APPENDIX B: HEAD START DATA (continued)

DATA SOURCES

- a Data are from NIEER's survey of state supplements to Head Start and the NIEER Yearbook survey.
- b Head Start enrollment supported by state match from the Administration for Children and Families (ACF) or as reported in NIEER's survey of state supplements to Head Start or the NIEER Yearbook survey.
- c Federal spending and enrollment data from the Administration for Children and Families (ACF). ACF did not provide enrollment by single year of age. Therefore, enrollment by age was estimated based on enrollment and proportions of all enrollees who were age 3 or age 4, as reported in the 2018-2019 Head Start PIR.
- d Data from Head Start Program Information Reports (PIR) for 2018-2019.

NOTES

Several state's Head Start state supplements also meet the requirements for inclusion as state-funded pre-K programs in this report. The state-funded Head Start enrollment and spending numbers reflected here match those in the state pre-K section of the report for these states: Minnesota Head Start, Oregon Pre-Kindergarten, Pennsylvania Head Start program, Wisconsin Head Start.

- 1 Some programs in these states meet some or all of the required non-federal share requirement for 20% of the total costs of the program to come from non-federal sources through state funds to support children. This does not represent all state funds that may be used for Head Start but those funds used to meet the federally required match. ACF did not provide enrollment by single year of age. Therefore, enrollment by age was estimated based on enrollment and proportions of all enrollees who were age 3 or age 4, as reported in the 2018-2019 Head Start PIR.
- 2 Funded enrollment was not available by single age of year. Data shown here are estimated based on the percentage of all 3- and 4-year-olds enrolled, as reported in the 2018-2019 Head Start PIR, and the total enrollment by by state as reported by ACF. These numbers do not include children funded by state match. Migrant & Seasonal and American Indian/Alaska Native (AIAN) enrollment and funding are attributed to the state where the program is headquartered, although many programs serve children across state lines throughout the year. The sum for federal Head Start funding only represents the portion of funding provided to states and does not include funding for programs in U.S. territories, but does include AIAN and Migrant & Seasonal programs. Total federal Head Start funding, including U.S. territories, was \$6,943,889,197.
- 3 The percent of children enrolled in full-day, five day per week programs includes AIAN and Migrant & Seasonal Head Start..
- 4 National salary averages include data from programs in the U.S. territories, including Puerto Rico, as well as AIAN and Migrant & Seasonal Head Start.
