## Alaska

**FUNDING OVERVIEW** 

\$49,079,069

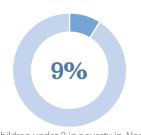

Federal Funding

**\$5,968,109** 

State Supplemental Funding

of children under 3 in poverty in Alaska enrolled in Early Head Start

#### **POVERTY**

Both Head Start and Early Head Start are falling short of reaching children in poverty, despite a decrease in the number of children in poverty.

Nationally, Head Start funding per child is less in states with higher child poverty whereas Early Head Start funding per child is higher in states with higher child poverty. How does your state compare?

Location of Head Start Centers Compared to the Percent of Families with Children under age 5 in Poverty, by County

Total Centers	98
■ Head Start	21
Early Head Start	2
■ Head Start & Early Head Start	8
■ AIAN Head Start & Early Head Start	67
■ Migrant and Seasonal Head Start	0

The location of Head Start programs in relation to where children in poverty live varies greatly by state.

In some states centers tend to be concentrated in higher poverty counties; but in other states, the location of Head Start centers is related to population density.

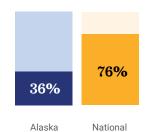

States should ensure programs are accessible to eligible families. This could include ensuring programs are located in neighborhoods near children living in poverty and/or providing transportation to a greater number of children.
