OVERVIEW

WHAT'S NEW
In 2019, Texas used PDG B–5 funding to conduct a statewide 0-5 needs assessment, develop a statewide 0-5 strategic plan, increase parental choice and knowledge, share best practices and improve overall quality of care. This work was led by the PDG team and the Texas Early Learning Council. Also in 2019, House Bill (HB) 3 was passed by the 86th Texas Legislature and signed into law by Governor Abbott on June 11, 2019. HB 3 impacts districts and open-enrollment charter schools serving pre-K through third grade students by addressing early education allotment, full-day high-quality pre-K for eligible 4-year-olds, expanded early education reporting, early learning progress monitoring tools (single K assessment), and early childhood partnerships.

BACKGROUND
In 1985, Texas began funding half-day prekindergarten for eligible 4-year-olds through the Texas Public School Prekindergarten program. Currently, districts with 15 or more eligible 4-year-olds are required to offer prekindergarten. Districts with 15 or more eligible 3-year-olds can also offer prekindergarten, but are not required to do so. The Texas Education Agency (TEA) Early Childhood Education Division oversees the free program in school districts and open-enrollment charter schools, and school districts are permitted to subcontract with nonpublic preschools to serve eligible children.

Students are eligible to participate in the Texas Public School Prekindergarten program if they meet at least one of the following conditions: qualify for free or reduced-price lunch (185% of FPL), are homeless, are in foster care, have a parent on active military duty or who was injured or killed on active duty, are unable to speak or comprehend English, and/or have a parent eligible for the Star of Texas Award. Funding for half-day pre-K is based on Average Daily Attendance (ADA) and provided through the Foundation School Program as part of the K–12 funding system.

In 2015, the Texas Legislature provided funding for quality improvements in Texas Public School Prekindergarten programs. Districts and open-enrollment charter schools applied for grants to implement a High-Quality Prekindergarten Grant Program. To be eligible for funding, a school district or charter school agreed to use a curriculum aligned with the Prekindergarten Guidelines, increase prekindergarten teacher training and/or qualifications, implement student progress monitoring, provide kindergarten readiness results, and develop quality family engagement plans. The agency awarded funding to 573 districts and charter schools.

In 2017, the Texas Legislature cut $15 million in supplemental pre-K funding from the state’s biennial budget, and did not continue funding the High-Quality Prekindergarten Grant program. However, that same year, lawmakers required school districts and charter schools with eligible 4-year-olds to use at least 15% of their State Foundation School Program funds on high-quality preschool efforts, and established a new prekindergarten-to-third grade teacher certification.

The Children’s Learning Institute at the University of Texas-Health Science Center, in partnership with the TEA and Texas Workforce Commission, has developed a comprehensive professional development platform for early childhood educators that is free to all public school teachers, Head Start programs, and licensed child care centers participating in the state’s quality rating and improvement system (QRIS), the Texas Rising Star program.
