OVERVIEW

WHAT'S NEW
In April 2017, Governor Steve Bullock signed HB 639 authorizing the Montana STARS Preschool Pilot program. The 2018-2019 program year was the final year for implementation of the $6 million STARS Preschool Pilot, which was Montana's first state-funded preschool effort. In his proposed 2019-2020 budget, Governor Bullock included a request for $30 million to build on the success of the Pilot program, but the Montana State Legislature did not fund the request. As a result, Montana will not have a state-funded preschool program after the 2018-19 school year.

BACKGROUND
The STARS Preschool Pilot served children across 11 counties in public schools, Head Start programs, family child care providers and private preschools providing a full-day program. Programs were encouraged to enroll a minimum of 25% high needs students including, but not limited to: children who are low income; children receiving services from IDEA Part B or Part C; children who are engaged in mental health services and supports; children who are enrolled Tribal Members; and children who are homeless or at risk of becoming homeless.

Teachers in both public and private settings are required to hold a bachelor's degree, and assistant teachers must have at least two years of study in higher education, or an associate's degree in a related field. In addition to on-going teacher coaching, all classrooms are observed at least annually to ensure program quality. The state also provides professional development in the implementation of Montana's Early Learning Standards.

The Best Beginnings STARS to Quality Program is Montana's voluntary quality rating improvement system (QRIS), aligning quality indicators with support and incentives for early childhood programs and early childhood professionals. Licensed preschool programs can participate in the QRIS and earn up to five stars, indicating the level of quality. All private providers participating in STARS Preschool must achieve a level of at least 3 on Montana's QRIS.

Montana has taken advantage of recent federal grant opportunities to support preschool programs. In 2018-2019, over 1,300 children were provided with new or enhanced preschool slots under the state's federal Preschool Development Grant (PDG). Also, in 2017, Montana received another competitive federal grant through the Striving Readers Comprehensive Literacy Program to support literacy skills among disadvantaged children, and earmarked 15% of grant funding for preschool programs.
