domains of school readiness for all children in public school. Ohio collaborated with Maryland State Department of Education to develop the new KRA, which is administered annually between the first day of school to November 1. Ohio has also developed a new pre-K through kindergarten formative assessment, covering ages 36 to 72 months, which began implementation in 2015 within Early Childhood Education programs.
- <sup>9</sup> In all programs, at least 50% of teachers must have a BA in Early Childhood Education.
- Programs are now required to participate in Ohio's QRIS, Step Up To Quality (SUTQ), and are given extra points for attaining 30 hours of PD every two years at the star four and five levels. Most programs are attaining these levels.
- 11 Originally, the allocation was provided starting with the district with the highest poverty rate. The Ohio Department of Education funded awards of up to two classrooms per district until all dollars were allocated. With the expansion in the 2013-2014 school year, a competitive process was used to allocate funds to programs within boundaries of school districts with the highest poverty and lowest achievement on kindergarten readiness assessments and third-grade reading assessments.
- Programs receive annual licensing site visits. Additionally, on-site quality rating visits are conducted every two years for three-star centers and every three years for four- and five-star centers. Program information submitted to the state includes program documentation, teacher credentials, child assessment, self-assessment, and observations. Structured observations of classroom quality are conducted using the state created Ohio Classroom Observation Tool (OCOT). OCOT is aligned to ECERS and CLASS. Programs are also required to report child assessment data. All programs are required to participate in Ohio's QRIS—Step Up To Quality. This includes professional development hours, observations, transition plans, and family engagement review. On-site and desk reviews are conducted annually.

## OKLAHOMA - Oklahoma Early Childhood Four-Year-Old Program

- 1 There is a discrepancy between this breakdown and the total enrollment because there are two different data systems used by school districts to report enrollment numbers to the Oklahoma State Department of Education. Also, there were 2,975 students reported in other areas of the district that do not fall into one of the settings categories.
- Programs have the option of operating a part-day or a school-day program or a combination of both within each district. Most school districts operate five days per week. Programs must be offered at least 175 days per year or 1,080 hours per school year. Districts can choose to offer a longer day or year but will not receive additional state funding through the state aid formula.
- 3 The 3-year-olds enrolled qualify for special services. There are districts that utilize local funding or tuition to provide classrooms for 3-year-olds.
- <sup>4</sup> Full-day programs provide breakfast and lunch. Part-day programs provide breakfast or lunch.
- <sup>5</sup> Current immunization records for pre-K entry are required by the state of Oklahoma. If a pre-K program is in collaboration with Head Start, they must meet Head Start requirements.
- 6 The Oklahoma State Department of Education recommends and provides resources for parenting support and training, health services for children, information about nutrition, and transition-to-kindergarten activities but allow local districts to make these decisions. If a pre-K program is in collaboration with Head Start, they must meet Head Start requirements.
- 7 Transitional bilingual and summer programs along with translators and bilingual staff are available, but the amount provided may vary depending upon the funding and capacity of local school districts.

- 8 Oklahoma is currently in the process of adopting an Early Learning Inventory, which will be given during the first weeks of kindergarten. There is currently no required assessment for prekindergarten programs.
- The Oklahoma State Department of Education supports the specific needs of school districts to provide resources for special education services and assistive technology along with curriculum interventions for low performing schools.
- All pre-K teachers in Oklahoma are required to hold a BA in Early Childhood Education. There is a paraprofessional route to becoming an Early Childhood certified teacher in which a person holding a BA in any area of study can work for a minimum of a year as a paraprofessional in an early childhood classroom and pass the Oklahoma General Education Test, Oklahoma Professional Teaching Exam, and the Oklahoma Subject Area Test. Having a BA in Early Childhood or certification through the paraprofessional route are requirements for teaching in an Oklahoma pre-K classroom.
- Teacher assistants are only required to hold a high school diploma or GED and pass the FBI criminal history check. Teacher assistants employed in a Title I school must be highly qualified using one of the following methods: (1) An associate's degree or higher; (2) At least two years or 48 credit hours of study at an institution of higher education; (3) Passed the Oklahoma General Education Test; or (4) Passed the ETS Para Pro Assessment Test or the Work Keys Assessment. About 69% of schools are Title 1
- $^{12}$  Training and support for teacher assistants is provided by local districts and not regulated by the state.
- 13 Beginning in the 2018-2019 school year, teachers will be required to have a growth goal as a part of their evaluation system.
- <sup>14</sup> Teachers with low preforming schools would be supported by their local administrators.
- <sup>15</sup> The total expenditure for the Oklahoma Early Childhood Four-Year-Old Program from state funding was \$143,368,061. Of this amount, \$141,394,474 was contributed by the state aid funding formula and \$1,973,587 came from other state sources.
- <sup>16</sup> Pre-K classrooms are required to adhere to the same standards as all other public education classrooms but there is no required observation of classroom quality. Annual site visits are required in all programs.
- 17 No formal evaluations for pre-K are required at the state level. Local districts determine how to assess and support mastery of the pre-K standards.

#### **OREGON** - Oregon Head Start Prekindergarten

- <sup>1</sup> Minimum required contact time is determined by the classroom hours combined with home-visit hours offered. School- and extended-day programs (more than six hours) are generally supported with other funding. Most programs operate 3.5 to four hours per day for a school year using state funding. Figures collected by the state do not fully align with NIEER definitions for part-, school-, and extended-day programs. Programs must offer at least 3.5 hours per day for a minimum of 32 weeks per year, plus required home visits at 1.5 hours each.
- <sup>2</sup> The number of days per week is dependent on the service models/options adopted by the program, and can range from no class days per week (home-based) to five days per week.
- 3 State preK children must meet the federal Head Start income guidelines. After priority is given to families whose income is at or below 100% FPL, up to 35% of children can be enrolled whose family income is between 100% FPL and 130% FPL. If a grantee has both state preK and federal Head Start funds, 90% must meet the income requirements. If grantee has only state preK funding, 80% must meet the income requirement. Children in foster care or who are homeless are categorically eligible. A minimum of 10% of total enrollment must include children with disabilities. Locally determined risk factors determine priority for services. Risk factors are prioritized by local boards and policy councils
- 4 Programs are required to offer meals and a snack that provide one-third to one-half of the child's daily nutritional needs in part day programs. Part-day programs provide lunch and either breakfast or snack. Full-day programs serve breakfast, lunch, and snack.
- <sup>5</sup> Screenings are required to be completed within 45 days of enrollment, except immunizations which are required prior to enrollment. Requirements for screenings follow Head Start screening requirements.
- Oregon Pre-Kindergarten programs follow federal Head Start Performance Standards, which include the Head Start Early Learning Outcomes Framework. Programs are required to develop procedures for identifying children who are limited English proficient, ensure that children make progress toward acquiring English through culturally and linguistically appropriate instructional services, and inform parents of such children about instructional services used. If 50% or more of children speak a language other than English, programs must ensure that non-English speaking children are provided language support as needed. Otherwise, DLL/ELL policies related to immersion, instruction, summer language programs, translators/bilingual staff, professional development or coaching provided to teachers of ELL/DLLs are locally determined.
- Under the Head Start Reauthorization Act of 2007, all lead teachers were required to have at least an AA by October 2011; by September 30, 2013, 50% must have earned at least a BA. Some programs have participated in local partnerships (e.g., school districts) where BA-level degrees and early childhood licensure with or without special education are required as locally determined. Teacher licensure options for public schools include Birth-3rd grade and Pre-K-K (Birth-K).
- 8 Some teachers who hold at least a CDA and who are enrolled in a program leading to at least an AA may receive a temporary waiver to the AA requirement.
- 9 Local grantees partnering with agencies may receive Title I and IDEA funding but are unable to directly access those funds. Faith-based programs free of religious content are eligible to receive funding.

## PENNSYLVANIA - Pennsylvania Ready to Learn Block Grant

- No data collection occurred for the Pennsylvania Ready to Learn Block Grant program in 2015-2016 due to a significant budget impasse. Therefore, 2016-2017 data are reported.
- <sup>2</sup> Programs must operate 180 days per year.
- <sup>3</sup> Pennsylvania considers the minimum age eligibility for pre-K to be two years prior to kindergarten age. Districts determine the eligibility requirements. Children in RTL pre-K programs may not be age-eligible for kindergarten. Although the eligibility date is determined locally, Pennsylvania recommends that districts use September 1 as the entry date. Approximately 80% use this entry date. The recommended cutoff for kindergarten is 5 years old by September 1, but this is determined locally.
- <sup>4</sup> Eligibility for RTL is locally determined.
- 5 The curriculum must be standards-based, but it is decided upon locally. The state provides a list of curricula which has shown alignment with PA ELS.
- 6 Beginning in the 2009-2010, assistant teachers had to meet NCLB requirements and were required to have two years of post-secondary education/60 college credits, an AA or higher, or the ability to meet a rigorous standard of quality and to demonstrate through formal state or local assessments knowledge of the ability to assist in instruction
- <sup>7</sup> First year instructionally certified teachers are required to participate in induction.

#### PENNSYLVANIA - Pennsylvania Head Start Supplemental Assistance Program (HSSAP)

- <sup>1</sup> Data on enrollment by ethnicity are missing for 425 children.
- Programs must operate according to federal Head Start Performance Standards, which require a minimum of 3.5 hours per day, four days per week. Full-day for HSSAP is considered more than 5.5 hours per day. Center-based programs can operate four or five days per week; home-based programs offer home visits once per week with socialization days. Most programs operate between 128 and 180 days per year with a few offering full-year services of approximately 240 days per year. Collaboration with other agencies and programs is required per program regulation, but implementation is locally determined.
- <sup>3</sup> Age eligibility follows federal Head Start eligibility requirements. Most children who are age-eligible for kindergarten will not be eligible for HSSAP. The recommended age cutoff is 5 by September 1, but this is determined locally. If a child with special needs remains in the pre-K program when they are age-eligible for kindergarten, they are not funded by HSSAP, but instead by other resources.
- 4 State pre-K children must meet the federal Head Start income guidelines. Effective as of December 2007, 35% of the enrollment may be children whose family incomes are between 100 and 130% FPL after priority is given to children at or below 100% FPL. In addition to income requirements, individual Head Start agencies determine

- eligibility requirements based on their community assessments and give priority based on multiple risk factors.
- <sup>5</sup> Under the Head Start Reauthorization Act of 2007, all lead teachers were required to have at least an AA by October 2011; by September 30, 2013, 50% must have had at least a BA. By September 30, 2013, all assistant teachers must have had at least a CDA or be enrolled in a program to receive a CDA, AA, or BA within two years. If teachers are employed by a school district, ECE certification is required.
- 6 Data are missing for 12.8% of teachers (53 teachers).
- Participation in state QRIS is required for state funded HSSAP programs, this information is collected at time of application, and when the rating is received.

#### PENNSYLVANIA - Pennsylvania Kindergarten for Four-Year-Olds and School-Based Pre-K

- 1 The total number of children is an estimate. Due to a budget impasse, data sets were delayed, affecting the ability to report accurate numbers.
- <sup>2</sup> Programs are required to operate 180 days per year. School code allows pre-K to be exempted from this requirement when approved which is a locally determined decision.
- 3 K4 programs follow kindergarten requirements so there are no class size limits, but most programs have 20 children and a 1:10 staff-child ratio. School-Based Pre-K (SBPK) follows the school board regulations for pre-K that require a maximum class size of 20 and staff-child ratio of 1:10. SBPK programs determine locally whether to enroll 3-year-olds or to limit enrollment only to 4-year-olds.
- <sup>4</sup> Child assessments are locally determined.
- <sup>5</sup> School code required that pre-K curriculum and instruction must be standards-based.
- <sup>6</sup> The state provided a listing of curricula that has been aligned with PA ELS (this is required for other state-funded Pre-K programs but not K4 or SBPK). Decisions about curricula are locally determined.
- <sup>7</sup> Elementary (K-6) certification is allowed for teachers in public school settings.
- As of the 2009-2010 school year, assistant teachers in SBPK must meet NCLB requirements and are required to have two years of post-secondary education/60 college credits, an AA or higher, or the ability to meet a rigorous standard of quality and to demonstrate through formal state or local assessments knowledge of the ability to assist in instruction; there is no minimum degree required for K4 programs.
- These decisions are locally determined, when pre-K teachers are contracted by the school district; salary parity with K-3 teachers is typical, but may not always be the case. The 180 hours are required of teachers with Instructional Certification; which is required in public school classrooms (SBPK) but not nonpublic schools (K4). An induction plan is required for teachers with Instructional Certification.

## PENNSYLVANIA - Pennsylvania Pre-K Counts

- <sup>1</sup> Data on enrollment by ethnicity are missing for 1,190 children.
- <sup>2</sup> School-day programs operate for a full-day of programming which includes at least five instructional hours per day; part-day program operate for a half-day program which includes at least 2.5 instructional hours per day.
- <sup>3</sup> Children must be at least 3 years old and no more than 5 years old by the beginning of the program year. Children who are kindergarten age-eligible are not eligible for Pre-K Counts. The recommended kindergarten age cutoff is 5 by September 1, but this is locally determined. In addition, local boards may decide exceptions for kindergarten. Children whose IEPs recommend an additional third year of pre-K may continue in the Pre-K Counts program, but they may not be funded through Pre-K Counts but rather by a non-state source.
- 4 Children must meet the state-specified income requirement. Prioritization based on additional risk factors beyond income and age is locally determined.
- <sup>5</sup> A class size of 17 students is recommended. The recommended staff to child ratio is 2:17; if the 1:10 ratio is used, other qualified staff must be present on-site in case of emergency.
- <sup>6</sup> Regulation guidance was updated in 2015 to include the meal requirement for half-day programs.
- <sup>7</sup> The program is required to share screening results with families and discuss/support referral options.
- 8 The state provides guidance but not regulation on ELL/DLL supports and services which are primarily locally determined.
- 9 Curriculum companies may choose to submit an alignment at any time. The state aligned list reflects those who have voluntarily undergone the alignment process.
- <sup>10</sup> By December 2011, lead teachers in all settings had to have a BA and ECE certification. The N-3 certification will no longer be issued, though teachers who currently have it will still be able to work in the program. Teachers who do not meet this requirement are considered not in compliance, which can lower the program's score on the Program Review Instrument and affect future funding.
- 11 Assistant teachers must meet NCLB requirements and are required to have two years of post-secondary education/60 college credits, an AA or higher, or the ability to meet a rigorous standard of quality and to demonstrate through formal state or local assessments knowledge of the ability to assist in instruction.
- <sup>12</sup> The ACT 48 professional development requirement is the same for all certified teachers.
- <sup>13</sup> An induction plan is required in first year of service.

### **RHODE ISLAND - Rhode Island State Prekindergarten Program**

- Data on home language was not reported for seven children.
- These numbers reflect students leaving the program and new students entering the program.
- There is no formal partnership at the state level, but individual grantees are required to make extended-day services available either by providing such services directly or by partnering with another agency which offers such services.
- <sup>4</sup> Children must reside in the district, town, or community in which the program is offered.
- <sup>5</sup> If a child has been absent more than 20 days, they may become ineligible.
- <sup>6</sup> Additional supports for DLLs are dependent on the district and community and the qualifications and supports provided within the district or community. For example, a pre-K program that is housed within a Head Start grantee would have access to certain supports that a community-based program may not. The availability of translators or bilingual staff depends on the capacity of individual programs.
- State pre-K teachers are required to participate in comprehensive professional development focused on understanding and using the Rhode Island Early Learning and Development Standards (RIELDS).
- Rhode Island has a list of reviewed curricula where an alignment has been done based on a variety of indicators but the state has stayed away from saying the curricula are "approved" or not. HighScope and Creative Curriculum both scored high on this review and are used by some programs in the state. Information on curricula alignment can be found here: http://www.ride.ri.gov/InstructionAssessment/EarlyChildhoodEducation/EarlyLearningandDevelopmentStandards.aspx#1667794-documents
- <sup>9</sup> Information regarding alignment of subject-specific curricula will be available in 2017.
- 10 All lead teachers must have a Pre-K-2 state teaching certification, or an approved interim exception to complete the required courses in order to obtain one by taking six credits per year as a very rare exception.
- 11 Programs are required to provide prekindergarten teachers with comparable salaries to public school teachers. However, these wages are generally more along the starting salary range rather than the mid to higher tiers within public schools. Grantees must compensate all Rhode Island Pre-Kindergarten Program teachers and assistant teachers with a competitive salary and benefits based on their credentials, experience, and past performance.
- 12 There are numerous optional professional development offerings teachers may choose to participate in based on need beyond the required 20 hours per year.

- 13 The state contracts with a vendor who is available to provide in program/classroom support as well as large group support.
- 14 The Rhode Island Education Aid Foundation Formula approved in 2010 takes a phased-in approach to expanding access to high-quality pre-K, starting with communities that have a high proportion of children eligible for free and reduced-price lunch. The phased-in approach, investing \$10 million over 10 years, will ensure that pre-K expansion creates high-quality learning programs, improves access for students who need it the most, and assures a smooth transition between early childhood and K-12.
- 15 Classroom quality data obtained through QRIS assessors as well as child level measures taken at three points in time (the start of pre-K, end of pre-K, and 1st grade), will be used for the evaluation.
- <sup>16</sup> The state is in the process of developing a Kindergarten Entry Assessment which is being piloted this year. The state is hopeful that next year will be the first year of implementation.

#### SOUTH CAROLINA - South Carolina EIA Child Development Program (4K)

- Districts not participating in CDEP are required to offer, at a minimum, one half-day EIA 4K class.
- <sup>2</sup> EIA 4K is a part-day program run directly by the districts, without Office of Early Learning and Literacy (OELL) oversite. Student enrollment data are not collected at the state level, but enrollment estimates are provided.
- <sup>3</sup> After all income-eligible children are served, districts can decide on prioritizing other risk factors.
- 4 Comprehensive services are not required, but recommended, including parenting support or training, parent involvement activities, health services for children, and transition-to-K activities.
- <sup>5</sup> The newly revised ELDS will be aligned to the approved child assessments.
- <sup>6</sup> Many of the preschool programs voluntarily use the CDEP list of approved curricula.
- <sup>7</sup> Only appropriated funds for 2015-2016 are reported, actual expenditures are not available.
- <sup>8</sup> The funding formula is dependent on the number of kindergarten students qualifying for free or reduced-price lunch.
- 9 The South Carolina Department of Education Regional Literacy Specialists are conducting the monitoring visits and only using a portion of the ELLCO as a quality improvement assessment.
- <sup>10</sup> Districts must select one of the three assessments on the approved list which includes: myIGDIs, PALS-PreK, or GOLD.

#### SOUTH CAROLINA - South Carolina Child Development Education Program (CDEP)

- <sup>1</sup> The South Carolina Department of Education has administrative authority over public school districts. The Office of First Steps has authority over private child care centers
- <sup>2</sup> A total of 61 school districts participate, and there are an additional three school districts which are eligible based on the 70% or higher poverty level but elect not to participate. Private child care programs in those three districts may participate. The remaining districts do not meet the poverty level to participate.
- 3 Breakdowns are for children enrolled in the public school programs only. Breakdown is not available for 10 children's free and reduced-price lunch status, located in public schools.
- <sup>4</sup> Eligibility is based on residence in a CDEP-funded district, and income eligibility, with students meeting requirements of free or reduced-price lunch or Medicaid eligible.
- <sup>5</sup> Once all children meeting the income criteria are served, students identified as at-risk by low scores on the DIAL or those who meet the risk factors of homelessness or being in foster care may enroll.
- <sup>6</sup> Although, it is not required many districts provide vision and hearing screenings.
- <sup>7</sup> The new revised ELDS will be aligned to the approved child assessments.
- <sup>8</sup> The state is developing resources that will support the implementation of the new ELDS.
- 9 Data are only available for teachers working in public school programs.
- 10 Assistant teachers in both public schools and private centers are required to enroll in the ECD 101 TEACH college class within one year of being in the position.
- 11 In addition to the 15 clock hours annually, lead teachers in public schools are required to take six credit hours every five years.
- 12 The 15 clock hours per year must be approved by the Center for Child Care Career Development, and must include at least five hours in curriculum, five hours in child development, and five hours in health and safety, guidance, or other related topics.
- 13 There are several pilots being funded by the South Carolina Education Oversight Committee using various classroom observation tools, including ECERS, CLASS, and ELLCO.
- 14 Districts must select one of the three assessments on the approved list which includes: mylGDls, PALS-PreK, or GOLD.
- <sup>15</sup> Analysis of data has not yet been completed.

## **TENNESSEE** - Tennessee Voluntary Pre-K

- 1 Authority over the Tennessee VPK program was moved from the Division of Special Populations to the Division of Early Learning and Literacy.
- <sup>2</sup> PDG funds supported 1,648 children in new slots and 3,010 in improved slots. There were additional children funded with PDG who were not enrolled in VPK, but the exact number is unknown.
- <sup>3</sup> Tennessee has a 3-tier eligibility system. Tier 1 includes children whose income would qualify them for free or reduced-price lunch, as well as children who are homeless or in foster care. The second tier includes children who are screened and identified as at-risk due to an IEP, or who are English Language Learners. The third tier includes locally determined factors, which include (among other possibilities) parents with low education levels, parental substance abuse, risk that child will not be ready for kindergarten, teen parent, low birth weight or other health risk, or a parent on active military duty.
- <sup>4</sup> There are currently 37 curricula on the approved list, however, the list is being revised for 2017-2018.
- 5 State law passed in 2005-2006 requires at least one educational assistant per classroom to hold a CDA or AA, or actively work toward such credentials. If no person with such credentials is available, state law allows a person with a high school degree and relevant experience working with pre-K children or other early childhood programs to be employed. Assistants must demonstrate progress toward completion of a CDA to be rehired. In 2015, 51% of all assistant teachers had a CDA credential or higher level of education. There is no degree requirement for assistant teachers but they are required to receive a minimum of 12 hours of state approved professional development on ECERS, ELLCO, Personal Safety, Tennessee Early Learning Development Standards, Child Care Rules and Regulations, and Social Emotional Learning Foundations. Training may occur prior to or during employment.
- <sup>6</sup> For Assistant teachers, 18 clock hours are required the first year of employment and 12 clock hours are required the following years. In 2017-2018, the requirements will increase to 24 clock hours per year for Directors, Teachers, and Assistants; and 30 hours in 2018-2019.
- PDG funding includes an unknown number of children who did not participate in VPK. VPK funding follows the contract year (i.e. January-December), not the school year.
- Program level outcomes are incorporated into a Plan of Action, which identifies areas of weakness found as a result of the ECERS-R and ELLCO. State statute mandates that an LEA may contract only with those agencies that have received the highest star rating (three stars) from the Quality Rating System (QRS) administered by the Department of Human Services (DHS), the licensing agency for all child care programs. LEA classrooms are not required to participate in the QRS; however, all community based and Head Start child care facilities monitored by DHS must have received the highest star rating in order to partner with the LEA. Program evaluators conduct a minimum of two visits per year to each classroom for compliance with health and safety rules. All education consultant positions were eliminated in May 2013. All self-assessment documentation is submitted to the Director of Early Childhood programs.

9 No child assessment tools are currently required. In 2017-2018, the state-developed student growth portfolio will be implemented. Teachers and districts will choose an assessment from a state-approved list to demonstrate student achievement. Student achievement scores count as 15% of a teacher's evaluation. Fifty percent of the evaluation is based on classroom observation and the remaining 35% is based on student growth, which comes from a student growth portfolio model.

### **TEXAS** - Texas Public School Prekindergarten

- A district shall offer prekindergarten classes if the district identifies 15 or more eligible children who are at least 4 years of age by September 1 of the current school year. A school district may offer prekindergarten classes if the district identifies 15 or more eligible children who are at least 3 years of age.
- <sup>2</sup> Districts are required to verify eligibility. Once a student is determined to be eligible, the student remains eligible for that year in the district in which he or she resides, or is otherwise entitled to Foundation School Program benefits.
- There is no rule regarding prekindergarten class size or staff-to-child ratio, though school districts are encouraged to follow the requirements for kindergarten. If a school district contracts with a private entity to operate the district's prekindergarten program, the program must comply with child care licensing standards. The recommendation is a child to staff ratio of 11:1 with a limit of 22 children per classroom, but this is not required.
- 4 Districts are not required to serve meals to pre-K students. However, some districts do serve either breakfast or lunch, and some offer both meals. Districts offering full-day prekindergarten are required to provide lunch.
- <sup>5</sup> Other health screenings are determined locally.
- <sup>6</sup> Translators are used for Language Proficiency Assessment Committees for parents who do not speak English and during parent/teacher meetings. Each school district with an enrollment of 20 or more students of limited English proficiency in any language classification in the same grade level must offer a bilingual education or special language program. The state-level policy regulating services is for ELL only, not DLL.
- <sup>7</sup> Funding goes to providing free professional development and pre-K assessments for all public school teachers.
- <sup>8</sup> For a full list of curricula see: https://tea4avfaulk.tea.texas.gov/ematevi/EMATREPORTS/RptInst/EM\_CURR\_ADPN.pdf
- Texas does not use the term assistant teachers though paraprofessionals serve as Educational Aides I, II, and III. Educational Aide I requires at least a high school diploma and experience working with students or parents. Educational Aide II requires at least a high school diploma and one of the following requirements: two creditable years of experience; a minimum of 15 semester credit hours of college credit with emphasis on child development or related subject areas; demonstrated proficiency in a specialized skill area, as determined by the school district; or experience working with students or parents. Educational Aide III requires at least a high school diploma and one of the following: three creditable years of experience; 30 semester credit hours of college credit with some emphasis on child growth and development or related subject areas; or experience working with students or parents.
- <sup>10</sup> In the grant program that covers approximately 85% of preschool children, the teachers are required to have 30 hours each year in early childhood education including 15 hours of mentoring or instructional coaching.
- <sup>11</sup> Prekindergarten students generate formula funding based on average daily attendance (ADA), in the same manner as K-12 students, with the provision that they are eliqible for a maximum of one half-day ADA.
- 12 The state will begin to collect beginning- and end-of-year Prekindergarten Progress Monitoring Data in 2016-2017 school year.
- <sup>13</sup> Districts are required to administer a kindergarten reading instrument from a list adopted by the commissioner or by the district-level committee. Children are assessed in kindergarten at the beginning, middle, and/or end of the year, and programs are required to submit beginning-of-the-year data to the agency.

### **VERMONT** - Vermont Universal Prekindergarten Program (Act 166)

- <sup>1</sup> Act 166 requiring Universal Prekindergarten was partially implemented during the 2015-2016 school year. School districts developed agreements with private prequalified pre-K programs in towns/communities including 138 public prequalified pre-K programs and 230 private prequalified pre-K programs. Full implementation of Act 166 is required in the 2016-2017 school year.
- <sup>2</sup> Act 166 requires school districts to offer pre-K to all 3-, 4- and 5-year-olds not enrolled in kindergarten for 10 hours per week for 35 weeks over the academic year.
- <sup>3</sup> Vermont child care licensing regulations stipulate that the interior space licensed for use by children shall provide a minimum of 35 square feet of safe usable space per child for the maximum number of children using the space at one time.
- <sup>4</sup> As part of Child Find, programs screen children on their developmental growth. Vision and hearing are required under child care regulations as well. Screening information is not collected at the state level. Child Find must be conducted annually by all school districts. Child Find activities to identify (such as pre-K screening) is planned, offered and conducted by local school districts.
- <sup>5</sup> The state anticipates developing a state guidance document to support serving children who are DLL during the 2017-2018 school year.
- 6 Vermont has adopted Teaching Strategies GOLD as its child progress monitoring measure. Teaching Strategies GOLD is aligned with Vermont Early Learning Standards (VELS).
- Under the Race To the Top Early Learning Challenge grant, the VELS website is under construction. Regional trainings are occurring on the VELS and VELS family engagement training materials are being developed.
- A private prequalified prekindergarten education program operated in a licensed center-based program shall employ, or contract for the services of, at least one teacher who holds a valid Vermont educator license with an endorsement in either early childhood education or early childhood special education. The 10 hours the licensed teacher is present shall coincide with the hours of prekindergarten education paid for by tuition from districts.
- A teacher associate must be at least 20 years of age and have a high school diploma or GED, and meets one of the following qualifications: (1) a Vermont Early Childhood Career Ladder Level Three Certificate; (2) an associate degree in Early Childhood, Child or Human Development, Elementary Education, or Child and Family Services and at least 12 months experience working with groups of children in grade three or younger; (3) a Certificate of Completion from the Registered Child Care Apprenticeship Program; (4) a Child Care Certificate from the Community College of Vermont and at least 12 months experience working with groups of children in grade three or younger; (5) successful completion of 21 college credits with an early childhood or school-age focus and at least 12 months experience working with groups of children in grade 3 or younger. A teacher assistant is at least 18 years of age and has a high school graduate or GED, and meets one of the following qualifications: (1) a Vermont Early Childhood Career Ladder Level One or Two Certificate; (2) a current CDA and at least 12 months experience working with groups of children in grade three or younger; (3) a State Board of Education approved Human Services Program Certificate that emphasizes child development or early childhood education and at least 12 months experience working with groups of children in grade three or younger; (4) successful completion of the Fundamentals for Early Childhood Professionals' course or the Vermont Afterschool Essentials Certificate and at least 12 months experience working with groups of children in grade three or younger; (5) successful completion of a three college credit course in child or human development or a three college credit course for school age care and education and at least 12 months experience working with groups of children in grade three or younger.
- Lead teachers in public schools must complete an individualized professional development plan and submit their plan supporting their ECE/ECSE licensure renewal level 1 and 2 by completing necessary coursework and submitting to their local standards board for approval. Under child care licensing regulations private child care staff individualized professional development plans are updated annually and staff must complete 15 hours of annual professional development.
- 11 Currently, Vermont does not require coaching as a professional development (PD) component. There are multiple PD offerings that include coaching to support and increase implementation of evidence based practices in the early childhood setting. Early Multi-Tiered System of Supports (MTSS) is a prime example of training on content that includes practice based coaching elements to ensure implementation in the state.
- A total of \$54,629,329 was used to support Vermont's Act 62 Program. The state was unable to break this down into state, local, and federal sources. This figure likely includes funding from the State Education Fund's school funding formula, state Essential Early Education (early childhood special education) funds, and IDEA. Approximately 25% of all districts also use Title I dollars to support pre-K. However, districts do not report revenues by grade level, so actual amounts are unknown. Additional PDG funds also supported the program in 2015-2016.
- <sup>13</sup> Budgets including district costs for pre-K are determined and approved at the local level and then funded through the Education Fund. The state's Education Fund provides funding for pre-K-12 education spending.

- Vermont is moving toward using the CLASS. The CLASS is currently an option in the state's QRIS and the state has a cadre of state CLASS trainers and trainings are being offered for pre-K as well as K-3. However, CLASS data are not currently being collected at the state level. Through Act 166, the state approved monitoring system for prekindergarten programs includes collecting and evaluating information on program quality to be used to ensure continuous quality improvement through mentoring and training. Additional information collected for monitoring includes programmatic details such as the number of children served and financial investments made, as well as child school readiness and numeracy and literacy outcomes.
- 15 Vermont is in the process of designing a pre-K monitoring and improvement system. The state will be conducting a pilot during spring 2017.

## **VIRGINIA** - Virginia Preschool Initiative

- 1 Funds are available to school divisions where there are at-risk 4-year-olds not served by Head Start. School divisions can choose whether or not to take the funds.
- <sup>2</sup> A minimum of three hours per day is required for part-day programs. School-day programs are required to operate for a minimum of 5.5 hours per day.
- <sup>3</sup> A total of 15% of slots can be filled using locally determined criteria.
- <sup>4</sup> The Appropriation Act language and set of assurances does not mandate meals, but the state office offers the opportunity for all programs to provide meals. The vast majority of programs offer at least one meal a day.
- 5 It is a local decision as to who screens and refers and when. The state does not specifically require but encourages the programs to refer for services as needed.
- 6 All programs follow state pre-elementary statute and regulations. School districts partnering with Head Start programs must follow federal Head Start requirements. Support services include parenting support or training, health services for children, and nutrition information.
- <sup>7</sup> The state requires the use of PALS-PreK for all Virginia Preschool Initiative students.
- Nonpublic employers determine required credentials and specializations. In Virginia, all teachers have at least a CDA and 98% of teachers have a BA or higher. School divisions determine training and specialization requirements for assistant teachers. For program sites where public funds are paying for nonpublic personnel, localities report the highest degree and/or credential for only the teacher who is the instructional lead. The instructional lead, who must hold a BA and appropriate specialized training, supervises the classroom teachers and is responsible for management and oversight of the program's curriculum and instructional practices. This policy does not meet NIEER's benchmark requirement because the instructional lead is not required to be present at all times when children are in attendance.
- <sup>9</sup> The state does not collect data above a bachelor's degree. Only statewide percentages are available.
- Salary scales and parity are determined locally by each school division. Some may have parity some may not. Starting salaries are equivalent but the salary schedules after the starting salary are locally determined.
- The figure reported may not fully represent actual total VPI spending as these figures account for the state contribution plus the local required match. Localities can spend more local funds on VPI than their match requires but figures are not available. The state funding formula for the Virginia Preschool Initiative provides a per-pupil rate of \$6,125, of which the state pays a portion and requires a local match based on the composite index of local ability to pay. The local match is capped at half the per-pupil amount. Funds are provided to localities based on the number of at-risk 4-year-olds not served by Head Start. An estimate of the PDG funds used to enhance VPI seats is included in the total enrollment.
- $^{\rm 12}\,$  The local match is based on the local composite index.
- PALS data is collected twice a year and local plans are submitted twice a year. Site visits by state staff or consultants are no longer conducted, due to budgetary constraints. Monitoring is limited to desk review of selected program documentation and no longer includes review of program facilities, on site safety procedures, and program records. Program-level documentation reviews include state-established criteria for high-quality preschool curriculum, health and social services, transportation, and budgets.
- 14 Only PALS Pre-K is required by the state. Other domains may be assessed through locally determined curriculum assessment.

## WASHINGTON - Early Childhood Education and Assistance Program (ECEAP)

- 1 Of the three counties not served by this program, two are served by Head Start and the other is sparsely populated.
- <sup>2</sup> Slots were awarded through open competitive RFPs for the 2008-2009, 2014-2015, and 2015-2016 school years. Additional slots were awarded to existing contractors based on county poverty levels for the 2011-2012 and 2013-2014 school years.
- <sup>3</sup> The most frequent home languages other than English and Spanish are, in this order: Somali, Vietnamese, Arabic, Amharic, Russian, Chinese, Punjabi, Marshallese, and Oromo
- Washington has four operating schedule options: (1) old part-day model at 2.5 hours per day minimum; (2) new part-day model (beginning with slots awarded in 2015) at 3 hours per day minimum; (3) full school-day model at 5.5 to 6.5 hours per day; and (4) extended day at 10 or more hours per day. In 2015-2016, 24.7% of ECEAP classes were 2.5-3 hours per day, 55.5% were 3-4.5 hours per day, 14.9% were 5-7.5 hours per day (full-school day model), and 4.9% were 10-12.5 hours per day (extended-day model). Operating schedule varies by program model: part-day programs must provide a total of 320 hours per year for slots awarded before 2015 and 360 hours per year for slots awarded after 2015. Full school-day programs must be four or five days per week and extended-day programs must be five days per week. A typical part-day program operates three hours per day, three or four days per week for the school year. Many children in wraparound child care at the same site are not counted in the school day category because ECEAP program standards are not in operation during those hours.
- <sup>5</sup> In 2015-16, for the first time, ECEAP served kindergarten-eligible children in the summer before kindergarten in extended-day programs.
- <sup>6</sup> A priority point system based on a combination of income and other risk factors is used to determined eligibility. Additional risk factors include: expulsion due to behavior, in kinship care, single parent, transferring from Head Start or Early Head Start, parent deployed to combat zone in last year, parent incarcerated, mental illness, health care access, or migrant status.
- Ontractors offering sessions lasting less than three hours must provide a breakfast or lunch. An additional snack or meal must be offered when round-trip transportation extends the time children are away from home by an hour or more. Contractors providing sessions lasting three or more hours must provide breakfast or lunch, and a snack.
- 8 The Department of Early Learning began a pilot on research-based curricula in 2015-2016, purchasing Creative Curriculum or HighScope for the participating ECEAP classrooms, providing training, and supporting coaching to fidelity. Research-based curricula are being extended statewide.
- 9 HighScope and Creative Curriculum are approved. Beginning in 2016-2017, a process will be in place for ECEAP contractors to submit additional curricula for approval, based on the Head Start National Center on Quality Teaching and Learning's Preschool Curriculum Consumer Report.
- All persons serving in the role of ECEAP lead teacher must meet one of the following qualifications: (1) An associate's or higher degree with the equivalent of 30 college quarter credits in early childhood education. These 30 credits may be included in the degree or in addition to the degree; or (2) A valid Washington State Teaching Certificate with an endorsement in Early Childhood Education (Pre-K-Grade 3) or Early Childhood Special Education.
- 11 All persons serving in the role of ECEAP assistant teacher must meet one of the following qualifications: (1) Employment as an ECEAP assistant teacher in the same agency before July 1, 1999; (2) The equivalent of 12 college quarter credits in early childhood education; (3) Initial or higher Washington State Early Childhood Education Certificate; or (4) A current Child Development Associate (CDA) credential awarded by the Council for Early Childhood Professional Recognition.
- <sup>12</sup> Lead teachers and family support specialists must complete a minimum of 15 hours of professional development per year, such as workshops or classes but not including individual mentoring.
- <sup>13</sup> Professional development plans are only required by the state for staff who do not fully meet the required ECEAP qualifications and are hired provisionally based on an insufficient workforce in their region.
- <sup>14</sup> Each ECEAP contractor must provide, or have access to, a practice-based coach trained on the Early Achievers Coach Framework to: (1) Support rating readiness and ongoing continuous quality improvement; (2) Assist the contractor in identifying goals and making quality improvement plans to achieve goals, and (3) Assist the contractor in completing remedial activities within the identified timeline, when applicable.
- 15 As part of the QRIS system, Early Achievers, the Department of Early Learning contracts with the University of Washington to conduct CLASS and ERS observations.

The University of Washington consultants who conduct the observations are reliable. In addition, more frequent observations occur to ensure compliance with ECEAP performance standards

- <sup>16</sup> Teaching Strategies GOLD is used. Three to four times per year, teachers rate all objectives within the following areas: Social Emotional, Physical, Language, Cognitive, Literacy, and Mathematics. The remaining Teaching Strategies GOLD objectives (Science and Technology, Social Studies, and The Arts) are optional.
- <sup>17</sup> For 2015-2016, the Department of Early Learning collected Teaching Strategies GOLD assessment results for more than 7,500 ECEAP children who had ratings in both fall and spring of the school year. Children made progress in all areas of development. The following percentages of children moved from "below age level" to "at or above age level" during their time in ECEAP: Social-emotional development: 41%; Physical development; 35%; Language development: 35%; Cognitive development: 39%; Literacy development: 43%; Mathematics: 53%.

## WEST VIRGINIA - West Virginia Universal Pre-K

- The West Virginia Department of Education (WVDE) is responsible for the West Virginia Board of Education (WWBE) Policy 2525 overseeing universal pre-K. However, the WVDE Office of Early Learning works collaboratively with the West Virginia Department of Health and Human Resources (WVDHHR) and the West Virginia Head Start State Collaboration Office to implement WVBE Policy 2525.
- In West Virginia's collaborative model, all students are considered enrolled in public settings. The total count includes 3-year-olds in pre-K who are enrolled, but not age-eligible, including 1,003 3-year-olds with IEPS and 1,274 3-year-olds (also referred to as in the exclusion category) enrolled in pre-K program through collaborative programs (such as Head Start or child care). Children in the exclusion category are funded by a collaborating partner, but participate in pre-K funded classrooms when space is available. For example, a 3-year-old without an IEP is enrolled due to Head Start eligibility, but is not eligible through pre-K eligibility requirements. Children under three are those who transition into the pre-K program through IEP eligibility and usually transition from a Birth to Three program. These children are 3 after the September 1st age eligibility.
- <sup>3</sup> Total enrollment by home language includes only 3- and 4-year-olds. Home language was not captured for the 1,274 "exclusion" 3-year-olds who are included in the pre-K program total enrollment but are enrolled through other programs such as child care and Head Start. Home language for 434 5-year-olds was not captured in the home language total enrollment.
- <sup>4</sup> For race and ethnicity counts, the data includes only pre-K eligible children. Thus, exclusion children, children under 3-years of age, and 5-year-old children are excluded from the counts.
- <sup>5</sup> In West Virginia's collaborative model, all students are considered enrolled in public settings. The total count includes 3-year-olds in pre-K who are enrolled, but not ageeligible, including 1,274 3-year-olds enrolled in pre-K program through collaborative programs (such as Head Start or child care).
- <sup>6</sup> The number of hours per day is determined locally with a minimum of 14 hours per week and 128 days per year. Programs must operate no fewer than four days per week to meet annual and weekly operational requirements. Beginning with the 2016-2017 school year, each pre-K classroom must provide at least 1,500 minutes of instruction per week and 48,000 minutes of instruction annually.
- School-day programs and part-day program totals do not include 1,274 3-year-old children enrolled in pre-K through collaborative programs such as Head Start or child care.
- 8 There is no formal partnership at the state level to provide extended-day services through collaboration with other agencies and programs (e.g., Head Start, child care); however, partnerships are required at the local level in state policy.
- 9 Children who are 5 years old prior to September 1 shall be enrolled in kindergarten, instead of WV Pre-K, unless assessment data can determine that kindergarten placement for that child is not in the child's best interest. The WV Pre-K Child Assessment System data can be utilized for 5-year-old children previously enrolled in WV Pre-K; alternative assessment data will be necessary for 5-year-old children who are newly enrolled.
- <sup>10</sup> Maximum class size is 20 children as long as there is 35 square feet of useable space per children available. The maximum staff-child ratio is 1-10; however, two adults must be present with children regardless of class size.
- 11 Breakfast and/or lunch are required regardless of the number of hours a program operates per day, but which one is served depends on the time of day for the program. Part-day programs must offer one, and school-day programs typically offer both. Snacks are provided, depending on the meal pattern. Any meal provided during the WV Pre-K hours must be in accordance with the nutrition guidelines set forth in the WVDE National School Lunch Program.
- 12 The full physical exam must examine neurological functions, head, eyes, nose, lungs, abdomen, back, strabismus, ears, heart, skin, reflexes, neck, throat, and pulse.
- West Virginia Universal Pre-K policy requires only comprehensive curricular systems and comprehensive assessment systems that are included on the approved list shall be used by WV Pre-K classrooms, including classrooms that serve children with identified special needs. The West Virginia Early Learning Reporting System: Pre-K, inclusive of the Early Learning Scale, focuses on the formative assessment process which is utilized with all children enrolled in WV Pre-K programs, as per Policy 2520.15: Early Learning Standards Framework: Content Standards and Learning Criteria for West Virginia Pre-Kindergarten (WV Pre-k).
- 14 The West Virginia Pre-K Early Learning Standards Framework (WV ELSF) Professional Development System is a statewide professional development system designed for all early childhood educators, administrators and families as part of WV Universal Pre-K. The system provides content which is research-based, aligned with the WV Early Learning Standards Framework and the WV Pre-K Child Assessment System. This system is available in the following domains: Language and Literacy, Math and Science, Arts and Physical Development, and Social and Emotional.
- <sup>15</sup> Teachers employed by nonpublic schools must hold a minimum of a Bachelors degree and certification or a Community Program Permanent Authorization when they do not hold certification.
- <sup>16</sup> All assistant teachers must have a CDA or equivalent determined by the WWBE. The Early Childhood Classroom Assistant Teacher Authorization is a license required for all pre-K and kindergarten assistant teachers who complete a Child Development Specialist (CDA) or state equivalent.
- <sup>17</sup> State policy requires all county WV Pre-K staff, including teachers and teacher assistants/aides/ paraprofessionals to participate in 15 hours of staff development annually and based on the needs determined in the county continuous quality improvement process.
- <sup>18</sup> State-aid funding for pre-K is allocated as part of the K-12 state aid funding process.
- 19 The West Virginia Universal Pre-K Health and Safety Checklist must be conducted in all pre-K classrooms within 45 calendar days of the first day of school annually. Additionally, state policy requires each county to develop and maintain a continuous quality improvement process that utilizes annual classroom observations such as ECERS or CLASS, and aggregated child assessment data in programmatic decision-making. Classroom observation tools are locally determined.
- Results from classroom quality self-assessments are collected through each county's continuous quality improvement process. Results are reviewed by the state pre-K steering team during WV Universal Pre-K Program Reviews. WV Universal Pre-K Program Reviews are conducted once every three years in every county.
- <sup>21</sup> The WV Universal Pre-K Longitudinal Study is a multi-year study designed to assess the effects of participation in the state pre-K program. The proposed timeline of the study spans from 2015 to 2020.
- <sup>22</sup> West Virginia requires assessment reports for physical health and development and the arts based on the WV Early Learning Standards Framework: Content Standards and Learning Criteria for West Virginia Pre-Kindergarten (WV Pre-K).
- <sup>23</sup> Child outcome data was aggregated through the Early Learning Reporting System: Pre-K (ELRS: Pre-K), utilizing the Early Learning Scale and reported on page 23 of the WV School Readiness Profile 2015 which can be accessed at http://wvde.state.wv.us/ready-set-go/doc/2015-school-readiness-profile.pdf.
- <sup>24</sup> West Virginia Early Learning Reporting System: Kindergarten (ELRS:K) is an educator developed series of standards-focused reporting rubrics. Teachers report on the ELRS:K a minimum of two times per year in the areas of English Language Arts and Mathematics.

## WISCONSIN - Wisconsin Four-Year-Old Kindergarten (4K)

- <sup>1</sup> The sum of enrollment by age does not equal the total enrollment due to reporting errors.
- Tracking of English Language Learners (and with it, their primary language) does not formally begin until ACCESS testing in kindergarten. Therefore, there is probably a fair amount of under-reporting of enrollment by home language.

- <sup>3</sup> With regard to enrollment by ethnicity, data is reported to be of poor quality. It is also from two different sources, and thus the enrollment by ethnicity by age does not equal the total enrollment by age.
- <sup>4</sup> The state funds a total of 437 hours per year. Districts determine how many days per week the program operates. Districts must provide a minimum of 437 hours of direct instruction per year, or 349.5 hours of instruction plus 87.5 hours of parent outreach. Most programs are part-day, four to five days per week, but an increasing number of rural districts may offer school-day programs two or three days per week. State policies support partnerships with child care and Head Start to extend the number of hours per day or weeks per year. The 4K community approach models allow district contracts with child care, Head Start, and private schools. Additionally, most operating schedules are school year, but some districts extend the program through Head Start partnerships or local calendars.
- <sup>5</sup> Districts may contract with child care or Head Start to implement 4K. State policies also support partnerships with child care and Head Start to extend the number of hours per day or weeks per year.
- <sup>6</sup> The state law is 4 years of age as of September 1, but it does allow districts to have early entrance policies. Districts that do allow this usually only enroll children who are 3 years of age by October or November upon parental request. Sometimes children with disabilities who are under 4 years of age are also counted if they were placed in 4K. Districts are also allowed to establish policies for maximum ages.
- <sup>7</sup> If a district offers 4K, it is open for all age-eligible children. No waiting lists can exist.
- There are no state requirements (at any grade level) for class size or staff-child ratio. If a 4K program partners with a child care or Head Start program, the partnering programs' requirements apply. Districts may consider the following staff-child ratios and class sizes: a 1:10 staff-child ratio with a maximum class size of 20; a 1:13 staff-child ratio with a maximum group size of 24; and early childhood special education inclusion models; or two teachers working with groups of 16 to 20 children as advised by NAEYC. Community-approach models must follow child care or Head Start requirements.
- 9 Head Start programs must follow Head Start requirements. If a school-based program operates more than 2.5 hours per day, it must provide a meal or snack through the school nutrition program.
- 10 Literacy screening is a state requirement. Children are required (with exceptions) to have immunizations and a medical examination that may include vision, hearing, blood pressure, etc. Developmental and psychosocial screenings are routine practice. Some districts provide vision screening.
- 11 Requirements depend on how the services are defined. Parent involvement is required when districts obtain additional funds for parent outreach. Referrals for special education are required as needed. State law requires referral to social services in case of abuse or neglect. When districts partner with Head Start, they must provide services per Head Start federal standards.
- <sup>12</sup> Federal Title III requirements are followed. Specific implementation in 4K is locally determined.
- 13 The state does not have stand alone K-3 or college and career ready early grades standards. Infant toddler standards are included in Wisconsin Model Early Learning Standards (MELS). WMELS are aligned to the literacy and language arts standards. The Head Start standards are also aligned.
- <sup>14</sup> Screening and assessment practices are promoted that align with the ELDS but they are not required.
- <sup>15</sup> The state has a training and technical assistance system that includes cross sector trainers, a 15-hour training, and a variety of resources. For additional information, see: http://www.collaboratingpartners.com/wmels-about.php
- Provision of information is through early learning standards training, at conferences, through some technical assistance providers, and through web-based resources. For additional information, see: http://www.collaboratingpartners.com/curriculum-assessment-curriculum.php
- <sup>17</sup> While the 4K programs are all under the administrative authority of the school, the school can contract with child care, Head Start, and/or private schools for 4K. The teachers in these community programs need to follow the public school requirements for personnel. There are three options: (1) EC Endorsement with or without special education; (2) EC endorsement Birth to age 8; and (3) EC endorsement Birth to age 11.
- <sup>18</sup> Assistant teachers can meet one of three requirements: At least two years of higher education, an AA or higher, or meet a rigorous standard for quality through a state or local academic assessment regardless of degree. The requirements for assistant teachers in nonpublic settings reflect child care licensing regulations. School districts that are federal Head Start grantees may require assistant teachers to have an AA and assistant teacher license.
- 19 Fringe benefits are not defined at the state level and are determined by the local school boards. However, since 4K is part of the school funding formula, when the teachers are school employees, they are at parity with the school benefits. When the district uses community sites and the teachers are employees of the community program, the benefits are defined by the employing program unless parity is defined in the contract with the district. Paid planning time is not required by the state. Lead teachers must be licensed and meet state requirements for professional development related to their license renewal.
- <sup>20</sup> Licensed teachers have the option of doing a performance-based system that includes writing professional development plans, working with a mentor, and having a team review and approval. Educator effectiveness practices for licensed teachers involve individualized professional development plans. For assistant teachers, requirements for individualized professional development plans depend on the employing agency.
- <sup>21</sup> Coaching and mentoring is built into the state teacher licensing system for teachers who elect to use a professional development plan (instead of credit-based license renewal) and in the teacher effectiveness process. For additional information, see: http://dpi.wi.gov/ee
- Spending figures are estimates as 4K is part of the overall state school funding formula, and it is difficult to break out costs for only one grade level. Funding for 4K is 0.5 of the funding level for other grade levels. Districts can provide 0.6 if they provide parent outreach in addition to the full 437 hours of instructional time. Additional information can be found here: http://dpi.wi.gov/sfs/aid/general/equalization/formula
- <sup>23</sup> The Department of Public Instruction does not do onsite monitoring of programs unless they are a part of Title 1 or IDEA. 4K is considered a part of the school district and has statutory requirements to supervise all of their programs. When the 4K program is in a child care center, child care licensing occurs annually. When the 4K program is in Head Start, Head Start monitoring occurs as per the federal monitoring schedule.
- The state requires a literacy screening in 4K through 2nd grade. The state Response to Intervention and the Comprehensive Screening and Assessment Blueprint both promote ongoing assessment. For additional information, see: http://collaboratingpartners.com/curriculum-assessment-rti.php and http://www.collaboratingpartners.com/documents/Healthy\_Children\_Blueprint\_9\_28\_16F.pdf

## **WISCONSIN** - Wisconsin Head Start State Supplement

- <sup>1</sup> Funds are available to federal Head Start grantees choosing to implement the program.
- <sup>2</sup> Programs follow the federal Head Start performance standards and the grant-approved program design.
- $^{3}$  Head Start can partner with a public school to provide public 4-year-old kindergarten.
- 4 Programs follow federal Head Start eligibility requirements and local selection criteria. Children must meet the federal Head Start income guidelines. Effective as of 2007, 35% of enrollment may be children whose family incomes are between 100% and 130% FPL after priority is given to children at or below 100% FPL. Income is the primary determinant of eligibility. However, children in foster care, as well as those who are experiencing homelessness, are also eligible. With a federal waiver, children eligible for free lunch are also eligible for the program. Regulations also allow 10% of the children to be over income and 10% with disabilities to be enrolled. Each Head Start grantee can prioritize risk in their selection process. Children with more risk factors have greater priority for enrollment. Head Start grantees establish their eligibility priorities.
- Per federal Head Start requirements for single sessions.
- <sup>6</sup> The federal Head Start Performance Standards require that part-day programs provide children with at least one-third of their daily nutritional needs and school-day programs provide one-half to two-thirds of daily nutritional needs, depending on the length of the program day.
- Screenings follow federal Head Start requirements. Medical screening is done by a physician that may be the family physician or arranged by Head Start.
- <sup>8</sup> Referrals can include medical follow-up or referrals for evaluations under IDEA.
- <sup>9</sup> Services follow federal Head Start Performance Standards and local practices.
- <sup>10</sup> The standards are utilized in the state's Child Care Quality Rating system.
- 11 The state supports a comprehensive vision for screening and assessment. For additional information, see: http://www.collaboratingpartners.com/documents/Healthy\_

- Children\_Blueprint\_9\_28\_16F.pdf
- 12 The state has a training and technical assistance system that includes cross sector trainers, a 15-hour training, and a variety of resources. For additional information, see: http://www.collaboratingpartners.com/wmels-about.php
- <sup>13</sup> Provision of information through early learning standards training, at conferences, through some technical assistance providers, and through web-based resources. For additional information, see: http://www.collaboratingpartners.com/curriculum-assessment-curriculum.php
- 14 Teachers in the Head Start State Supplement programs are employees of the Head Start grantee and they must follow the federal Head Start requirements and local policies.
- <sup>15</sup> Follows federal Head Start requirements.
- <sup>16</sup> Federal Head Start monitoring procedures apply to programs when federal and state students are both served.
- <sup>17</sup> The state is informed if a Head Start grantee is found out of compliance with federal Head Start Performance Standards.
- The state requires a literacy screening in 4K through 2nd grade. The state Response to Intervention and the Comprehensive Screening and Assessment Blueprint both promote ongoing assessment. For additional information, see http://collaboratingpartners.com/curriculum-assessment-rti.php and http://www.collaboratingpartners.com/documents/Healthy\_Children\_Blueprint\_9\_28\_16F.pdf

### **GUAM** - Guam Department of Education Pilot Prekindergarten Program

- 1 The Guam Department of Education is a unitary school district, compromised of four regions. There is one Pilot Prekindergarten School in each of the regions.
- <sup>2</sup> Four Pilot Schools were selected to implement the Prekindergarten Program, one in each region.
- 3 Due to the preparation of newly constructed classrooms, the state-funded Pilot Prekindergarten Program officially opened on October 15, 2015.
- <sup>4</sup> The Pilot Prekindergarten Program is voluntary.
- <sup>5</sup> All children enrolled must complete a registration form, which includes the submission of a physical examination and a TB Clearance.
- 6 Currently, the education policies reflect those of the K-12 program. Pre-K is at its initial stages and policies may be reviewed in the future to address various programs.
- <sup>7</sup> The "Food Friends & Mighty Moves Program," a curriculum that addresses health and nutrition, is being implemented in pre-K with support from the Nutrition Program at the University of Guam.
- 8 The salary is based on the Prekindergarten Teacher's Certification.
- 9 Pre-K is in its initial stages and polices regarding classroom-embedded support will be reviewed in the future to include the pre-K teachers.
- <sup>10</sup> The initial funding provided for the personnel for Pilot Prekindergarten Program, the equipment and resources for the four classrooms, and the infrastructure of the Pilot Prekindergarten Classrooms.
- 11 The Guam Department of Education's Administrator for Research, Planning & Evaluation is conducting the Program Evaluation for the Pilot Prekindergarten Program.

## APPENDIX B: HEAD START DATA (continued)

#### **DATA SOURCES**

- a Data are from the Education Commission of the States State Pre-K Funding: 2015-16 fiscal year report and NIEER's survey of state supplements to Head Start.
- b Head Start enrollment supported by state match from the Administration for Children and Families (ACF) or as reported in NIEER's survey of state supplements to Head Start.
- c Federal spending and enrollment data from the Administration for Children and Families (ACF).
- d Data from Head Start Program Information Reports (PIR) for 2015-2016.

#### NOTES

Several state's Head Start state supplements also meet the requirements for inclusion as state-funded pre-K programs in this report. The state-funded Head Start enrollment and spending numbers reflected here match those in the state pre-K section of the report for these states: Minnesota, Oregon, Pennsylvania Head Start program, Wisconsin Head Start.

- 1 Some programs in these states meet some or all of the required non-federal share requirement for 20% of the total costs of the program to come from non-federal sources through state funds to support children. This does not represent all state funds that may be used for Head Start but those funds used to meet the federally required match. ACF did not provide enrollment by single year of age. Therefore, enrollment by age was estimated based on enrollment and proportions of all enrollees who were age 3 or age 4, as reported in the 2015-2016 Head Start PIR.
- 2 Funded enrollment was not available by single age of year. Data shown here are estimated based on the percentage of all 3- and 4-year-olds enrolled, as resported in the 2015-2016 Head Start PIR, and the total enrollment by by state as reported by ACF. These numbers do not include children funded by state match. Migrant & Seasonal and American Indian/Alaska Native (AIAN) enrollment and funding are attributed to the state where the program is headquartered, although many programs serve children across state lines throughout the year. The sum for federal Head Start funding only represents the portion of funding provided to states and does not include funding for programs in U.S. territories, but does include AIAN and Migrant & Seasonal programs. Total federal Head Start funding, including U.S. territories, was \$6,373,380,490.
- 3 The percent of children enrolled in full-day, five day per week programs includes AIAN and Migrant & Seasonal Head Start.
- 4 National salary averages include data from programs in the U.S. territories, including Puerto Rico, as well as AIAN and Migrant & Seasonal Head Start.

## **APPENDIX C: U.S. CENSUS POPULATION ESTIMATES**

## NUMBER OF 3- AND 4-YEAR-OLDS, BY STATE 2015

STATE	3-year-olds	4-year-olds	Total 3- and 4-year-olds
Alabama	58,914	59,667	118,581
Alaska	10,560	11,240	21,800
Arizona	85,473	86,205	171,678
Arkansas	38,668	38,454	77,122
California	497,601	511,262	1,008,863
Colorado	66,764	68,046	134,810
