Through a public school program known as Kindergarten for Four-Year-Olds (K4), about one-third of Pennsylvania’s local education agencies voluntarily provide a preschool education to 4-year-olds. Children in this program are included in districts’ daily membership counts for public school attendance and are partially funded through the state’s basic instructional subsidy formula. Additional funding is provided through local taxes, Title I, or Head Start partnerships. K4 programs are not required to follow any specific state early childhood standards.

Pennsylvania has taken several steps to expand prekindergarten opportunities and provide state funding for preschool. In 2004, the state Legislature approved a new Education Accountability Block Grant (EABG) totaling $200 million, two-thirds of which was dedicated to improving early childhood programs. Individual school districts determine how to target these funds and can use them for a range of purposes other than prekindergarten, including full-day kindergarten and reduced class sizes in kindergarten through Grade 3. Thirteen districts established new prekindergarten programs using these funds. Districts determine their own eligibility requirements for their programs, but most focus on children who are at risk economically or academically.

State funding for Head Start has also increased, and detailed data on Pennsylvania’s state Head Start supplement are provided in this report for the first time. State funds are distributed through a competitive grant process and support increased Head Start enrollment as well as extended program hours. In 2005–2006, 46 grantees received state funding, which is available only to federally approved and operating Head Start programs.

In order to document the contributions Pennsylvania makes to prekindergarten through its separate initiatives, we first present summary information reflecting the state’s overall commitment to prekindergarten. Enrollment and state spending for the K4, Education Accountability Block Grant, and Head Start initiatives are taken into account. Next, we present specific details about each initiative in the state. The third page of this profile focuses exclusively on the EABG program, the fourth page focuses exclusively on the K4 program, and the final page focuses exclusively on the state-funded Head Start program.
STATE OVERVIEW

Total state program enrollment - - - - - - - - - - - - - - 8,598
Total state spending - - - - - - - - - - - - - - - - - $24,546,965
State spending per child enrolled - - - - - - - - - - - - - - $2,954
State Head Start spending - - - - - - - - - - - - - - - - $15,000,000
State spending per 3-year-old - - - - - - - - - - - - - - $50
State spending per 4-year-old - - - - - - - - - - - - - - - $121

* Pre-K programs may receive additional funds from federal or local sources that are not included in this figure.
** K–12 expenditures include capital spending as well as current operating expenditures.
Data are for the ’04–’05 school year, unless otherwise noted.

1 These calculations do not include the K4 program, as the state was unable to provide funding information for this program.
QUALITY STANDARDS CHECKLIST

POLICY | STATE PRE-K REQUIREMENT | BENCHMARK | DOES REQUIREMENT MEET BENCHMARK?

State spending per 4-year-old | $57

SPENDING PER CHILD ENROLLED

| PRE-K | $3,188 |
| FED. HDST | $7,322 ('03–'04) |
| K–12 | $11,659 |

1 Eligibility requirements are locally determined, but most districts focus on children who are at risk academically or economically. State guidance specifies that EABG programs should target children at risk.
2 State guidance recommends that programs operate a minimum of 2.5 hours per day, 5 days per week, for the school year. It is preferred that programs operate 5 hours per day or longer.
3 In 2005, the state adopted the Early Learning Standards for Pre-Kindergarten to provide guidance for programs. The standards are comprehensive and specific to preschool-age children. Programs are not required to follow the standards, though the standards are disseminated through workshops.
4 Teachers in nonpublic settings must receive their BA within three years.
5 State guidance recommends a maximum class size of 17 students and a staff-child ratio of 2:20.
6 Programs are not required to offer meals, but state guidance strongly encourages it.
7 The state did not break EABG enrollment into specific numbers of 3- or 4-year-olds. As a result, these calculations are estimates based on proportions of enrollees who were ages 3 or 4 in states that served 3-year-olds and provided age breakdowns for 2004–2005.

K–12  $11,659

1 This enrollment total includes some children served in home-based programs.
2 Pennsylvania’s state-funded Head Start program did not break its enrollment figure into specific numbers of 3- or 4-year-olds. As a result, age breakdowns used in the Access pie chart and Resources section were also estimated, using proportions of federal Head Start enrollees in each age category.
3 The operating schedule is determined locally, but the minimum follows federal Head Start requirements of 3.5 hours per day, 4 days per week, and 32 weeks per year. Some programs offer extended care for 10 to 12 hours per day.
4 In 2005, the state adopted the Early Learning Standards for Pre-Kinder garten to provide guidance for programs. The standards are comprehensive and specific to preschool-age children. Programs are not required to follow the standards, though the standards are disseminated through workshops.
5 Programs follow federal Head Start Performance Standards, which require class sizes no larger than 20, but the state recommendation for maximum class size is 17.
6 Support services include two annual parent conferences or home visits and comprehensive services as required by federal Head Start Performance Standards.
7 All spending through this initiative is directed toward Head Start programs.
