New Hampshire does not have a state-funded pre-K program, as defined in this report. However, the state provides support for early childhood education through other means. The Department of Health and Human Services (DHHS) licenses early childhood programs and administers preschool scholarships through its child-care assistance program for low-income families. The Department of Education (DOE) oversees early childhood special education programming and progress monitoring of IDEA Part B funded preschool programs. New Hampshire school districts also use Title I funds and local funds to implement voluntary preschool programs in public schools. In 2014-2015, Title 1 funding totaling $1.7 million was spent on early childhood learning programs in the state. Through IDEA Part B and Title I, 27% of 4-year-olds in New Hampshire were supported in 2014-2015.

DOE issues both early childhood education and early childhood special education teacher licensure endorsements for birth through grade three. The New Hampshire Early Childhood and After School Professional Development System at the New Hampshire DHHS Child Development Bureau offers voluntary endorsements and credentials for professionals serving young children and their families. Groups of stakeholders in the state, including DHHS, DOE, and the Spark New Hampshire Early Childhood Advisory Council, are working together to align birth through age 8 efforts. Together, along with private partners, these groups contributed time and resources to early childhood systems-building in the state and submitted New Hampshire’s ultimately unsuccessful Preschool Development Grant Application.

The New Hampshire Early Learning Guidelines were introduced in 2005 and address development and learning for children birth through age 5. The guidelines cover multiple domains including approaches to learning, communication and literacy development, social and emotional development, physical development, creative expression and aesthetic development, and health and safety. The guidelines are aligned with New Hampshire’s academic standards as well as New Hampshire Kindergarten Readiness Indicators. The state’s new Early Learning Standards, released in 2015, align with the New Hampshire College and Career Ready Standards, by expanding to include emergent literacy, early numeracy, and science and social studies.

The Child Development Bureau within the Department of Health and Human Services administers New Hampshire’s Quality Rating and Improvement System. Categories of standards in the proposed revision include: Curriculum, Environment, and Assessment; Engaging Families and Communities as Partners; Early Childhood Administrator and Educator Qualifications; and Measured Standards of Environmental Quality and Teacher-Child Interactions using the Environmental Rating Scale (ERS) and Classroom Assessment Scoring System (CLASS), respectively.
