Minnesota preschool programs enrolled 8,237 children in 2018-2019, an increase of 565 children from the prior year. State funding totaled $54,114,602, up $4,105,137 (8%), adjusted for inflation, since last year. State spending per child equaled $6,570 in 2018-2019, up $51 from 2017-2018, adjusted for inflation. Minnesota met an average of 5.4 of 10 quality standards benchmarks.

What’s New
The Minnesota Department of Education, in partnership with Health and Human Services, was awarded a Preschool Development Grant Birth through Five renewal award in 2019 for $26.7 million over three years. The grant will be used to fund Help Me Connect, a centralized system to connect families and those working with families to resources and direct referral to programs and services; investing in community solutions to community-identified challenges through sub-grants; pilot 4-10 local, cross-agency hubs in the state to use as a prevention strategy; explore technology supports to increase information sharing to coordinate eligibility and services; and early childhood workforce supports.

Background
Minnesota financially supplements Head Start and Early Head Start programs in order to increase access to early childhood education for children birth to age five. All state-supported Head Start programs are required to follow the Early Childhood Indicators of Progress (ECIPs), Minnesota’s early learning standards birth to kindergarten entrance as well as the federal Head Start Performance Standards. A second state-funded preschool program, Voluntary Prekindergarten (VPK), was established in 2016-2017 and funded through general education funds as a new grade level with children funded at 0.6 ADM. In 2017-2018, the state legislature created the School Readiness Plus (SRP) program, a variation of VPK. Districts could apply to be a VPK or SRP district; most chose to offer VPK. Funding for SRP will end after the 2020-2021 school year.

Across VPK and SRP, more than 7,000 seats were allocated to 124 school districts (including charter schools) at 193 public sites and 21 charter sites through an application and ranking process based on free and reduced-price lunch percentages of each elementary school in the state. The program operates a minimum of 350 hours per year and serves children who are 4-years-old by September 1. Voluntary Prekindergarten standards build on existing School Readiness standards by requiring the use of a defined list of curriculum and assessment tools aligned with the early learning standards and Kindergarten Entrance Assessment, paying knowledgeable teaching staff wages comparable to local K–12 teachers, observing teacher-child interactions to guide professional development using an approved instrument, involving parents in transition planning, and measuring the impact of the program through either a self- or state-designed tool.

Minnesota has other state-funded early childhood initiatives that are not included in this report: The Early Learning Scholarships Programs provides scholarships to eligible families with children between the ages of 3 and 4 years old as of September 1 for early childhood programs earning a Three- or Four-Star Parent Aware Rating. The School Readiness Program, under local school district control, provides preschool education and home visits with a focus on health and development screening, parent engagement and community services.

Minnesota’s overall support for state-funded preschool, including enrollment and funding for both Minnesota Head Start and VPK/SRP, is depicted in the first two pages of this state profile. The third page focuses solely on Minnesota Head Start and the fourth page provides information on VPK/SRP.
