In 1987, the Vermont Early Education Initiative (EEI) was established as an annual competitive grant program to fund early education opportunities for at-risk 3- and 4-year-olds. To be eligible to receive EEI, the prospective child must have a family income below 185 percent of the federal poverty level and/or another risk factor, such as limited English proficiency, developmental delay, social isolation, or a history of abuse or neglect. EEI grant proposals must be submitted by a partnership composed of at least one school district and one community early care and education program; either partner may be the grantee. Over the past few years, EEI funding has remained relatively stable.

Vermont established a second preschool initiative in 2003, which allows school districts to fund prekindergarten education by including 3-to 5-year-olds in their school census. Originally called the Publicly Funded Prekindergarten using Average Daily Memberships (PFP-ADM), the program name changed to Vermont Prekindergarten Education-Act 62 in the 2007-2008 program year. The pre-K programs are funded through the state’s Education Fund in the same way as K–12 education is funded, which takes previous years’ enrollment counts into consideration. Pre-K programs are offered at the local community’s discretion and child participation is voluntary. Pre-K is offered by roughly 80 percent of Vermont’s local education agencies (LEAs) through a combination of school-based programs and partnerships with private family-based or center-based providers, and/or with Head Start programs. In Act 62, “publicly funded prekindergarten education” is defined as 6 to 10 hours per week of preschool education services for children ages 3 to 5 and “full-time” pre-K is 10 hours per week during the school year. Public schools may subcontract with other preschool providers using Act 62 funds, including Head Start agencies, faith-based centers, private child care, and family child care homes for service provision.

The state initially had a cap on the number of pre-K children a district could count in its school census. Vermont’s Act 62 was amended in the spring of 2010 so that the cap would be waived for any town with a K–12 school that failed to make Adequate Yearly Progress under NCLB as of the 2010-2011 school year. During the spring of 2011, the state eliminated the pre-K caps in all towns, effective in the 2011-2012 school year. Although budgets had already been set for the 2011-2012 school year, lifting the cap may have a positive effect on enrollment for future years.

Since the 2008-2009 school year, Act 62 programs operating in nonpublic settings required only one teacher per center to have an ECE educator license, rather than requiring one teacher with an educator license in each preschool classroom. Most classrooms, however, do have a lead teacher with a BA and early childhood or early childhood special educator license in both the public and private settings. Step Ahead Recognition Systems (STARS), Vermont’s quality rating systems, adopted new rules that went into effect that same year. The new rules require all pre-K programs, including those operated by public schools, to achieve at least 4 out of 5 stars in the system or hold NAEYC accreditation. In 2011-2012, pre-K programs had a choice to use either Work Sampling System or Teaching Strategies GOLD to assess children’s progress.

The first two pages of Vermont’s profile describe the state’s overall commitment and contributions to preschool education with enrollment and state spending information for both initiatives. The next two pages provide specific details about each of Vermont’s preschool initiatives with the Vermont Prekindergarten Education-Act 62 program highlighted on the third page and the Vermont Early Education Initiative profiled on the fourth page.

† Enrollment in the Act 62 program in the 2011-2012 year was 5,260, including an estimated 886 children who were also receiving special education services. In the 2011-2012 school year, 819 children were enrolled in both the EEI and Act 62 programs. These children have been removed from the EEI enrollment figure for the state total to avoid duplication of enrollment.

† This is an estimate of children in special education who are not enrolled in state-funded pre-K or Head Start.

**Head Start per-child spending for the 2011-2012 year includes funding only for 3- and 4-year-olds served. Past years' figures have unintentionally included funds for Early Head Start.

**K-12 expenditures include capital spending as well as current operating expenditures. Data are for the '11-'12 school year, unless otherwise noted.

1 Programs are funded to operate 6-10 hours per week. Most programs operate about 3 hours/day, 6-10 hours/week, 3-4 days/week for at least 35 weeks per year.

2 Teachers in public settings must have a BA with an Early Childhood Educator (ECE) birth-grade 3 or Early Childhood Special Educator (ECSE) birth-age 5 certification. Nonpublic centers are only required to have one licensed teacher per center rather than one per classroom. Lead teachers in nonpublic settings must meet child care requirements of an AA, CDA, or Child Care post-secondary certificate. Registered child care homes require only brief supervision by a licensed teacher. The majority of lead teachers possess a BA and are certified.

3 Assistant teachers must have an AA or equivalent and must meet "highly qualified" standards in public settings. In nonpublic settings assistant teachers need to have a high school diploma and a 30-hour course in child development. Other training is not specified in Act 62 legislation and depends on the type of pre-K provider for whom they work.

4 Screenings and referrals are determined locally. Support services include home visits or parent conferences, parent involvement activities, and transition to kindergarten activities. All other comprehensive services are determined locally.

SPENDING PER CHILD ENROLLED

- EEI*
- HDST**
- K-12***

1 Teachers in public settings must have a BA with an Early Childhood Educator (ECE) birth–grade 3 or Early Childhood Special Educator (ECSE) birth–age 5 certification. State policy does not explicitly require teachers in nonpublic settings to hold a BA. All teachers in nonpublic settings must have a minimum of an AA in ECE, a CDA, or a post-secondary child care certificate (9 specific early education classes) with two years experience.

1 This is an estimate of children in special education who are not enrolled in state-funded pre-K or Head Start.
