# New York

PERCENT OF STATE POPULATION ENROLLED

STATE SPENDING PER CHILD ENROLLED (2020 DOLLARS)

## OVERVIEW

New York preschool enrolled 120,139 children in 2019-2020, a decrease of 6,163 children from the prior year. State funding totaled \$834,243,200, down \$20,245,141 (2%), adjusted for inflation, since last year. State spending per child equaled \$6,944 in 2019-2020, up \$179 from 2018-2019, adjusted for inflation. New York met 7 of 10 quality standards benchmarks.

## WHAT'S NEW

New York was one of 23 states awarded a three-year PDG B–5 renewal grant for \$13.4 million per year to implement the strategic plan developed with the 2018 PDG B-5 planning grant.

In 2019, an additional \$15 million was appropriated to increase access to high quality pre-K services for 3- and 4-year-old children.

On March, 18 2020, the Governor issued an Executive Order that closed schools PreK–12 due to the COVID-19 pandemic. Centers were able to stay open for child care purposes, but not for prekindergarten instruction. Programs were required to offer remote instruction when they closed physically. In Fall 2020, districts opened for either in-person, hybrid, or virtual instruction. Districts were required to submit reopening plans.

## BACKGROUND

In 1998, New York State began its Universal Prekindergarten Program (UPK) with the goal of making prekindergarten education available to all 4-year-olds in the state, regardless of family income or other risk factors. In 2007, the Targeted Prekindergarten Program merged with UPK.

In the 2013-2014 school year, the state continued targeting its pre-K funding, launching the New York State Priority Prekindergarten Program (NYSPPK) offering competitive grants creating new full- and half-day slots for high-need children in low-income school districts and enabling districts to covert half-day slots to full-day. In 2014-2015, the Statewide Universal Full-Day Prekindergarten Program (SUFDPK) competitive grant for full-day pre-K was launched. Most of this funding (\$300 million) went to New York City, resulting in a dramatic boost in access to full-day pre-K slots for 4-year-olds; \$40 million was used to expand full-day programs in the rest of the state. Funding could be used to create additional full-day placements or to convert existing half-day slots to full-day.

In 2015-2016, the Expanded Prekindergarten for 3- and 4-Year-Old Students grant began, creating new slots for both 3- and 4-yearolds. New York also was awarded a 2014 federal Preschool Development Grant (PDG) supporting enrollment of additional low-income 4-year-olds in five school districts. In 2018-2019, nearly 78% of children were served in full-day programs.

The New York Board of Regents adopted revised comprehensive, multi-domain early learning standards in 2011 which are aligned with state K–3 standards, state college and career ready standards, and the New York State Common Core Learning Standards. New statewide P–12 Learning Standards for the Arts were fully implemented in the 2018-2019 school year. In 2012, the state implemented a voluntary quality rating and improvement system (QRIS) called QUALITYstarsNY.

In 2017-2018, all districts receiving state funds for pre-K were required to adopt approved quality indicators within two years, including, but not limited to, valid and reliable measures of environmental quality, the quality of teacher-student interactions, and child outcomes. To document districts' progress in implementing the approved quality indicators, the State Education Department (SED) implemented the NYS Pre-K Self-Assessment. Districts rate themselves as Implemented, In Process, or Not Implemented. For each area marked In Process or Not Implemented, districts develop Quality Improvement Action Plans to assess strengths and weakness in seven areas of program quality. SED staff review the plans and provide feedback to inform technical assistance and monitoring.
