Operating as a single school district, Puerto Rico does not formally support a state-funded pre-kindergarten program as defined in this report; however, the territory supports several early learning initiatives.

Education in Puerto Rico consists of seven levels. Level 1 is optional nursery school for children under age 4 which is comprised of Early Head Start, Head Start, and pre-kindergarten programs. Level 2 compulsory preschool, commonly known as kindergarten, is mandatory for 5-year-olds. The Department of Education of Puerto Rico and the Puerto Rico Education Council oversee elementary and secondary public education, monitor academic standards, and issue licenses to educational institutions. Programs for preschool-age children are administered by the Administration for Integral Child Care and Development (ACUDEN), with the Department of Education having authority over early childhood special education.

ACUDEN is the administrative agency supporting Puerto Rico’s 16-member Early Childhood Advisory Board (ECAB), which has representation from agencies responsible for education, child care, higher education, Head Start, and other constituent groups. ECAB developed Unidos por la Niñez Temprana (United for Early Childhood), Puerto Rico’s state plan for services to children from birth through 5 years. In collaboration with the Department of Education, the ECAB developed and promoted the use of the Early Learning Guidelines by all early learning programs. Supervisors, directors, and teachers from a variety of early learning programs received training in implementing standards.

ACUDEN also partnered with the University of Puerto Rico and other government agencies to create and validate a 5-level QRIS instrument to measure the quality of service in centers for infants, toddlers, and preschoolers. Puerto Rico’s quality identification symbol is the Pasito meaning “baby step,” with five Pasitos identifying a high-quality center.

Puerto Rico submitted an ultimately unsuccessful application for competitive federal Race to the Top–Early Learning Challenge funding in 2011.
