

Virgin Islands

NO PROGRAM

The Virgin Islands does not provide a preschool program as defined by this report. However, the Department of Human Services, which houses the Office of Child Care and Regulatory Services and the Head Start Program, oversees early childhood education and care across multiple settings. The Department of Human Services uses local funds to surpass the federally required Head Start local match. The Virgin Islands Child Care Revised Rules and Regulations provide standards that all child care and early childhood education facilities, including private centers, Head Start, and Early Head Start, must follow. All early childhood education teachers and directors were required to earn a CDA credential by June 2015, and 24 hours of professional development training is required each year. These regulations also require maximum class sizes of 18 for 3-year-olds (with 1:9 staff to child ratio) and 20 for 4-year-olds (with 1:10 staff to child ratio).

Published in April 2010, the Virgin Islands Early Learning Guidelines were developed to improve the quality of care and education and focus on school readiness and provide a common set of preschool standards across all settings. The Guidelines provide advice on what children should know, understand, and be able to do by the time they reach kindergarten in the domains of language and literacy; mathematical understanding; approaches to learning; social, emotional, and values development; creativity and the arts; science; social studies; and physical health and development. The Guidelines also provide strategies for teachers, caregivers, families, and community members to help children achieve these goals. Content of the Guidelines is aligned with the Head Start Framework and the Common Core State Standards, adopted by the Department of Education.

The Virgin Islands Infant & Toddler Developmental Guidelines were released in 2013 and reflect expectations of what children should know, understand, and be able to do by the time they reach their third birthday. They are aligned with the Early Learning Guidelines and cover the same domains.
