In 1988, the Louisiana Department of Education established a goal that “children will enter kindergarten ready to learn.” That year, Louisiana began providing the Model Early Childhood Program preschool education services. This initiative ended in 1993 when matching annual appropriations for the program ended. To make up for the program, some local school districts began using the 8(g) Student Enhancement Block Grant Program to offer preschool programs to at-risk-4-year-olds. During the 2013-2014 school year, 66 of 70 districts were using these Block Grants, providing prekindergarten programs to 2,643 children. Enrollment priority is given to children from low-income families; children are qualified for the program if they are at risk of being “insufficiently ready for the regular school program.” To meet the initial goal, Louisiana operates two other state-funded preschool programs alongside the 8(g).

Louisiana’s largest pre-K program, The Cecil J. Picard LA4 Early Childhood Program (formerly LA4 and Starting Points) was established in 2001. In the 2013-2014 school year, 15,934 4-year-olds were enrolled. This state funded program is offered in most of Louisiana’s parishes as well as several charter schools and in one tribal school. Before- and after-school care is available, adding an additional possible 4 hours to the 6 hours of regular instruction. Four-year-olds eligible for free- or reduced-price lunch are also eligible to attend at no cost.

Also established in 2001, the Non-Public Schools Early Childhood Development program (NSECD) implemented a goal of reimbursing preschool tuition for enrolled children from families with incomes below 200 percent of the federal poverty level. With the implementation of Act 3 and the unification of Louisiana’s preschool programs, preschool tuition is now reimbursed for families 185 percent of the federal poverty level. Programs operate in 15 parishes throughout the state; though all parishes are have the opportunity to participate. NSECD programs are state-approved, privately run preschools offering a minimum of 6 hours of regular instruction per day and up to 4 hours of before- and after-school care.

An assessment of process quality and program impact/child outcomes for Louisiana’s three pre-K programs was conducted by the Cecil J. Picard Center for Child Development and Learning at the University of Louisiana-Lafayette in 2012-2013.

During the 2012 session, the Louisiana Legislature passed Act 3. This requires the formation of an early childhood system uniting multiple early education initiatives under the direction of the Department of Education in collaboration with other state agencies. This system will contain aligned program standards; a quality rating and improvement accountability system, in which all programs receiving state and/or federal funds will be required to participate; a unified professional development system; birth-through-five early learning and development standards; and a cross-agency integrated data system. In the 2013-2014 school year, the before- and after-care school services were discontinued, but the implementation of Act 3 will serve to create a statewide Early Care and Education Network to be piloted in 13 communities across the state. These local networks bring together public and nonpublic schools, child care, and Head Start. In the 2014-2015 school year, the state will expand the number of Community Network Pilots in order to move toward the full implementation of Act 3, scheduled for the 2015-2016 school year.

To document the contributions Louisiana makes to prekindergarten, we first present summary information reflecting the state’s overall performance through enrollment and state spending for all three programs. We then present additional details about the 8(g), the Cecil J. Picard LA4, and the NSECD programs. In 2014, Louisiana was awarded a competitive federal Preschool Development Grant for $2.4 million.

Total state pre-K spending ...........................................$74,576,140
Local match required? ........................................................No
State spending per child enrolled ..............................................$4,680
All reported spending per child enrolled* .............................................$4,806

* Pre-K programs may receive additional funds from federal or local sources that are not included in this figure.
** Head Start per-child spending for the 2013-2014 year includes funding only for 3- and 4-year-olds served. Past years figured have unintentionally included funds for Early Head Start.
*** K-12 expenditures include capital spending as well as current operating expenditures. Data are for the '13-'14 school year, unless otherwise noted.

1 The total enrollment figure does not include 351 tuition-paying students and an additional 2,740 students funded from other sources.
2 In addition to program availability in 64 of 71 school districts, 17 charter schools and one tribal school participate in the LA4 program.
3 There is no state-specified income requirement for eligibility as all age-eligible children may participate. Children who qualify for free or reduced-price lunch attend free of charge. Others may pay tuition, or school districts cover costs.
4 Teachers holding a Kindergarten license may be required to take additional coursework or demonstrate knowledge/competence to add an early childhood endorsement to their original license, permitting them to teach in Pre-K without the parish/district/charter requesting a temporary out-of-field teaching authorization. Teachers may also qualify with an Elementary certification while working toward an approved early childhood certification for a maximum of 3 years.
5 Developmental and other health screening and referral are determined locally. Support services include parent conferences or home visits, education services or job training for parents, parenting support or training, parent involvement activities, health services for children and parents, information about nutrition, referral to social services, and transition to kindergarten activities.
6 In addition to state funding, this amount includes $36,455,768 in TANF discretionary funds.

* Pre-K programs may receive additional funds from federal or local sources that are not included in this figure.
** Head Start per-child spending for the 2013-2014 year includes funding only for 3- and 4-year-olds served. Past years figure have unintentionally included funds for Early Head Start.
*** K–12 expenditures include capital spending as well as current operating expenditures. Data are for the ‘13-’14 school year, unless otherwise noted.

1 The state does not set specific income-eligibility criteria but stipulates that priority be given to children from low-income families.
2 Teachers holding a Kindergarten or Elementary license may be required to take additional coursework or demonstrate knowledge/competence to add an early childhood endorsement to their original license, permitting them to teach in pre-K without the parish/district/charter requesting a temporary out-of-field teaching authorization.
3 Teacher assistants must also have extended experiences assuming responsibility and care of children younger than age 5 and meet other district requirements.
4 Support services include education or support services for parents, parenting support or training, parent involvement activities, health services for children, referral to social services, and transition to kindergarten activities.
Since the 2007-2008 school year, only assistant teachers with at least a CDA or AA in early childhood education or family studies are hired. Incumbent assistant teachers must be enrolled in a CDA or early childhood AA program and maintain enrollment until completing the program within three years. Teachers who begin with a Kindergarten or Elementary Education certification must become an Early Childhood certified teacher by either taking the Praxis II or completing 12 hours of coursework within 3 years of their hire date.
