Oklahoma

OVERVIEW

WHAT'S NEW
House Bill 2765 and Senate Bill 1048, enacted and signed into law during the 2019 legislative session, led to the largest budget for common education in state history—more than $3 billion—including an increase in funding to the state aid funding formula. The amount also provided the second consecutive pay raise for certified educators that, on average, will increase annual salaries for certified school staff by $1,220. Also during the 2018-19 school year, the Oklahoma Partnership for School Readiness Foundation, Inc. received a Preschool Development Grant Birth through Five award.

BACKGROUND
Oklahoma launched its Early Childhood Four-Year-Old Program in 1980, intending to serve all 4-year-olds in the state. In 1990, the program received statewide funding for 4-year-olds eligible for the federal Head Start program, but local areas could choose to serve additional 4-year-olds through local funds or tuition. In 1998, Oklahoma became the second state in the nation to provide free preschool for all 4-year-olds, with 99% of school districts providing the program.

Public school districts receive funding for the Early Childhood Four-Year-Old Program through the state school finance formula. A per pupil rate, calculated using the age of the child and the length of the program day, is used to repay districts. Most programs now are full-day, with some schools collaborating with other agencies and programs to provide extended-day services. In addition, funding for 3-year-olds is provided by the Oklahoma Early Childhood Program (OECP) through a pass-through from the state to public school districts.

Districts can support community providers by placing public school teachers in child-care centers, Head Start settings, tribal early childhood centers, universities and community-based programs. Children in these sites receive the same services as children in public school locations and are considered public school enrollees.

In 2016, Oklahoma adopted the Oklahoma Academic Standards which are vertically aligned pre-K to 12th grade standards. The Oklahoma State Department of Education is providing continuous professional development and support to help teachers and administrators successfully implement these standards to strengthen pre-K programs and provide effective instruction and learning beyond the early years.

During the 2017-2018 school year, the Integrating Professional Learning Focus was piloted in all school districts in the state. As part of this new law, all teachers are required to have individualized professional development plans and to receive coaching.
OKLAHOMA EARLY CHILDHOOD FOUR-YEAR-OLD PROGRAM

ACCESS

Total state pre-K enrollment ........................................ 42,606
School districts that offer state program .......................... 99%
Income requirement .................................................. No income requirement
