ew Jersey's Supreme Court mandated in 1998 that preschool be offered to all 3- and 4-year-olds in New Jersey's highest poverty districts. As a result, the Abbott Preschool Program was developed. This initiative is provided in 31 school districts where at least 40 percent of children qualify for free or reduced-price lunch. The state Department of Education (DOE) distributes funds directly to school districts, which may then contract with Head Start programs or private child care centers to offer preschool education services. In addition to DOE funding, the Department of Human Services (DHS) may provide funding to Abbott districts and/or providers in order to offer extended-day and extended-year services. These funds were formerly used to provide services for all children enrolled in an Abbott Preschool Program. However, effective with the 2007-2008 school year, DHS vouchers were only available to families with incomes up to 300 percent of the federal poverty level.

A second state-funded preschool initiative, Non-Abbott Early Childhood Program Aid (ECPA), is provided in an additional 101 districts where 20 to 40 percent of children qualify for free or reduced-price lunch. Through ECPA funding, districts offer at least half-day preschool for 4-year-olds, operate full-day kindergarten, and improve services for children in pre-K through third grade. Preschool programs are typically housed in public school settings, although some districts may choose to contract with private child care centers or Head Start programs to offer services.

In 2004, the Early Launch to Learning Initiative (ELLI) was established as a part of New Jersey's effort to offer voluntary, high-quality preschool programs to all of the state's low-income 4-year-olds. All non-Abbott districts are encouraged to apply for funding through this third state-funded initiative. This includes school districts that already provide preschool education but require additional funding to serve more income-eligible children, as well as those wanting to improve program quality or extend program hours, including ECPA districts. The number of low-income 4-year-olds that the district will aim to serve and the intended length of the program day determine ELLI funding levels. The ELLI initiative was flat funded in the 2008-2009 program year, and therefore districts did not have the opportunity to expand their preschool education programs.

Starting in the 2009-2010 academic year, districts across all three programs will receive funding based on the School Funding Reform Act of 2008. Rather than building a zero-based budget, the formula will generate a total budget amount for each district, within which the district must build the 2009-2010 budget. Moreover, New Jersey plans to expand full-day state-funded preschool for at-risk 3- and 4-year-olds in all school districts over six years, as outlined in the School Funding Reform Act, with the goal of providing preschool for an additional 30,000 children by the 2013-2014 school year. The program was flat funded for the 2008-2009 program year. Given continuing budget problems it is unclear whether the state will maintain its commitment to the new school funding formula and serve more preschoolers in higher quality programs in the 2009-2010 school year and beyond.

In order to document the contributions New Jersey makes to preschool education through its three separate initiatives, we first present summary information reflecting the state's overall commitment to preschool. Enrollment and state spending for Abbott, ECPA, and ELLI initiatives are taken into account. Next, we present specific details about each initiative in the state. The third page of this profile focuses exclusively on the Abbott program; the fourth page focuses exclusively on the ECPA program; and the final page focuses exclusively on the ELLI program.

| K-12**  | $16,764 |

* Pre-K programs may receive additional funds from federal or local sources that are not included in this figure.
** K–12 expenditures include capital spending as well as current operating expenditures.

Data are for the ‘08–’09 school year, unless otherwise noted.

1 Only districts where at least 40 percent of children qualify for free or reduced-price lunch receive funding through this initiative. All 3- and 4-year-old children within those districts are eligible to participate.
2 Providers are only required by the Department of Education to provide a 6-hour educational program for the 180-day academic year. Providers can choose to operate a before- and after-care program and/or a full-year (245-day) program. If they choose to do so, all children meeting income requirements are paid for through the Department of Children and Families. In the 2008-2009 program year, 89 percent of Abbott children were enrolled in wrap-around care that extended program hours.
3 Approved certifications include P–3, N–K, Pre-K–6 plus two years of preschool teaching experience, Certificate of Eligibility with Advanced Standing for P–3, or Certificate of Eligibility for P–3.
4 Assistant teachers in public schools supported by Title I funding must meet the education/degree requirements specified in NCLB.
5 Dental screenings and referrals are determined locally. Support services include parenting support or training, parent involvement activities, health services for children, information about nutrition, referral to social services, and transition to kindergarten activities. The number of parent conferences or home visits is not mandated.

1 This is an estimate of children in special education who are not enrolled in state-funded pre-K or Head Start.

RESOURCES

Total state pre-K spending ..............................................$41,106,000
Local match required? ......................................................No
State spending per child enrolled ....................................$5,076
All reported spending per child enrolled* .................$5,076

* Pre-K programs may receive additional funds from federal or local sources that are not included in this figure.

** K–12 expenditures include capital spending as well as current operating expenditures.

Data are for the ‘08–’09 school year, unless otherwise noted.

1 Only districts where 20 to 40 percent of children qualify for free or reduced-price lunch receive funding through this initiative. All 3- and 4-year-old children within those districts are eligible to participate. However, the program is only open to 3-year-olds once the district has offered full-day kindergarten to all age-eligible children and either part- or full-day preschool to all 4-year-olds.

2 Part-day programs must be at least 2.75 hours per day; full-day programs must be at least 6 hours per day. Length of program day varies by districts. In some cases, both part- and full-day programs are offered. Part-day programs are most common.

3 Approved certifications include P–3, N–K, Pre-K–4 plus two years of preschool teaching experience, Certificate of Eligibility with Advanced Standing for P–3, or Certificate of Eligibility for P–3.

4 Assistant teachers in public schools supported by Title I funding must meet the education/degree requirements specified in NCLB.

5 Beginning July 1, 2008, the maximum class size changed to 18 and the staff-child ratio requirement changed to 2:18.

6 Dental screenings and referrals are determined locally. Support services include education services or job training for parents, parent involvement activities, and transition to kindergarten activities. The number of parent conferences or home visits is not mandated.

7 Meals are required in full-day programs.

8 This figure is an estimate of state funds directed to services for preschool-age children. It includes funding for five districts that were approved to expand their program for the 2008–2009 school year. Those districts were funded for full-day programs.
