

## APPENDIX A: STATE SURVEY DATA 2013-2014

STATE

ACCESS

	Name of state prekindergarten initiative
Alabama	First Class Pre-K: Alabama's Voluntary Pre-Kindergarten Program
Alaska	Alaska Prekindergarten Program
Arizona	Quality First Scholarships
Arkansas	Arkansas Better Chance/Arkansas Better Chance for School Success
California	California State Preschool Program
Colorado	Colorado Preschool Program
Connecticut	Connecticut School Readiness
Delaware	Delaware Early Childhood Assistance Program (ECAP)
District of Columbia	D.C. Public Pre-K
Florida	Florida Voluntary Prekindergarten Program
Georgia	Georgia's Pre-K Program
Illinois	Illinois Preschool for All
Iowa Shared Visions	Iowa Shared Visions
Iowa SVPP	Iowa Statewide Voluntary Preschool Program
Kansas Preschool	Kansas Preschool Program
Kansas State Pre-K	Kansas State Prekindergarten Program
Kentucky	Kentucky Preschool Program
Louisiana LA4	Cecil J. Picard LA 4 Early Childhood Program
Louisiana 8(g)	Louisiana 8(g) Student Enhancement Block Grant Program
Louisiana NSECD	Louisiana Non-Public Schools Early Childhood Development Program
Maine	Maine Public Preschool Program
Maryland	Maryland Prekindergarten Program
Massachusetts	Universal Pre- Kindergarten Grant (UPK) and Inclusive Preschool Learning Environment Grant (IPLE- Grant 391)
Michigan	Michigan Great Start Readiness Program
Minnesota	Minnesota Head Start
Missouri	Missouri Preschool Program
Nebraska	Nebraska Early Childhood Education Programs - Ages 3 to 5
Nevada	Nevada State PreKindergarten Education Program
New Jersey Abbott	New Jersey Former Abbott Preschool Program
New Jersey ELLI	New Jersey Former Early Launch to Learning Initiative
New Jersey ECPA	New Jersey Former Non-Abbott Early Childhood Program Aid
New Mexico	New Mexico PreK
New York	New York Universal Prekindergarten
North Carolina	North Carolina Pre-Kindergarten Program
Ohio	Ohio Early Childhood Education
Oklahoma	Oklahoma Early Childhood Four-Year-Old Program
Oregon	Oregon Head Start Prekindergarten
Pennsylvania EABG	Pennsylvania Education Accountability Block Grant
Pennsylvania HSSAP	Pennsylvania Head Start Supplemental Assistance Program
Pennsylvania K4 & SBPK	Pennsylvania Kindergarten for Four-Year-Olds and School Based Pre-K
Pennsylvania Pre-K Counts	Pennsylvania Pre-K Counts
Rhode Island	Rhode Island State Prekindergarten Program
South Carolina CDEPP	South Carolina Child Development Education Pilot Program (CDEPP)
South Carolina 4K	South Carolina Half-Day Child Development Program (4K)
Tennessee	Tennessee Voluntary Pre-K
Texas	Texas Public School Prekindergarten
Vermont EEI	Vermont Early Education Initiative
Vermont Act 62	Vermont Prekindergarten Education - Act 62
Virginia	Virginia Preschool Initiative
Washington	Washington Early Childhood Education and Assistance Program (ECEAP)
West Virginia	West Virginia Universal Pre-K
Wisconsin 4K	Wisconsin Four-Year-Old Kindergarten Program
Wisconsin HdSt	Wisconsin Head Start State Supplement

Footnotes are grouped by state at the end of Appendix A. Unless noted, all data are for the '13-'14 school year, except Minnesota which is for the '12-'13 school year.

## STATE

## ACCESS

State agency with administrative authority over state pre-K

Alabama	Office of School Readiness in the Alabama Department of Children's Affairs under the Governor's Office <sup>1</sup>
Alaska	Alaska Department of Education and Early Development
Arizona	First Things First, a state agency <sup>1</sup>
Arkansas	Arkansas Department of Education; Division of Child Care and Early Childhood Education
California	California Department of Education
Colorado	Colorado Department of Education
Connecticut	Connecticut Office of Early Childhood <sup>1</sup>
Delaware	Early Development and Learning Resources
District of Columbia	Office of the State Superintendent of Education (OSSE) <sup>1</sup>
Florida	Office of Early Learning; Florida Department of Children and Families <sup>1</sup>
Georgia	Bright from the Start: Georgia Department of Early Care and Learning
Illinois	Illinois State Board of Education
Iowa Shared Visions	Iowa Department of Education
Iowa SVPP	Iowa Department of Education
Kansas Preschool	Kansas State Department of Education
Kansas State Pre-K	Kansas State Department of Education
Kentucky	Kentucky Department of Education
Louisiana LA4	Louisiana Department of Education Division of Early Childhood Programs <sup>1</sup>
Louisiana 8(g)	Louisiana Board of Elementary and Secondary Education
Louisiana NSECD	Louisiana Department of Education <sup>1</sup>
Maine	Maine Department of Education
Maryland	Maryland State Department of Education
Massachusetts	Massachusetts Department of Early Education and Care <sup>1</sup>
Michigan	Office of Great Start
Minnesota	Minnesota Department of Education; Office of Early Learning; State Head Start Collaboration Office
Missouri	Missouri Department of Elementary & Secondary Education
Nebraska	Nebraska Department of Education
Nevada	Nevada Department of Education
New Jersey Abbott	Division of Early Childhood Education State Head Start Collaboration Office; Department of Human Services, Division of Family Development; Department of Children and Families, Office of Licensing <sup>1</sup>
New Jersey ELLI	Division of Early Childhood Education; Division of Family Development; Department of Children and Families, Office of Licensing <sup>1</sup>
New Jersey ECPA	Division of Early Childhood Education; Division of Family Development; Department of Children and Families, Office of Licensing <sup>1</sup>
New Mexico	New Mexico Public Education Department; Children, Youth and Families Department
New York	Office of Early Learning <sup>1</sup>
North Carolina	North Carolina Department of Health and Human Services, Division of Child Development and Early Education <sup>1</sup>
Ohio	Office of Early Learning and School Readiness
Oklahoma	Office of Instruction-Early Childhood
Oregon	Early Learning Division, Oregon Department of Education
Pennsylvania EABG	Pennsylvania Department of Education <sup>1</sup>
Pennsylvania HSSAP	Pennsylvania Department of Education
Pennsylvania K4 & SBPK	Pennsylvania Department of Education <sup>1</sup>
Pennsylvania Pre-K Counts	Pennsylvania Department of Education
Rhode Island	State Department of Education
South Carolina CDEPP	Office of Teacher Effectiveness, S.C. First Steps <sup>1</sup>
South Carolina 4K	Office of Teacher Effectiveness
Tennessee	Office of Curriculum and Instruction
Texas	Texas Education Agency
Vermont EEI	Vermont Agency of Education
Vermont Act 62	Vermont Agency of Education; Agency of Human Services, Department for Children and Families <sup>1</sup>
Virginia	Virginia Department of Education
Washington	Washington State Department of Early Learning
West Virginia	Office of Early Learning Division of Early Care and Education <sup>1</sup>
Wisconsin 4K	Wisconsin Department of Public Instruction
Wisconsin HdSt	Wisconsin Department of Public Instruction

Footnotes are grouped by state at the end of Appendix A. Unless noted, all data are for the '13-'14 school year, except Minnesota which is for the '12-'13 school year.

## STATE

## ACCESS

	Availability of program	Are districts, etc., required to offer programs?
Alabama	67 out of 67 counties/parishes (100%)	No, competitive
Alaska	8 out of 54 school districts (15%) <sup>1</sup>	No, competitive
Arizona	23 out of 31 Regional Partnership Councils (74%) <sup>2</sup>	No, optional <sup>3</sup>
Arkansas	230 out of 237 school districts (97%)	Required for some <sup>1</sup>
California	56 out of 58 counties/parishes (96%)	No, competitive
Colorado	171 out of 178 school districts (96%) <sup>1</sup>	No, competitive <sup>2</sup>
Connecticut	67 out of 169 towns/communities (40%) <sup>2</sup>	No, optional <sup>2</sup>
Delaware	3 out of 3 counties/parishes (100%)	No, competitive <sup>1</sup>
District of Columbia	1 out of 1 school districts (100%) <sup>2</sup>	No, optional
Florida	67 out of 67 school districts (100%)	Required for all <sup>2</sup>
Georgia	159 out of 159 counties (100%)	No, competitive
Illinois	102 out of 102 counties/parishes (100%) <sup>1</sup>	No, competitive
Iowa Shared Visions	32 out of 346 school districts (9%)	No, competitive
Iowa SVPP	314 out of 338 school districts (92%)	No, optional
Kansas Preschool	14 out of 105 counties/parishes (13%)	No, competitive
Kansas State Pre-K	181 out of 286 school districts (63%)	No, optional <sup>1</sup>
Kentucky	173 out of 173 school districts (100%)	Required for all
Louisiana LA4	64 out of 71 school districts (90%) <sup>2</sup>	No, competitive <sup>3</sup>
Louisiana 8(g)	66 out of 70 school districts (94%)	No, optional <sup>1</sup>
Louisiana NSECD	15 out of 64 counties/parishes (23%) <sup>2</sup>	No, competitive <sup>2</sup>
Maine	206 out of 319 school districts (64%) <sup>1</sup>	No, optional <sup>2</sup>
Maryland	24 out of 24 school districts (100%) <sup>1</sup>	Required for all
Massachusetts	220 out of 351 towns/communities (63%) <sup>2</sup>	No, competitive <sup>2</sup>
Michigan	333 out of 545 school districts (61%) <sup>1</sup>	No, optional <sup>2</sup>
Minnesota	87 out of 87 counties/parishes (100%)	Required for all <sup>1</sup>
Missouri	157 out of 518 school districts (30%)	No, competitive
Nebraska	194 out of 249 school districts (78%)	No, competitive <sup>1</sup>
Nevada	10 out of 17 school districts (59%) <sup>1</sup>	No, competitive
New Jersey Abbott	35 out of 590 school districts (6%) <sup>2</sup>	Required for some <sup>2</sup>
New Jersey ELLI	24 out of 590 school districts (4%) <sup>2</sup>	No, competitive
New Jersey ECPA	93 out of 590 school districts (16%) <sup>2</sup>	Required for some <sup>2</sup>
New Mexico	54 out of 89 school districts (61%) <sup>1</sup>	No, competitive
New York	443 out of 677 school districts (65%)	No, optional <sup>2</sup>
North Carolina	100 out of 100 counties/parishes (100%)	No, optional <sup>2</sup>
Ohio	273 out of 611 school districts (45%) <sup>1</sup>	No, competitive grant program <sup>1</sup>
Oklahoma	512 out of 520 school districts (98%)	No, optional
Oregon	36 out of 36 counties (100%)	No, competitive
Pennsylvania EABG	15 out of 500 school districts (3%)	No, optional <sup>1</sup>
Pennsylvania HSSAP	111 out of 500 school districts (22%)	No, competitive <sup>1</sup>
Pennsylvania K4 & SBPK	92 out of 500 school districts (18%)	No, optional
Pennsylvania Pre-K Counts	405 out of 500 school districts (81%)	No, competitive <sup>1</sup>
Rhode Island	7 out of 40 towns/communities (17%)	No, competitive
South Carolina CDEPP	47 out of 83 school districts (57%) <sup>2</sup>	No, optional <sup>2</sup>
South Carolina 4K	47 out of 83 school districts (57%) <sup>1</sup>	Required for all <sup>1</sup>
Tennessee	135 out of 135 school districts (100%)	No, competitive
Texas	1047 out of 1227 school districts (85%)	Required for some <sup>1</sup>
Vermont EEI	35 out of 61 school districts (57%) <sup>1</sup>	No, competitive <sup>1</sup>
Vermont Act 62	228 out of 251 towns/communities (91%)	No, optional
Virginia	119 out of 135 school districts (88%) <sup>1</sup>	No, optional for eligible localities. <sup>1</sup>
Washington	36 out of 39 counties/parishes (92%) <sup>1</sup>	No, competitive <sup>2</sup>
West Virginia	55 out of 55 school districts (100%)	Required for all
Wisconsin 4K	386 out of 413 school districts (93%) <sup>1</sup>	No, optional <sup>1</sup>
Wisconsin HdSt	38 out of 38 Federal Head Start Grantees (100%)	Required for some <sup>1</sup>

Footnotes are grouped by state at the end of Appendix A. Unless noted, all data are for the '13-'14 school year, except Minnesota which is for the '12-'13 school year.

## STATE

## ACCESS

	Program enrollment – Fall 2013, total	Program enrollment – Fall 2013, by age	Number of English Language Learners
Alabama	5,505	5,505 4-year-olds	1,655
Alaska	291	291 4-year-olds	Exact number unknown
Arizona	7,977	776 under age 3; 1,084 3-year-olds; 3,374 4-year-olds; 2,743 5-year-olds <sup>4</sup>	Exact number unknown
Arkansas	20,023	439 under age 3; 4,898 3-year-olds; 12,586 4-year-olds; 2,100 5-year-olds <sup>2</sup>	1,160
California	132,397	43,055 3-year-olds; 88,708 4-year-olds; 634 5-year-olds	Exact number unknown
Colorado	20,850	359 under age 3; 5,194 3-year-olds; 15,259 4-year-olds; 38 5-year-olds <sup>3</sup>	Exact number unknown
Connecticut	9,291	2,347 3-year-olds; 5,381 4-year-olds; 1,563 5-year-olds <sup>3</sup>	Exact number unknown
Delaware	843	635 4-year-olds; 208 5-year-olds	Exact number unknown
District of Columbia	12,426	286 under age 3; 5,364 3-year-olds; 6,616 4-year-olds; 160 5-year-olds <sup>3</sup>	Exact number unknown
Florida	170,266	170,266 4-year-olds <sup>3</sup>	Exact number unknown
Georgia	81,453	81,453 4-year-olds <sup>1</sup>	8,666
Illinois	75,231	31,225 3-year-olds; 43,778 4-year-olds; 228 5-year-olds <sup>1</sup>	15,922
Iowa Shared Visions	1,716	616 3-year-olds; 1,081 4-year-olds; 19 5-year-olds	Exact number unknown
Iowa SVPP	24,167	919 3-year-olds; 22,783 4-year-olds; 510 5-year-olds <sup>1</sup>	Exact number unknown
Kansas Preschool	1,159	1,159 4-year-olds <sup>1</sup>	Exact number unknown
Kansas State Pre-K	7,109	7,109 4-year-olds	1,703
Kentucky	20,558	4,088 3-year-olds; 16,470 4-year-olds <sup>1</sup>	1,187 state-funded ELL children
Louisiana LA4	15,934	15,934 4-year-olds <sup>4</sup>	798
Louisiana 8(g)	2,551	2,551 4-year-olds	Exact number unknown-this agency doesn't collect this data.
Louisiana NSECD	1,283	1,283 4-year-olds <sup>3</sup>	Exact number unknown
Maine	4,932	4,721 4-year-olds; 211 5-year-olds	75
Maryland	29,531	3,173 3-year-olds; 26,358 4-year-olds <sup>2</sup>	Exact number unknown
Massachusetts	12,991	Breakdown not available <sup>3</sup>	Exact number unknown
Michigan	30,552	30,552 4-year-olds <sup>3</sup>	Exact number unknown
Minnesota	1,740	Breakdown not available	32 percent of Head Start children statewide (across funding streams) spoke languages other than English at home.
Missouri	3,874	1,246 3-year-olds; 2,628 4-year-olds <sup>1</sup>	164
Nebraska	11,852	480 under age 3; 3,291 3-year-olds; 7,995 4-year-olds; 86 5-year-olds	638
Nevada	1,401	1,401 4-year-olds <sup>2</sup>	Exact number unknown
New Jersey Abbott	43,896	20,259 3-year-olds; 23,637 4-year-olds	Exact number unknown
New Jersey ELLI	602	602 4-year-olds <sup>3</sup>	Unknown
New Jersey ECPA	7,309	410 3-year-olds; 6,899 4-year-olds	Unknown
New Mexico	7,674	7,674 4-year-olds	Exact number unknown
New York	98,910	215 3-year-olds; 98,695 4-year-olds <sup>3</sup>	Exact number unknown
North Carolina	26,617	26,617 4-year-olds	4,436
Ohio	8,150	162 under age 3; 2,199 3-year-olds; 4,772 4-year-olds; 1,017 5-year-olds <sup>2</sup>	63
Oklahoma	40,823	40,823 4-year-olds <sup>1</sup>	3,552
Oregon	7,209	2,582 3-year-olds; 4,627 4-year-olds <sup>1</sup>	2,296
Pennsylvania EABG	2,391	Breakdown not available <sup>2</sup>	Exact number unknown
Pennsylvania HSSAP	5,643	Breakdown not available <sup>2</sup>	Exact number unknown
Pennsylvania K4 & SBPK	4,982	Breakdown not available <sup>2</sup>	Exact number unknown
Pennsylvania Pre-K Counts	12,131	80 under age 3; 3,960 3-year-olds; 7,939 4-year-olds; 148 5-year-olds; 4 6-year-olds <sup>2</sup>	1,378
Rhode Island	234	234 4-year-olds	59
South Carolina CDEPP	7,985	7,985 4-year-olds <sup>3</sup>	Exact number unknown
South Carolina 4K	19,441	Breakdown not available <sup>1</sup>	Exact number unknown
Tennessee	18,609	601 3-year-olds; 17,893 4-year-olds; 115 5-year-olds <sup>1</sup>	Exact number unknown
Texas	226,226	13 under age 3; 22,565 3-year-olds; 203,648 4-year-olds <sup>2</sup>	96,772
Vermont EEI	1,031	454 3-year-olds; 547 4-year-olds; 30 5-year-olds <sup>2</sup>	68
Vermont Act 62	6,843	Breakdown not available <sup>2</sup>	Exact number unknown
Virginia	18,021	18,021 4-year-olds	Exact number unknown
Washington	8,741	1,686 3-year-olds; 7,055 4-year-olds <sup>3</sup>	3,042
West Virginia	16,834	62 under age 3; 2,306 3-year-olds; 14,043 4-year-olds; 423 5-year-olds <sup>2</sup>	Exact number unknown
Wisconsin 4K	48,590	Breakdown not available <sup>2</sup>	Exact number unknown
Wisconsin HdSt	1,097	Breakdown not available <sup>2</sup>	Exact number unknown

Footnotes are grouped by state at the end of Appendix A. Unless noted, all data are for the '13-'14 school year, except Minnesota which is for the '12-'13 school year.

## STATE

## ACCESS

Are children receiving special education services counted in enrollment total?

Alabama	Yes <sup>2</sup>
Alaska	Yes <sup>2</sup>
Arizona	Yes
Arkansas	Yes
California	Yes
Colorado	No, children who receive special education services may attend state pre-K classrooms, but are not counted in state pre-K enrollment
Connecticut	Yes
Delaware	Yes
District of Columbia	Yes <sup>4</sup>
Florida	Yes
Georgia	Yes <sup>2</sup>
Illinois	Yes
Iowa Shared Visions	Yes
Iowa SVPP	Yes <sup>1</sup>
Kansas Preschool	No, children who receive special education services may attend state pre-K classrooms, but are not counted in state pre-K enrollment <sup>2</sup>
Kansas State Pre-K	No, children who receive special education services may attend state pre-K classrooms, but are not counted in state pre-K enrollment
Kentucky	Yes
Louisiana LA4	Yes <sup>5</sup>
Louisiana 8(g)	Yes
Louisiana NSECD	No, children who receive special education services may attend state pre-K classrooms, but are not counted in state pre-K enrollment <sup>4</sup>
Maine	No, children who receive special education services may attend state pre-K classrooms, but are not counted in state pre-K enrollment <sup>3</sup>
Maryland	No, children who receive special education services may attend state pre-K classrooms, but are not counted in state pre-K enrollment <sup>3</sup>
Massachusetts	Yes <sup>4</sup>
Michigan	Yes <sup>4</sup>
Minnesota	Yes
Missouri	Yes
Nebraska	Yes
Nevada	Yes
New Jersey Abbott	No, children who receive special education services may attend state pre-K classrooms, but are not counted in state pre-K enrollment
New Jersey ELLI	No, children who receive special education services may attend state pre-K classrooms, but are not counted in state pre-K enrollment <sup>4</sup>
New Jersey ECPA	No, children who receive special education services may attend state pre-K classrooms, but are not counted in state pre-K enrollment
New Mexico	No, children who receive special education services may attend state pre-K classrooms, but are not counted in state pre-K enrollment
New York	Yes
North Carolina	Yes
Ohio	Yes
Oklahoma	Yes
Oregon	Yes
Pennsylvania EABG	Yes
Pennsylvania HSSAP	Yes
Pennsylvania K4 & SBPK	Yes
Pennsylvania Pre-K Counts	Yes
Rhode Island	Yes
South Carolina CDEPP	Yes
South Carolina 4K	Yes <sup>2</sup>
Tennessee	Yes <sup>2</sup>
Texas	Yes <sup>3</sup>
Vermont EEI	Yes
Vermont Act 62	Yes <sup>2</sup>
Virginia	Yes <sup>2</sup>
Washington	Yes
West Virginia	Yes
Wisconsin 4K	Yes
Wisconsin HdSt	Yes

Footnotes are grouped by state at the end of Appendix A. Unless noted, all data are for the '13-'14 school year, except Minnesota which is for the '12-'13 school year.

## STATE

## OPERATING SCHEDULE

Is there a formal state-level partnership to provide extended day services through collaboration with other agencies?

	Hours of operation per day	Is there a formal state-level partnership to provide extended day services through collaboration with other agencies?
Alabama	School day, 6.5	No
Alaska	Part day, at least 3 but no more than 5 hours/day <sup>4</sup>	No <sup>4</sup>
Arizona	Determined locally <sup>6</sup>	No <sup>7</sup>
Arkansas	School day, 7 instructional hours/day	No <sup>5</sup>
California	School day, 6 hours/day; Part day, 3 hours/day <sup>1</sup>	Yes, California regulations allow Head Start to braid and blend funding <sup>1</sup>
Colorado	Part day, 2.5 hours/day for 4 days/week or equivalent <sup>5</sup>	No <sup>5</sup>
Connecticut	Determined locally <sup>4</sup>	Yes, partnerships through state grants and contracts <sup>4</sup>
Delaware	Part day, 3.5 hours/day <sup>2</sup>	Yes <sup>2</sup>
District of Columbia	School day, 8 hours/day <sup>6</sup>	Yes <sup>6</sup>
Florida	Determined locally <sup>5</sup>	No <sup>5</sup>
Georgia	School day, 6.5 hours/day	Yes, Head Start, Childcare and Parent Services (CAPS) <sup>3</sup>
Illinois	School day, 4.5 to 8 hours/day; Part day, 2.5 to 3.5 hours/day <sup>2</sup>	No <sup>2</sup>
Iowa Shared Visions	Determined locally, Varies by program <sup>2</sup>	No <sup>2</sup>
Iowa SVPP	Part day, at least 10 hours/week	No <sup>3</sup>
Kansas Preschool	Determined locally <sup>3</sup>	No <sup>3</sup>
Kansas State Pre-K	Part day, 3 hours/day <sup>2</sup>	No <sup>2</sup>
Kentucky	Part day, 2.5 hours/day plus a meal <sup>3</sup>	No <sup>4</sup>
Louisiana LA4	School day, 6 hours/day <sup>7</sup>	No <sup>7</sup>
Louisiana 8(g)	School day, 6 hours/day	No
Louisiana NSECD	Extended day, 10 hours/day <sup>6</sup>	No <sup>6</sup>
Maine	Determined locally, 10 hours/week <sup>4</sup>	No <sup>4</sup>
Maryland	School day, 6.5 hours/day; Part day, 2.5 hours/day <sup>4</sup>	Yes, Head Start providers and child care centers <sup>4</sup>
Massachusetts	Determined locally, varies by program <sup>5</sup>	No <sup>5</sup>
Michigan	School day, 6.5 hours/day; Part day, 3 hours/day <sup>5</sup>	Yes <sup>5</sup>
Minnesota	Determined locally	Yes <sup>2</sup>
Missouri	Determined locally, 3 - 6.5 hours/day <sup>2</sup>	No <sup>2</sup>
Nebraska	Determined locally <sup>2</sup>	No <sup>2</sup>
Nevada	Determined locally, minimum of 10 hours/week <sup>4</sup>	No <sup>3</sup>
New Jersey Abbott	School day, 6 hours/day <sup>4</sup>	Yes, wraparound through DHS <sup>4</sup>
New Jersey ELLI	School day, 6 hours/day; Part day, 2.5 hours/day or more <sup>5</sup>	Yes <sup>5</sup>
New Jersey ECPA	Determined locally, 2.5 - 6 hours/day <sup>4</sup>	Yes <sup>4</sup>
New Mexico	Determined locally, Most common schedule is 3 to 3.5 hours per day <sup>2</sup>	No <sup>2</sup>
New York	Part day, 2.5 hours/day <sup>5</sup>	No <sup>5</sup>
North Carolina	School day, 6.5 hours/day <sup>3</sup>	No <sup>3</sup>
Ohio	Determined locally, 12.5 hours minimum/week <sup>3</sup>	No
Oklahoma	School day, 6 hours/day; Part day, 2.5 hours/day <sup>4</sup>	No <sup>4</sup>
Oregon	School day, 6 hours/day; Part day, 3.5 hours/day <sup>3</sup>	No
Pennsylvania EABG	Determined locally <sup>4</sup>	No <sup>4</sup>
Pennsylvania HSSAP	School day, 5.5 hours/day; Part day, 3.5 hours/day <sup>3</sup>	No <sup>3</sup>
Pennsylvania K4 & SBPK	School day, 5 hours/day; Part day, 2.5 hours/day	No
Pennsylvania Pre-K Counts	School day, 5 instructional hours/day; Part day, 2.5 instructional hours/day	No
Rhode Island	School day, 6 hours/day	No <sup>1</sup>
South Carolina CDEPP	School day, 6.5 hours/day	No
South Carolina 4K	Part day, 2.5 hours/day <sup>3</sup>	No <sup>3</sup>
Tennessee	School day, 5.5 hours/day <sup>3</sup>	No <sup>3</sup>
Texas	Part day, 3 hours/day	No
Vermont EEI	Determined locally <sup>4</sup>	No <sup>4</sup>
Vermont Act 62	Determined locally <sup>4</sup>	No <sup>4</sup>
Virginia	School day, 5.5 hours/day; Part day, 3 hours/day	No
Washington	Determined locally <sup>4</sup>	No <sup>4</sup>
West Virginia	Determined locally, minimum of 14 hours/week <sup>4</sup>	Yes, Head Start providers and child care centers <sup>4</sup>
Wisconsin 4K	Determined locally <sup>4</sup>	Yes, districts may contract with child care, Head Start and private schools <sup>4</sup>
Wisconsin HdSt	Determined locally, most common is 3 hours/day <sup>4</sup>	Yes <sup>4</sup>

Footnotes are grouped by state at the end of Appendix A. Unless noted, all data are for the '13-'14 school year, except Minnesota which is for the '12-'13 school year.

## STATE

## AGE ELIGIBILITY

State policy on enrolling children in state pre-K when they are eligible for kindergarten

Alabama	Children may not enroll in pre-K if they are age-eligible for kindergarten
Alaska	Kindergarten age-eligible children with documented disabilities may enroll in pre-K
Arizona	Children may not enroll in pre-K if they are age-eligible for kindergarten
Arkansas	Children may not enroll in pre-K if they are age-eligible for kindergarten <sup>6</sup>
California	Children may not enroll in pre-K if they are age-eligible for kindergarten
Colorado	Children may not enroll in pre-K if they are age-eligible for kindergarten
Connecticut	Kindergarten age-eligible children may enroll in pre-K at local program's discretion <sup>5</sup>
Delaware	Children may not enroll in pre-K if they are age-eligible for kindergarten
District of Columbia	State policy does not regulate the enrollment of kindergarten age-eligible children in pre-K
Florida	Children may not enroll in pre-K if they are age-eligible for kindergarten <sup>7</sup>
Georgia	Kindergarten age-eligible children with documented disabilities may enroll in pre-K; Kindergarten age-eligible children may enroll in pre-K at local program's discretion; Kindergarten age-eligible children may only enroll in pre-K if they have not attended 4-year-old pre-K before <sup>4</sup>
Illinois	Kindergarten age-eligible children with documented disabilities may enroll in pre-K <sup>3</sup>
Iowa Shared Visions	Kindergarten age-eligible children with documented disabilities may enroll in pre-K; Kindergarten age-eligible children may enroll in pre-K at local program's discretion
Iowa SVPP	Kindergarten age-eligible children with documented disabilities may enroll in pre-K; Kindergarten age-eligible children may enroll in pre-K at local program's discretion; Kindergarten age-eligible children may enroll in pre-K and repeat the 4-year-old pre-K year; Children may not enroll in pre-K if they are age-eligible for kindergarten <sup>5</sup>
Kansas Preschool	Children may not enroll in pre-K if they are age-eligible for kindergarten <sup>4</sup>
Kansas State Pre-K	Children may not enroll in pre-K if they are age-eligible for kindergarten
Kentucky	Children may not enroll in pre-K if they are age-eligible for kindergarten <sup>7</sup>
Louisiana LA4	Children may not enroll in pre-K if they are age-eligible for kindergarten
Louisiana 8(g)	Children may not enroll in pre-K if they are age-eligible for kindergarten
Louisiana NSECD	Children may not enroll in pre-K if they are age-eligible for kindergarten
Maine	Kindergarten age-eligible children with documented disabilities may enroll in pre-K; State policy does not regulate the enrollment of kindergarten age-eligible children in pre-K <sup>5</sup>
Maryland	Children may not enroll in pre-K if they are age-eligible for kindergarten <sup>5</sup>
Massachusetts	Kindergarten age-eligible children with documented disabilities may enroll in pre-K <sup>6</sup>
Michigan	Children may not enroll in pre-K if they are age-eligible for kindergarten <sup>6</sup>
Minnesota	Children may not enroll in pre-K if they are age-eligible for kindergarten
Missouri	Kindergarten age-eligible children with documented disabilities may enroll in pre-K
Nebraska	Kindergarten age-eligible children with documented disabilities may enroll in pre-K <sup>3</sup>
Nevada	Kindergarten age-eligible children may enroll in pre-K at local program's discretion; Children may not enroll in pre-K if they are age-eligible for
New Jersey Abbott	Kindergarten age-eligible children with documented disabilities may enroll in pre-K <sup>6</sup>
New Jersey ELLI	Kindergarten age-eligible children with documented disabilities may enroll in pre-K <sup>6</sup>
New Jersey ECPA	Kindergarten age-eligible children with documented disabilities may enroll in pre-K <sup>5</sup>
New Mexico	Children may not enroll in pre-K if they are age-eligible for kindergarten
New York	Children may not enroll in pre-K if they are age-eligible for kindergarten
North Carolina	Children may not enroll in pre-K if they are age-eligible for kindergarten
Ohio	Children may not enroll in pre-K if they are age-eligible for kindergarten
Oklahoma	State policy does not regulate the enrollment of kindergarten age-eligible children in pre-K <sup>5</sup>
Oregon	Children may not enroll in pre-K if they are age-eligible for kindergarten
Pennsylvania EABG	State policy does not regulate the enrollment of kindergarten age-eligible children in pre-K
Pennsylvania HSSAP	Kindergarten age-eligible children with documented disabilities may enroll in pre-K <sup>4</sup>
Pennsylvania K4 & SBPK	State policy does not regulate the enrollment of kindergarten age-eligible children in pre-K <sup>3</sup>
Pennsylvania Pre-K Counts	Children may not enroll in pre-K if they are age-eligible for kindergarten <sup>4</sup>
Rhode Island	Children may not enroll in pre-K if they are age-eligible for kindergarten
South Carolina CDEPP	Kindergarten age-eligible children with documented disabilities may enroll in pre-K; Kindergarten age-eligible children may enroll in pre-K at local program's discretion; Kindergarten age-eligible children may enroll in pre-K and repeat the 4-year-old pre-K year
South Carolina 4K	Kindergarten age-eligible children with documented disabilities may enroll in pre-K; Kindergarten age-eligible children may enroll in pre-K at local program's discretion; Kindergarten age-eligible children may enroll in pre-K and repeat the 4-year-old pre-K year
Tennessee	Kindergarten age-eligible children with documented disabilities may enroll in pre-K <sup>4</sup>
Texas	Children may not enroll in pre-K if they are age-eligible for kindergarten <sup>4</sup>
Vermont EEI	Kindergarten age-eligible children with documented disabilities may enroll in pre-K; Kindergarten age-eligible children may enroll in pre-K at local program's
Vermont Act 62	Kindergarten age-eligible children with documented disabilities may enroll in pre-K; Kindergarten age-eligible children may enroll in pre-K at local program's discretion; Kindergarten age-eligible children may enroll in pre-K and repeat the 4-year-old pre-K year <sup>5</sup>
Virginia	Kindergarten age-eligible children may enroll in pre-K at local program's discretion <sup>3</sup>
Washington	Children may not enroll in pre-K if they are age-eligible for kindergarten
West Virginia	Kindergarten age-eligible children may enroll in pre-K at local program's discretion
Wisconsin 4K	State policy does not regulate the enrollment of kindergarten age-eligible children in pre-K <sup>5</sup>
Wisconsin HdSt	State policy does not regulate the enrollment of kindergarten age-eligible children in pre-K <sup>5</sup>

Footnotes are grouped by state at the end of Appendix A. Unless noted, all data are for the '13-'14 school year, except Minnesota which is for the '12-'13 school year.

## STATE

## INCOME REQUIREMENT

Besides age, how is eligibility determined for individual children?

Alabama	All age-eligible children in districts offering the program, or in the entire state, may enroll
Alaska	Eligibility is determined by individual child or family characteristics in addition to age
Arizona	Eligibility is determined by individual child or family characteristics in addition to age
Arkansas	Eligibility is determined by individual child or family characteristics in addition to age <sup>7</sup>
California	Eligibility is determined by individual child or family characteristics in addition to age
Colorado	Eligibility is determined by individual child or family characteristics in addition to age
Connecticut	All age-eligible children in districts offering the program, or in the entire state, may enroll <sup>6</sup>

Pennsylvania Pre-K Counts	300% FPL <sup>5</sup>
Rhode Island	No income requirement
South Carolina CDEPP	Eligible for free or reduced-price lunch, or 185% FPL
South Carolina 4K	Eligible for free or reduced-price lunch, or 185% FPL
Tennessee	Eligible for free or reduced-price lunch, or 185% FPL
Texas	Eligible for free or reduced-price lunch, or 185% FPL <sup>5</sup>
Vermont EEI	Eligible for free or reduced-price lunch, or 185% FPL <sup>6</sup>
Vermont Act 62	No income requirement
Virginia	No income requirement
Washington	110% FPL
West Virginia	No income requirement
Wisconsin 4K	No income requirement
Wisconsin HdSt	100% FPL <sup>5</sup>

Footnotes are grouped by state at the end of Appendix A. Unless noted, all data are for the '13-'14 school year, except Minnesota which is for the '12-'13 school year.

## STATE

## INCOME REQUIREMENT

To whom does the income requirement apply?

Alabama	
Alaska	Mirroring federal Head Start guidelines, up to 35 percent of enrollment may be children whose family incomes are between 100 and 130 percent FPL after priority is given to children at or below 100 percent FPL. In addition, some communities meet poverty of access criteria per federal Head Start regulations. School districts partnering with Head Start programs must follow federal Head Start requirements. All programs must follow state pre-elementary statutes and regulations.
Arizona	All children.
Arkansas	90% of the children served.
California	All families, except those children receiving protective services; are at risk for abuse, neglect, exploitation; or families homeless or receiving CalWORKs cash aid (TANF).
Colorado	Income eligibility may be the sole factor or may be one of several eligibility factors. In some areas of the state where the cost of living is extremely high, district advisory councils have increased the eligibility to 200 or 225 percent FPL. Locally determined risk factors that have been selected by the district advisory councils include: parent is incarcerated, parent is on active military duty, and developmental delay that raises concerns for school readiness but does not require special education services. Four-year-olds can qualify with one risk factor. Three-year-olds must have three or more risk factors.
Connecticut	
Delaware	90% of children. Additional Details: State pre-K children must meet the federal Head Start income guidelines. Ten percent of available slots must be provided for children with disabilities. Effective as of 2007, 35 percent of enrollment may be children whose family incomes are between 100 and 130 percent FPL after priority is given to children at or below 100 percent FPL.
District of Columbia	
Florida	
Georgia	
Illinois	
Iowa Shared Visions	80% of children--a child who meets age and income criteria is considered eligible. No more than 20% of children may qualify based on meeting secondary risk factors if they are age-eligible but do not meet income guidelines.
Iowa SVPP	
Kansas Preschool	
Kansas State Pre-K	Every child must have at least one risk factor. Additional Details: Eligibility for free lunch (130 percent FPL) is one of eight eligibility criteria. Children must meet at least one of the eight factors.
Kentucky	Income eligibility for at-risk children is available for approximately 54% of children.
Louisiana LA4	
Louisiana 8(g)	priority is given to students who qualify for free or reduced-price lunch; however if all income eligible children are otherwise served, additional students may also be served based on screening
Louisiana NSECD	All children.
Maine	
Maryland	All children eligible from families at or below 185% FPL.
Massachusetts	Any child may enroll in any program, but programs are selected to receive UPK and IPLE funding based on program characteristics and on the characteristics of the children in the program. There is no income requirement for IPLE, though programs may use some of the reported risk factors at the local level to prioritize the selection of eligible children without IEPs due to the high demand. IPLE grant-funded programs that are also supported by other supplemental funding, such as EEC financial assistance, IDEA, and Head Start must follow the eligibility requirements determined by these funding sources which are based on individual child or family characteristics in addition to age. The 85% SMI income requirement applies to all children in UPK receiving subsidy money, but does not apply to tuition-paying families. For families to enter the subsidy system they can have up to 50 percent of SMI and can continue receiving assistance up to 85 percent of the SMI. For families with special needs, they can enter up to 85 percent SMI and remain until 100 percent.
Michigan	At least 90% in each grantee/agency. Additional Details: At least 90 percent of the children in each grantee's enrollment must meet the income requirement of 250% or below. There are 7 factors that determine eligibility: low family income (below 250 percent of FPL), diagnosed disability or identified developmental delay, severe and challenging behavior, primary language other than English, parent(s) with low educational attainment, abuse/neglect of child or parent, and environmental risk. A state-determined prioritization process allows low family income to automatically qualify a child, then allows for above 250% plus two risk factors, then above 250% plus one risk factor, then family income above 250% of FPL, with a cap of 10 percent of the total slots that can fall above 250%. All families above 250% must pay tuition based on a sliding scale.
Minnesota	
Missouri	
Nebraska	70% of each program's grant funding must be used to serve children having at least one risk factor, only one of which is family income.
Nevada	

## STATE

## INCOME REQUIREMENT

To whom does the income requirement apply?

New Jersey Abbott	
New Jersey ELLI	All children, unless an exception is granted by district
New Jersey ECPA	
New Mexico	
New York	
North Carolina	At least 80% of children. Additional Details: Twenty percent of a county's NC Pre-K slots allocation may be used to serve children above 75 percent of SMI if they have another designated risk factor.
Ohio	All children except those with IEPs. Family income is the determining factor for this program. The program is free for families up to 100 percent FPL. Families between 101 and 200 percent FPL may pay a fee based on the district's sliding fee scale. Programs may offer services to children over 200 percent FPL, but those families pay full tuition.
Oklahoma	
Oregon	80% to 90% of children. State pre-K children must meet the federal Head Start income guidelines. After priority is given to families whose income is at 100 percent FPL or below, then up to 35 percent of children can be enrolled whose family income is between 100 percent FPL and 130 percent FPL. If grantee has both state pre-K and federal Head Start funds, 90 percent must meet the income requirements. If grantee has only state pre-K funding, 80 percent must meet the income requirement. A minimum of 10 percent of total enrollment must include children with disabilities. Locally determined risk factors determine priority for services.
Pennsylvania EABG	
Pennsylvania HSSAP	At least 90% of children.
Pennsylvania K4 & SBPK	None (K4); Determined locally (SBPK)
Pennsylvania Pre-K Counts	All children.
Rhode Island	
South Carolina CDEPP	All children.
South Carolina 4K	All children.
Tennessee	All children as first priority for enrollment.
Texas	All children that are enrolling under that criteria.
Vermont EEI	Low-income status is one possible eligibility criterion.
Vermont Act 62	
Virginia	
Washington	At least 90% of children must meet the income requirement.
West Virginia	
Wisconsin 4K	
Wisconsin HdSt	90% of children. Additional Details: Children must meet the federal Head Start income guidelines. Effective as of 2007, 35 percent of enrollment may be children whose family incomes are between 100 and 130 percent FPL after priority is given to children at or below 100 percent FPL. Income is the primary determinant of eligibility. However, children in foster care as well as those who are experiencing homelessness are also eligible. With a federal waiver, children eligible for free lunch are also eligible. Regulations also allow 10 percent of the children to be over-income and 10 percent with disabilities. Each Head Start grantee can prioritize risk in their selection process. Children with more risk factors have greater priority for enrollment.

## OTHER ELIGIBILITY REQUIREMENTS

Risk factors besides income that can be used to determine eligibility

Alabama	Not applicable
Alaska	Child disability or developmental delay; History of abuse, neglect, or family violence; Homelessness or unstable housing; Non-English speaking family members; Child history of foster care; Locally determined risk factors <sup>4</sup>
Arizona	Not applicable
Arkansas	Child disability or developmental delay; Low parental education level; History of abuse, neglect, or family violence; Homelessness or unstable housing; Non-English speaking family members; Parental substance abuse; Risk that child will not be ready for kindergarten; Teen parent; Low birth weight or other child health risk; Child history of foster care; Other state-specified risk factors: Parent is activated for overseas military duty <sup>7</sup>
California	History of abuse, neglect, or family violence; Homelessness or unstable housing; Other state-specified risk factors: recipient of CalWORKs cash aid
Colorado	Low parental education level; History of abuse, neglect, or family violence; Homelessness or unstable housing; Parental substance abuse; Teen parent; Child history of foster care; Locally determined risk factors; Other state-specified risk factors <sup>7</sup>
Connecticut	Not applicable
Delaware	Not applicable <sup>4</sup>
District of Columbia	Not applicable
Florida	Not applicable
Georgia	Not applicable
Illinois	Child disability or developmental delay; Low parental education level; History of abuse, neglect, or family violence; Homelessness or unstable housing; Non-English speaking family members; Parental substance abuse; Risk that child will not be ready for kindergarten; Teen parent; Low birth weight or other child health risk; Child history of foster care; Parental active military duty; Other state-specified risk factors <sup>4</sup>
Iowa Shared Visions	Child disability or developmental delay; Low parental education level; History of abuse, neglect, or family violence; Homelessness or unstable housing; Non-English speaking family members; Parental substance abuse; Risk that child will not be ready for kindergarten; Teen parent; Low birth weight or other child health risk; Child history of foster care; Parental active military duty; Other state-specified risk factors: Parent is identified as chronically mentally ill; Parent is illiterate; Parent is incarcerated <sup>4</sup>
Iowa SVPP	Not applicable
Kansas Preschool	Low parental education level; Non-English speaking family members; Teen parent; Parental active military duty; Other state-specified risk factors: Department for Children and Families referral; early childhood referral from another program; developmentally or academically delayed based upon valid assessment <sup>5</sup>
Kansas State Pre-K	Low parental education level; Homelessness or unstable housing; Non-English speaking family members; Teen parent; Child history of foster care; Other state-specified risk factors: single parent; Department for Children and Families referral; migrant status; developmentally or academically delayed
Kentucky	Child disability or developmental delay; Homelessness or unstable housing; Foster care <sup>8</sup>
Louisiana LA4	Not applicable
Louisiana 8(g)	Child disability or developmental delay; Low parental education level; History of abuse, neglect, or family violence; Homelessness or unstable housing; Non-English speaking family members; Parental substance abuse; Risk that child will not be ready for kindergarten; Teen parent; Low birth weight or other child health risk; Child history of foster care; Parental active military duty <sup>3</sup>
Louisiana NSECD	Not applicable
Maine	Not applicable
Maryland	Child disability or developmental delay; Homelessness or unstable housing; Non-English speaking family members; Risk that child will not be ready for kindergarten; Child history of foster care <sup>6</sup>
Massachusetts	Not applicable <sup>7</sup>
Michigan	Child disability or developmental delay; Low parental education level; History of abuse, neglect, or family violence; Homelessness or unstable housing; Non-English speaking family members; Parental substance abuse; Risk that child will not be ready for kindergarten; Teen parent; Low birth weight or other child health risk; Child history of foster care; Parental active military duty; Other state-specified risk factors <sup>7</sup>
Minnesota	Homelessness or unstable housing; Child history of foster care <sup>4</sup>
Missouri	Not applicable
Nebraska	Child disability or developmental delay; Low parental education level; Non-English speaking family members; Teen parent; Low birth weight or other child health risk
Nevada	Not applicable

Footnotes are grouped by state at the end of Appendix A. Unless noted, all data are for the '13-'14 school year, except Minnesota which is for the '12-'13 school year.

Massachusetts	Parent conferences and/or home visits
Michigan	Parent involvement activities; Child health services; Nutrition information; Referral for social services; Transition to K activities; Parent conferences and/or home visits
Minnesota	Parent education or job training; Parenting support or training; Parent involvement activities; Parent health services; Child health services; Nutrition information; Referral for social services; Transition to K activities; Parent conferences and/or home visits
Missouri	Parenting support or training; Parent involvement activities; Transition to K activities; Parent conferences and/or home visits; Other <sup>9</sup>
Nebraska	Parent involvement activities; Transition to K activities; Parent conferences and/or home visits; Other; based on family need
Nevada	Parenting support or training; Parent involvement activities; Other support services locally determined; Other; locally determined

Footnotes are grouped by state at the end of Appendix A. Unless noted, all data are for the '13-'14 school year, except Minnesota which is for the '12-'13 school year.

## STATE

## PROGRAM STANDARDS

## Support services required for all programs

New Jersey Abbott	Parenting support or training; Parent involvement activities; Child health services; Nutrition information; Referral for social services; Transition to K activities; Parent conferences and/or home visits
New Jersey ELLI	Parent involvement activities; Child health services; Nutrition information; Transition to K activities; Parent conferences and/or home visits
New Jersey ECPA	Parent involvement activities; Child health services; Transition to K activities; Parent conferences and/or home visits
New Mexico	Parenting support or training; Parent involvement activities; Child health services; Nutrition information; Referral for social services; Transition to K activities; Parent conferences and/or home visits <sup>7</sup>
New York	Parenting support or training; Parent involvement activities; Parent health services; Child health services; Nutrition information; Referral for social services; Transition to K activities; Parent conferences and/or home visits
North Carolina	Parent involvement activities; Child health services; Referral for social services; Transition to K activities; Parent conferences and/or home visits; Other; Transition to pre-K and K activities; other supports as needed
Ohio	Parent involvement activities; Child health services; Nutrition information; Referral for social services; Transition to K activities; Parent conferences and/or home visits;
Oklahoma	Parent involvement activities; Child health services; Nutrition information; Referral for social services; Transition to K activities; Parent conferences and/or home visits <sup>7</sup>
Oregon	Parent education or job training; Parenting support or training; Parent involvement activities; Parent health services; Child health services; Nutrition information; Referral for social services; Transition to K activities; Parent conferences and/or home visits; Other; Mental health services
Pennsylvania EABG	None
Pennsylvania HSSAP	Parent education or job training; Parenting support or training; Parent involvement activities; Parent health services; Child health services; Nutrition information; Referral for social services Transition to K activities; Parent conferences and/or home visits
Pennsylvania K4 & SBPK	None
Pennsylvania Pre-K Counts	Parent involvement activities; Referral for social services; Transition to K activities; Parent conferences and/or home visits <sup>8</sup>
Rhode Island	Parent involvement activities; Transition to K activities; Parent conferences and/or home visits
South Carolina CDEPP	Parenting support or training; Parent involvement activities; Child health services; Transition to K activities; Parent conferences and/or home visits; Other support services locally determined
South Carolina 4K	Parenting support or training; Parent involvement activities; Child health services; Referral for social services; Transition to K activities; Parent conferences and/or home visits; Other support services locally determined
Tennessee	Parent involvement activities; Transition to K activities; Parent conferences and/or home visits; Other support services locally determined
Texas	Other; Support services locally determined
Vermont EEI	Parent involvement activities; Transition to K activities; Parent conferences and/or home visits
Vermont Act 62	Parent involvement activities; Transition to K activities; Parent conferences and/or home visits
Virginia	Parent involvement activities; Child health services; Referral for social services; Other; Other support services are locally determined
Washington	Parenting support or training; Parent involvement activities; Child health services; Nutrition information; Referral for social services; Transition to K activities; Parent conferences and/or home visits <sup>9</sup>
West Virginia	Transition to K activities; Parent conferences and/or home visits
Wisconsin 4K	Parent involvement activities; Child health services; Referral for social services; Parent conferences and/or home visits; Other support services locally determined; Other; Referral for special education, Access to school nurse, school psychologist, school social worker
Wisconsin HdSt	Parent education or job training; Parenting support or training; Parent involvement activities; Parent health services; Child health services; Nutrition information; Referral for social services; Transition to K activities; Parent conferences and/or home visits; Other support services locally determined; Other; in accordance with federal Head Start performance standards

Footnotes are grouped by state at the end of Appendix A. Unless noted, all data are for the '13-'14 school year, except Minnesota which is for the '12-'13 school year.

## STATE

## MONITORING

## Information collected for monitoring purposes

Alabama	Structured observations of classroom quality (ECERS is the primary tool and is required for all new programs. Structured coaching occurs at least monthly. Additionally, monitoring is completed monthly.); Documentation of children's learning and/or child outcomes (TS GOLD--ongoing documentation of observational-based assessment. Three checkpoints per year. PPVT is used in randomly selected classrooms.); Documentation of program-level outcomes (Annually (TS GOLD, PPVT, ECERS)); Review of program facilities and safety procedures (Monthly); Results of program self-assessments (Annually); Review of program records (Monthly) <sup>12</sup>
Alaska	Structured observations of classroom quality (ECERS at least once per year); Documentation of children's learning and/or child outcomes (PPVT & Teaching Strategies Gold 2 X per year for state reporting; ongoing for program and classroom use); Documentation of program-level outcomes (ECERS at least 1X per year); Review of program facilities and safety procedures (ECERS & Approval as Alaska Pre-Elementary School); Other (Quarterly Annual reports)
Arizona	Structured observations of classroom quality (ERS and CLASS every other year during the QRIS assessment process.); Documentation of children's learning and/or child outcomes (Reviewed every other year during the QRIS assessment process; Teaching Strategies Gold or other selected by the participating program); Review of program facilities and safety procedures (ERS conducted every other year in the QRIS assessment process.); Results of program self-assessments (Results of ERS, CLASS and Quality First Points Scale assessments are collected every other year for participation in QRIS, Quality First); Participation in a state QRIS; Review of program records (Teaching Staff Qualifications, Ratios and Group Sizes, and Curriculum is reviewed every other year during the QRIS assessment process.)
Arkansas	Structured observations of classroom quality (Structured observations of classroom quality (ECERS, ITERS, FCCERS)); Documentation of children's learning and/or child outcomes (Work Sampling and Ounce collected three times per program year); Documentation of program-level outcomes (Monitoring for compliance with ABC Rules and Regulations; and PAS/BAS are reviewed every three years); Review of program facilities and safety procedures (State Licensing reviews programs three times annually); Review of program records (Program records are reviewed during monitoring visits conducted each program year); Other (Although programs are not required by state regulations to participate in the QRIS, programs are required to meet Quality Standards in the ABC classroom area.) <sup>13</sup>
California	Structured observations of classroom quality (ECERS, at least annually); Documentation of children's learning and/or child outcomes (DRDP, within 60 days of initial enrollment and not to exceed every 6 months thereafter); Documentation of program-level outcomes (Environment Rating Scale self-assessment, parent surveys, annually; parent teacher conferences, every 6 months); Review of program facilities and safety procedures; Results of program self-assessments; Review of program records <sup>12</sup>
Colorado	Structured observations of classroom quality (District Advisory Councils use Colorado Quality Standards, two times per year); Documentation of children's learning and/or child outcomes (Teaching Strategies GOLD, three times per year); Review of program facilities and safety procedures (through child care licensing requirements) <sup>12</sup>
Connecticut	Structured observations of classroom quality (ECERS for non-accredited programs); Documentation of children's learning and/or child outcomes (learning experience plans); Documentation of program-level outcomes (NAEYC); Review of program facilities and safety procedures (child care licensing); Results of program self-assessments (Year-end Evaluation); Review of program records (monthly reports) <sup>19</sup>
Delaware	Structured observations of classroom quality (CLASS for DE STARS); Documentation of children's learning and/or child outcomes (TSI Gold); Documentation of program-level outcomes (HS Performance Standards); Review of program facilities and safety procedures (HS Performance Standards); Results of program self-assessments (Head Start Self Assessment); Participation in a state QRIS; Review of program records <sup>6</sup>
District of Columbia	Structured observations of classroom quality (All programs were evaluated using the CLASS); Review of program facilities and safety procedures (Sectors are responsible for this)
Florida	Structured observations of classroom quality (ECERS and CLASS; instrument is locally determined, annually); Documentation of children's learning and/or child outcomes (Florida VPK Assessment, Pre- and Post-Assessment); Documentation of program-level outcomes (EHOSTM, and Florida Assessments for Instruction in Reading (FAIR), annually); Review of program facilities and safety procedures (DCF Licensing monitoring, 3 times per year); Review of program records (Child and provider eligibility determination documentation, child attendance, provider reimbursement; annually)
Georgia	Structured observations of classroom quality (CLASS, annually); Documentation of children's learning and/or child outcomes (WSS rating every six weeks, report to parents twice a year); Review of program facilities and safety procedures (Child Care License report); Results of program self-assessments (Grant Requirement Checklist, IQ Guides for Classroom Environment, Daily Schedule, Assessment); Review of program records (Grant Requirement Checklist)
Illinois	Structured observations of classroom quality (ECERS-R or CLASS at least every 3 years); Documentation of children's learning and/or child outcomes (Portfolios, ongoing; other instruments and frequency vary); Documentation of program-level outcomes (Follow-up data on children; program performance data, yearly); Review of program facilities and safety procedures; Results of program self-assessments; Participation in a state QRIS; Review of program records; Other (Compliance reviews; Student Information System Data) <sup>7</sup>
Iowa Shared Visions	Documentation of children's learning and/or child outcomes (Teaching Strategies GOLD Online by state-determined checkpoint dates three times per year); Documentation of program-level outcomes (Maintenance of NAEYC accreditation and progress toward goals; annually); Review of program facilities and safety procedures (Reviewed externally by NAEYC every five years); Review of program records (Annual desk audit through the year-end report); Other (NAEYC Accreditation maintained each year) <sup>15</sup>
Iowa SVPP	Structured observations of classroom quality (Iowa's Quality Preschool Program Standards); Documentation of children's learning and/or child outcomes (GOLD 3X per yr.); Documentation of program-level outcomes (Iowa's Quality Preschool Program Standards (based on NAEYC)); Review of program facilities and safety procedures (See above); Results of program self-assessments; Review of program records; Other (Certified Annual Report collects financial information)
Kansas Preschool	Documentation of children's learning and/or child outcomes (Kansas Early Learning Inventory for Fours (KELI-4)); Results of program self-assessments (Once per year: Classroom Practices Survey, Transition Survey); Other (Once per year, family practices/ protective factors survey) <sup>13</sup>
Kansas State Pre-K	Documentation of children's learning and/or child outcomes (Kansas Early Learning Inventory for Fours (KELI-4), Fall and Spring); Results of program self-assessments (Classroom practices, fall; Transition Survey); Other (Family survey, fall; Protective Factors survey) <sup>8</sup>
Kentucky	Structured observations of classroom quality (ECERS once every 5 years); Documentation of children's learning and/or child outcomes (One of 12 instructional assessment tools administered, at least two times per year); Documentation of program-level outcomes (Early Preschool Program Report, annually); Review of program facilities and safety procedures (Preschool Program Review (P2R) once every 5 years); Results of program self-assessments; Participation in a state quality rating system Review of program records (Preschool Program Review (P2R) once every 5 years); Other (Review of numbers of children enrolled as recorded by the statewide data system.) <sup>20</sup>

Footnotes are grouped by state at the end of Appendix A. Unless noted, all data are for the '13-'14 school year, except Minnesota which is for the '12-'13 school year.

## STATE

## MONITORING

Information collected for monitoring purposes

Louisiana LA4	Structured observations of classroom quality (CLASS - piloted in 13 communities); Documentation of children's learning and/or child outcomes (Developing Skills Checklist and/or Teaching Strategies GOLD); Documentation of program-level outcomes (CLASS Data, Teaching Strategies GOLD data); Review of program facilities and safety procedures (Program facilities and safety standards monitored by the Department of Health and Hospitals and State Fire Marshall); Results of program self-assessments (CLASS Observations conducted by local reliable observers); Participation in a state QRIS; Review of program records (Monitoring of monthly, quarterly and semi-annual reports, annual desk reviews for compliance with program guidelines) <sup>19</sup>
Louisiana 8(g)	Structured observations of classroom quality (CLASS, frequency determined locally); Documentation of children's learning and/or child outcomes (DSC twice a year, ongoing portfolio assessment); Documentation of program-level outcomes (Compliance with program guidelines, Progress to Date Report, and End of Year Report; annually); Review of program records (Audited financial records, annual)
Louisiana NSECD	Structured observations of classroom quality (CLASS Observations); Documentation of children's learning and/or child outcomes (TS Gold, ongoing; DSC, 3 times per year); Documentation of program-level outcomes (TANF-based Program Performance Indicators, monthly); Review of program facilities and safety procedures; Results of program self-assessments (NSECD Performance Review and End of the Year Reporting, annually); Review of program records (Programs are audited annually by NSECD Program Manager)
Maine	None <sup>15</sup>
Maryland	Review of program records (Other information to determine compliance with state prekindergarten regulations)
Massachusetts	Structured observations of classroom quality; Documentation of children's learning and/or child outcomes; Documentation of program-level outcomes; Review of program facilities and safety procedures; Results of program self-assessments; Participation in a state QRIS; Other (Fiscal reports) <sup>18</sup>
Michigan	Structured observations of classroom quality (PQA at least 3 times per year); Documentation of children's learning and/or child outcomes (AEPS, COR, CC, WSS, ASQ, Battelle, DIAL-3, at enrollment and ongoing); Documentation of program-level outcomes; Review of program facilities and safety procedures; Results of program self-assessments; Participation in a state QRIS; Review of program records <sup>18</sup>
Minnesota	Review of program facilities and safety procedures; Results of program self-assessments; Participation in a state QRIS; Review of program records <sup>11</sup>
Missouri	Review of program facilities and safety procedures; Results of program self-assessments; Review of program records; Other (Licensing, Sanitation and Fire Marshal perform, at a minimum, onsite visits annually. For program accreditation, at a minimum, sites receive an onsite visit every 3 years.)
Nebraska	Structured observations of classroom quality (ECERS Annually for the first three years of grant funding); Documentation of children's learning and/or child outcomes (Documentation of children's learning and/or child outcomes); Documentation of program-level outcomes (Must be reported locally); Review of program facilities and safety procedures (As part of compliance report for program approval); Results of program self-assessments; Review of program records (When being reviewed on-site by staff)
Nevada	Structured observations of classroom quality (ECERS, ELLCO; every two years); Documentation of children's learning and/or child outcomes (PPVT, EOWPVT, WIDA; as pre- and post-assessment annually); Documentation of program-level outcomes (every two years); Review of program records <sup>16</sup>
New Jersey Abbott	Structured observations of classroom quality (locally determined, most districts use ECERS); Documentation of children's learning and/or child outcomes (High/Scope's COR, Teaching Strategies GOLD, ELAS, locally selected tools); Documentation of program-level outcomes (Informal data tool collected annually by the Department of Education); Review of program facilities and safety procedures (During annual SAVS); Results of program self-assessments (During annual SAVS); Review of program records (During annual SAVS and also in annual program plan review) <sup>15</sup>
New Jersey ELLI	Structured observations of classroom quality Review of program records (Annually) <sup>17</sup>
New Jersey ECPA	Review of program records (Annually) <sup>15</sup>
New Mexico	Structured observations of classroom quality (ECERS-R and E; self-assessments annually); Documentation of children's learning and/or child outcomes (New Mexico PreK Observational Assessment (twice per year, fall and spring)); Documentation of program-level outcomes (23 Essential Indicators, twice per year); Review of program facilities and safety procedures (Results of self-assessments (ECERS-R and ECERS-E); Child Care licensing for non-public programs); Results of program self-assessments (Reported to state agency annually as part of program monitoring); Participation in a state quality rating system Review of program records (Annual Program Monitoring)
New York	Structured observations of classroom quality (determined locally, many programs use ECERS-R and CLASS, annually); Documentation of children's learning and/or child outcomes (locally determined from state approved list, annually); Documentation of program-level outcomes (Annual year-end report); Results of program self-assessments; Participation in a state quality rating system Review of program records; Other (Teacher qualification data; Basic Educational Data System Information on each enrolled pre-K student) <sup>18</sup>
North Carolina	Structured observations of classroom quality (ECERS-R based on the NC Rated License Assessment); Documentation of children's learning and/or child outcomes (Required use of approved instructional/formative assessment system); Documentation of program-level outcomes (Results of program self-assessments and participation in the Star-rated License System); Review of program facilities and safety procedures (Participation in QRIS); Results of program self-assessments (Participation in QRIS); Participation in a state QRIS Review of program records (Contractor monitoring managed at state level through sample of onsite visits and desk audits); Other <sup>13</sup>
Ohio	Structured observations of classroom quality (State created new observation tool (OCOT--Ohio Classroom Obs Tool) that focuses on quality of classroom interactions. Tool is aligned to ECERS and CLASS; Documentation of children's learning and/or child outcomes (Programs are required to report child assessment data. In 2013-14 used Get It Got It Go 2 x/yr, ASQSE, curriculum-embedded performance measures.); Documentation of program-level outcomes (All programs required to participate in Ohio's TQRIS--Step Up To Quality. Includes PD hours, observations, transition plans, family engagement review.); Review of program facilities and safety procedures (Annual licensing site visit); Results of program self-assessments (Programs required to conduct annually and report to state); Participation in a state quality rating system Review of program records (On-site and desk reviews conducted annually) <sup>13</sup>
Oklahoma	Documentation of children's learning and/or child outcomes (locally determined outcomes aligned with student standards); Documentation of program-level outcomes (locally determined outcomes aligned with student standards); Review of program facilities and safety procedures (Regional Accreditation officers review); Review of program records (Regional Accreditation officers review) <sup>14</sup>

Footnotes are grouped by state at the end of Appendix A. Unless noted, all data are for the '13-'14 school year, except Minnesota which is for the '12-'13 school year.

## STATE

## MONITORING

## Information collected for monitoring purposes

Oregon	Structured observations of classroom quality (CLASS (Triennially and as needed; monitoring, triennially and as needed)); Documentation of children's learning and/or child outcomes (TS GOLD (triennially)); Documentation of program-level outcomes (Compliance with federal Head Start Performance Standards, formally every three years as needed; Program Information Reports Annually); Review of program facilities and safety procedures (Review of program facilities and safety procedures are conducted through triennial monitoring reports and annual self assessments); Results of program self-assessments (Annual Self Assessment Reports); Participation in a state quality rating system; Review of program records (Annual Self-Assessment; site visits as needed) <sup>14</sup>
Pennsylvania EABG	None <sup>11</sup>
Pennsylvania HSSAP	Structured observations of classroom quality (CLASS, ERS or approved local tool annually); Documentation of children's learning and/or child outcomes (approved assessment tools aligned with early learning outcomes reporting framework; reported 2X/year); Documentation of program-level outcomes (locally determined; annually); Review of program facilities and safety procedures; Results of program self-assessments; Review of program records; Other (optional participation in QRIS)
Pennsylvania K4 & SBPK	None
Pennsylvania Pre-K Counts	Structured observations of classroom quality (ERS, annual self-assessment; bi-annual external assessment); Documentation of children's learning and/or child outcomes (chosen from approved tools aligned with early learning outcomes reporting framework; reporting required twice/year); Documentation of program-level outcomes (Program Review Instrument; annually); Review of program facilities and safety procedures (ERS); Results of program self-assessments (ERS, program review instrument); Participation in a state QRIS; Review of program records
Rhode Island	Structured observations of classroom quality (ECERS once per year with average score of 5 or more, CLASS once per year); Documentation of children's learning and/or child outcomes (Teaching Strategies GOLD, ongoing); Documentation of program-level outcomes (Teaching Strategies GOLD, program assessments three times per year); Review of program facilities and safety procedures (state-created reporting tools, annually); Results of program self-assessments (state-created reporting tools, annually); Participation in a state QRIS <sup>7</sup>
South Carolina CDEPP	Structured observations of classroom quality (ELLCO); Other (DSS)
South Carolina 4K	None <sup>7</sup>
Tennessee	Structured observations of classroom quality (ECERS and ELLCO self-assessment, bi-annually for new teachers); Documentation of program-level outcomes (verification of teacher and assistant's credentials; attendance and make up of classroom; curriculum and assessment, at least annually); Review of program facilities and safety procedures (minimum of two visits per year by program evaluator); Results of program self-assessments (plan of action submitted after using ECERS and ELLCO assessment tools); Review of program records (Twice per year, more as needed) <sup>15</sup>
Texas	None
Vermont EEI	Documentation of children's learning and/or child outcomes (Teaching Strategies GOLD, Fall & Spring Checkpoints) <sup>14</sup>
Vermont Act 62	Structured observations of classroom quality (PreK programs must have at least 3 STARS in VT's QRIS. ECERS is part of the higher levels of its QRIS); Documentation of children's learning and/or child outcomes (Teaching Strategies GOLD; Fall & Spring checkpoints required); Review of program facilities and safety procedures (All PreK programs must comply with child care licensing regulations which include rules related to facilities and safety procedures); Participation in a state QRI <sup>15</sup>
Virginia	Documentation of children's learning and/or child outcomes (PALS PreK twice a year); Documentation of program-level outcomes (Review of local plans twice a year); Other (Review of Head Start MOU between Head Start and VPI if applicable) <sup>9</sup>
Washington	Structured observations of classroom quality (ECERS & CLASS to establish QRIS rating in 86 of the 271 sites); Documentation of children's learning and/or child outcomes (Teaching Strategies GOLD three times per year); Documentation of program-level outcomes (health, annually); Review of program facilities and safety procedures (every 4 years); Results of program self-assessments (annually); Participation in a state QRIS Review of program records (every 4 years); Other (Intensive on-site review of all ECEAP Performance Standards every 4 years) <sup>14</sup>
West Virginia	Structured observations of classroom quality (ECERS-R, once every three years); Documentation of children's learning and/or child outcomes (WV Pre-K Child Assessment System utilizing ELS); Results of program self-assessments (Implementation Checklist, Health and Safety Self-Monitoring); Review of program records (Program Review/Monitoring once every 3 years) <sup>12</sup>
Wisconsin 4K	Other (special education documents, fiscal reports, enrollment reports, program schedule, program description reports, membership counts, personnel reports)
Wisconsin HdSt	Other (Other information such as grant applications, fiscal audit, sections of the federal application, and submission of Head Start PIR)

Footnotes are grouped by state at the end of Appendix A. Unless noted, all data are for the '13-'14 school year, except Minnesota which is for the '12-'13 school year.

## STATE

## MONITORING

How is monitoring information collected by the state?

Alabama	Site visits (Monthly); Submission of information by program or local entity (At least 3 times per year)
Alaska	Site visits (by staff of the state oversight agency on a 3-year cycle, by consultants twice per year); Submission of information by program or local entity (twice per year data and narrative report once per year); Monitoring information is collected through other means, audio/video conference visits done throughout the year and two data reports per year)
Arizona	Site visits (every other year during the QRIS assessment process)
Arkansas	Site visits (Arkansas state staff monitor center-based agencies each program year; Contracted consultants monitor home visiting programs each program year; Contracted consultants conduct ERS assessments every other program year); Submission of information by program or local entity (Programs must apply for participation in ABC/ABCSS each program year through a grant process; programs must report mid-year and final financial reports; programs receiving \$100,000 must submit an audit each program year.); Monitoring information is collected through other means (Programs are monitored three times per year by Arkansas child care licensing staff.) <sup>14</sup>
California	Site visits (every 3 years based on a priority order using programmatic, contract, fiscal, and other compliance data)
Colorado	Site visits (every two years, more frequently in programs with identified needs); Submission of information by program or local entity (annually); Monitoring information is collected through other means (Monitoring information is collected through other means, Department of Human Services child care licensing visits, financial records submission and auditing) <sup>13</sup>
Connecticut	Site visits (by staff of state agency as needed by random sampling; community liaisons monitor at least once per year); Submission of information by program or local entity (RFP; site evaluations); Monitoring information is collected through other means (monthly reports)
Delaware	Site visits (2 times per year); Submission of information by program or local entity (quarterly reports, PIR)
District of Columbia	Site visits (Annual); Submission of information by program or local entity (Annual)
Florida	Site visits (as needed); Submission of information by program or local entity (quarterly); Monitoring information is collected through other means (DCF monitors all licensed programs at least three times per year and posts reports online)
Georgia	Site visits (at least annually, based on program needs and assessments); Submission of information by program or local entity (Rosters submitted four times during the school year); Monitoring information is collected through other means (Programs with a Pre-K classroom that are participating in the state's Tiered Quality Rating and Improvement System are also observed with ECERS-R) <sup>11</sup>
Illinois	Site visits (on a 3-year cycle and as needed); Submission of information by program or local entity (annually; individual student information system, continuation application, program improvement plans) <sup>8</sup>
Iowa Shared Visions	Site visits (Conducted by the state when determined necessary based on results of reports received, etc.); Submission of information by program or local entity (Annual application includes program description of services, budget, and NAEYC accreditation; annual year-end report includes quarterly finance report, program staff, professional development, program services, community collaborations/services, curriculum and assessments used, in-kind requirement); Monitoring information is collected through other means (Site visits completed by NAEYC every five years)
Iowa SVPP	Site visits (Once every 5 years.); Submission of information by program or local entity (Desk audit)
Kansas Preschool	Submission of information by program or local entity (Classroom practices and parent surveys, once per year; Child observation (KELI-4), twice per year); Monitoring information is collected through other means (KPP Leadership Teams completed a Collaboration Survey. Leadership Team are trained in the Kansas MTSS leadership process, promoting collaboration, and improving quality across all community and school sites.) <sup>14</sup>
Kansas State Pre-K	Submission of information by program or local entity (annually; twice annually for child information) <sup>9</sup>
Kentucky	Site visits (At least once every 5 years for all the districts and least 30% of the teachers are observed at each site); Submission of information by program or local entity (Once every 5 years the cohort districts submit information regarding enrollment, collaboration with Head Start, transportation, meals, developmentally appropriate practice, program evaluation by parents and staff and other programmatic data); Monitoring information is collected through other means (review information about the district through the Student Information System, KDE staff interviews and periodic visits including through the consolidated monitoring process.) <sup>21</sup>
Louisiana LA4	Site visits (CLASS visits to a percentage (determined locally) of classrooms in the 13 community network pilots; data collected monthly); Submission of information by program or local entity (Enrollment reported monthly, collaboration efforts/project; Support services reported semi-annually; monitoring information collected annually)
Louisiana 8(g)	Site visits (annually); Submission of information by program or local entity (twice a year) <sup>9</sup>
Louisiana NSECD	Site visits (CLASS Observations as well as observations conducted by contracted agencies. On-site administrative visits are conducted as needed.); Submission of information by program or local entity (Administrative monitoring desk reviews are conducted annually.)
Maine	Submission of information by program or local entity (Upon request)
Maryland	Site visits (At least once every three years); Submission of information by program or local entity (Annually, public programs only); Monitoring information is collected through other means (Enrollment information and Prekindergarten Directory (annually); Submission of pre-K updates in comprehensive LEA Master Plan (annually))
Massachusetts	Site visits (approximately once per year (UPK), all programs are visited within a 6-year cycle (IPLE)); Submission of information by program or local entity (annual and informal as needed. Submission of assessment data; annual grant review and electronic submission of child assessment data twice per year (UPK))
Michigan	Site visits; Submission of information by program or local entity <sup>18</sup>
Minnesota	Site visits (3 or 5 yr rotating schedule); Submission of information by program or local entity (Enrollment reported monthly; Annual application describes program design)
Missouri	Site visits (Varies based on program need); Submission of information by program or local entity (Programs are required to submit an application at the beginning of each program year and a Final Report at the end of each program year); Monitoring information is collected through other means (Site visits based on a review of submitted reports or concerns raised from partner agencies); Submission of information by program or local entity)
Nebraska	Site visits (A percentage of classrooms each year); Submission of information by program or local entity (Annually) <sup>13</sup>
Nevada	Site visits (annually); Submission of information by program or local entity (mid- and end-of-year reports)

Footnotes are grouped by state at the end of Appendix A. Unless noted, all data are for the '13-'14 school year, except Minnesota which is for the '12-'13 school year.

## STATE

## MONITORING

How is monitoring information collected by the state?

New Jersey Abbott	Site visits (Site visits, several times per year and as needed to provide technical assistance; by consultants employed by the state, a consortium of universities perform ECERS on randomly selected classrooms in each district as part of a longitudinal study); Submission of information by program or local entity (once per year as part of district's Preschool Program Plan for the following year)
New Jersey ELLI	Site visits (1-2 times annually, as needed, or as requested by the district); Submission of information by program or local entity (annual budget and program plan)
New Jersey ECPA	Site visits (1-2 times annually, as needed, or as requested by the district); Submission of information by program or local entity (annual budget and program plan)
New Mexico	Site visits (At least once per year and more as needed); Submission of information by program or local entity (3 program reports annually, child outcome information twice per year; PreK database maintains a variety of program information and demographics)
New York	Site visits (varies); Submission of information by program or local entity (final program reports and program modification request applications, annually) <sup>19</sup>
North Carolina	Site visits (for program compliance; annually or more frequently as determined by needs); Submission of information by program or local entity (QRIS program evaluations and NC Educator Effectiveness Teacher Evaluation System); Monitoring information is collected through other means (Teacher effectiveness visits (mentoring, evaluation) per prescribed process and schedule set forth in State Education Board Policy; Teacher Evaluation, Mentoring, BK Licensure data and information) <sup>14</sup>
Ohio	Site visits (Programs receive annual licensing visit. On-site quality rating visit every 2 years for 3-star centers and every 3 years for 4-5 star-centers); Submission of information by program or local entity (Annual submission of program information to state. Includes program documentation, teacher credentials, child assessment, self-assessment, observations)
Oklahoma	Site visits (Two audits per year); Documentation of children's learning and/or child outcomes (locally determined outcomes aligned with student standards); Documentation of program-level outcomes (locally determined outcomes aligned with student standards); Review of program facilities and safety procedures; Review of program records
Oregon	Site visits (Annually and as needed); Submission of information by program or local entity (Monthly, quarterly and annual reports that include information on enrollment, attendance, child outcomes, and targeted performance indicators.)
Pennsylvania EABG	None
Pennsylvania HSSAP	Site visits (at least once annually)
Pennsylvania K4 & SBPK	None
Pennsylvania Pre-K Counts	Site visits (at least once annually); Submission of information by program or local entity (quarterly narrative reports, annual reporting, monthly information submission to PELICAN data system); Monitoring information is collected through other means (Program Review Instrument; teachers, family, and child demographics updated continually)
Rhode Island	Site visits (once per year at a minimum; by consultants, monthly); Submission of information by program or local entity (web-based child assessment information, monitoring three times per year)
South Carolina CDEPP	Site visits (varies); Submission of information by program or local entity (PD plans)
South Carolina 4K	None
Tennessee	Site visits (minimum of two visits per year to document compliance with school based child care rules); Submission of information by program or local entity (Plan of Action for ECERS and ELLCO for new staff); (On-going desk monitoring of data collected from Education Information System, including enrollment, demographic, attendance, age compliance, class size, monthly financial reports, end-of-year reports, and annual family surveys) <sup>15</sup>
Texas	None
Vermont EEI	Submission of information by program or local entity (Annually) <sup>15</sup>
Vermont Act 62	Submission of information by program or local entity (Annual child progress data); Monitoring information is collected through other means (Information collected through annual STARS reports and 3 year renewal applications) <sup>16</sup>
Virginia	Submission of information by program or local entity (twice per year) <sup>9</sup>
Washington	Site visits (Every one to four years, based on risk assessment); Submission of information by program or local entity (annual and every 4 years, depending on the info required) <sup>14</sup>
West Virginia	Site visits (once every 3 years); Submission of information by program or local entity (annually (fiscal, program data, and collaboration) <sup>12</sup>
Wisconsin 4K	Site visits (periodically); Submission of information by program or local entity (yearly and with more frequency for start-up grants)
Wisconsin HdSt	Submission of information by program or local entity (annual)

Footnotes are grouped by state at the end of Appendix A. Unless noted, all data are for the '13-'14 school year, except Minnesota which is for the '12-'13 school year.

## STATE

## MONITORING

How is monitoring information used by the state?

Alabama	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program
Alaska	To identify needs that will guide teacher training or professional development; To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To provide feedback to parents
Arizona	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To measure program on a QRIS; To provide feedback to parents <sup>19</sup>
Arkansas	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To measure program on a QRIS; To provide feedback to parents
California	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program
Colorado	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; Other; To report child progress results for state legislature <sup>14</sup>
Connecticut	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To make adjustments to curricula
Delaware	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To measure program on a QRIS; To provide feedback to parents
District of Columbia	To identify needs that will guide teacher training or professional development; To provide program staff with technical assistance and/or mentoring
Florida	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To provide feedback to parents; Other; To assist teachers with understanding individual children's strengths and areas where additional support may be needed <sup>16</sup>
Georgia	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To measure program on a QRIS; To provide feedback to parents
Illinois	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To measure program on a QRIS; To provide feedback to parents
Iowa Shared Visions	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program
Iowa SVPP	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To provide program staff with technical assistance and/or mentoring; To measure program on a QRIS <sup>12</sup>
Kansas Preschool	To make funding decisions about programs or grantees; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; Other; To determine any changes to application and to inform KSDE regarding potential TA needed for programs and leadership teams; To provide a state-level report on the efficacy of KPP to the Children's Cabinet and the Kansas State Department of Education <sup>14</sup>
Kansas State Pre-K	To identify needs that will guide teacher training or professional development; Other; To provide a report on the efficacy of the program at the state level
Kentucky	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To provide feedback to parents <sup>22</sup>
Louisiana LA4	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program
Louisiana 8(g)	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To provide program staff with technical assistance and/or mentoring
Louisiana NSECD	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To provide feedback to parents
Maine	To identify needs that will guide teacher training or professional development; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring
Maryland	To identify programs for corrective action or sanctions
Massachusetts	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To measure program on a QRIS; To provide feedback to parents <sup>19</sup>
Michigan	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To measure program on a QRIS; To provide feedback to parents
Minnesota	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To measure program on a QRIS
Missouri	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program <sup>15</sup>
Nebraska	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To provide feedback to parents
Nevada	To identify needs that will guide teacher training or professional development; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program

Footnotes are grouped by state at the end of Appendix A. Unless noted, all data are for the '13-'14 school year, except Minnesota which is for the '12-'13 school year.

## STATE

## MONITORING

How is monitoring information used by the state?

New Jersey Abbott	To identify needs that will guide teacher training or professional development; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program <sup>16</sup>
New Jersey ELLI	To identify needs that will guide teacher training or professional development; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program
New Jersey ECPA	To identify needs that will guide teacher training or professional development; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program
New Mexico	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To provide feedback to parents <sup>11</sup>
New York	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To measure program on a QRIS; To provide feedback to parents <sup>20</sup>
North Carolina	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To measure program on a QRIS; To provide feedback to parents; Other; Provide feedback to the public about the quality of services and teacher effectiveness <sup>13</sup>
Ohio	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To measure program on a QRIS; To provide feedback to parents
Oklahoma	To identify programs for corrective actions or sanctions; To make changes to state policies regarding the preschool program
Oregon	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To measure program on a QRIS; To provide feedback to parents
Pennsylvania EABG	None
Pennsylvania HSSAP	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To measure program on a QRIS; To provide feedback to parents <sup>9</sup>
Pennsylvania K4 & SBPK	None
Pennsylvania Pre-K Counts	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To provide feedback to parents
Rhode Island	To identify needs that will guide teacher training or professional development; To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring
South Carolina CDEPP	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To provide program staff with technical assistance and/or mentoring
South Carolina 4K	None
Tennessee	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program
Texas	None
Vermont EEI	To identify needs that will guide teacher training or professional development; To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To provide feedback to parents <sup>14</sup>
Vermont Act 62	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring; To measure program on a QRIS; To provide feedback to parents <sup>17</sup>
Virginia	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To make adjustments to curricula; To provide program staff with technical assistance and/or mentoring
Washington	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program; To measure program on a QRIS
West Virginia	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To provide program staff with technical assistance and/or mentoring; To make changes to state policies regarding the preschool program
Wisconsin 4K	Other; For administrative oversight
Wisconsin HdSt	To make funding decisions about programs or grantees

Footnotes are grouped by state at the end of Appendix A. Unless noted, all data are for the '13-'14 school year, except Minnesota which is for the '12-'13 school year.

## STATE

## MONITORING

Was there a formal evaluation measuring program quality and/or effectiveness?

Alabama	Yes, measuring both process quality and program impact/child outcomes
Alaska	Yes, measuring process quality <sup>13</sup>
Arizona	Yes, measuring process quality <sup>20</sup>
Arkansas	Yes, measuring impact and child outcomes
California	No
Colorado	Yes, measuring impact and child outcomes (e.g., child assessments in literacy and math) <sup>15</sup>
Connecticut	No
Delaware	Yes, measuring both process quality and program impact/child outcomes
District of Columbia	Yes, measuring process quality
Florida	Yes, measuring impact and child outcomes (e.g., child assessments in literacy and math) <sup>17</sup>
Georgia	Yes, measuring both process quality and program impact/child outcomes <sup>12</sup>
Illinois	Yes, measuring both process quality and program impact/child outcomes
Iowa Shared Visions	Yes, measuring both process quality and program impact/child outcomes
Iowa SVPP	Yes, measuring impact and child outcomes
Kansas Preschool	Yes, measuring both process quality and program impact/child outcomes <sup>14</sup>
Kansas State Pre-K	Yes, measuring both process quality and program impact/child outcomes <sup>10</sup>
Kentucky	Yes, measuring process quality
Louisiana LA4	Yes, measuring both process quality and program impact/child outcomes <sup>20</sup>
Louisiana 8(g)	Yes, measuring impact and child outcomes <sup>10</sup>
Louisiana NSECD	Yes, measuring both process quality and program impact/child outcomes <sup>16</sup>
Maine	No
Maryland	No
Massachusetts	Yes, measuring process quality <sup>20</sup>
Michigan	Yes, measuring both process quality and program impact/child outcomes <sup>19</sup>
Minnesota	No
Missouri	Yes, measuring process quality
Nebraska	Yes, measuring both process quality and program impact/child outcomes
Nevada	Yes, measuring both process quality and program impact/child outcomes <sup>17</sup>
New Jersey Abbott	Yes, measuring both process quality and program impact/child outcomes
New Jersey ELLI	No
New Jersey ECPA	No
New Mexico	Yes, measuring both process quality and program impact/child outcomes <sup>12</sup>
New York	No
North Carolina	Yes, measuring both process quality and program impact/child outcomes
Ohio	Yes, measuring both process quality and program impact/child outcomes <sup>14</sup>
Oklahoma	Yes, measuring impact and child outcomes
Oregon	No
Pennsylvania EABG	No
Pennsylvania HSSAP	No
Pennsylvania K4 & SBPK	No
Pennsylvania Pre-K Counts	No
Rhode Island	Yes, measuring both process quality and program impact/child outcomes
South Carolina CDEPP	Yes, measuring both process quality and program impact/child outcomes
South Carolina 4K	No
Tennessee	Yes, measuring both process quality and program impact/child outcomes <sup>16</sup>
Texas	No
Vermont EEI	No
Vermont Act 62	No <sup>18</sup>
Virginia	Yes, measuring both process quality and program impact/child outcomes <sup>10</sup>
Washington	Yes, measuring program impact/child outcomes <sup>15</sup>
West Virginia	Yes, measuring both process quality and program impact/child outcomes
Wisconsin 4K	Yes, measuring both process quality and program impact/child outcomes
Wisconsin HdSt	No

Footnotes are grouped by state at the end of Appendix A. Unless noted, all data are for the '13-'14 school year, except Minnesota which is for the '12-'13 school year.

## STATE

## MONITORING

When was the most recent formal evaluation of state pre-K program and what was evaluated?

Alabama	Ongoing
Alaska	2013-2014
Arizona	Planned validation study to start in school year 2014-2015.
Arkansas	NIEER-Rutgers University released a report titled: Longitudinal Effects of the Arkansas Better Chance Program: Findings from First Grade through Fourth Grade
California	Not applicable
Colorado	Ongoing, annually
Connecticut	Not applicable
Delaware	annual program reviews
District of Columbia	The 2013-14 Evaluation is currently in progress.
Florida	Ongoing, Annually
Georgia	On-Going
Illinois	Fall 2009-Winter 2012
Iowa Shared Visions	2008
Iowa SVPP	2012-2013
Kansas Preschool	ongoing
Kansas State Pre-K	ongoing
Kentucky	2012
Louisiana LA4	2012-2013
Louisiana 8(g)	2012-2013
Louisiana NSECD	Annually since the 2004-2005 school year; 2013-2014 evaluation in process
Maine	Not applicable
Maryland	Not applicable
Massachusetts	2008-2009 and 2009-2010
Michigan	Ongoing, since 1995.
Minnesota	Not applicable
Missouri	2003
Nebraska	ongoing, annual
Nevada	2012-13
New Jersey Abbott	Program Impact Evaluation was completed in March 2013. The most recent Program Quality Evaluation was completed in 2014.
New Jersey ELLI	Not applicable
New Jersey ECPA	Not applicable
New Mexico	2010
New York	Not applicable
North Carolina	Ongoing, evaluations of classroom quality and child outcomes are conducted annually. See <a href="http://fpg.unc.edu/node/3897">http://fpg.unc.edu/node/3897</a>
Ohio	Nov 2012. 2013-2014 for child outcomes. TQRIS evaluation occurring now.
Oklahoma	2011 and ongoing
Oregon	Not applicable
Pennsylvania EABG	Not applicable
Pennsylvania HSSAP	Not applicable
Pennsylvania K4 & SBPK	Not applicable
Pennsylvania Pre-K Counts	Not applicable
Rhode Island	2009 - 2011
South Carolina CDEPP	2009-2010 school year
South Carolina 4K	Not applicable
Tennessee	Ongoing
Texas	Not applicable
Vermont EEI	Not applicable
Vermont Act 62	Not applicable
Virginia	2011
Washington	December 2014
West Virginia	2012 and 2009 by REL-A; 2009 by Marshall University; 2005 by NIEER
Wisconsin 4K	2003-2004 school year as part of the SWEEP study; In progress, UW Madison is concluding a national study exploring 4K in WI and NJ
Wisconsin HdSt	Not applicable

Footnotes are grouped by state at the end of Appendix A. Unless noted, all data are for the '13-'14 school year, except Minnesota which is for the '12-'13 school year.

## STATE

## MONITORING

Required assessment for pre-K

Alabama	Administrative policy by DCA requires PPVT, TS GOLD
Alaska	Teaching Strategies GOLD & PPVT
Arizona	Monitoring is required, but no instrument is specified.
Arkansas	WSS and Ounce assessments
California	Desired Results Developmental Profile (DRDP)
Colorado	Use of an approved assessment system; in 2013 - 2014 all programs elected to use Teaching Strategies GOLD.
Connecticut	Determined locally
Delaware	Teaching Strategies GOLD
District of Columbia	Determined locally; programs currently use several specific assessment tools, including Teaching Strategies GOLD and Every Child Ready
Florida	Florida Voluntary Prekindergarten (VPK) Assessment.
Georgia	Georgia's Pre-K Child Assessment (modified Work Sampling System)
Illinois	Determined locally from a provided list.
Iowa Shared Visions	Teaching Strategies GOLD Online
Iowa SVPP	Teaching Strategies GOLD
Kansas Preschool	Kansas Early Learning Inventory for Fours (KELI-4)
Kansas State Pre-K	KELI-4; other assessments are locally determined
Kentucky	Districts may choose one of the approved assessment tool in the Kentucky Continuous Assessment Guide
Louisiana LA4	DSC and/or Teaching Strategies GOLD (for community Network Pilots only)
Louisiana 8(g)	DSC, Teaching Strategies Gold, portfolios, or locally determined tools
Louisiana NSECD	TS Gold ( in the Early Childhood Community Network Pilot); DSC, 3 times per year (non-pilot schools)
Maine	Required assessment instruments are locally determined
Maryland	Voluntary prekindergarten assessment is a part of the ROT-ELC
Massachusetts	WSS, High Scope COR, or Creative Curriculum Developmental Continuum (or the new GOLD) (UPK)
Michigan	COR, Creative Curriculum Development Continuum, and WSS are recommended
Minnesota	Determined locally; must comply with federal Head Start requirements.
Missouri	Desired Results Developmental Profile (DRDP); required for new and renewal programs.
Nebraska	Teaching Strategies GOLD
Nevada	PPVT and EOWPVT as annual pre- and post-assessments; WIDA for DLLs who are unable to score a basal on previous assessments
New Jersey Abbott	Performance-based assessment; district-needs assessment; annual program evaluation
New Jersey ELLI	Performance-based assessment; district-needs assessment; annual program evaluation
New Jersey ECPA	Performance-based assessment; district-needs assessment; annual program evaluation
New Mexico	New Mexico PreK Observational Assessment
New York	Required assessment instruments are locally determined
North Carolina	Creative Curriculum Developmental Continuum for Ages 3-5 or Teaching Strategies GOLD; HighScope Preschool COR; Galileo On-line Assessment System; Learning Accomplishment Profile); Learning Care System; WSS
Ohio	GGG, ASQ(SE). Programs are required to also use a curriculum-embedded performance measure, but the instrument is determined locally.
Oklahoma	Determined locally
Oregon	Teaching Strategies GOLD.
Pennsylvania EABG	Not applicable
Pennsylvania HSSAP	Choose from a list of approved assessment tools aligned to Pennsylvania's Early Learning Outcomes Reporting Frameworks
Pennsylvania K4 & SBPK	Determined locally
Pennsylvania Pre-K Counts	Choose from a list of approved assessment tools aligned to Pennsylvania's Early Learning Outcomes Reporting Frameworks
Rhode Island	Teaching Strategies GOLD
South Carolina CDEPP	Choose from an approved list: WSS, GOLD, High Scope's COR, Galileo PreK online assessment, Learning Accomplishment Profile.
South Carolina 4K	New Readiness Assessment
Tennessee	Tool not specified
Texas	Not applicable
Vermont EEI	Teaching Strategies GOLD Fall & Spring Checkpoints
Vermont Act 62	Teaching Strategies GOLD
Virginia	PALS Pre-K
Washington	Teaching Strategies GOLD
West Virginia	Early Learning Scale
Wisconsin 4K	The state has started literacy screening with PALS - PreK in 2013-14. The state does not require other assessment at 4K, so districts determine their own assessment process. Teaching Strategies GOLD and Ages and Stages are often used. Common applications of the assessment information are to identify needs that will guide teacher training or professional development, make adjustments to curricula, and track child and program level outcomes over time.
Wisconsin HdSt	Required assessments must comply with federal Head Start requirements. Additional Details:

Footnotes are grouped by state at the end of Appendix A. Unless noted, all data are for the '13-'14 school year, except Minnesota which is for the '12-'13 school year.

## STATE

## MONITORING

How are child-level pre-K assessments used?

Alabama	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To make adjustments to curricula; To track child and program level outcomes over time; To make changes to state policies regarding the preschool program; To provide a measure of kindergarten readiness <sup>13</sup>
Alaska	To identify needs that will guide teacher training or professional development; To make decisions regarding a child's enrollment in kindergarten; To make funding decisions about programs or grantees; To make adjustments to curricula; To track child and program level outcomes over time; To make changes to state policies regarding the preschool program; To provide a measure of kindergarten readiness <sup>13</sup>
Arizona	To identify needs that will guide teacher training or professional development; To make adjustments to curricula; To track child and program level outcomes over time
Arkansas	To identify needs that will guide teacher training or professional development; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To make adjustments to curricula; To track child and program level outcomes over time; To make changes to state policies regarding the preschool program; To evaluate teacher performance; To provide a measure of kindergarten readiness
California	To identify needs that will guide teacher training or professional development; To make decisions regarding a child's enrollment in kindergarten; To make adjustments to curricula; To track child and program level outcomes over time; To make changes to state policies regarding the preschool program; To provide a measure of kindergarten readiness
Colorado	To identify needs that will guide teacher training or professional development; To make adjustments to curricula; To track child and program level outcomes over time; To make changes to state policies regarding the preschool program; To provide a measure of kindergarten readiness <sup>16</sup>
Connecticut	To identify needs that will guide teacher training or professional development; To make decisions regarding a child's enrollment in kindergarten; To make adjustments to curricula; To track child and program level outcomes over time; Other; Determined locally <sup>20</sup>
Delaware	To identify needs that will guide teacher training or professional development; To make decisions regarding a child's enrollment in kindergarten; To identify programs for corrective action or sanctions; To make funding decisions about programs or grantees; To make adjustments to curricula; To track child and program level outcomes over time; To make changes to state policies regarding the preschool program; To evaluate teacher performance
District of Columbia	To identify needs that will guide teacher training or professional development; To make decisions regarding a child's enrollment in kindergarten; To make adjustments to curricula; To track child and program level outcomes over time; To evaluate teacher performance; To provide a measure of kindergarten readiness
Florida	To identify needs that will guide teacher training or professional development; To make adjustments to curricula; To track child and program level outcomes over time

## APPENDIX A: STATE SURVEY DATA 2013-2014 (continued)

### ALABAMA - First Class Pre-K: Alabama's Voluntary Pre-Kindergarten

- 1 The State Office of School Readiness has administrative authority over the Voluntary Pre-Kindergarten Program, however, the Governor's office may override or approve decisions.
- 2 Alabama has reports of 208 children with identified disabilities; 30 reported receiving special services. The information regarding special services was reported at the beginning of the class year, but no follow-up reporting was completed to identify the number of children who were referred and received services through the school year.
- 3 Those children identified as needing services were referred for services. There was not a clear reporting system for follow up regarding which services were received.
- 4 Programs may offer an extended day option but may not use state pre-K dollars for the program. The state does not collect data about which programs offer extended-day option.
- 5 A sliding scale is based on income of family and percentage of poverty. There are three types of grants: Excellence (\$45,000), Tiered (range from \$80,100-\$92,800), and Plus (new grants for start up funds \$120,000). The Tiered grants and the Plus grants require the use of the sliding scale based on income of family and percentage of poverty and cannot charge fees that exceed the amount allowed in the sliding scale. Those classrooms which receive Excellence grants "may charge parents the normal cost of child care that is common in the local community." (OSR Guidelines)
- 6 Head Start programs may apply for a waiver to have up to 20 children per classroom and a staff-child ratio of 1:10
- 7 Breakfast is also offered by many programs, but not required.
- 8 ASQ3 is used for developmental screening. Each child must have a physical and a health screening. The state does not collect the health data as in the past. Monitoring staff verifies that a physical and screenings have been completed and are onsite. Immunizations are required but the state does allow for migrant, homeless, or other religious-based or health-based exceptions.
- 9 Local providers develop ELL plans.
- 10 All lead teachers are required to have a Bachelor's degree in Early Childhood or Child Development. If they are certified teachers, they must have the P in their certification.
- 11 While a 25 percent match is required from each program, the state's reporting system does not reflect the source of the match.
- 12 Instructional practice is supported by coaching and is based on a tiered approach for response to improvement.
- 13 Administrative policy by DCA requires PPVT, TS GOLD. The GOLD assessment is used as a formative assessment that helps guide teacher training. ECERS and monitoring visits are used to identify programs for corrective actions and/or adjust curricula. Working with the Alabama Department of Education to provide measures of student outcomes over time and across grades.) State is monitoring children's progress in school in partnership with the Department of Education, and using GOLD in a select number of school systems to measure kindergarten readiness. This is not in the pre-K program but is in public school kindergartens in pilot phase. An additional 3 school systems adopted GOLD as KEA for 2014-2015.
- 14 There is no kindergarten entry assessment required by the Alabama Department of Education. Alabama Department of Children's Affairs is working with local school systems to implement GOLD as a Kindergarten Entry Assessment. This is voluntary and in pilot phase.

### ALASKA - Alaska Prekindergarten Program

- 1 One of the 54 school districts only provides high school services
- 2 Exact number of special education students is unknown but it is estimated at 10 percent of enrollment.
- 3 Five out of the eight programs are jointly operated by public schools and Head Start.
- 4 Programs operate 4 or 5 days a week for a minimum of 14 hours a week; hours of operation are determined locally. Programs may partner with child care or other services to provide wrap-around care but, by state definition, state-funded pre-K cannot operate more than 5 hours a day.
- 5 For children with IEPs. If parents and members of the IEP team determine that pre-K is the least restrictive environment for the child, the child could receive services through pre-K even if he or she did not meet the age requirements.
- 6 Mirroring federal Head Start guidelines, up to 35 percent of enrollment may be children whose family incomes are between 100 and 130 percent FPL after priority is given to children at or below 100 percent FPL. In addition, some communities meet poverty of access criteria per federal Head Start regulations. School districts partnering with Head Start programs must follow federal Head Start requirements. All programs must follow state pre-elementary statutes and regulations.
- 7 School districts partnering with Head Start programs must follow federal Head Start requirements. All programs must follow state pre-elementary statutes and regulations.
- 8 In addition, if a school district partners with a Head Start program, all federal Head Start requirements must be met. While there is a state policy requirement of professional development for teachers, only some formal training was available in the 2013-2014 school year, although technical assistance was provided.
- 9 An independent alignment of the ELGs and the new standards has been completed. Guidelines are aligned to the Alaska Developmental Profile, the Head Start Child Outcome Framework, and the Teaching Strategies Gold assessment process.
- 10 Teachers must be state certified with a degree in ECE or a related field or specialized training in ECE or a related field.
- 11 A current CDA, or 12 ECE credits or an Associate degree with specialized training in early childhood education or an AAS in early childhood education or a similar or related field.
- 12 An additional \$214,000 was used for set-aside funds for intervention districts.
- 13 Done at the department level, the evaluation covers three years of reporting on pre- and post-assessments using the TSG, PPVT, and ECERS instruments. Teaching Strategies GOLD & PPVT are used for pre-K assessment. CLASS is used in all classrooms.

### ARIZONA - Quality First Scholarships

- 1 First Things First is the funding and administrative authority for Quality First Scholarships and has a partnering agreement for service delivery with the local United Way affiliate.
- 2 FTF Regional Partnership Councils include 21 geographically defined Councils and 10 tribal Councils, which span the entire state. The 21 geographically defined Councils are largely constructed along county lines, except for major metropolitan areas of Phoenix and Tucson, which have eight and three Councils respectively. This count of 23 also includes five of 10 tribal Regional Partnership Councils, which are defined by tribal land (reservation) boundaries, and include separate child counts from the geographic county in which the tribal land resides.
- 3 Funding is allocated by each FTF Regional Partnership Council. The opportunity to receive funding depends on the amount allocated in each region. Quality First Scholarships are awarded to early care and education programs that have achieved the quality levels in the state's QRIS, Quality First.
- 4 The number of children indicated above as 5-year-olds were NOT age eligible for kindergarten at the time of their enrollment in this state funded program. The program serves children in both center and family child care settings. In addition to the above total 212 children participated in Quality First Scholarships provided to family child care settings (89 three year olds, 74 4-year-olds and 49 5-year-olds not in kindergarten. Additionally, in family child care home settings, 201 children under three years of age were served. In total 8,390 children were served.
- 5 There are 115 providers in the system that did not identify public or private status. The total number of children in the unidentified programs is 1060. In addition, children were also served in family child care settings. A total of 347 children were served in Family Child care settings. First Things First has administrative authority for both the public and nonpublic school sectors for this program and requirements for program standards are the same no matter where children are served.

- 6 The most common operating schedule in public school settings is a part-day schedule, which is a minimum of 3 hours per day (no less than 12 hours per week), and no less than 3 days per week on a school year calendar. The most common operating schedule in nonpublic school settings is school- or extended-day on a full calendar year.
- 7 Although there is no formal state level partnership, there are multiple Head Start programs participating in Quality First and some use Quality First scholarships to extend the day and/or serve additional children.
- 8 Some early care and education programs charge a copayment to the family in addition to the funding that the state provides. This depends on each participating early care and education program.
- 9 Annually, income- and age-eligibility are verified. Children who are deemed ineligible no longer receive the scholarship.
- 10 Group size and teacher-child ratio are based on the age of the youngest child in attendance.
- 11 Programs are required to follow state child care licensing regulations. Children enrolled 2 to 4 hours receive one or more snacks; children enrolled 4 to 8 hours receive one or more snacks and a meal; children enrolled 9 or more hours receive two snacks and a meal.
- 12 The current standard is a minimum quality rating as assessed by the statewide QRIS, Quality First. Quality First programs that meet the minimum rating are not currently required to conduct or ensure that sensory, developmental, and mental health screenings are conducted.
- 13 All participating early care and education program administrators and Lead Teachers are required to participate in the introductory training on the Arizona Early Learning Standards. Additionally the program must align their curriculum with these standards to participate in Quality First Scholarships.
- 14 In the early care and education program, both public and nonpublic settings must meet minimum standards for the program as a whole. Twenty-five percent of lead teachers in both public and nonpublic participants in Quality First scholarships programs must have at least 12 college credit hours in early childhood or related fields OR a certificate of completion in ECE or child development from a community college OR a CDA. Certification was not required in the 2013-2014 school year, though the Arizona Department of Education requires lead teachers in all public school early childhood programs to be certified in Early Childhood Education (Birth–grade 3) as of July 2012. The standard for participation in the Quality First Scholarships program is a minimum quality rating in the state QRIS, Quality First. The minimum standard for teaching staff qualifications is as stated, in conjunction with a minimum score on two valid and reliable program assessment tools, Environment Rating Scales (ERS), and Classroom Assessment Scoring System (CLASS).
- 15 There were a total of 1,420 Lead Teachers who do not have education listed. The state of Arizona will be implementing a workforce registry in the next year and will have more robust data on teaching staff.
- 16 The professional development requirement is defined by state child care licensing.
- 17 In addition to the above total, Quality First Scholarships were also provided to children younger than 3 years of age (\$2,338,927.67) and children served in family child care homes (\$936,978.41) for a total of \$15,582,695.37. A change in the scholarships program also resulted in changing the structure in which scholarships were allocated. A minimum number of scholarship slots were allocated to programs based on their Quality First Rating and the size of program (i.e. how many children 0-5 they serve). We also changed our reimbursement policy to align with attendance rather than enrollment. So we were able to serve more children with less funding, because we based the reimbursement on attendance.
- 18 All programs must meet the quality levels of the QRIS, Quality First, to be eligible to participate in the program.
- 19 The Quality First website, qualityfirstaz.com was launched, to inform families of the quality levels of the programs in the QRIS.
- 20 A validation study is planned for Quality First, Arizona's quality rating and improvement system. This formal evaluation will measure the impact and child outcomes in the future.
- 21 Monitoring is required, but no instrument is specified.
- 22 Arizona is working to establish a kindergarten developmental inventory instrument that will be used at kindergarten entry and will potentially implement this by the 2016-2017 school year.

#### **ARKANSAS - Arkansas Better Chance/Arkansas Better Chance for School Success**

- 1 School districts classified as being in academic distress, appearing on the school improvement list, or where more than 75 percent of fourth graders score below proficient on benchmark exams, are required to establish an ABC/ABCSS pre-K program.
- 2 The enrollment total does not include 3,918 children who received ABC home-visiting services only during the 2013-2014 program year. There were 1,260 children who are dually served in center-based care and home visiting. The 1,260 were included in the center-based numbers.
- 3 The state anticipates that the current number of children receiving special education services exceeds the number reported, due to the fact that the state data system is currently being updated in this area.
- 4 The Division of Childcare and Early Childhood Education has administrative responsibility for all ABC programs through an interagency agreement with the Arkansas Department of Education.
- 5 Programs may apply for Child Care Development Funds (CCDF) to assist with before and after school care provided the children meet the requirements of eligibility for CCDF. CCDF will also fund ABC summer school to provide an extended year for those programs interested in providing these services.
- 6 Agencies with ABC funding (vs. ABCSS) can serve children from birth-5 years of age who meet specific special needs criteria. ABCSS agencies may opt to serve children who are kindergarten-eligible with special needs, although a waiver must be obtained.
- 7 Children eligible to participate in an ABC program shall have at least one of the following characteristics: family with gross income not exceeding 200 percent FPL; a parent without a high school diploma or GED; low birth weight (below 5 pounds, 9 ounces); parent who was under 18 years of age at child's birth; immediate family member with a history of substance abuse; a demonstrable developmental delay identified through screening; eligible for services under IDEA; income-eligible for Title I programs; limited English proficiency; or a parent who has a history of abuse or neglect, or is a victim of abuse or neglect. To be eligible to participate in the ABCSS program, the family must have a gross income not exceeding 200 percent FPL and be age-eligible. Both programs may also serve children who meet the following criteria: meet the state's homeless criteria; are in foster care; has an incarcerated parent; has a parent activated for overseas military duty; or has an immediate family member arrested for or convicted of drug-related offenses. A sliding scale applies to families with incomes between 200 and 250 percent of FPL.
- 8 The lead teacher in a public school shall hold a standard Arkansas teacher license with P-4 certification. The lead teacher in a nonpublic school based program must have a minimum of a bachelor's degree in early childhood education or child development. For all programs with multiple classrooms at a single location, the teacher of the second classroom shall hold, at a minimum, an associate degree in early childhood education or early childhood development. State policy does allow programs to hire staff under an approved staff qualifications plan while completing coursework to meet obtain minimum credentialing.
- 9 To meet NIEER's definition of lead teacher, the educational level data above represents all classroom teachers. Data in the other category represents teachers entered into the data system with no designation entered, which is currently being updated.
- 10 Licensed teachers must obtain 60 clock hours of professional development annually; all other ABC teachers are required to obtain 30 clock hours per program year.
- 11 All participating public and nonpublic providers must provide a 40 percent match. The match can comprise in-kind or monetary support.
- 12 All licensed providers and home-visiting agencies that meet eligibility requirements are eligible to apply for funding.
- 13 Although programs are not required by state regulations to participate in the QRIS, programs are required to meet Quality Standards in the ABC classroom area. Less than 1 percent do not participate in the System.
- 14 Arkansas utilizes an electronic database to monitor programs daily. Technical assistance visits are conducted by request.

## CALIFORNIA - California State Preschool Program

- 1 The part-day program is funded to operate at least 3 hours per day for a minimum of 175 days per year. The school-day program is funded to operate at least 6 hours per day for a minimum of 246 days per year. The majority of programs currently operate approximately 10 hours per day.
- 2 Children may remain in the program through summer until school begins in the fall.
- 3 CalWORKs cash-aided (TANF) families are excluded from paying the family fee. Children in Child Protective Services and those children at risk of being abused, neglected, or exploited may be excluded from family fee payment for up to 12 months.
- 4 Part-day CSPP services only requires families to establish eligibility at time of enrollment. A family that enrolls in full-day care must meet and maintain need for care to remain in the full-day program. However, if a family no longer meets the need criteria for full-day services they may remain in part-day services for the remainder of the school year based on the eligibility at enrollment.
- 5 Although there is no limit to class size, programs typically enroll 24 children in the class.
- 6 Contractors must provide meals and snacks that meet nutritional requirements specified by the federal CACFP or the National School Lunch Program. For the part-day program, one meal or snack is required. For the full-day program, one or two meals and two snacks are required, depending on hours of operation.
- 7 Immunizations and physical and developmental assessments are required by Title 22. If screenings are not provided by the parents, local programs must address them.
- 8 Volume 3 of the Preschool Learning Foundations and its companion publication, the California Preschool Curriculum Framework, Volume 3, were released in September 2013. Both publications cover the domain areas of history-social science and science. This Volume 3 set completes California's preschool foundations and preschool curriculum framework series and were in effect for the 2013-2014 school year.
- 9 The California Child Development Associate Teacher permit is the minimum requirement for a teacher in a CSPP classroom (though California does not use the term lead teacher) and exceeds the requirement of the CDA. The permit requires 12 units in ECE or child development and 50 days of work experience in an instructional capacity. It may be renewed one time for a five-year period. A teacher may also have the full Child Development Teacher permit, which requires a minimum of 40 semester units of education including a minimum of 24 units in ECE or child development, and 175 days of work experience, or a Master Teacher permit.
- 10 Assistant teachers in the California State Preschool Program are required to have a high school diploma or equivalent. The optional Child Development Assistant Teacher Permit requires six credits in ECE or CD.
- 11 Reported funding represents actual expenditures as of December 4, 2014 for state fiscal year 2013-2014. The amounts reflect unaudited expenditures and are subject to change. Local Educational Agencies (LEAs) are required to submit revised reports by February 13, 2015. Private agencies submitted audits by November 15, 2014. They could ask for a one-time extension until December 15, 2014.
- 13 Summary information is provided by the contractor on an annual basis. Agencies are required to submit agency-wide program and fiscal audits each year and data on children and families served each month. Agencies are responsible for prioritizing program improvement areas.

## COLORADO - Colorado Preschool Program

- 1 The Charter School Institute also participates in the Colorado Preschool Program.
- 2 When allocating slots, priority is given to those school districts not currently participating in the program.
- 3 Under the early childhood councils, three school districts have waivers to serve children younger than age 3 in CPP. Children must turn 3 by October 1 in order to be funded by the state, but districts can choose earlier eligibility dates. The number of 5-year-olds is reflective of the children who turned 5 before June 1, which is the earliest eligibility date chosen by school districts.
- 4 CPP funds flow from the state directly to school districts. Local district advisory councils then provide oversight, with final approval required by the school district superintendent.
- 5 The program is funded for 5 days per week, although the statute requires children attend 4 days per week or the equivalent, with the fifth day being funded for home visits, teacher planning time, completion of child assessments, or staff training. Programs may extend the hours and days beyond the minimum requirement of 10 hours per week. These opportunities are determined locally and based on the needs of children and families. While district advisory councils are encouraged to blend CPP funding with other sources such as Head Start, child care subsidy, and parent tuition so that children can participate in full-day programs, enrollment by schedule is not collected.
- 6 Under a waiver approved through the early childhood councils, three districts may fund children younger than age 3 in CPP. Under certain conditions, highly advanced gifted children may be granted early entrance to kindergarten. There is no designated cut-off date for the maximum age a child could be served in preschool; this is locally determined. However, there is a state policy limiting children to two years of participation. A kindergarten-eligibility date is established by the local school board. Children must turn 5 by October 1 in order to be funded, so no school district establishes a cut-off date later than October 1. However, school districts may establish dates as early as June 1 for eligibility for kindergarten.
- 7 Income eligibility may be the sole factor or may be one of several eligibility factors. In some areas of the state where the cost of living is extremely high, district advisory councils have increased the eligibility to 200 or 225 percent FPL. Locally determined risk factors that have been selected by the district advisory councils include: parent is incarcerated, parent is on active military duty, and developmental delay that raises concerns for school readiness but does not require special education services. Four-year-olds can qualify with one risk factor. Three-year-olds must have three or more risk factors.
- 8 Meals and nutritious snacks must be served at suitable intervals. Children who are in the program for more than 4 hours per day must be offered a meal that meets at least one-third of their daily nutritional needs.
- 9 Teachers must have college coursework in child development, developmentally appropriate practices, understanding parent partnerships, and multicultural education. They must be supervised by someone with at least a BA in early childhood education or child development.
- 10 There is no specific category for assistant teacher, but staff aides must meet Colorado Department of Human Services Licensing Requirements (at least 16 years of age with favorable background checks).
- 11 In the Colorado School Finance Formula each preschool slot is funded at 0.5 FTE and provides for both a local and state share.
- 12 Each year, participating programs submit an annual report that is reviewed in depth. State staff use a rubric for review and feedback about these annual applications and reports. Programs also submit audited revenue and expenditures for district-level programs, documentation of family outcomes, longitudinal data on children's performance in statewide assessment in grades K-12, graduation rates, retention rates, and placement in special education in grades K-12. Programs are required to conduct self-assessments through Colorado Quality Standards or NAEYC Accreditation, but the state does not collect this data.
- 13 Not all programs provide the same measures of quality effectiveness data. At minimum, local district advisory councils must monitor each setting serving CPP children two times per year. Some district advisory councils also require NAEYC accreditation or Qualistar rating, but this is a local decision. Colorado uses a targeted assistance model that may provide newer programs with multiple site visits per year; all programs receive a visit at least every two years. District advisory councils may hire outside monitors.
- 14 The reported application of monitoring information represents how the state Department of Education uses monitoring information. Local programs use the information for other purposes.
- 15 Status and growth data are reported to the Colorado Legislature through an annual report provided at the commencement of the legislative session. Results of global outcome ratings based on the child assessment data are also reported to the Governor's Office as part of the annual early childhood system framework report submitted by the Lieutenant Governor. Under Results Matter, the process for evaluating the program's effectiveness is ongoing and based on performance-based assessments, parent surveys, K-8 assessment data and retention rates, and program quality ratings. State policy required the use of an approved assessment system to measure child outcomes. In 2013-2014, all programs chose to use Teaching Strategies GOLD.
- 16 Use of an approved assessment system; in 2013-2014 all programs elected to use Teaching Strategies GOLD. The response provided is based on how local programs use assessment data rather than a state policy.

- 17 In 2013, the READ Act officially replaced the Colorado Basic Literacy Act; it requires literacy assessment in K-3. All students receive interim assessment 3 times per year. Students identified with a significant reading deficiency at any point in the year must receive diagnostic assessment within 30 days. Summative assessments are optional. Approved interim assessments: Aimsweb, i-Ready, DIBELS Next, IDEL, FAST, ISIP ER, Istation, PALS, and STAR. Approved diagnostic assessments include i-Ready, Aimsweb, DIBELS Next, FAST, PALS, STAR, NWEA-CPAA, PPVT, TVIP, VRMT-III, Amplify Burst Reading Assessments, and Woodcock-Munoz LS. Approved summative assessments include i-Ready, NWEA-MPG, and Terra Nova.

### CONNECTICUT - Connecticut School Readiness

- 1 As of July 1, 2013, the Connecticut Office of Early Childhood (OEC) was the new agency exercising administrative authority over this state prekindergarten initiative.
- 2 the 67 communities, 19 are priority school districts as defined by legislation and 48 are competitive municipalities. The 19 priority school districts are not required to participate, but funds are available to all eligible districts. Competitive grants are available to municipalities that have one or more schools in which 40 percent or more of the children are eligible for free or reduced-price lunch or are one of the communities identified within the 50 lowest wealth ranked towns in the state.
- 3 Enrollment figures were collected in October 2013 before enrollment had reached capacity. Any birth date entered for a child under 3 or over 5 years of age is not collected in the age category. Enrollment totals reflect children who are primarily funded by state pre-K dollars. Children can have a secondary source of pre-K funding. Totals include children in Care4Kids, a state subsidy. All enrollment figures are a self-reported system and not all programs participate. This system has been used in past years.
- 4 The database used to report enrollment by operating schedule is not the same as that used to report total enrollment figures. Hours vary by program. Extended-day programs operate 10 hours, 50 weeks per year, while school-day programs are 6 hours, 180 days per year. Children must be in need of at least 6 hours of care to qualify for an extended-day space and 5 hours of care to be eligible for a school-day space. Part-day programs operate 2.5 to 5.5 hours, 180 days per year. Funding from another source can be used to extend existing programs into extended-day programs. The minimum requirement is 2.5 hours per day for 450 hours per year.
- 5 Communities may allow a small number of kindergarten-eligible children to remain in the program (up to 5 percent of the total served) if the child has been enrolled in the School Readiness program for one year and if the parent or guardian, School Readiness provider, and the local or regional school district agree that the child will not enter kindergarten.
- 6 All families, regardless of income levels, can apply for School Readiness spaces in competitive and priority municipalities; however, 60 percent of children enrolled in each municipality must meet the income guideline of at or below 75 percent SMI.
- 7 Exemption from the sliding scale for part-time programs may be available if the local School Readiness Council establishes a policy.
- 8 All children remain eligible for the program but the fee is reassessed annually and residency is verified. Parent fees can change mid-year depending on change in income and family size, though programs work with families to keep the child in the program. Children may no longer be eligible for the program if they no longer reside in the town that offers School Readiness or are over age.
- 9 The School Readiness program encourages a class size of 18.
- 10 Programs are required to serve one snack to children who attend fewer than 5 hours per day and one snack plus one meal to children in class for 5 to 8 hours per day. Children attending more than 8 hours per day must be provided one snack and two meals or two snacks and one meal. Either the program or the parent may provide the food.
- 11 It is strongly suggested that programs provide a staff member or volunteer who speaks the child's home language.
- 12 The new CT Early Learning & Development Standards 0-5, aligned with the Common Core, are in effect as of Fall 2013 and also include Creative Arts, Mathematics, Science, Social Studies, and supplemental Dual Language Development framework.
- 13 Lead teachers in public and nonpublic schools under the School Readiness grant must have at least a CDA and 12 early childhood credits. By 2015, 50 percent of lead teachers must hold a BA and 50 percent must hold an AA specific to early childhood. By 2020, 100 percent of lead teachers must hold a BA. It is not mandatory for public schools to apply for or offer the School Readiness program; therefore the public schools only need to follow grant requirements if they are grant-funded.
- 14 Some programs may have reported a teaching staff member as "classroom teacher" in the Registry despite them not being the qualified teacher, leading to a potential overcount. Additionally, teachers with higher credentials may be reported at a lower degree level (ie, HSD) if they have not yet submitted all credential paperwork for the Registry.
- 15 All School Readiness staff must complete two 3-hour annual trainings in early childhood education and one 3-or-more-hours annual training in serving children with disabilities. They must also document training in emerging literacy and in diversity in the classroom. Most centers are licensed by the Office of Early Childhood, which requires annual training in medical administration, First Aid, and nutrition.
- 16 State sources include appropriation for slot dollars, parent fee subsidies, and quality enhancement funds. Non-required local sources include parent fees, Care4Kids, and community contribution toward administrative costs. Individual sites may receive federal CACFP funding but that information is not collected.
- 17 For priority districts, the funding level is based on previous year's slot capacity and local requests for proposals addressing ability to increase capacity. The appropriation is set by the state. Competitive School Readiness communities receive a legislated flat rate.
- 18 Municipalities, Regional Education Service Centers (RESCs), and school districts have fiduciary responsibility but may contract with a variety of other agencies to provide the program including Head Start, Private agencies, RESCs, public schools and faith-based centers.
- 19 All programs are evaluated annually through the CT School Readiness Preschool Program Evaluation System (CSRPPES), which includes ECERS for specified programs. NAEYC-accredited and Head Start affiliated programs are exempt from some provisions of this through their own evaluations.
- 20 Programs may use any curriculum and assessment aligned with the Connecticut Early Learning and Development Standards and CT Preschool Assessment Framework that address learning standards and outcomes. There is no state policy regarding how districts must use pre-K assessment data. Districts are known to use these data to guide teacher training, professional development, or technical assistance; to make decisions regarding a child's enrollment in kindergarten; to make adjustments to curricula; and to track child and program level outcomes over time.
- 21 The Kindergarten Inventory was developed by the state for kindergarten teachers to use in the first six weeks of school and is based on the skills and knowledge outlined in the previous Connecticut Curriculum Framework and the current Connecticut Assessment Framework.

### DELAWARE - Delaware Early Childhood Assistance Program (ECAP)

- 1 Delaware follows the Head Start Performance Standards for Re-Competition.
- 2 Programs are required to provide a minimum of 3.5 hours of services per day. Programs that operate longer than 3.5 hours per day have blended funding from multiple sources to support the additional portion. Some ECAP programs align with school district schedules. Some programs use state subsidy (Purchase of Care) dollars to extend the program day for children.
- 3 A child identified as gifted and talented may begin Kindergarten at 4.
- 4 State pre-K children must meet the federal Head Start income guidelines. Ten percent of available slots must be provided for children with disabilities. Effective as of 2007, 35 percent of enrollment may be children whose family incomes are between 100 and 130 percent FPL after priority is given to children at or below 100 percent FPL.
- 5 While a 25 percent match is required from each program, the state's reporting system does not reflect the source of the match.
- 6 Programs also participate in a triennial review with the Head Start Monitoring System

## DC - D.C. Public Pre-K

- 1 While the Office of the State Superintendent maintains administrative control over the program in all sectors, the District of Columbia Public Schools (DCPS) and the DC Public Charter School Board (PCSB) bears some responsibility in administering the programs in their respective settings
- 2 All elementary schools in DCPS and PCS offer pre-K for age eligible students. Additionally, the pre-K grant is available to highly qualified community-based organizations that are awarded funds through a competitive grant process. The Pre-K Enhancement and Expansion Act of 2008 established a 5-year strategic expansion plan to make prekindergarten universally available and to establish eligibility and priority criteria for enrollment in prekindergarten. DC Public Charter Schools that are approved by way of their charters to provide pre-K may offer it to all age-eligible students who are DC residents.
- 3 While the program is intended for 3- and 4-year-olds, many children under age 3 are served by charter schools opting for a December cutoff date; these children would be counted as under age 3 during the October census.
- 4 Children with IEPs and IFSPs are included in DCPS and Charter counts. If eligible for continued services, children with IFSPs transition to IEPs at age 3. At this time, they enter the state pre-K program. These totals include students served in nonpublic programs and students in surrounding counties eligible to receive services under IDEA as the geographic LEA. IFSPs can now be extended until age 5.
- 5 The 11,855 is for DC Public Schools and Public Charter Schools. There were 571 students in the Pre-K Incentive CBOs, totaling the 12,426.
- 6 In 2013-2014, before- and after-school services are provided by a mixed delivery system, consisting of CCDF funds covering this service in the public schools, as well as public Pre-K students attending this service at childcare centers and homes.
- 7 A small number of LEAs and CBOs use the age cutoff date of December 31, 2013.
- 8 For mixed-age groups, the maximum is 16 for class size and 2:16 for staff-child ratio.
- 9 The DC Healthy Schools Act requires the provision of both breakfast and lunch. Childcare licensing mandates two meals and a snack for a school-day program, defined as 7 hours.
- 10 Health exams are provided directly in some, but not all, programs. All students must have a completed DC Universal Health Certificate, completed by the health provider, and must verify screenings for vision, hearing, health, dental, language/speech, developmental/behavioral, height/weight/BMI, and completion of immunizations.
- 11 All public pre-K students are assessed using DC's ELL assessment, ACCESS.
- 12 In public settings, an assistant teacher must have an AA, 48 college credit hours, or have passed the paraprofessional exam, which is a basic skills test. It is not required that the degree be in ECE. For nonpublic assistant teachers, they must be enrolled at the time of employment in an early education degree program.
- 13 District-level funding for the D.C. Pre-K Program totaled \$175,096,000 across all DCPS, Charters, and CBOs. Programs receive the same per-pupil amount regardless of the setting where children are served. Spending is based on the per-pupil funding formula of \$12,470 per 3-year-old and \$12,098 per 4-year-old with adjustments for special education and limited English proficiency students, as well as the Charter school facilities allowance.
- 14 Charter schools can contract with public schools, Head Start, private agencies, faith-based settings, and private child care centers
- 15 The public Pre-K program is evaluated annually as required by legislation.
- 16 In 2013-2014, OSSE piloted a KEA which assessed 825 children in 40 classrooms.

## FLORIDA - Florida Voluntary Prekindergarten Program

- 1 These state agencies shared responsibility for the implementation of the program in the 2013-2014 program year. Each agency was assigned responsibilities that align with their statutory functions.
- 2 All school districts are required to offer the 300-hour VPK program during the summer.
- 3 Participation in the VPK program is projected to follow Florida's 4-year-old population rate, anticipating a 1 percent growth in future years.
- 4 In Florida, faith-based centers are a subset of private child care centers. Students may move between provider types. In addition, there may be overlap between the school-year and summer program enrollment. The Florida Office of Early Learning exercises administrative rules that allow reenrollment for certain hardships that may allow a child who had attended some portion of the school year program to enroll for summer in some circumstances.
- 5 Minimum operating hours are 540 hours for the school-year program (most programs operate 3 hours per day, 5 days per week) and 300 hours for the summer program (most programs operate 8 hours per day, 5 days per week). Providers are allowed to determine their individual calendars in order to meet those requirements. Specialized Instructional Services programs offer reimbursement for services to children with disabilities for whom a traditional VPK program may not be appropriate. The funding for these specialized services for children with disabilities is equal to that for children in traditional school year or summer VPK program and is used in lieu of attending a traditional VPK program. The school-year program cannot start earlier than two weeks before Labor Day, or before the first day of school according to the local school district calendar, and must end by June 30. The summer program may run between May 1 and the beginning of the next public school year. Most school-year programs operate on a 180-day calendar. Most summer programs operate on a two-month calendar.
- 6 Enrollment in the school year program was 163,814 and in the summer program 6,452 with possible duplication for children attending both.
- 7 State policy permits exceptions to the age requirement for kindergarten only. A student who transfers from an out-of-state nonpublic school and does not meet regular age requirements for admission to Florida public school, may be admitted if he or she meets the age requirements for the public schools in the state from which he is transferring. Any student who transfers from an out-of-state public school, and who does not meet regular age requirements for admission to Florida public schools, will be admitted to kindergarten or first grade when certain data are presented, based on each district's pupil progression plan.
- 8 Child care providers are required to have a plan of scheduled daily activities, which includes meals and snacks as appropriate for the age and the times the children are in care. Meals and snacks are required for extended-day programs.
- 9 All children participating in programs in licensed child care facilities or public schools must have evidence of vision, hearing, and immunization/ general physical health screenings. Referrals for follow-up are recommended by the health professional. For public schools programs, referrals for further follow-up are required.
- 10 The Florida Department of Education has the authority to grant Good Cause Exemptions (waivers) from performance requirements for specific populations, which may include children with disabilities and English language learners. To be eligible for a good cause exemption, the provider must demonstrate learning gains, adherence to an improvement plan, and high health and safety standards.
- 11 The standards are aligned to the kindergarten Florida Standards.
- 12 Lead teachers must have a Bachelor's degree or higher in: early childhood education; prekindergarten or primary education, preschool education, family and consumer science, or teacher certification in any area (Summer); CDA or equivalent, plus specified training about performance standards and emergent literacy training (school year). VPK requires lead teachers, whether working in public or nonpublic school settings, to maintain a valid CDA or the Florida Child Care Professional Credential (FCCPC) equivalent as a minimum credential for the school-year program. A CDA or FCCPC must be renewed every five years. Training in specified performance standards and emergent literacy is also required for school year teachers. Lead teachers in the summer program must have a Bachelor's degree in a specified major and/or teacher certification. All child care personnel in licensed facilities must complete a minimum of 10 clock hours of in-service training.
- 13 Assistant teachers do not have to meet any degree requirements, but must complete a 40-hour training course for those employed at licensed child care facilities. This training course is offered by DCF. Additionally, VPK providers on probation completing the Staff Development Plan as a part of their improvement plan are required to have directors, VPK instructors, and VPK assistants complete several additional trainings.
- 14 Funding is appropriated using estimated population counts and the base student allocations.
- 15 Approved licensed or certified professionals who provide specialized instructional services for children with disabilities.

- 16 Early Learning Coalitions monitor staff credentials and provide guidance to coalitions on elements for program monitoring. There is no requirement that each provider receive a site visit at least once during a specified period. Rather, the site visits are determined by random sample except where follow-up is needed due to technical assistance or corrective action plan follow-up. Each early learning coalition is responsible for the onsite monitoring of VPK providers and for monthly attendance records reviews. The coalition monitors a sample of VPK providers on an annual basis.
- 17 The Florida Kindergarten Readiness Screener (FLKRS), composed of FAIR and ECHOS assessments, is administered annually to all kindergarteners in public schools and to all available kindergarteners attending nonpublic schools as a state assessment by the Department of Education. Results of children participating in VPK are compared to those who have not participated in the program. Florida's VPK program is reviewed annually as part of the legislative appropriation process using the Florida Voluntary Prekindergarten (VPK) Assessment.

## **GEORGIA - Georgia's Pre-K Program**

- 1 Five-year-olds can participate in the program if they did not previously attend a Georgia's Pre-K Program or if specific approval is given. The exact number of 5-year-olds who are eligible for kindergarten is unknown; however eligible 5-year-olds served would be included in the enrollment total. Enrollment figures reflect filled slots as of May 2014.
- 2 Some children may receive special education services in programs other than Georgia's Pre-K.
- 3 The CAPS program provides subsidized child care to low income families.
- 4 Exceptions are permitted for children with IEPs. Exceptions to the age requirement for Pre-K are reviewed on a case-by-case basis. Children with disabilities, developmental delays, or significant health issues may be allowed to repeat Pre-K. In addition, all children who were five years of age on September 1, 2013, and had not attended a Georgia's Pre-K Program as a 4-year old, could enroll. A child who was age 5 on September 1, 2013 and attended a Georgia's Pre-K Program during the previous year may repeat Pre-K if approval is given. Programs choosing not to accept children who are age 5 must have an approved written policy.
- 5 Maximum class size and teacher-to-student ratio were changed as of the 2011-2012 school year as a result of budget constraints and will continue through at least until the 2014-2015 school year.
- 6 All programs are required to serve lunch, but if a program participates in the Child and Adult Food Care Program (CACFP), the program is required to also serve a snack.
- 7 Blended Pre-K Program/Head Start classrooms are required to have developmental screenings as well. All Georgia's Pre-K programs are required to ask parents if a child has received his/her developmental health screening and provide a referral and appropriate follow-up to those children who have not. Children who are eligible for Medicaid or PeachCare, Georgia's State Children's Health Insurance Program (SCHIP), are required to have a 4-year-old screening
- 8 The revised Georgia Early Learning and Development Standards were released in June 2013. Pre-K Teachers were trained during the 2013-2014 school year for full implementation in the 2014-2015 school year.
- 9 Lead teachers who were approved in the 2009-2010 school year with an approved ECE Associate Degree credential will be considered approved as long as they continue employment as a Pre-K lead teacher with the same company. Many teachers have an advanced degree beyond a BA; 124 teachers have their Specialist and 8 teachers have their Doctorate.
- 10 In order to get a paraprofessional certificate, the applicant must have an associate's degree or equivalent course credits, pass an ECE exam, and background check. The certificate is issued by the Georgia Professional Standards Commission.
- 11 As in previous school years, pre and post CLASS observations were conducted by researchers from FPG Child Development Center at UNC Chapel Hill as part of Georgia's K-12 Race to the Top grant. In the 2013-2014 school year, researchers for this study conducted 305 CLASS observations in addition to CLASS visits conducted by state staff.
- 12 In 2011, Georgia's Pre-K contracted with researchers at FPG Child Development Center at UNC Chapel Hill on a longitudinal evaluation of Georgia's Pre-K Program. This longitudinal evaluation was requested by the Georgia legislature. Results from the first phase of the Pre-K evaluation were released in January 2013, and results from the second phase were released in March 2014. Georgia's Pre-K is also participating in the state's K-12 Race to the Top grant. The Pre-K initiative is focused on professional development related to the CLASS. Researchers at FPG are also conducting this evaluation.
- 13 Georgia's Pre-K Child Assessment (modified Work Sampling System) is used for pre-K assessments. For the 2013-2014 school year, the online version of Georgia's Pre-K Child Assessment was used for approximately 78,863 children. Georgia's Department of Education developed a specific instrument for kindergarten assessment (GKIDS), similar to WSS, which is administered throughout the kindergarten year.

## **ILLINOIS - Illinois Preschool for All**

- 1 Children from all counties participate; however, funding does not provide services for all children whose parents want them to attend.
- 2 There are 28 programs that offer school-day sessions only, 21 programs that offer both school-day and part-day sessions, and 413 programs that offer part-day sessions only. There is not a formal partnership but child care centers are one of the eligible recipients of PFA funding and provide wraparound services for the children in PFA who are also in their center.
- 3 School districts may enroll children in kindergarten before they are age 5, based on local policy. Kindergarten-aged children with IEPs reflecting preschool placement may remain in the program. A child must be 3 years old before he/she enters the program. To start the school year, the child must be 3 on or before September 1. If there is a space available in the classroom, a child may enter the program during the year once he/she is 3 years old.
- 4 Low income is one of the risk factors taken into account in determining eligibility. There is not a predetermined risk factor cut-off, but children are eligible based on multiple risk factors, and priority is given to children with the greatest risk, as indicated by the number and severity of factors. Low income is one of the risk factors included in the weighted eligibility criteria.
- 5 The teacher aide in the classroom must hold an Educator License with Stipulations with a paraprofessional educator endorsement. To obtain this they must meet one of the following requirements: 1. Holds an associate degree from a regionally accredited institution of higher education; 2. Has completed at least 60 semester hours of credit from a regionally accredited institution of higher education (excluding remedial coursework); 3. Presents an official score report from Educational Testing Service (ETS) showing a score of 460 or higher on the ParaPro test; or 4. Presents evidence of earning the following scores on the Work Keys test (offered by ACT): Reading for Information (4), Writing/Business Writing (3), and Applied Mathematics (4).
- 6 Additional state funds include \$55,560,988 for 0-3 programs and \$6,593,947 for statewide infrastructure and program administration. The programs access federal funds such as IDEA, USDA CACFP, McKinney-Vento Homeless Assistance Act, Title I, etc. but the state does not collect data on federal funds.
- 7 Compliance reviews examine teacher certification, use of a research-based screening tool, research-based curriculum, kindergarten transition planning, community collaboration plan, and meeting requirements for serving homeless children and ELL students.
- 8 Routine scheduled monitoring site visits are done on a 3-year cycle by consultants hired by the agency. Specific issues or concerns of a program may initiate a monitoring visit tailored specifically to those concerns and these visits are done as needed by Illinois State Board of Education staff.
- 9 Pre-K assessment tools are determined locally from a provided list. The Illinois State Board of Education is developing and implementing a comprehensive kindergarten assessment process that was piloted in the 2012-2013 school year. The second phase pilot implementation in 2013-2014 doubled the number of school districts participating. Statewide implementation is planned for the 2015-2016 school year. The DRDP-School Readiness (DRDP-SR) is being adapted, piloted, field tested, and calibrated for the Illinois Kindergarten Individual Development Survey (KIDS).

## **IOWA - Iowa Shared Visions**

- 1 Exact breakdown unknown. Of the 210 total children, 64 children were identified and provided services through an IEP after enrolling in the program. 146 children were already on an IEP when initially enrolled.

- 2 In the 2013-2014 school year, Shared Visions programs blended with SVPP and Head Start programs to increase hours, in order to meet the needs of children and families. SVPP funds may be used to provide a school- or extended-day to children if the program adds at least 10 hours of instruction by an early childhood endorsed teacher and the program meets NAEYC standards.
- 3 Children with IEPs may participate.
- 4 A child who meets age and income criteria is considered eligible. If a child does not meet income eligibility criteria, he/she may be eligible by meeting age criteria and having one or more secondary risk factors. However, only 20 percent of the children may qualify based on meeting secondary risk factors.
- 5 For any child that does not meet income eligibility, up to 20 percent of children who may be enrolled based on secondary risk factors.
- 6 Mixed classrooms with 3- and 4-year-olds must not exceed the maximum group size of 18.
- 7 Applicants for Shared Visions funding are required through their grant applications to address meals and meet the requirements of NAEYC accreditation. The specific meals offered depend on the hours of operation but are required by NAEYC criteria. Programs must serve a meal and ensure a second meal is served no more than three hours later if children are still in attendance.
- 8 The components of the full physical exam are determined by the child's physician, though it usually covers the reported components as well as medications and allergies. Dental screenings are required at kindergarten entry and are generally provided in preschool.
- 9 A home language survey is sent home at the beginning of the year in public settings but not in nonpublic settings.
- 10 The Iowa Early Learning Standards (IELS) were developed in 2007. In 2012, they were revised, and now include a section titled Social Studies. The IELS also include a section titled Creative Arts that is not identified above.
- 11 Lead teachers in nonpublic settings follow NAEYC standards, which require a minimum of an AA in ECE or CD. A very small percentage of teachers in nonpublic settings may have a CDA provided they are working toward meeting the minimum requirement of an AA.
- 12 Certified teachers employed in school district programs must renew their licenses every 5 years, including six credit hours of professional development. In addition, Head Start grantees must follow federal Head Start requirements of 15 hours of professional development per year. There is no specific requirement for the amount of in-service training for the remaining grantees, although the year-end report indicates lead teachers have an average of 40 hours of staff development. Based on NAEYC accreditation standards, all new employees are required to have training to introduce them to program information, including interaction with the children and curriculum. Another NAEYC Accreditation Standard states that programs will have a professional development plan in place covering a variety of training areas for all staff. In addition, assistant teachers participate in professional development, as determined at the local level, to enhance the program objectives and child progress.
- 13 Although the minimum requirement is a high school degree or equivalent, Grantees follow NAEYC accreditation requirements that 50 percent of assistant teachers must have a CDA (or equivalent) or be working toward it. For 2013-2014, 43.5 percent of assistant teachers held a CDA, 17 percent held an AA degree, and 15 percent held a BA degree, while 24 percent had a high school diploma. The remaining 0.5 percent held a MA degree.
- 14 Grantees are required to provide a 20 percent local match and other resources comprise additional local match and in-kind resource contributions.
- 15 The year-end report tracks progress toward the grant outcomes and budget reports. NAEYC monitors performance on standards as well as safety and classroom records. Immunization records and health insurance accessibility are reported to the state in the year-end report. Beginning with the 2011-2012 school year, all grantees were required to implement Teaching Strategies GOLD online and report data on child progress three times per year.
- 16 All kindergarteners are assessed within the first six weeks of the school year and the results are reported to the state. Kindergarteners must also be assessed during the school year, with results reported to parents.

## **IOWA - Iowa Statewide Voluntary Preschool Program**

- 1 Additional students of preschool age were served with other state or federal funding sources. Of the total 919 3-year-old children, 18 were on a support-only IEP. This would not have generated federal funds for the district. State special education instructional funds (instructional IEP) supported 325 3-year-old children in this program. There were 630 4-year-old children and 84 5-year-old children who were in this program and generated state special education instructional funds (again an instructional IEP). These funds are generated through our property taxes. Of the 21,816 4-year-old children in the SVPP and generating the .5 student count, 292 were on a support-only IEP. Iowa allows these students (ex. speech only) to generate this state funding so they are included in our total count of 4-year-old children. The total number of preschool children in the program and generating state special education instructional funds is 1,039. There were 28 3- and 5-year-old children on a support-only IEP (speech) in the program that did not generate any funding for the district.
- 2 All programs are under the auspices of the school district. That does not mean all children are served in the school building. Community partners such as Head Start, Accredited nonpublic schools, and licensed child care/preschools serve children.
- 3 Programs operate a minimum of 10 hours per week; most operate at least 12 hours per week. Programs operate at least 3 days per week; most operate 4-5 days per week. While there is not a formal state partnership to provide extended-day services, partnerships exist at the local level. There has been an increase in the number of districts partnering with Head Start to provide school-day programming.
- 4 Children with IEPs may participate, based on the needed services.
- 5 Children who are age-eligible for K may enroll if space and funding are available. Kindergarten students may generate the full 1.0 funding if they are provided additional hours, working on the Iowa Core in the kindergarten classrooms.
- 6 Programs are required to offer a snack, although it is recommended that they serve a meal. If the program operates more than 15 hours per week a meal is served. The majority of programs provide lunch or breakfast to children who qualify for free or reduced-price meals.
- 7 The Iowa Early Learning Standards (IELS) were developed in 2007. In 2012, they were revised, and now include social studies.
- 8 State policy requires professional development but does not specify hours. Districts report the number of hours annually, with SVPP teachers having 15 clock hours of professional development in the 2013-2014 year.
- 9 Some classrooms follow Iowa program standards, others NAEYC, others Head Start. For Iowa standards classroom assistants may choose the Iowa paraeducator certificate with early childhood or CDA. If they choose the Iowa paraeducator certificate they must enroll in the classes and complete them within a year. If the program operates under NAEYC, annual reports and onsite monitoring requires evidence that 50 percent of assistant teachers have a CDA and 100 percent are working toward a CDA. NAEYC defines an equivalent to the CDA as 12 college credits in ECE fields. In addition, assistant teachers participate in orientation prior to, or at the beginning of, employment.
- 10 Total state is \$66,099,739 plus additional special education funding. Pre-K students are funded at 50 percent of the K-12 student aid.
- 11 Iowa flows funding directly to public schools. Public schools may subcontract 95 percent of the per child allocation to Head Start, private preschool/child care centers and/or accredited nonpublic schools. The state does not support religious instruction during the 10 hours per week.
- 12 Iowa's QRIS provides points based on our verification certificate.

## **KANSAS - Kansas Preschool Program**

- 1 Enrollment figures are possibly duplicated. Programs are funded through a grant process based upon a budget, not per-child. The number of children may include those also enrolled in Head Start, the State Pre-Kindergarten Program, or other pre-K programs.
- 2 Children who have IEPs may be in the classrooms participating in the program but their status is unknown. Some programs may include students with IEPs in their enrollment counts, but there is no state policy requiring this.

- 3 Programs must provide 465 hours per year of education. The actual schedule is determined at the local level with most programs operating approximately 3 hours per day, 5 days per week. Kansas Preschool Program funds are used to provide a half day of instruction, which may be used to extend the day of a child in another supported program. If a community chooses to use their existing State Pre-Kindergarten program as a Kansas Preschool Program classroom, they must either add an additional 465 hours over the year to the pre-K experience or use the additional funding to improve the existing program. If a community chooses to use a Head Start classroom as a Kansas Preschool classroom, they must add an additional 3 hours to the Head Start experience. Most sites operate on an academic year calendar, but some programs, such as Head Start and child care centers, may be on a 12-month half-day cycle.
- 4 Kansas Preschool Program funding may not be used for kindergarten-age children. However, children who are kindergarten age can be served in the Kansas Preschool Program classroom if parents/staff determine this to be the best placement.
- 5 Fifty percent of children must meet one of the risk factors, which include eligibility for free or reduced-price lunch. Priority for enrollment includes low parent education, non-English-speaking family, teen parent, parent on active military duty, single parent families, referrals of at-risk 4-year-olds from early childhood programs, developmentally or academically delayed based on assessments, and social rehabilitation services referral. Eligibility for the other 50 percent of children is based on the local program's discretion.
- 6 Children in half-day programs receive a snack; children in full-day programs receive snack and lunch.
- 7 The grant does not require screenings and referrals. All sites have different models so the actual requirements are locally determined. However, hearing and vision tests are required in both public schools and Head Start settings.
- 8 School-based programs that serve children who are ELLs must document this need through a home language survey and other instruments and provide ESL services through an ESL-trained teacher. The district sends the home language survey.
- 9 As of the 2013-2014 school year, teachers in all settings are required to be a licensed teacher in early childhood education. All teachers must be an EC or ECH (early childhood special education) or ECU (EC Unified) licensed teacher. For this year only, teachers with a license in elementary education who have taught the last two years in an early childhood classroom (4-year-old at-risk program) can be a teacher in the Kansas Preschool Program.
- 10 Assistant teachers are required to have at least a CDA. Assistants are also eligible if they have an AA or BA in EC, CD, elementary education, family and consumer sciences, parenting education, social work, or speech-language pathology.
- 11 The amount of local funds, including tuition, grants, and blended funding, is unknown.
- 12 Grants are awarded to school districts and nonprofit community partnerships or community agencies on behalf of a coalition of service providers. Seventy percent of members of the partnership must include representations from: mental health centers, private child care providers, cooperative extensions, Head Start, Social and Rehabilitation Services, schools, the health department, the faith-based community, businesses, family representatives, community colleges or universities, libraries, government, child care resources and referral agencies, interagency coordinating councils, other nonprofit organizations, or foundations.
- 13 All data are collected through a web-based application. The Early Childhood Success in School application is used by school-based programs: the Foundation for School Success (starting in 2014-2015) will be available for the community and Head Start programs.
- 14 All Kansas Preschool Program sites have a leadership team that collaborates to write the grant, and make collaborative decisions around curriculum and use of funds at the local level. Technical assistance is provided through webinars, face-to-face meetings, trainings, emails, and conference calls. The state is moving to the myIGDI's assessment as part of its Multi-Tiered Systems of Supports (MTSS) focused on data-driven decision making and additional technical assistance.
- 15 The KELI-4 collects data on child outcomes; the Classroom practices survey, and transition survey both provide process information. The RFP provides KPP teams with the opportunity to provide input into KPP practices and procedures. The web application also includes information on family practices and home supports. Web application for community sites, including Head Start, was put off until 2014-2015 due to funding and IT support availability. The evaluation is required by the program's funder, the Kansas Children's Cabinet and Trust Fund.
- 16 Determination of kindergarten assessment is at the local level; most, if not all, school districts use a kindergarten assessment.

### **KANSAS - Kansas State Prekindergarten Program**

- 1 Districts are not required to provide the program; funding is available only to districts currently offering the program.
- 2 Programs are required to provide 465 hours per year of instructional time. Length of school day and days per week are determined locally. Most programs operate 3 hours per day, 5 days per week, although some choose to operate 4 days per week for more hours per day. Funding from other sources can allow programs to add additional hours per day, though these hours are not considered part of the State Pre-Kindergarten Program day.
- 3 The income criterion is a state policy.
- 4 Eligibility for free lunch (130 percent FPL) is one of several eligibility criteria. Children must meet at least one of the specified factors.
- 5 If a child is identified as needing special education services before September 20, that child is no longer generating at-risk funding. If they are identified for special education services after September 20, the at-risk funding remains.
- 6 While schools are required to screen, referral is not listed as a required process. However many programs do refer. Students must have a documented health assessment from a medical professional before entering the program, though screening is not provided through the program itself.
- 7 Primary language of the child or home language of the parent is collected in order to provide appropriate communication with parents as well as a first step in determining qualification for English to Speakers of Other Languages (ESOL) services. If results of the survey indicate a language other than English, further evaluation is completed and if services are required, a qualified ESOL teacher provides them.
- 8 School districts receive 50 percent of the Base Student Aid per pupil. If applicable, they also receive weighting for transportation, serving at-risk population, and/or local option budget.
- 9 State Pre-Kindergarten Programs collect and submit data on a randomly selected number of children; family and home practices; and classroom practices, through a web-based application.
- 10 Classroom practices and transition practices are self-reported; home practice and protective factors information are collected via a voluntary parent survey; child data provide a look at the impact of the program on child outcomes. Child data are collected by teachers, using observation and other authentic assessment or valid assessments.
- 11 KELI-4 uses a random sample of 10 children from each state pre-K teacher's classroom; other assessments are locally determined.
- 12 Decision to use a K assessment is determined locally. Children are not required to attend Kindergarten.

### **KENTUCKY - Kentucky Preschool Program**

- 1 Child count is based on the average from the Fall (Dec.1) and Spring (March 1) enrollment counts. The count is unduplicated. Children who are both at risk and disabled are counted only once in the disability category.
- 2 The school district has primary authority for programs; however, some districts delegate preschool program responsibilities to Head Start through a local full utilization agreement. There were 1,903 children who received enhanced Head Start services (average Dec. 1 and March 1 count). There were 8 contracted sites throughout the Commonwealth; however, exact numbers of the children in these contracted sites are unavailable.
- 3 Standard program operation is 4 to 5 days per week. Any other configuration must be approved by the Kentucky Board of Education. Districts may use one of the weekdays for home visits, parent education, special education evaluations, and other work related to preschool. During the 2013-2014 school year, 7 districts were granted approval for an alternate schedule of 2 full days a week. During the 2013-2014 school year, 7 districts were granted approval for an alternate schedule of 2 full days a week, M/W or Tu/Th.

- 4 There is no formal partnership at the state level to provide extended day services, however the statewide Family Resource Youth Service Center (FRYCS) may offer child care services for preschool children and extended care services for children in the school district.
- 5 In 2013-2014, 69 districts operated on a school-day schedule of more than 4 hours a day; 97 districts operated on a part-day schedule; and 7 districts offered both school- and part-day schedules. KDE was not able to determine the total number of children in each schedule.
- 6 The preschool program is required by regulation to follow the school year. However, most preschool programs begin later and end earlier than the school-year calendar because they are using these instructional days for child and family activities such as screening, home visits, and other comprehensive components of the program.
- 7 Kindergarten children with severe disabilities whose IEP specifies that they may, attend the preschool program under certain circumstances. The school- or district-level Admissions and Release Committee decides whether preschool is the best placement for children with special needs. If a family or district decides that the best placement of a 5-year-old child without disabilities is the preschool program and there is space available, the child is coded as a first year primary student (Kindergarten). No preschool funds may be used to support this child.
- 8 Four-year-old children whose family income is up to 150 percent of FPL are eligible to attend the preschool program. Also, children who have an identified disability may enroll on their third birthday or whenever they are identified. Homelessness is a criteria for 4-year-old children only. The children must be in foster care at time of enrollment, not based on past history of foster care. Districts have some discretion in admitting noneligible 3- and 4-year-olds if space is available. Children with a disability or at risk for one are eligible. Districts may not use state funds to serve noneligible children.
- 9 If a district decides to enroll children who do not meet the income requirements, tuition may be charged using a sliding payment scale. Tuition children are not included in reported enrollment figures as they are ineligible for KPP funding.
- 10 According to preschool regulations, if a classroom has two sessions, morning and afternoon, the maximum number of children shall be 34 if the teacher also has the responsibility of coordinating parent involvement activities, and health and social services, thereby reducing the adult-to-child ratio to 1:17. This is rarely the case because most school districts have administrators and family resource workers who coordinate the comprehensive services of the district.
- 11 Dental exam is required for entry into kindergarten.
- 12 Home language surveys are encouraged, not required. Translators or bilingual staff are available in some districts but not required by state policy. English Language services begin in kindergarten.
- 13 Districts work with their local Family Resource Centers to provide many support services and referrals. For districts that blend services with Head Start programs, comprehensive services are available for state-funded children
- 14 The 2013 revised Kentucky Early Childhood Standards include birth to three as well as 3- & 4-year-old standards. They have been aligned with both the Head Start Child Development and Early Learning Framework and the Kentucky Core Academic Standards for grades K-12.
- 15 All lead teachers hired beginning Fall 2004 were required to hold the IECE certificate. The IECE certification is a unified certification combining general and special education. Lead teachers who were hired prior to 2004-2005 were permitted to have a CDA or an associate's degree in early childhood education. These teachers were allowed to continue in their positions, but are not permitted to become a lead teacher in another district.
- 16 Out of a total of 1,017 lead teachers, 725 (71 percent) had the IECE certification, 122 (12 percent) had a bachelor's degree and a letter of exemption. 140 (14 percent) were Preschool Associate Teachers with a CDA or AA in early childhood who were grandfathered prior to 2004, and 29 (0.3 percent) were emergency or probationary certified. KDE does not have information on the educational level (bachelors or masters degree) for the certified or exempted teachers.
- 17 Teacher assistants in classrooms using Title I funds are required to have an Associates degree or pass the paraprofessional exam. During the 2013-2014 school year, the following credentials for the 1,151 teacher assistants were recorded: High School Diploma 453 (39 percent), CDA 260 (23 percent), some college 206 (18 percent), Associates degree 113 (10 percent), Bachelors degree 93 (8 percent), Masters degree 7 (1 percent), IECE degree/certification 9 (1 percent), other (mostly paraprofessional exam) 10 (1 percent).
- 18 Non-required local funds reported may represent other sources but could not be verified due to district coding variations. Other federal sources include Title II, Community Service, Adult Education, and other program services.
- 19 If a school district blends with Head Start funds and the Head Start program is the lead agency in administering the program, district funds will go to the district first and then be shared with the Head Start program and/or the contracted site. Faith-based sites may be subcontractors. The program's curriculum may not be religious in nature and the program must be incorporated separately from the religious institution and maintain a nonsectarian board of directors.
- 20 The Kentucky Preschool Program is currently engaged in Cohort III of the Preschool Program Review (P2R). During the P2R process every district receives a visit from a KDE site visit team once every 5 years, or a visit from the Regional Training Center (contractor with KDE). Additionally, 14 districts are randomly selected to participate in a Consolidated Monitoring (CM) site visit. During this CM process each of the districts receives a site visit from a KDE preschool team who conduct a program review. Districts participating in the CM process are not exempt from the 5-year cycle P2R schedule of site visits.
- 21 Preschool Program Review (P2R) site visits are conducted once every 5 years for all the districts. All sites at each district are visited, including the Head Start and contracted sites where preschool children attend. At every site at least 30 percent of the teachers are observed. The Regional Training Center observes classrooms using the ECERS-R. These RTCs also note in their report if there are any violations of the preschool regulations. Several of the sites will receive a KDE team site visit and during these visits there are observations at all sites, interviews with staff and administration, as well as a review of the children's files and documents. At least 5 districts will receive this type of site visit (one in each of the 5 regions). Additionally, the KDE, Division of Consolidated Plans and Audits randomly selects 14 districts to receive a site visit. During these site visits, a team of KDE preschool consultants conducts a site visit using the same criteria as the P2R site visit. Once every 5 years the same cohort district will fill out the P2R document, which is a web-based self-assessment document. They must rate their preschool program in each of the items as met or not met. For each item that includes enrollment information, collaboration with Head Start, transportation, meals, developmentally appropriate practice, program evaluation by parents and staff etc. In each section the preschool coordinator must include explanations. The districts must also submit documentation in various areas such as examples of lesson plans, special education intervention process, map of classroom layout, samples of communication with parents, and enrollment forms. For each of the districts in the cohort, the KDE consultant will also review information about the district through the Student Information System, the district's website, Head Start Full Utilization information, special education data and other information through the KDE data sources. There could also be a phone interview or e-mail exchange with the preschool coordinator seeking additional information or clarification. Each district receives a Program Review that shows the strengths, recommendations, and findings. Findings are items that are shown to be out of compliance with the regulations and must be corrected within a reasonable amount of time.
- 22 If a private, contracted child care center was part of the QRIS system (which also uses the ECERS-R) and their ECERS-R observation occurred within the last 12 months, results could be used as part of the preschool monitoring observations for the school district that contracts with the center. Monitoring information may be used to provide feedback to parents but is not a requirement. Future plans will allow results of electronic monitoring to be available to the public.
- 23 The most recent third-party program evaluation was completed by the University of Kentucky in 2012 in response to a request from the ECAC and Governor's Office of Early Childhood as part of the Stars for Kids NOW evaluation. Results indicated state-funded preschool children were in classrooms with higher ECERS-R ratings compared to child care centers in the quality rating system.
- 24 Districts may choose one of the approved assessment tool in the Kentucky Continuous Assessment Guide. Instructional assessments include: AEPS, Brigance Inventory of Early Development-II, Carolina Curriculum for Preschoolers with Special Needs, Teaching Strategies Gold, High Scope Preschool COR, Learning Accomplishment Profile 3, Hawaii Early Learning Profile, Transdisciplinary Play-Based Assessment, and WSS. The 2013-2014 school year will be the last year to use some of these tools. During the following year, the list will be reduced to 5 tools: the AEPS, Carolina Curriculum, Teaching Strategies GOLD, COR Advantage (High/Scope), and WSS.
- 25 Kentucky screened all incoming kindergarten children in 2013-2014 using the Brigance Early Childhood Screen Basic Assessment and the Self-help and Social Emotional Scales.

#### **LOUISIANA - Louisiana Cecil J. Picard LA 4 Early Childhood Program**

- 1 The Louisiana Department of Education Division of Early Childhood Programs has administrative authority over the program.
- 2 In some parishes, there is more than one school district operating in the geographical region of the parish. In addition to the 64 school districts, 17 charter schools and one tribal school participated in the program.

- 3 Districts are not required to offer the program but due to limited funds, programs must apply for funding. Priority is given to programs with previous history in the program.
- 4 The total enrollment figure does not include 351 tuition-paying students and an additional 2,740 students with braided funding from other sources for a total of 18,674 children. This is not an unduplicated enrollment count. The data come from the October 1, 2013 enrollment reports.
- 5 If the student qualifies for free or reduced-price meals, they are counted in the enrollment and the state pre-K pays for that student, while special education pays for related supports and services. If the student does not qualify for free or reduced-price meals, then special education funds pay for both placement and services.
- 6 Total free and reduced-price lunch enrollment was 15,934, of which 15,802 children were served in public schools. Of the remaining 132 children served in nonpublic school settings (in child care centers)
- 7 Full school day includes the school day of 6 hours. A school day requires a minimum of 360 instructional minutes or 63,720 minutes per year (some programs have 4-day school weeks). In 2013-2014 no program offered a summer session or 4-day school week as reported in previous years.
- 8 Children evaluated as gifted may enter kindergarten early.
- 9 There is no state-specified income requirement for eligibility as all meeting age requirement may participate. Children who qualify for free or reduced-price lunch attend free of charge, and enrollment priority is given to these children. Others may pay tuition or school districts cover costs. Preference is given to children qualifying for free or reduced-price meals. All children in the district are eligible to attend. Charter schools allow participation using a lottery if more students apply than the school has allocated slots with which to serve them.
- 10 Tuition may be charged for any child who is not eligible for free or reduced-price meals. Children may be charged for all or part of the LA4 class, in an amount not to exceed that necessary for the system to provide the LA4 class to the child and no more than the average amount expended per pupil on those children from whom no tuition may be required.
- 11 All meals and snacks must meet USDA/CACFP guidelines.
- 12 Additional ESL services may include, but are not limited to: communications in the family's language, seeking the services of interpreters, and other locally determined services.
- 13 Support services are locally determined.
- 14 The Board of Elementary and Secondary Education approved the new Birth to Five Early Learning and Development Standards in April 2013. Creative Arts Standards are also contained in the Louisiana standards. English Language Arts and Math standards were aligned in 2011 with the Common Core State Standards for Kindergarten; Science and Social Studies standards were also revised.
- 15 For mixed-delivery LA4 programs housed in child care centers, teachers must meet the same qualifications as those in public school settings. A teacher with an elementary certification may be employed while working toward an approved early childhood certification within a maximum of three years. Effective June 2002, Louisiana issued a Pre-K-3 license instead of standalone Nursery School and Kindergarten licenses
- 16 Number of teachers with MA and beyond is not known.
- 17 Assistant teachers must be highly qualified and pass the Para Pro test. This is also required for paraprofessionals in mixed delivery settings.
- 18 The DOE determines the per-pupil allocation annually, based on the number of available slots. Allocations are based on a per-pupil formula. Non-required local contributions are not determined or allocated by the state, instead, they are funds that may vary annually to support local community programs. No CDBG funds were used for the 2013-2014 school year.
- 19 All programs are monitored annually and required to provide documentation of program-level outcomes (compliance with program guidelines, annually). QRIS participation is required for child care centers (minimum 3 stars), but a waiver process was instituted eliminating this requirement for programs in the 13 pilot communities; public school centers are exempt. Monitoring of reports include enrollment in 6-hour program, collaboration and provision of support services reports, vision/hearing screenings and referrals, and accommodations for students with disabilities and ESL students.
- 20 Informal evaluations were conducted to report child outcomes (DSC/Teaching Strategies GOLD) and program quality (CLASS). The last formal evaluation was conducted in 2012-2013 by the Picard Center at ULL.
- 21 Districts are required to administer the Developing Skills Checklist at Kindergarten entry for children entering Kindergarten for the first time. The DIBELS assessment is also required.

### **LOUISIANA - Louisiana 8(g) Student Enhancement Block Grant Program**

- 1 Districts receive an allocation and they determine whether to use the funds for the pre-K focus area.
- 2 Any child evaluated and identified as gifted may enter kindergarten early.
- 3 Priority is given to students who qualify for free or reduced-price lunch; however if all income-eligible children are otherwise served, additional students may also be served if they are deemed developmentally unprepared.
- 4 This program strongly encourages vision and hearing screening.
- 5 The Board of Elementary and Secondary Education approved the new Birth to Five Early Learning and Development Standards in April 2013. Creative Arts Standards are also contained in the Louisiana standards. English Language Arts and Math standards were aligned in 2011 with the Common Core State Standards for Kindergarten; Science and Social Studies standards were also revised.
- 6 Effective June 1, 2002, Louisiana issued a Pre-K-3 license, instead of standalone Nursery School and Kindergarten licenses. Teachers holding a Kindergarten license may be required to take additional coursework or demonstrate knowledge/competence to add an early childhood endorsement to their original license, permitting them to teach in pre-K without the parish/district/charter requesting a temporary out-of-field teaching authorization.
- 7 Teacher assistants must possess a high school diploma or equivalent, have extended experience caring for a group of preschool age children (children younger than five years of age), possess proficient oral and written communication skills, and meet all other district requirements for employment.
- 8 Public agencies blend and braid 8(g) funds with other state and federal funding to provide programs. An attempt is made to collect information from local programs on the total funding of each source, but this information cannot be verified. The Board allocated \$10,221,500 to local education agencies for the FY 2013-2014 8(g) Student Enhancement Block Grant Program. A total of \$8,487,519 was allocated to pre-kindergarten programs. Districts received a \$52,857 base and \$7.78 per pupil amount. In addition, \$785,743 was allocated to the Louisiana Department of Education to administer an 8(g) Statewide Early Childhood Literacy Program.
- 9 Site visits by staff of the oversight agency take place when a new administrator arrives or concerns arise from an audit. Since 8(g) students can be intermixed in LA4 classrooms, the LA4 program monitoring covered the major of the 8(g)-funded pre-K classes/sites during 2013-2014. A regular monitoring cycle of site visits/evaluations was established and 20 sites were monitored and evaluated. These visits were conducted by independent program evaluators employed by the oversight agency. BESE compliance officers conduct monitoring visits to make sure agencies are complying with state auditing practices and both fiscal and programmatic procedures relating to the project.
- 10 Evaluations are conducted annually for districts, by independent evaluators, to measure the impact on student outcomes. In June 2013, the Cecil J. Picard Center for Child Development and Lifelong Learning conducted a longitudinal report entitled Longitudinal Study: Longitudinal Impacts on Academic Achievement for Participants in Louisiana's LA 4, NSECD, and 8(g) Early Childhood Programs.
- 11 Each LEA shall require that every child entering kindergarten for the first time be given a nationally recognized readiness screening. The results of this screening shall be used in placement and for planning instruction. The pupil progression plan for each LEA shall include criterion for placement.

## **LOUISIANA - Louisiana Non-Public Schools Early Childhood Development Program**

- <sup>1</sup> In accordance with Act 3 of 2012, the NSECD Program was transferred from the Governor's Office to the Louisiana Department of Education.
- <sup>2</sup> The NSECD Provider Application period is open to all state-approved nonpublic schools and quality rated child care centers statewide. Due to funding limitations, the Department prioritizes slot allocation to schools and centers located in parishes found to be in greatest need based upon the Early Childhood Risk and Reach Report, the most recent copy of which can be found here: [http://www.lsutuearlychildhood.org/EarlyChildhoodRiskLA\\_Fall2012.pdf](http://www.lsutuearlychildhood.org/EarlyChildhoodRiskLA_Fall2012.pdf). In addition, a scoring mechanism is used that prioritizes incumbent providers with a history of compliance; new programs in parishes of need participating in the Louisiana Community Network Pilot Program; and new programs in non-pilot parishes of need with no existing NSECD providers.
- <sup>3</sup> The reported figure represents funded slots.
- <sup>4</sup> Parents with students eligible for special education may choose to enroll their child in the NSECD program at a private program with the understanding they may forego continuation of those services dependent on the district's decision.
- <sup>5</sup> The Louisiana Department of Education is responsible for administering the program and partnered with nonpublic schools, parochial schools, private schools, and quality-rated Class A child care programs to provide services.
- <sup>6</sup> The 10-hour day is structured with 6 hours of instruction and 4 hours of enrichment (i.e., before and after care).
- <sup>7</sup> With the implementation of Act 3, all state-funded early childhood programs have adopted common income requirements.
- <sup>8</sup> Each class of 20 students is required to have a teacher and teacher assistant. The program approval process mandates providers to follow either NAEYC criteria or NIEER's quality benchmarks for staff-child ratio and maximum class size.
- <sup>9</sup> Although speech screenings are locally determined, all providers have independently provided these for all the NSECD students during the 2013-2014 school year. In 2011-2012 the Louisiana Department of Health and Hospitals conducted a study related to childhood obesity in state pre-K programs requiring enrolled children to receive height and weight or BMI screening and referral.
- <sup>10</sup> The NSECD has implemented a "Parental Involvement" report which allows providers to track parental engagement on a local level
- <sup>11</sup> The Board of Elementary and Secondary Education approved the new Birth to Five Early Learning and Development Standards in April 2013. Creative Arts Standards are also contained in the Louisiana standards. English Language Arts and Math standards were aligned in 2011 with the Common Core State Standards for Kindergarten; Science and Social Studies standards were also revised.
- <sup>12</sup> All NSECD administrators, teachers and teacher assistants are required to complete the NSECD Foundation/Curriculum Development training in addition to completing 18 clock hours of professional development. Trainings are conducted through webinars or onsite as needed or requested by each provider.
- <sup>13</sup> Of the 80 total lead teachers, 63 were Early Childhood certified, including 18 with Masters or above. 10 were Elementary grade certified, one of whom held a PhD. Seven lead teachers had a Bachelor's degree and satisfactory Praxis score, including three with Master's Degrees.
- <sup>14</sup> New NSECD teacher assistants must be certified with at least a CDA or AA or higher in Early Childhood, Education, or Family Studies. Incumbent NSECD teacher assistants who are not state-certified must be enrolled in a CDA Program or Early Childhood associate degree program, be continually enrolled, and complete the certification within three years of hire date. In the 2013-2014 school year, assistant teacher degree breakdown was: 26 percent incumbent staff pursuing certification; 46 percent CDA; 18 percent AA; 9 percent BA; 3 percent MA or above.
- <sup>15</sup> In 2012, Act 3 was enacted to promote and support collaborative mixed model delivery to assist programs in rural communities. Nonpublic and parochial schools must be licensed by the Louisiana Department of Education and adhere to the NSECD standards. Agencies are not allowed to combine funds with other funding streams (i.e., Title I, Head Start, or LA4) for NSECD students; however agencies are allowed to serve multiple populations within a site.
- <sup>16</sup> As part of Act 3, Louisiana has implemented the use of the CLASS observation tool as well as TS Gold assessments. The information gathered through these means is reported back to the state by each respective company.

## **MAINE - Maine Public Preschool Program**

- <sup>1</sup> Out of 206 programs reported, 63 operated outside of a traditional elementary school setting in partnership with Head Start or child care.
- <sup>2</sup> Once a school has an approved pre-K programs, it is funded through the state funding formula on par with K-2.
- <sup>3</sup> Children who receive special education services may attend state pre-K classrooms, but are not counted separately in state pre-k enrollment as Maine's Part B is administered under an independent unit.
- <sup>4</sup> Local school units determine the number of weekly hours. Schools receive a full per-pupil subsidy as long as they operate a minimum of 10 hours per week. Many schools operate 4 part-days with the fifth used for home visits and teacher planning. Some operate 5 days per week as a full school-day program. The majority of programs are part day. Some programs are moving to two school-day double sessions due to transportation costs. While the approval application process encourages collaborative partnerships for extended-day services, it is determined at the local level.
- <sup>5</sup> It is a local district decision as to whether a district will continue to serve children who are not age-eligible in a public preschool program. If a child attended kindergarten in another state with a different age-eligibility requirement, this will be honored. Allowances are made for children with IEPs who turn 5 between July 15 and October 15. The district receives the same level of subsidy for children pre-K through 2nd grade.
- <sup>6</sup> Some districts without universal capacity use a first come/first served basis, lottery, or targeted program. In addition, districts in partnership with Head Start programs may have eligibility requirements for a certain ratio of enrolled children.
- <sup>7</sup> No class size limits are stipulated in regulation at this time. Recommended size is 16. The program approval process encourages districts to follow either NAEYC criteria or NIEER's quality benchmarks for staff-child ratio and maximum class size. The majority of programs in Maine operate with a certified teacher and a teacher assistant for an average ratio of eight to 10 students for every staff member. If a district partners with a program holding a DHHS license, ratios of 1:10 must be met as per Maine child care licensing regulations.
- <sup>8</sup> The program approval process encourages districts to follow either NAEYC criteria or NIEER's quality benchmarks for staff-child ratio and maximum class size. The majority of programs in Maine operate with a certified teacher and a teacher assistant for an average ratio of eight to 10 students for every staff member. If a district partners with a program holding a DHHS license, ratios of 1 to 10 must be met, per Maine child care licensing regulations.
- <sup>9</sup> Most programs offer a snack, and many offer breakfast and/or lunch, depending on the length of day. Those partnering with Head Start meet CACFP and Head Start meal and nutrition requirements. Schools that provide meals must meet USDA School Breakfast/Lunch guidelines.
- <sup>10</sup> Screening and referral services will be required in 2015-2016, per revised program requirements.
- <sup>11</sup> Translator or bilingual staff availability may vary by school and district.
- <sup>12</sup> Assistant teachers must have DOE-issued Educational Technician II Authorization, which requires at least 60 college credits of approved study in an educationally related field and in-service of three credit hours per 5 years.
- <sup>13</sup> Public preschool in Maine is funded through the school funding formula (Essential Programs and Services School Funding Formula). Once a school has gone through an approval process for a public preschool program, student counts are factored in to compute the following year's EPS district allocation. Children who are 4 years old by October 15 and in a program a minimum of 10 hours a week receive a full per-pupil subsidy based on Maine's Essential Programs and Services school funding formula. Use of federal funds determined locally and spending figures are not available.
- <sup>14</sup> Schools are required to provide a local match to draw down their per-pupil state subsidy. The required local match is part of the school funding formula based on property wealth (state valuation) multiplied by a statewide mill rate.
- <sup>15</sup> All public schools must have a comprehensive educational plan that includes ways to monitor the effectiveness of programs. However, the state does not have a formal monitoring system specific to public pre-K and the monitoring process is determined at the local level. Districts report general school information each year as part of the Basic School Approval Report.

## MARYLAND - Maryland Prekindergarten Program

- 1 The 24 school districts include 23 counties and Baltimore City. The School for the Deaf is in addition to the 24 school systems.
- 2 An additional 3,112 children under 3 years of age who are enrolled in Judy Centers, as well as 5-year-olds eligible for kindergarten are not reflected in total enrollment figures. Reported figures have possible duplication.
- 3 The enrollment figure of 29,531 for the 2013-2014 school year includes 4-year-olds enrolled in state-funded pre-K programs, including those enrolled in Judy Centers. Some jurisdictions enroll children with an IEP/IFSP in the state-funded pre-K program, but they are not counted in the 29,531 figure. Judy Center enrollment for 2013-2014 was 13,013, including pre-K and 3,112 children under three years of age.
- 4 Programs operate five days per week as a full school-day program or they operate four part-days per week with the fifth day used for home visits and teacher planning. Partnerships with Head Start provide some extended-day services.
- 5 Policy requires local schools systems to have an early admissions policy to allow for enrollment of three-year-old students who are otherwise eligible (economically disadvantaged or homeless) and demonstrate educational needs warranting early admission into prekindergarten. Effective October 31, 2011, local schools systems may create prekindergarten programs for 3-year olds who are economically disadvantaged, homeless, or lack school readiness. Policy requires local school systems to have an early admissions policy to allow enrollment of 4-year-old students who demonstrate capabilities warranting early admission into kindergarten. Local boards of education may grant waivers on a case-by-case basis to allow kindergarten age children to enroll in pre-K.
- 6 All children must first meet the income, homelessness, or foster care requirement to qualify for enrollment. Remaining vacancies may be filled by enrolling 4-year-old applicants who are not from low-income families, but who exhibit a lack of readiness for school. Eligibility can be determined as noted above or by other criteria chosen by the local school system.
- 7 State policy stipulates an average of 20 students per classroom. Exceptions may occur where individual classrooms exceed this ratio, provided an overall program average of 20 is maintained.
- 8 A body system head-to-toe full physical exam is required, which is a comprehensive physical exam. In pre-K, a certificate is required proving that a blood test for lead has been done. Vision and health screening and referral are the responsibility of the school health services program in conjunction with the health department under Title I, which applies to all children. Head Start requirements are more stringent.
- 9 The Social Foundations standards cover ages 3 through 5 in the domain of Personal and Social Development. The MD State Curriculum for College and Career Readiness, approved in 2013, refers to PreK (4-year-olds) through grade 12 and covers English Language Arts/Reading, Math, and Social Studies. The CCSS for Math and ELA were completed in summer 2012; Maryland is currently developing Maryland's science standards. As part of the RTT, MD developed an alignment document for early learning standards, Birth to K.
- 10 BA degrees are required for public and nonpublic settings. Lead teachers in public settings must have a BA with appropriate early education specialization. Lead teachers in nonpublic settings must have a BA in any subject area and are required to take at least 24 hours of professional development in child development or early education annually. Some in-service requirements may be imposed locally. Pre-K teachers receive MMSR training aligned with Maryland Teachers Professional Development Standards. In addition, teachers must meet highly qualified teacher requirements under NCLB. Local school systems provide professional development for classroom assistants.
- 11 Paraprofessionals in Title I schools must also have completed two years of college, hold an AA degree, or have a qualifying score of 455 on the ParaPro assessment administered by ETS. Assistant teachers are required to attend a minimum of 24 hours of professional development annually.
- 12 State aid accounts for foundation and compensatory funds. Foundation funds account for all mandatory state aid divided by the total enrollment for K-12. Compensatory funds account for weight associated with low-income, English Language Learners, and special education students. Local school systems must provide services for all eligible 4-year-olds using state and/or local funds. There are no dedicated state aid dollars for prekindergarten. Pre-K spending from federal and local sources is determined through a funding estimation scheme given that there are no dedicated pre-K funds from these sources. As such, accurate actual spending estimates cannot be provided for federal and local sources.
- 13 State policy requires local school systems to analyze the kindergarten assessment system in order to evaluate the effectiveness of pre-K and make necessary adjustments to the instructional program. A voluntary prekindergarten assessment is a part of the RTT-ELC and the Kindergarten Readiness Assessment (R4K) is under development. As a recipient of Race to the Top and Race to the Top-Early Learning Challenge grant funding, Maryland is collaborating with Ohio in refining its pre-K-through-kindergarten formative assessment tools and systems.

## MASSACHUSETTS - Universal Pre-Kindergarten Grant (UPK) and Inclusive Preschool Learning Environment Grant (IPLE- Grant 391).

- 1 The Massachusetts Department of Early Education and Care is the state licensing authority and exerts authority over the early education and care programs in the Commonwealth. The Massachusetts State Head Start Collaboration Office sits in the Department of Early Education and Care, but does not itself exercise administrative authority over the prekindergarten initiatives.
- 2 The IPLE grant is offered in 186 cities/towns. The UPK grant is offered in 92 cities/towns. Many cities/towns offer both programs. Unduplicated, 220 towns offer the programs. There were 2 grant distributions for UPK during the 2013-2014 program year: a renewal grant for the current group of UPK grant recipients (awarded to 205 current programs) and an open competitive round for only those preschool programs that were not part of UPK (awarded to 29 programs). The IPLE grant was awarded through a renewal grant in 2013-2014.
- 3 In 2013-2014 program year, 5,311 children were enrolled in IPLE. 7,680 children were enrolled in the UPK program. There could be some duplicated children if programs receive both the UPK and IPLE grant.
- 4 There were 819 children receiving special education services in the UPK program. For the IPLE grant, there were 1,857 children receiving special education services. There could be some duplicated children if programs receive both the UPK and IPLE grant.
- 5 The hours and operating schedule vary by type of program and setting. Programs can operate either a school-year or full-year schedule. UPK programs are required to offer or provide access to school-day, full year services. The majority of IPLE grantees follow the public school calendar year, which is determined locally. These IPLE grant funded programs typically offer a combination of part-day, school-day, and extended-day. Part week opportunities are also used, which are all determined locally. IPLE grant-funded programs that are supported by other supplemental funding, such as EEC financial assistance, UPK grant or Head Start must follow the operating schedule as determined by these contractual requirements. All IPLE students are reported in "locally determined" schedules.
- 6 For UPK, state policy does not regulate the enrollment of kindergarten-age-eligible children in pre-k. A child with special needs could remain in the preschool program, however, he/she would no longer be counted in the UPK formula. The children must be in the preschool classroom by the renewal date of the grant but the state does not have a cut-off date. The children are no longer eligible for preschool when they are eligible to enter kindergarten in the city/town in which they live. The school districts determine kindergarten eligibility locally. For IPLE, kindergarten-age-eligible children with documented disabilities may enroll in pre-K. As per State Special Education Regulations, the team may allow a child to remain in a program designed for 3- and 4-year-old children for the duration of the school year in which the child turns 5 years old (including the summer following the date of the child's fifth birthday).
- 7 Any child may enroll in any program, but programs are selected to receive UPK and IPLE funding based on program characteristics and on the characteristics of the children in the program. There is no income requirement for IPLE, though programs may use some of the reported risk factors at the local level to prioritize the selection of eligible children without IEPs, due to the high demand. IPLE grant-funded programs that are also supported by other supplemental funding, such as EEC financial assistance, IDEA, and Head Start must follow the eligibility requirements determined by these funding sources which are based on individual child or family characteristics in addition to age. The 85 percent SMI income requirement applies to all children in UPK receiving subsidy money, but does not apply to tuition-paying families. For families to enter the subsidy system they can have up to 50 percent of SMI and can continue receiving assistance up to 85 percent of the SMI. For families with special needs, they can enter up to 85 percent SMI and remain until 100 percent.
- 8 UPK determines whether a child is part of the financial assistance system, and the sliding fee scale for parent co-pay is determined by income. Any program receiving subsidy funds may use the Massachusetts sliding fee scale. If not, programs can establish their own.
- 9 For IPLE grants, the ratio can range from 1:7 to 1:10, based upon the number of children with disabilities enrolled in the session. Class size is based upon the number of children with disabilities enrolled in the session, per state special education regulations. UPK is 1:10.

- 10 Programs operating fewer than 4 hours per day must schedule snacks. Program operating between 4 and 9 hours must schedule a regularly scheduled meal in addition to a snack, while those operating more than 9 hours must schedule two meals and two snacks. Parents or providers may provide snacks.
- 11 All LEAs are required to offer screenings and referrals under Child Find, and screenings are available to children in non-LEAs through services in the public schools. Types of health screening offered are not specified.
- 12 EEC-licensed child care programs must develop a mechanism for, and encourage, ongoing communication with parents, including communicating effectively with families whose primary language is not English or who require alternative communication methods. The 2010 Licensing Regulations indicate that one-third of the required professional development of educators must address diverse learners. LEA regulations regarding special education services require that communications to families shall be in both English and the primary language of the home, if such primary language is other than English. Any interpreter used to implement this provision shall be fluent in the primary language of the home.
- 13 In 2003, the state put in place the Guidelines for Preschool Early Learning Experiences, which covered all recognized domains of development at the time. All programs (except family child care) must follow the Guidelines. In 2011, the state merged its current standards with the Common Core State Standards and released the Massachusetts Curriculum Frameworks for Pre-K. Programs are not required to follow the Curriculum Frameworks, though public school programs in UPK are likely to follow them. Public school programs must also follow the Massachusetts Curriculum Frameworks for preschool and kindergarten for older 4- and 5-year-olds. IPLE grant funded programs are required to implement a developmentally appropriate and inclusive early childhood curriculum aligned with the Massachusetts Preschool Early Learning Guidelines; The Massachusetts Curriculum Frameworks for Preschool and Kindergarten; Massachusetts Quality Rating and Improvement Standards for Center-based/School-based programs; and the Early Childhood Program Standards for Three and Four Year Olds. Public School programs must also follow the Massachusetts Curriculum Frameworks for preschool and kindergarten for older 4- and 5-year-olds.
- 14 All teachers must have an early childhood education certification. Public school teachers must have a pre-K–grade 2 certification. Nonpublic-school teachers must be certified by the Department of Early Education and Care. Lead teachers must either be 21 years old or have a high school diploma and must complete a three-credit course in child growth and development. For centers at Level 2 in the QRIS, all members of the teaching staff must have a minimum of 3 credits in ECE or a related field, and 50 percent of classrooms must have an educator with a BA. For Level 3 programs, 75 percent of classrooms must have an educator with a BA. For Level 4 programs, 100 percent of classrooms must have an educator with a BA.
- 15 For UPK, assistant teachers must be 18 years old or have a high school diploma. For IPLE, the minimum requirements for this role are: Possession of a high school diploma or equivalent; AND one of the following: Possession of an Associates (or higher) degree; OR Completion of 48 credit hours at an Institution of Higher Education; OR passing a Completion of paraprofessional exam. In the event that the IPLE public school setting is also a Title I school/program, then these paraprofessional requirements apply. Assistant Teachers (nonpublic) must have a high school diploma or equivalent and must work at all times under the direct supervision of at least a teacher-qualified staff person, must be at least 18 years of age, and must have 3 credits in Child Growth and development. EEC does not provide certification for Assistant Teachers (nonpublic schools).
- 16 From all sources, total UPK funding is \$39,649,969 and total IPLE funding is \$11,777,134. TANF and CCDF funds contribute to UPK while IPLE uses IDEA funds. “High-needs children” are defined as children who have multiple risk factors linked to poor school and life outcomes, including: children and parents with special needs; children whose home language is not English or are English Language Learners; families and children involved with multiple state agencies; recent immigrants; children with parents who are deployed and are not living on a military base; low-income households; parents with less than a high school education; and children who are homeless or move more than once a year.
- 17 From all sources, total UPK funding is \$39,649,969 and total IPLE funding is \$11,777,134. TANF and CCDF funds contribute to UPK while IPLE uses IDEA funds. “High needs children” are defined as children who have multiple risk factors linked to poor school and life outcomes, including: children and parents with special needs; children whose home language is not English or are English Language Learners; families and children involved with multiple state agencies; recent immigrants; children with parents who are deployed and are not living on a military base; low-income households; parents with less than a high school education; and children who are homeless or move more than once a year. For UPK, a broadly interpreted program match is required, which can include in-kind or monetary matches. No match is required for the 391 program.
- 18 For UPK, all programs were required to be self-assessed at Level 3 in QRIS. As a result, EEC’s regional Program Quality Specialists reviewed all of the QRIS applications to confirm that the UPK programs did the following activities: completed the Environment Rating Scales for all the classrooms; utilized a formative assessment tool (Teaching Strategies GOLD, Work Sampling System, or High Scope COR); completed the CLASS or the Arnett Caregiver Interaction Scale; documented professional development for the program administrator and staff; documented Individual Professional Development Plans for the program administrator and staff; completed the Strengthening Families Self-Assessment (along with a Program Improvement Plan if necessary); completed the Program Administration Scale or Business Administration Scale; and submitted all other required documents.
- 19 Massachusetts is in the process of developing policies for sharing QRIS info and QRIS Ratings with families; however, it has not yet been fully implemented.
- 20 During 2008-2009 year EEC contracted with a vendor to conduct a program quality evaluation of UPK and non-UPK programs across the state using the CLASS tool. During the 2009-2010 year, EEC funded a Waitlist, Access, and Continuity of Services Study to assess the need for preschool services, and access and continuity challenges as the state implements UPK on a larger scale.
- 21 Through the Massachusetts Kindergarten Entry Assessment Initiative, school districts that are recipients of the Quality Full Day Kindergarten Grant must use a formative assessment tool in the classroom to document children’s progress across the developmental domains throughout the school year. The school districts could choose either Teaching Strategies GOLD or Work Sampling System as the formative assessment tool.

## MICHIGAN - Michigan Great Start Readiness Program

- 1 There were 56 out of 298 public school academies (charter schools). There were 97 community-based agencies that received funds through the ISDs.
- 2 All grants and funding flow through the intermediate school districts (ISDs); all ISDs participate, so every child in the state who is eligible is covered by a participating agency. Some ISDs provide direct service in the local school buildings or other sites.
- 3 Children served in the school-day programs use two half-day slots and are only counted once in the enrollment. Home-based option was phased out and there were no children in that option for FY 2013-2014.
- 4 Children receiving special education services are also enrolled in separate classrooms, but those children are not counted in the total preschool enrollment count.
- 5 Grantees may choose part-day, school-day, or GSRP/Head Start Blend classroom options. School-day classroom programs are reimbursed at two slots per child (\$7,250); all other are reimbursed at one slot per child (\$3,625). The minimum is four days per week for 30 weeks. It is allowable for new grantees or newly licensed sites to operate only for 20 weeks during the first year. Subsequent years must be 30 weeks per year. Legislation allows for a GSRP/Head Start Blend option, and encourages a tuition-based sliding scale for children who are over-income. In addition, grantees that offer supplementary child care using funds other than GSRP to achieve an extended-day program (min. 10 hours) receive priority in the allocation of GSRP funds.
- 6 Kindergarten legislation allows for exemptions to the Nov. 1. cutoff to be Dec. 1 by parent request. GSRP is aligning with kindergarten legislation until the three-year transition is complete, at which point GSRP will not allow anyone beyond the Sept. 1 cutoff regardless of the Kindergarten legislation allowing up to Dec. 1.
- 7 At least 90 percent of the children in each grantee’s enrollment must meet the income requirement of 250 percent FPL or below. There are 7 factors that determine eligibility: low family income (below 250 percent of FPL), diagnosed disability or identified developmental delay, severe and challenging behavior, primary language other than English, parent(s) with low educational attainment, abuse/neglect of child or parent, and environmental risk. A state-determined prioritization process allows low family income to automatically qualify a child, then allows for above 250 percent plus two risk factors; then above 250 percent plus one risk factor; then family income above 250 percent of FPL, with a cap of 10 percent of the total slots that can fall above 250 percent. All families above 250 percent must pay tuition based on a sliding scale.
- 8 A qualified teacher and associate teacher must be present in classes of 9 to 16 children. If more than 16 children are in a class, a third adult meeting licensing requirements must be present.
- 9 Part-day programs provide a snack, and school-day programs provide one meal and two snacks or two meals and one snack.

- 10 Programs must assure that children have health screenings, including vision and hearing, but they do not have to provide the screening. Screenings are often provided in the program by the local health department. All programs must make appropriate referrals. The physical exam for licensing typically includes height/weight or BMI, blood pressure, and immunizations.
- 11 Program policies and procedures must promote, support, and respect the home language, culture, and family composition of each child. The state encourages hiring of at least some staff who speak the dominant languages of the community and provide translators for parents. All staff are expected to learn key words from each child's home language. Communication with families must be carried out on a regular basis throughout the program year, and carried out in the parent's primary or preferred language.
- 12 All public school teachers must have BAs and elementary teaching certification with an early childhood endorsement. If training is incomplete, they may be considered out of compliance, but must be enrolled in a training program and in compliance within four years. Teachers in nonpublic programs may have a BA in EE and an elementary teaching certificate with an early childhood endorsement, a BA with teaching certificate and CDA, or a BA in CD with a focus on preschool teaching.
- 13 All classroom staff must complete 16 clock hours per year, of which two can be CPR and first aid training, to keep required child care licenses current. Lead teachers who are certified teachers in public school settings must complete six credit hours or an equivalent number of State Board CEUs every five years to keep their teaching certification current. New lead teachers must complete even more training to renew the certificate the first time. Lead teachers who are in nonpublic school settings may not have certification and therefore may not need additional hours or equivalent time.
- 14 The state has phased out its own equivalent to a CDA as of the 2012-2013 school year, which included the same requirements as CDA, but teachers did not have to take the CDA exam. The state approved each candidate individually instead. Those with the state alternative are grandfathered in unless they change employer, in which case a CDA or Associates degree would be required. An assistant teacher may have a CDA or equivalent as approved by the State Board of Education, or an AA in ECE/CD. If a suitable person cannot be hired, someone can start out of compliance, but must have completed at least one credit-bearing course in child development and have a plan to complete the requirements within two years.
- 15 GSRP cannot operate solely on the state funding, but the state does not collect local spending. Local districts may choose to use Title I funds for preschool programming. Grantees typically spend roughly another \$1,500-\$2,000 per child to cover costs not paid for by the state. Grantees must include in-kind space for GSRP, because GSRP does not allow funding to cover the cost of facilities. Data are not collected on the total in-kind funding contribution. All funding flows through the State School Aid Fund to ISDs.
- 16 The school district portion has both a needs and a capacity, assessment and a formula component that contributes to the final grantee allocation.
- 17 For 2013-2014, only ISDs were eligible to receive funds directly from the state. ISDs then determined subrecipients locally, which are LEAs/PSAs/CBOs—both for- and nonprofit are allowed.
- 18 Beginning in the 2013-2014 grant year, MDE created a new monitoring tool and 3-4 cycle for the ISDs as GSRP grantees. A risk assessment will be completed annually which may modify the established cycle. Monitoring will cover the programmatic, administrative, and fiscal aspects of the work of the ISDs as GSRP grantees. The ISD is responsible for monitoring its subrecipients for compliance with policies and guidelines for fiscal and programmatic issues, as well as program quality using the PQA. MDE monitoring will include a sampling of data from the ISD's subrecipient program, and administrative and fiscal documentation. An MDE auditor, consultant, or combined team will conduct onsite monitoring visits to the ISD to ensure compliance with state policies and program requirements as they relate to fiscal and programmatic management of the grant. MDE will use a combination of interviews, uploaded and onsite records, MEGS+ applications and reports, and sampling of the ISD's subrecipient program administrative and fiscal documentation to complete the monitoring process.
- 19 Studies of Michigan's program include: an ongoing longitudinal study covering kindergarten through high school graduation and grade retention findings (began 1995); a regression discontinuity study of 865 students assessed in pre-K and K (2005); a quasi-experimental/longitudinal study of 403 students in private child care, Head Start, and GSRP (2004-2007); and a mixed methods regression discontinuity and quasi-experimental/longitudinal study of 482 pre-K and 443 kindergarten students followed (2007-present). Studies since 2004 have measured both child outcomes (direct assessments and teacher/parent reports) and process quality in pre-K and elementary classrooms (independent observation). The study is funded at \$300,000 per year by the State School Aid Act.
- 20 Programs may choose tools that assess children according to the Early Learning Expectations in the Michigan Department of Education Early Childhood Standards of Quality for Prekindergarten. The state also recommends supplemental tools in particular areas to meet particular needs.
- 21 Michigan chose TS Gold for voluntary kindergarten entry assessment in 2012-2013 and is piloting it in 2013-2014.

## MINNESOTA - Minnesota Head Start

- 1 By statute, state Head Start funding is non-competitively allocated to all federally designated Head Start grantees in Minnesota. This includes 1 school district, 7 tribal governments, and 25 private, nonprofit agencies, each serving one or more counties. Head Start services are available to eligible residents in all parts of the state.
- 2 Programs comply with the federal Head Start requirement of at least 3.5 hours per day, 4 days per week, for 32 weeks, which is the most common schedule. A formal process that approves the use of Child Care Assistance funding for Head Start Integrated full day programming has been established.
- 3 Programs may also use state funds to provide Early Head Start services for children who are under the age of 3 years. Federal Head Start requirements determine eligibility. Independent school districts may establish an early entrance policy for kindergarten.
- 4 State pre-K children must meet the federal Head Start income guidelines. Effective as of 2007, 35 percent of enrollment may be children whose family incomes are between 100 and 130 percent FPL after priority is given to children at or below 100 percent FPL. Other criteria for eligibility include homeless families and foster children. Also, families may be income-eligible if they qualify for child care services as a participant in Minnesota's TANF program. Reported risk factors may be considered in prioritizing applicants for enrollment in a limited number of enrollment slots. Agencies may work with their parent council to establish additional priorities.
- 5 Eligibility can be reassessed if there is a major change in family circumstances, such as income. Children are usually, but not always, allowed to continue enrollment through the end of the program year.
- 6 Federal Head Start Performance Standards require part-day programs to provide children with at least one-third of their daily nutritional needs (breakfast or lunch), and full-day programs to provide one-half to two-thirds of daily nutritional needs (breakfast, lunch, and a snack).
- 7 State authorizing statute requires compliance with federal Head Start requirements. Translators or bilingual staff must be available if 50 percent or more of children in a class speak a language other than English.
- 8 Under the Head Start Reauthorization Act of 2007, all lead teachers were required to have at least an AA by October 2011; by September 30, 2013, 50 percent must have at least a BA. By September 30, 2013, all assistant teachers must have at least a CDA or be enrolled in a program to receive a CDA, AA, or BA within two years. Currently, about 87 percent of Minnesota Head Start teachers have at least an AA and 65 percent have at least a BA in ECE or a related field. In a public school, teacher union rules require that teachers have at least a BA.
- 9 The requirement for in-service professional development is 2 percent of total work hours. However, as of December 2007, the Head Start reauthorization required 15 clock hours of professional development per year for teachers and assistant teachers. By federal law, Head Start staff must follow the highest standard. For those working full-time, that will be the 2 percent standard.
- 10 State-funded Head Start services are now required to follow Section 648A of the 2007 Head Start reauthorization which requires all teachers hold at least a CDA. Programs are scrutinized annually by the federal Office of Head Start to assess continuing progress toward meeting these goals.
- 11 State staff review PIR information and enrollment data, conduct additional surveys throughout the year, and review and approve program work plans.
- 12 The state has begun reporting kindergarten entrance assessment through a program called Reading Well by Third Grade. This may or may not be coordinated with the state-level Kindergarten Entry Assessment; that is a local decision.

## MISSOURI - Missouri Preschool Program

- 1 Enrollment figures are based on the number of children receiving classroom services based on May 2014 count.

- 2 The program must provide 6.5 hours of educational activities appropriate to the developmental level of the child per day, 5 days per week for 12 months per year and operate between the hours of 7:30am and 5:00pm. Only governmental entities or public school districts can provide a part-day program (minimum of 3 hours) to better serve those children participating in other district programs, such as Title I and/or early childhood special education, and can provide services for no less than the school year. Public schools who implement a four-day school week for their K-12 grade levels can also implement a four day schedule for the preschool program. The length of the day should mirror the K-12 day. In 2013-2014, 56 of the 180 programs provided extended day services to meet the needs of working families through a variety of funding options. Enrollment by operating schedule data are from May 2014.
- 3 Preschool programs must provide educational activities appropriate to the developmental level of the children 12 months a year. Governmental entities or public school districts only may provide preschool services for no less than the school year.
- 4 Some local discretion is granted in enrollment. Additional information may be found at <http://dese.mo.gov/governmental-affairs/kindergarten-first-grade-entry>.
- 5 If a preschool program charges a fee for preschool, they must implement a sliding scale fee. Programs determine the basis for a sliding scale. Private agencies use a Social Services sliding scale, while public schools use free- and reduced-lunch as a criteria. The sliding scale fee is required for families whose income does not exceed 185 percent of the federal poverty level.
- 6 The preschool program must serve a minimum of 10 age-eligible children per classroom and have no more than 20 age-eligible children in a classroom. Classrooms with 10 children must have a lead teacher. A teacher assistant is required if more than 10 children are enrolled in the classroom.
- 7 In 2014, of the 180 Missouri Preschool Programs, 110 provided breakfast, 89 provided an AM snack, 143 provided lunch, and 160 provided a PM snack. Part-day programs are required to provide one meal or one snack. School-day programs are required to provide one meal and two snacks or two meals and one snack.
- 8 A full physical must meet the requirements of child care licensing.
- 9 All preschool programs are required to work with their local Parents as Teachers (PAT) program, which provides parent education and health and development screenings. In addition, PAT also provides referrals to services that may be beneficial to the family, based on need/request.
- 10 Additional domains: Mathematics, Science, Understanding the World, Expressive Arts
- 11 Lead teacher must have Early Childhood Teacher Certification, Early Childhood Special Education Teacher Certificate, or 4 year college degree in child development.
- 12 Missouri does not maintain records on teacher educational attainment for the MPP. Data on teacher certification levels indicate the following breakdown: Early Childhood (148, 78 percent), Early Childhood Special Education (6, 3 percent) EC/ECSE (19, 10 percent), and Child Development (17, 9 percent).
- 13 Additional required professional development hours for first year teachers and teacher assistants beyond the state's minimum include at least of 30 hours of curriculum training. Teachers in new and renewal programs must be trained in the State Board of Education adopted early childhood readiness tool. This tool is used to look at each child's growth and development to guide learning activities in the classroom. The Professional Development Plan also includes college-credit courses through T.E.A.C.H. Early Childhood® Missouri, follow-up/advanced training of the selected curriculum model provided only by the approved curriculum source, professional conferences, seminars, consultants, and DESE required meetings. The plan should include a list of the specific professional development opportunities to be provided. Evidence of continuous professional development associated with the selected curriculum model must be included each year in the plan. Professional development opportunities should reflect the general philosophy of the curriculum model selected from a state-approved list.
- 14 Teacher assistants must have a CDA, 2-year Associate Degree in Child Care/Education or 60 college hours with a minimum of 3 college credit hours in early childhood, child development, or child/family related courses and experiences working in a program with young children and their families.
- 15 Site-based consultations are provided to newly awarded classrooms to support program improvement.
- 16 Teachers in new and renewal programs must be trained in the State Board of Education-adopted early childhood readiness tool. This tool is used to look at each child's growth and development to guide learning activities in the classroom.

### **NEBRASKA - Nebraska Early Childhood Education Programs - Ages 3 to 5**

- 1 Some school districts begin or add capacity with the help of competitive grants. Other school districts may start a program without grant funding, and may receive state aid funding for their 4-year-olds after three years of program approval.
- 2 Most programs operate 3.5 to 4 hours per day, 4 or 5 days per week. Schools are encouraged to partner with Head Start and community providers, but there is no formal agreement at the state level. Programs must operate at least 12 hours per week. Additionally, if districts receive State Aid (TEEOSA) or an early childhood grant, the program must operate at least 450 hours per year.
- 3 Children with IEPs may participate, based on their IEPs. Kindergarten-age children with verified disabilities may enroll in prekindergarten if their IEP team determines that the child can be served best in preschool. Districts may enroll children under age 3, but the district would have to meet staffing and group size requirements established for younger children. State does not have a minimum age date.
- 4 While all prekindergarten age-eligible children may be served in a school district early childhood program, regardless of their abilities, disabilities, or the social, linguistic, or economic diversity of the children's families, funds are targeted to children with at least one risk factor. Some districts enroll all age-eligible children, while others may use locally determined risk factors in addition to those specified by the state.
- 5 Children who are receiving services through Head Start or IDEA pay nothing. For other children, school districts set the sliding fee scale to fit with their community.
- 6 Programs must offer at least one meal and/or snack that follows CACFP requirements.
- 7 If a majority of children enrolled use a common language other than spoken English, at least one staff member who uses such language shall be available as an active participant to communicate with such children. If less than a majority of the children speak a language different from the rest, one staff member or a community resource person or parent shall be identified to serve as a resource to the program.
- 8 Early Learning Guidelines were revised to align with the Nebraska K-12 standards during 2013. At this time, Nebraska has not adopted the Common Core. Creative Arts are also addressed in the Nebraska Early Learning Guidelines.
- 9 If teachers have endorsements other than those listed, they must take college coursework and make annual progress until they obtain an early childhood endorsement. Regardless of where the classroom is housed, it is considered a public school program.
- 10 Local sources include local district funds, parent fees, community agencies and resources, and other sources. Funding for the program includes an allocation for the grant program as well as funding in the state aid formula. In the third year of approval by the Nebraska Department of Education, the count of 4-year-olds is put into the formula along with other data. Equalization aid is then calculated for the next year.
- 11 Educational Service Units may receive grant funds but cannot receive state aid funding.
- 12 Although a 100 percent match of the state grant funds is required, it does not have to come from a local source. State aid requires that districts used federal and/or local sources to support the operation of the early childhood program in addition to state aid.
- 13 Self-assessments must be done by someone with Environment Rating Scale training. A randomly selected percent of districts will also receive an assessment by a reliable observer for comparison. Programs less than three years old continue to receive a visit by a reliable observer. Randomly selected programs not visited through one of the other means will receive a site visit as well. However, it is possible that not all sites will receive a visit.

### **NEVADA - Nevada State PreKindergarten Education Program**

- 1 In addition to the 10 school districts that have a program, one community-based program (Great Basin College) also administers a state-funded pre-K program.
- 2 Data were not collected on specific ages in 2013-2014, due to changes in evaluation procedures. The total reported combines 3- through 5-year-olds with the majority continuing to be 4-year-olds. Children who are 5 and eligible for kindergarten are not eligible for Nevada State Pre-K unless a local determination is made that there are extenuating circumstances, such as a recommendation in the child's IEP.

- 3 Data were not collected in 2013-2014 due to changes in evaluation procedures.
- 4 Programs are required to provide services a minimum of 10 hours per week. Local programs determine specific hours and schedule depending on location and track. Most programs operate 4 days per week for 2.5 to 4 hours per day. All state pre-K programs are part-day programs, as determined locally, due to limited funding.
- 5 Children who are 5 and eligible for kindergarten are not eligible for Nevada State Pre-K unless a local determination is made based on extenuating circumstances such as a recommendation in the child's IEP.
- 6 Specific priorities for enrollment are determined locally. Other eligibility requirements may include low-income status, English Language Learner, and homelessness.
- 7 Redetermination is not included in state policy but is permitted at the discretion of districts if irregular attendance or family moves outside of the district are substantiated and it is determined appropriate that to fill the space with another child on the waiting list may be appropriate.
- 8 Meals are not required, but all programs provide snack for part-day programs. Most programs are part-day, so only snacks are required.
- 9 Program policy rather than state legislation assures that several screening and referral services are required for all children. Programs are required to screen and assess all children if there is a suspected developmental delay; a home language survey is sent home at the beginning of the school year; information must be presented to parents in their primary language; ESL services must be provided; translators or bilingual staff are available if children do not speak English. Local districts determine the process and instrument used for determining suspected developmental delay.
- 10 The Nevada legislature passed SB 504 in 2013 to provide additional support for ELL/DLL in pre-K-4th grade, and many districts are using this funding to collaborate with their existing State PreK programs. Implementation began mid-year in the 2013-2014 school year for logistical reasons.
- 11 An early childhood crosswalk has been completed between the Nevada PreK Standards and the Nevada Academic Content Standards based on the Common Core. A gap analysis based on this document and the Maryland-Ohio EAG Consortium work will guide the next revision process slated to begin in 2015.
- 12 If teachers started with the program prior to 2002, they are grandfathered in. Positions deemed difficult to fill may develop a professional development plan that a hired teacher would follow if not currently certified in early education. The Birth-K license has been incorporated into the Birth-Grade 2 certification and is no longer issued. Persons holding Birth-K certification are still eligible to teach in Nevada pre-K programs.
- 13 Due to changes in evaluation, data are now collected every other year and were not collected in 2014.
- 14 In addition to state pre-K funding, the State allocated \$4,619,105 to support additional pre-K programs for DLL Students in 6 school districts. However, not all of these programs are aligned with state pre-K requirements and implementation did not occur until mid-year. An additional \$9,807,375 was used for Title I Pre-K in Clark County, which is not aligned with State PreK program and evaluation requirements.
- 15 School districts and community organizations are eligible to apply for state pre-K competitive funding.
- 16 ECERS and ELLCO formal observations are conducted every other year instead of annually as done previously. PPVT and EOWPVT are performed as pre- and post-assessments annually.
- 17 Per legislation starting in 2013-2014, Nevada State Pre-K is required to complete and submit a longitudinal evaluation report every other year. Previously, the reports were completed every year. As a result, programs are only formally assessed using the ECERS and ELLCO every other year.
- 18 Results of child-level assessments were considered when the Legislature allocated additional funding to begin a targeted pre-K initiative for DLL children in several districts.
- 19 Currently, kindergarten assessments are determined on a local basis. However, Nevada is piloting Teaching Strategies Gold in a few districts statewide as well as participating in the Maryland/Ohio Enhanced Assessment Grant Consortium to determine the best statewide KEA to be used in the future

### **NEW JERSEY - New Jersey Former Abbott Preschool Program**

- 1 Primary oversight for the preschool education program is through the state Department of Education's (DOE) Division of Early Childhood Education. The Department of Children and Families oversees licensing of private preschool providers. The Department of Human Services, Division of Family Development oversees the before- and after-school portion of the preschool program. Coordination occurs with the Head Start State Collaboration Office, which is housed in DOE.
- 2 Thirty-one districts are required to offer the program due to a state Supreme Court decision. The remaining four are required to offer the program after applying to expand their existing program, starting in the 2008-2009 school year.
- 3 There were 25,032 children in nonpublic sites but administrative responsibility remains with the public school district.
- 4 All programs must operate for at least 6 hours. Some programs offer extended-day programs with an additional 4 hours of wrap-around care to income-eligible children. The wrap-around program is funded through the Department of Human Services.
- 5 The DOE funds the program for the school calendar year. If the district/provider runs a wrap-around program through DHS, the program would then extend services for the full calendar year. Some districts have also used either surplus/local or Title I funding to provide summer care.
- 6 Kindergarten-age-eligible children with an IEP that requires enrollment in a preschool program may enroll in the program but are funded through special education.
- 7 The program is offered in the poor urban districts initially identified by the NJ Supreme Court in 1990 as having at least 40 percent of children who qualify for free or reduced-price lunch and 5 additional districts designated by the Legislature. All 3- and 4-year-old children within those districts are eligible to participate. Kindergarten-age-eligible children with an IEP that requires enrollment in a preschool program may enroll in the program but are funded through special education.
- 8 Only district residents are eligible for the program. Children who move outside of the district would no longer be eligible to attend the program. Districts continually monitor to ensure that children are still district residents and therefore still eligible for the program.
- 9 Bilingual classes are generally encouraged. In specific cases, monolingual non-English classes may be permitted as part of a transition into a bilingual model including English, but a bilingual, non-English class (while not prohibited) would not be encouraged.
- 10 Alignment with Common Core State Standards was completed in 2013.
- 11 Teachers with a Standard Elementary School Endorsement (Preschool through grade 8) may teach preschool if they have an equivalent of two academic years of full-time experience teaching 3- and 4-year-olds or demonstrate content knowledge in line with a district's established documentation requirement. Additionally, teachers with the following certifications may apply for preschool licensure, take the Praxis exam, and begin the process of obtaining a P-3 certificate; K-5 certificate; out-of-state certificate that includes preschool, Teacher of the Blind or Partially Sighted, Teacher of the Deaf or Hard of Hearing, Teacher of the Handicapped certificate, or Teacher of Students with Disabilities certificate. Nursery school (P-K) is no longer granted but still recognized for current holders.
- 12 In districts or schools supported by Title I funding, assistant teachers are required to meet the education/degree requirements specified for Title I.
- 13 Districts receive a per-pupil amount for each projected child depending upon where the child is being served (i.e., district, Head Start, or provider setting). However, if this amount provides less for the district than it received in the 2008-2009 school year, the district's aid amount reverts to what it was in the 2008-2009 school year. School districts are permitted to subcontract with faith-based programs without religious content.
- 14 QRIS participation is encouraged, but not currently required.
- 15 Monitoring information is not used to make decisions about whether or not to fund a district/program, but rather to guide the review of districts' proposed annual budgets.
- 16 DOE-approved program quality assessment instrument; performance-based assessment; district-needs assessment; early childhood screening assessment at school entry to determine if child needs comprehensive diagnostic assessment
- 17 TS GOLD was used with pilot districts in 2013-2014. The first cohort began in 2014-2015 with statewide implementation anticipated to be complete within 5-6 years.

## **NEW JERSEY - New Jersey Former Early Launch to Learning Initiative**

- <sup>1</sup> Primary oversight for the preschool education program is through the state Department of Education's (DOE) Division of Early Childhood Education. The Department of Children and Families oversees licensing of private preschool providers. The Department of Human Services, Division of Family Development oversees the before- and after-school portion of the preschool program. Coordination occurs with the Head Start State Collaboration Office, which is housed in DOE.
- <sup>2</sup> Nine of the 24 districts also receive funding as former ECPA districts.
- <sup>3</sup> Enrollment figures represent general education students only. These districts also reported serving 117 3-year-olds who are not funded with state dollars and were not included in the total enrollment. This also reflects only the districts that do not receive funding through the former ECPA program, so as not to double count any students.
- <sup>4</sup> Children who receive special education services must be included in classrooms with the above counted children; however, those special education children are funded separately and are not included in the reported count.
- <sup>5</sup> Some programs are part-day, some programs are school-day, and some programs offer a combination of both. Some programs participate in DHS wraparound programs for before- and after-care. The DOE funds the program for the school calendar year. If the district/provider runs a wrap-around program through DHS, the program would then extend services for the full calendar year.
- <sup>6</sup> An additional 117 3-year-olds were served in ELLI classrooms but were funded through local or private sources and are not included in the total count. Kindergarten-age-eligible children with an IEP that requires enrollment in a preschool program may enroll in the program, but are funded through special education.
- <sup>7</sup> In addition to children needing to qualify for free and reduced-price lunch and be a resident of the district, districts may allow for other students in unusual circumstances to be eligible for the program. A district may make a case for establishing eligibility based on extenuating circumstances when submitting its annual plan.
- <sup>8</sup> Only district residents are eligible for the program. Children who move outside of the district would no longer be eligible to attend the program. Districts continually monitor to ensure that children are still district residents and therefore still eligible for the program.
- <sup>9</sup> Breakfast, lunch, and snack are required for at-risk students in school- and extended-day programs. Although not specified in the Early Childhood Administrative Code, meals provided in school programs have to meet USDA guidelines. Provision of meals is not addressed for part-day programs.
- <sup>10</sup> Bilingual classes are encouraged.
- <sup>11</sup> Alignment with Common Core State Standards was completed in 2013.
- <sup>12</sup> Teachers with a Standard Elementary School Endorsement (Preschool through grade 8) may teach preschool if they have an equivalent of two academic years of full-time experience teaching 3- and 4-year-olds or demonstrate content knowledge in line with a district's established documentation requirement. Additionally, teachers with the following certifications may apply for preschool licensure, take the Praxis exam, and begin the process of obtaining a P-3 certificate: K-5 certificate, out-of-state certificate that includes preschool, Teacher of the Blind or Partially Sighted, Teacher of the Deaf or Hard of Hearing, Teacher of the Handicapped certificate, or Teacher of Students with Disabilities certificate. Nursery school (P-K) is no longer granted but still recognized for current holders.
- <sup>13</sup> In districts or schools supported by Title I funding, assistant teachers are required to meet the education/degree requirements specified.
- <sup>14</sup> All state funding is technically run from the state aid formula. However, for the 2013-2014 school year, funding for these districts was kept the same as in prior years, which was not according to the funding formula.
- <sup>15</sup> School districts are permitted to subcontract with faith-based programs without religious content.
- <sup>16</sup> Districts must use local funds or charge tuition to serve regular income general education students and must also use special education funding to serve children with IEPs.
- <sup>17</sup> Districts are required to do an annual self-assessment and are also required to use a curriculum that includes performance-based assessment measures. However, the results of these assessments are not collected by the state.
- <sup>18</sup> TS GOLD was used with pilot districts in 2013-2014. The first cohort began in 2014-2015 with statewide implementation anticipated to be complete within 5-6 years.

## **NEW JERSEY - New Jersey Former Non-Abbott Early Childhood Program Aid**

- <sup>1</sup> Primary oversight for the preschool education program is through the state Department of Education's (DOE) Division of Early Childhood Education. The Department of Children and Families oversees licensing of private preschool providers. The Department of Human Services, Division of Family Development oversees the before- and after-school portion of the preschool program. Coordination occurs with the Head Start State Collaboration Office, which is housed in DOE.
- <sup>2</sup> Ninety-three districts are required to offer the program. Only districts where 20 to 40 percent of children qualify for free or reduced-price lunch receive funding through this initiative. All 3- and 4-year old children within those districts are eligible to participate. However, the program is only open to 3-year-olds once the district has offered full-day K to all age-eligible children and either half- or full-day preschool to all 4-year-olds.
- <sup>3</sup> There were 114 children in nonpublic sites, but administrative responsibility remains with the public school district.
- <sup>4</sup> Districts may operate either a part- (2.5 hours per day) or school-day (6 hours per day) program. DHS funding may be used in some cases to extend beyond a full day for income-eligible children. Some school-day children may receive extended-day services, but the number of students is unknown. The DOE funds the program for the school calendar year. If the district/provider runs a wrap-around program through DHS, the program would then extend services for the full calendar year.
- <sup>5</sup> Kindergarten-age-eligible children with an IEP that requires enrollment in a preschool program may enroll in the program, but are funded through special education.
- <sup>6</sup> There are 93 districts required to offer the program. Only districts where 20 to 40 percent of children qualify for free or reduced-price lunch receive funding through this initiative. All 3- and 4-year old children within those districts are eligible to participate. However, the program is only open to 3-year-olds once the district has offered full-day kindergarten to all age-eligible children and either part- or school-day preschool to all 4-year-olds.
- <sup>7</sup> Only district residents are eligible for the program. Children who move outside of the district would no longer be eligible to attend the program. Districts continually monitor to ensure that children are still district residents and therefore still eligible for the program.
- <sup>8</sup> Breakfast, lunch, and snack are required for at-risk students in school- and extended-day programs. Although not specified in the Early Childhood Administrative Code, meals provided in school programs must meet USDA guidelines.
- <sup>9</sup> Bilingual classes are encouraged.
- <sup>10</sup> Alignment with Common Core State Standards was completed in 2013.
- <sup>11</sup> Teachers with a Standard Elementary School Endorsement (Preschool through grade 8) may teach preschool if they have an equivalent of two academic years of full-time experience teaching 3- and 4-year-olds or demonstrate content knowledge in line with a district's established documentation requirement. Additionally, teachers with the following certifications may apply for preschool licensure, take the Praxis exam, and begin the process of obtaining a P-3 certificate: K-5 certificate, out-of-state certificate that includes preschool, Teacher of the Blind or Partially Sighted, Teacher of the Deaf or Hard of Hearing, Teacher of the Handicapped certificate, or Teacher of Students with Disabilities certificate. Nursery school (P-K) is no longer granted but still recognized for current holders.
- <sup>12</sup> In districts or schools supported by Title I funding, assistant teachers are required to meet the education/degree requirements specified.
- <sup>13</sup> All state funding is technically run from the state aid formula. However, for the 2013-2014 school year, the former ECPA districts were funded in a manner similar to prior years, which was not according to the funding formula. Districts may, but are not required to, contribute local funding to operate the program.
- <sup>14</sup> School districts are permitted to subcontract with faith-based programs without religious content.
- <sup>15</sup> Districts are required to do an annual self-assessment and are also required to use a curriculum that includes performance-based assessment measures. However, the results of these assessments are not collected by the state.
- <sup>16</sup> TS GOLD was used with pilot districts in 2013-2014. The first cohort began in 2014-2015 with statewide implementation anticipated to be complete within 5-6 years.

## NEW MEXICO - New Mexico PreK

- 1 An increase in the appropriation for New Mexico PreK resulted in new programs in 10 additional school districts.
- 2 The state funds 450 instructional hours per school year. Hours per day vary by program. The most common schedule is 5 days per week. Some private or nonprofit facilities use partial day Child Care Subsidy for wraparound care to assist parents who qualify, or offer reduced rates for private pay. PreK programs in public schools can extend the day using operational funds or Title I funds. CYFD offered a 450-hour, extended-day summer program for 56 children at three sites.
- 3 All age-eligible children in locations offering the program are eligible. Funding priority is given to all age-eligible children who will attend kindergarten at Title I schools. At least 66 percent of children attending the program must live within an attendance zone of a Title I elementary school.
- 4 At least one meal per day, breakfast or lunch depending on schedule
- 5 Individual physician protocols may vary to include psychosocial/behavioral or other screening. Some programs choose to administer a psychosocial/behavioral screening.
- 6 In the absence of state legislation or policy regarding provisions for ELL families in PreK programs, the New Mexico Department of Education and the New Mexico PreK Program Standards provide guidance on effective practices and program requirements to all programs receiving state pre-K funding. Funding is used to support monolingual Spanish and dual-language classrooms with information submitted in the program's application to state agencies.
- 7 Education services or job training for parents are not required; programs are encouraged to provide support for families in need of either.
- 8 The currently posted Early Learning Guidelines document was revised in July 2014.
- 9 Lead teachers in public school programs must have a bachelor's degree and licensure in early childhood education. Teachers who have an elementary education or special education license are required to take a minimum of 6 credit hours of ECE coursework annually. Teachers in nonpublic school settings should, but are not required to, have a bachelor's degree and are required to take at least 6 credit hours annually and have a professional development plan to complete the degree in ECE.
- 10 Programs are permitted to hire an assistant teacher without the AA degree, provided the person has an approved professional development plan to achieve the requirement by successfully completing a minimum of six college credit hours each year.
- 11 The New Mexico PreK program will participate in the new FOCUS QRIS program as part of the Race to the Top Grant awarded to the state of New Mexico with piloting scheduled for Spring 2015. QRIS measures are for nonpublic programs only.
- 12 This PreK initiative has been evaluated in the past; a four-year study of child outcomes and classroom observation was started in 2008-2009 but discontinued due to funding.
- 13 The Public Education Department require schools with full-day kindergarten programs to conduct age-appropriate assessments to determine the placement of students at instructional level, and the effectiveness of child-centered, developmentally appropriate kindergarten. There is not a specific kindergarten assessment required by the Public Education Department. Most districts use DIBELS Next to assess early literacy. Various other assessments are used. NM Administrative Code 6.30.5.12 requires that districts assess children by September 30 and again by April 30.

## NEW YORK - New York Universal Prekindergarten

- 1 A second initiative called NY Priority Prekindergarten was established in the 2013-2014 school year to increase the availability of high quality prekindergarten placements for the highest need children and schools within New York State's public school districts. This grant initiative builds on the foundation established by the allocational Universal Prekindergarten (UPK) program. Grant funds can be used to create new full-day prekindergarten placements, convert existing half-day placements to full-day, or create a limited number of new half-day placements designated for higher need children in lower wealth school districts. The state allocated \$25 million for the program, which served 4,988 children in 25 school districts in 2013-2014.
- 2 Only districts offering the program during 2012-2013 were eligible to receive funding in 2013-2014.
- 3 Three-year-olds can participate in UPK only if a district had received funding for a 3-year-old program from TPK in the 2007-2008 program year. In the 2013-2014 school year, three districts were able to offer the program to 215 3-year-olds.
- 4 Of the 98,910 children enrolled, 46,406 participated in district operated UPK classrooms and 52,504 attended classrooms in other settings, including community-based programs.
- 5 The UPK funding is for a minimum of 2.5 hours, but many programs opt to run a school-day or extended-day program using local funds or other funding sources. Programs must operate 5 days per week for a minimum of 180 days per year.
- 6 Three-year-olds can participate in UPK only if a district had received funding for a 3-year-old program from TPK in the 2007-2008 program year. In the 2013-2014 school year, three districts were able to offer the program to 215 3-year-olds. Age exceptions for kindergarten are permitted and are locally determined.
- 7 There is a very small population of 3-year-olds in the UPK program per legislated restrictions for most communities. A classroom composed entirely of 3-year-olds would have a 1:8 adult to child ratio.
- 8 Programs that are 3 hours or fewer provide snack. Programs that are more than 3 hours provide a meal and a snack.
- 9 A full physical exam includes a medical history, Tanner scale, scoliosis, and asthma and hypertension screenings. The state also requires a social and emotional assessment as part of initial screening, progress monitoring, and outcomes assessment for UPK students.
- 10 Teachers must have a bilingual certification extension when instruction is provided to students with limited English proficiency. Commissioner's regulations require all districts and schools to have a plan in place to serve ELL students appropriately.
- 11 New York Prekindergarten Learning State Standards took effect in January 2011 upon adoption by the State Board of Regents. The New York State Board of Regents also adopted the aligned Common Core Standards for Prekindergarten Math and English Language Arts at the same time.
- 12 Lead teachers in public school settings are required to have a BA if hired prior to 1978 and an MA if hired after 1978, and lead teachers in nonpublic settings hired prior to 2004 are required to have an AA or CDA. Since 2004, programs in nonpublic settings have been required to meet the same certification requirements as those in public settings. A legislative amendment allowed certain community-based organizations to be exempt from this requirement until at least 2013. These teachers must also have a plan to become certified within five years or by 2013. Effective July 1, 2010, all newly hired teachers in nonpublic settings must have a bachelor's degree in early childhood education or a related field and also have a written plan to earn a New York State (NYS) teaching license or certificate valid for services in the early childhood grades within five years. Nonpublic programs lacking licensed/certified lead teachers must employ an onsite education director possessing a NYS teaching license or certificate in early childhood or childhood grades.
- 13 There are 1,412 teachers operating on a 5-year plan to obtain certification in 2013-2014, including 1,330 with BA and 82 with other educational qualifications.
- 14 Level I Teaching Assistant Certificate, the entry-level certificate for teacher assistants, permits the holder to provide direct instruction to students under the general supervision of a certified teacher. Assistant teachers in nonpublic settings are required to have a HSD or meet standards of the licensing or registering agency. Some nonpublic school settings require a temporary license, continuing certificate, which permits the continued employment of an individual who has completed one year of experience under a temporary license and who has six semester hours of study in education.
- 15 New York Priority Prekindergarten (NYPP) funding for 2013-2014 of \$25M was not available to programs at the beginning of the program year and are not included in this total. Local grantees may access the following federal funds in addition to state general funds: CCDF and USDA Child and Adult Food Program. The amount of federal funds is unknown.
- 16 The state aid formula takes into account several factors including: foundation cost (the cost of providing the average student with an education that meets state learning standards), pupil need (the proportion of pupils eligible for free and reduced-price lunch), regional cost index, and expected local contribution.
- 17 Libraries and museums are allowed to contract if they can meet all the requirements of the regulations.

- 18 Participating programs use a variety of tools to provide documentation of children's learning and/or child outcomes. The ones that meet QUALITYstarsNY's Program Standards include: Creative Curriculum Developmental Continuum Assessment, Bayley Scale of Infant and Toddler Development, Brigance Inventories, Galileo Preschool Assessment Scales, High Scope Child Observation Record (COR), Learning Accomplishment Profile-Diagnostic (English or Spanish), Mullen Scales of Early Learning, Ounce Scale, Work Sampling System, Teaching Strategies GOLD, Ages and Stages Questionnaires. In 2013-2014, approximately 365 community based, family child care, and public school-based programs actively participate in QUALITYstarsNY. Of these participating programs, approximately 100 provide UPK. Approximately 60 of these programs were recruited in Troy and New York City over the summer of 2014 and have not yet been rated.
- 19 Site visits by state personnel are conducted through Coordinated Monitoring with Title I and also based on criteria established by the Office of Early Learning, such as districts with elementary schools on the Persistently Low Achieving Schools list. Periodic site visits are not assured for each program. All programs are required to submit to SED an annual application and a final report
- 20 QUALITYStarsNY has improvement specialists delegated to providing professional development. SED receives, minimally, quarterly reports on implementation status.
- 21 Children's learning and development are assessed upon entry to kindergarten and throughout the year. Assessments are locally determined provided they meet standards of validity and reliability.

## **NORTH CAROLINA - North Carolina Pre-Kindergarten Program**

- 1 Although the NC DHHS has authority over the program and fiscal components of the state's Pre-K program, teacher education and Birth-through-Kindergarten Licensure policy dictates the work that is required for all Pre-K teachers, regardless of employment setting (public vs. private/community-based care/Head Start). This includes the Beginning Teacher Support Program (needs-based mentoring, formative observations of teacher performance, and annual summative evaluation of teachers).
- 2 The Division of Child Development and Early Education (DCDEE) contracts with one entity per county/region to facilitate the implementation of the program locally. Typically, that entity is the local education agency, the local Smart Start Partnership for Children, or another agency such as Head Start. They, in turn, subcontract with providers, including public schools, licensed child care centers, and Head Start/Community Action-Nonprofits Agencies, creating a diverse delivery system.
- 3 Wraparound services are determined locally. A few programs based in public schools may operate on a year-round calendar, but funding is limited to 10 months (36 weeks) of services.
- 4 State statute allows for a child's early entry into kindergarten using state-established guidelines and based on information submitted by the child's parent or guardian that the child is gifted and has the maturity to justify admission to school.
- 5 Twenty percent of a county's NC Pre-K slots allocation may be used to serve children above 75 percent of SMI provided they have another designated risk factor.
- 6 Classrooms that provide for inclusive settings for children with disabilities may require an adult to child ratio lower than 1 to 9. For Local Education-administered public school exceptional children's preschool classrooms, ratios must be in compliance with the North Carolina Policies Governing Services for Children with Disabilities, Section 1508-2, (Appendix B) at: <http://ec.ncpublicschools.gov/policies/nc-policiesgoverning-services-for-children-with-disabilities>.
- 7 The Division of Child Development and Early Education (DCDEE) has developed a plan to better serve English Language Learners, with additional efforts made at the local level to accommodate ELLs and to comply with Title VI laws. NC BK Licensed teachers receive formal, needs-based mentoring/coaching support linked to child assessment and teacher evaluation to improve instructional practices for children served.
- 8 The revised document describes children's development and learning from birth through age five. A separate section addresses Dual Language Learners.
- 9 All lead teachers in NC Pre-K classrooms are required to hold a BA in ECE degree or a related field as well as a North Carolina Birth-through-Kindergarten or Preschool add-on license. Teachers in public or nonpublic settings may begin in an NC Pre-K classroom with a minimum of a BA/BS in child development, early education or related field, and work to attain an NC BK or Preschool License within three years. Teachers holding an NC BK Standard Professional I or II license are formally mentored and required to receive formative and summative evaluations annually and according to the licensure cycle. The AA degree in ECE/CD is permitted only as the minimum education/degree requirement only for a long-term substitute teacher (up to 16 weeks). The Intervention Specialists for P-12 in Vision or Hearing Impaired would be accepted if teacher had an endorsement related to early childhood or a Birth-through-Kindergarten license. Exceptions may be made in rural counties with limited personnel, to allow a lead teacher to enter with less than the minimum and work towards the requirement.
- 10 BK Licensed teachers in public and nonpublic schools will participate in professional development in accordance with the State Board of Education policy, 7.5 CEUs (75 contact hours) per 5-year licensure cycle for teachers holding an NC BK SP II license. Teachers working toward the NC BK SP II licensure requirements will participate in a minimum of six documented semester hours per year, prescribed by a Plan of Study, a professional development plan, and the Beginning Teacher Support Program (mentoring/performance evaluation). Teacher assistants working toward education requirements will participate in a minimum of six documented semester hours per year.
- 11 Teacher Assistants in public schools must meet requirements specified by NCLB. NC Pre-K generally requires assistant teachers who meet NCLB requirements but do not hold a CDA to have six semester hours of ECE coursework or two years experience in an early childhood classroom. An AA in ECE is highly encouraged for assistant teachers.
- 12 There is a required contribution of local resources to support the full cost of providing high-quality prekindergarten, but no specified percentage is required.
- 13 The NC Educator Evaluation System under NC State Board Policy requires licensed teachers to be formally mentored/coached and evaluated using formative and summative evaluation procedures annually, based on type and level of BK licensure held. Additional information is collected about the level and number of mentoring visits and formal evaluation of NC BK licensed teachers and the number of teachers, directors, mentors, and evaluators who have completed required mentor and evaluator training to prepare for NC educator licensure services. Teacher performance data: developing, proficient, accomplished, or distinguished ratings are required annually and by BK licensure type. The framework is required for teachers in both nonpublic and public schools. Teachers are required to use self-assessment, and mentoring services based on teachers' assessed needs using the NC Rubric for Evaluating NC Teachers/NC Professional Teaching Standards).
- 14 Every site receives at least one onsite monitoring annually by the local contracting agency, which is monitored by the state. Any agency that receives desktop monitoring by the state will receive an onsite visit in a future year. ECERS-R evaluations are conducted as part of the rated license system. Teacher evaluations are conducted based on the level and type of BK license held by the teacher.

## **OHIO - Ohio Early Childhood Education**

- 1 Since 2006-2007, grants had been awarded based upon a poverty index. With new funds added in 2013-2014, grants were awarded to high quality programs located within district boundaries that have high needs, including high poverty and low achievement. Ohio expanded its eligible providers to also include nonpublic districts and child care programs. Ohio has a total of 273 grantees.
- 2 Ohio funded 8,150 children with a per-child allocation of \$4,000. Total enrollment exceeded 8,150 children, so all enrollment breakdowns are based on the 8,150 figure. Although legislation says that children should not be age-eligible for kindergarten (age 5) when in pre-K, there are two locally determined school entrance dates (August 1 or September 30) in Ohio, so 5-year-olds may enroll in kindergarten if they turn five after August 1 but before September 30, depending on the district of residence.
- 3 State funding is for a part-day program, which specifies 12.5 hours per week. Data on enrollment by schedule are not available.
- 4 There are two locally determined school entrance dates for kindergarten in Ohio (August 1 or September 30). Depending on the local district's entrance date it is possible that 5-year-olds may enroll in the program if not age-eligible for kindergarten or if they turn 5 after August 1 but before September 30, depending on the district of residence.
- 5 Family income is the determining factor for this program. The program is free for families up to 100 percent FPL. Families between 101 and 200 percent FPL may pay a fee based on the district's sliding fee scale. Programs may offer services to children over 200 percent FPL, but those families pay full tuition.
- 6 101-200 percent FPL
- 7 All programs are required to participate in Ohio's Step Up to Quality TQRIS and given additional points for meeting 1 to 10 or max 20 ratios and class sizes. Most programs are meeting this requirement and rated 4 or 5, and are receiving points for meeting these ratios.
- 8 Programs are required to provide breakfast, lunch, or snack depending on hours of attendance.

- 9 In all programs, at least 50 percent of teachers must have a BA in ECE.
- 10 Programs are now required to participate in Ohio's Step Up to Quality (TQRIS) and are given extra points for attaining 30 hours of PD every 2 years at the star 4 and 5 levels. Most programs are attaining these levels.
- 11 Title I and local sources may be used by programs to fund additional children who are receiving services through ECE but not funded through the state.
- 12 Originally the allocation was provided starting with the district with the highest poverty rate, the Ohio Department of Education funded awards of up to two classrooms per district until all dollars were allocated. With the expansion in 2013-2014, a competitive process was used to allocate funds to programs within the boundaries of school districts with highest poverty and lowest achievement on K-readiness and third-grade reading assessments.
- 13 With expansion of funds in 2013-2014, additional eligible providers were added to include chartered nonpublic schools and child care programs.
- 14 Participation in a state quality rating system is legislatively required beginning with the 2013-2014 school year. Programs are participating now and the state reviews them with onsite visits, desk audits, classroom observations, and documentation review. Both ODE and ODJFS use same system for all programs statewide.
- 15 Past evaluations of ECE have used ELLCO. State reviews results of child outcomes and results show that children participating in ECE perform significantly better on the K-readiness assessment than demographically similar children who did not participate in ECE. Evaluation is being conducted of TQRIS, which will inform this work as well.
- 16 Teachers may use the child assessments to inform the creation of Student Learning Objectives (SLOs).
- 17 The 2013-2014 school year was the last school year that the state will use this particular assessment as its KRA: Kindergarten Readiness Assessment Literacy. In Fall 2014 there was a transition to an expanded KRA. For 2014-2015 KRAL is required and used in Ohio as the statewide K-readiness assessment that measures language and literacy, given within the first six weeks of school. Ohio has Race to the Top funding and Race to the Top--Early Learning Challenge grant funding to expand its KRA to address all domains of school readiness. The new assessment began in Fall 2014 with all K students in Ohio. Ohio collaborated with Maryland to develop the new KRA. Ohio is also developing a new pre-K-through-kindergarten formative assessment, covering ages 36 to 72 months. It has been piloted in the 2012-2013 and 2013-2014 school years. The formative assessment will begin implementation in the 2014-2015 school year and be used by participants in Ohio's ECE program as well as highly rated child care programs.

### **OKLAHOMA - Oklahoma Early Childhood Four-Year-Old Program**

- 1 Oklahoma has a pilot early childhood program for at-risk children from birth through age 3 that served 2,241 children in center-based programs, and 317 children in home visiting programs for 2,558 total children served in the 2013-2014 school year.
- 2 State funding is not available for the 1,932 typically developing 3-year-olds in the prekindergarten program unless they have an IEP. State funding may have been available for 1,535 of these children.
- 3 Even in collaboration programs, all students are considered public school enrollees and are matched with a site elementary school. They receive the same services as onsite public school students.
- 4 Programs have the option of operating a part-day or a school-day program or a combination of both within each district. Most school districts operate 5 days per week. Programs must be offered at least 175 days per year or 1,080 hours per school year. Districts can choose to offer a longer day but will not receive additional state funding through the state aid formula. Collaboration with other agencies and programs to provide extended-day services occurs but is not mandated at the state level.
- 5 Children who are age 5 may attend the prekindergarten program, and 4-year-olds or 6-year-olds may attend kindergarten. However, the funding that a district receives relates to the child's age. Promotion and retention are local district decisions.
- 6 At least one meal is provided through the federal Child Nutrition Program. The federal government does not provide snacks for 4-year-olds in public schools during regular class time, so snacks are determined locally.
- 7 If a Pre-K program is in collaboration with Head Start, they must meet Head Start requirements.
- 8 All students who are identified as ELL based on their Placement Test scores should be annually assessed using the State's ELP assessment: ACCESS for ELLs, until they meet the score exit criteria.
- 9 Oklahoma will be revising standards over the next two years for PreK-12 for ELA and Math.
- 10 The state also has an IT3 certificate for individuals teaching infants, toddlers, and 3-year-olds. Teachers with this certification cannot teach in a classroom of 4-year-olds. Additionally, a paraprofessional may become certified in Early Childhood to teach in a pre-K classroom if he/she: has a bachelor's degree, has one year experience as a teaching assistant in a public school in the area for which a teaching license is pursued, passes the Oklahoma General Education Test (OGET), passes a subject area test in early childhood, and passes the Oklahoma Professional Teachers Examination (OPTE).
- 11 Since the 2010-2011 school year, professional development has not been required by the state. As per Oklahoma HB 2928, "A licensed or certified teacher shall not be required to complete any points of the total number of professional development points required." It is a local school district's decision how many hours of professional development are required.
- 12 Teacher Assistants are only required to hold a high school diploma or GED diploma and pass the FBI criminal history check. However, if the teacher assistant is employed in a Title I school, they must be highly qualified using one of the following methods: 1. Hold an associate's degree or higher. 2. Have completed at least two years or 48 credit hours of study at an institution of higher education 3. Passed the OGET (Oklahoma General Education Test) 4. Passed the ETS (Education Testing Service) ParaPro Assessment Test or the WorkKeys Assessment. About 67 percent of school sites are Title 1.
- 13 The program is largely funded through state appropriations through foundation and incentive aid, using the grade weight of 0.7 for half-day and 1.5 for full-day pre-K programs. Oklahoma reports multiple federal sources but cannot report the specific funding amount that comes from each funding stream. These sources include: Title I (Part A, B, C, D); Title II (Part A, B, D); Title III; Title IV; Title V; Title VI; Title VII; Federal Direct Fund; IDEA; Federal Grants-In-Aid; Adult Education and Literacy; and other federal sources. The non-required local sources are activity fund money spent for Pre-K.
- 14 The annual accreditation report is collected in October and the other two audits by the Regional Accreditation Office are made at the end of the first nine weeks of school and the end of the school year.
- 15 Uses of child-level assessments is determined locally, but it is state policy for them not to be used for high-stakes testing. Common applications include to: identify needs that will guide teacher training or professional development, track child and program level outcomes over time, and provide a measure of kindergarten readiness.
- 16 It is a district decision which comprehensive assessment to use. For the required Reading Sufficiency Act, districts must choose one of thirteen approved assessments for reading: Aimsweb, The Children's Progress Academic Assessment, DIBELS Next, DRA2+, easyCBM, Group Reading Assessment and Diagnostic Evaluation (GRADE), iReady Diagnostics, Literacy First, Measures of Academic Progress, Measures of Primary Grades, mCLASS DIBELS Next, Star Early Learning Enterprise, Woodcock Reading Mastery tests, Third Edition III.

### **OREGON - Oregon Head Start Prekindergarten**

- 1 Total enrollment figure includes 90 blended slots supported by both state and federal funds. An additional 81 children served through home-based models are not included in the total enrollment
- 2 Figures for programs administered in education service districts, public universities or community colleges are included with "nonpublic schools" totals.
- 3 Programs must offer at least 3.5 hours per day for a minimum of 32 weeks per year, plus required home visits at 1.5 hours each. Minimum required contact time is determined by the classroom hours combined with home visit hours offered. School- and extended-day programs (more than 6 hours) are generally supported with other funding. Most programs operate 3.5 to 4 hours per day for a school year using state funding. Figures collected by the state do not fully align with NIEER definitions for part-, school-, and extended-day programs.
- 4 State law for pre-K allows serving children ages 3 to school entry (age 5 by Sept 1). School districts must follow state law or the local school board can develop a policy for early kindergarten entrance.

- 5 State pre-K children must meet the federal Head Start income guidelines. After priority is given to families whose income is at 100 percent FPL or below, then up to 35 percent of children can be enrolled whose family income is between 100 percent FPL and 130 percent FPL. If a grantee has both state pre-K and federal Head Start funds, 90 percent must meet the income requirements. If grantee has only state pre-K funding, 80 percent must meet the income requirement. Children in foster care or who are homeless are categorically eligible. A minimum of 10 percent of total enrollment must include children with disabilities. Locally determined risk factors determine priority for services. Risk factors are prioritized by local boards and policy councils.
- 6 Programs are required to offer meals and snack that provide one-third to one-half of the child's daily nutritional needs in part day programs. Part-day programs provide lunch and either breakfast or snack. Full day programs serve breakfast, lunch and snack.
- 7 All programs follow Head Start Performance Standards, which require a doctor's written health appraisal confirming up-to-date, age-appropriate prevention and health care, including medical, dental, and mental health. Programs that receive state funding are required to follow Oregon's Interventions Considered and Recommended for the Periodic Health Examination, which guides requirements for a full physical exam. Nutrition assessments are required for all families.
- 8 Oregon Pre-Kindergarten programs follow Federal Head Start Performance Standards, which include the Head Start Child Development and Early Learning Framework. Programs are required to develop procedures for identifying children who are limited English proficient, ensure that children make progress towards acquiring English through culturally and linguistically appropriate instructional services, and inform parents of such children about instructional services used. If 50 percent or more of children speak a language other than English, programs must ensure that non-English speaking children are provided language support as needed.
- 9 Oregon has adopted the national Common Core State Standards for K-12. Alignment with the Head Start Child Development and Early Learning Framework adopted in 2012 is in progress.
- 10 Under the Head Start Reauthorization Act of 2007, all lead teachers were required to have at least an AA by October 2011; by September 30, 2013, 50 percent must have at least a BA. By September 30, 2013, all assistant teachers must have at least a CDA or be enrolled in a program to receive a CDA, AA, or BA within two years. Some programs have participated in local partnerships (e.g. school districts) where early bachelor's level degrees and childhood licensure with or without special education are required as locally determined. Teacher licensure options for public schools include Birth-3rd grade and PreK-K (Birth-K).
- 11 Under the Head Start Reauthorization Act of 2007, by September 30, 2013, all assistant teachers must have at least a CDA or be enrolled in a program to receive a CDA, AA, or BA within two years.
- 12 Local grantees partnering with agencies may receive Title I and IDEA funding but are unable to directly access those funds.
- 13 Faith-based programs free of religious content are eligible to receive funding.
- 14 As of July 2012, the Oregon Department of Education requires all State Head Start Pre-K programs to use Teaching Strategies GOLD as their developmental assessment tool. The use of this tool will be phased in for grantees that are not currently using it. Many programs also participate in QRIS.

#### **PENNSYLVANIA - Pennsylvania Education Accountability Block Grant**

- 1 OCDEL supports local districts using EABG funds for preschool programming.
- 2 Enrollment figures reported are accurate as of January 2015, but are not final.
- 3 This is a school district-administered program resource for PK. Although all students are funded through school districts, some of these district-sponsored programs may be in partnership with Head Start or child care where the other agency is the lead.
- 4 Most programs operate either 2.5 or 5 hours per day, 5 days per week, for a minimum of 180 days per year (programs operate 450 hours for half-day or 900 hours for a full day).
- 5 Pennsylvania considers the minimum age eligibility for pre-K to be two years prior to kindergarten age. Districts determine the eligibility requirements. Children in EABG pre-K programs may not be age-eligible for kindergarten. Although the eligibility date is determined locally, Pennsylvania recommends that districts use September 1 as the entry date. Approximately 80 percent use this entry date. The recommended cut-off for kindergarten is 5 years old by September 1, but this is determined locally.
- 6 Districts determine their own prioritization for services and eligibility requirements.
- 7 Revised Early Learning Standards that include PA Core standards were released July 2014. The standards go into effect formally in July 2015, though some programs have already begun implementing.
- 8 As of January 2012, only PK-4 will be issued for certification, though N-3 certifications are still valid.
- 9 Beginning in the 2009-2010 school year, assistant teachers had to meet NCLB requirements and were required to have two years of post-secondary education/60 college credits, an AA or higher, or the ability to meet a rigorous standard of quality and to demonstrate through formal state or local assessments knowledge of the ability to assist in instruction.
- 10 Seventy-five percent of allocated funding is for students who have not achieved state test proficiency on the Pennsylvania System of School Assessment, and 25 percent of all allocated funding is for students who have achieved proficiency.
- 11 The use of EABG funds is monitored through Annual Financial Reports, audited by the Bureau of School Audits. The Office of Child Development and Early Learning supports local districts using EABG funds for preschool programming.
- 12 A pilot for Kindergarten Entry Inventory at kindergarten entry was rolled out for 2013-2014 in some classrooms, and is required for all focus and priority schools beginning in 2014.

#### **PENNSYLVANIA - Pennsylvania Head Start Supplemental Assistance Program**

- 1 For 2013-2014, funds were awarded through continuation grants.
- 2 Breakdown by age is not available. By program requirements, children cannot be under age 3 or eligible for kindergarten.
- 3 Programs must operate according to federal Head Start Performance Standards, which require a minimum of 3.5 hours per day, 4 days per week. Full day for HSSAP is considered more than 5.5 hours per day. Center-based programs can operate 4 or 5 days per week; home-based programs offer home visits once per week with socialization days. Most programs operate between 128 to 180 days a year with a few offering full-year services of approximately 240 days per year. Collaboration with other agencies and programs is required per program regulation, but implementation is locally determined.
- 4 Age eligibility follows federal Head Start eligibility requirements. Most children who are age-eligible for kindergarten will not be eligible for HSSAP. The recommended age cut-off is 5 by September 1, but this is determined locally. If a child with special needs remains in the pre-K program when they are age-eligible for K, they are not funded by HSSAP, but instead by other resources.
- 5 State pre-K children must meet the federal Head Start income guidelines. Effective as of December 2007, 35 percent of the enrollment may be children whose family incomes are between 100 and 130 percent FPL after priority is given to children at or below 100 percent FPL. In addition to income requirements, individual Head Start agencies determine eligibility requirements based on their community assessments and give priority based on multiple risk factors.
- 6 The maximum class size is 20 children, regardless of age. A smaller class size of 17 is recommended. A ratio of 2:17 is recommended.
- 7 Revised Early Learning Standards that include PA Core standards were released July 2014. The standards go into effect formally in July 2015, though some programs have already begun implementing.
- 8 Under the Head Start Reauthorization Act of 2007, all lead teachers were required to have at least an AA by October 2011; by September 30, 2013, 50 percent must have had at least a BA. By September 30, 2013, all assistant teachers must have had at least a CDA or be enrolled in a program to receive a CDA, AA, or BA within two years. If teachers are employed by a school district, ECE certification is required.
- 9 Head Start programs may voluntarily participate in QRIS. If they choose to do so, there is monitoring.

<sup>10</sup> Pennsylvania Kindergarten Entry Inventory was piloted in from 2010 to 2013. In 2014, the Inventory was implemented for Cohort 1 (required in focus and priority schools, voluntary for all others). In 2015 and beyond, implementation is occurring in Cohort 2 (required in focus and priority schools and Community Innovation Zones, voluntary for all others).

### **PENNSYLVANIA - Pennsylvania Kindergarten for Four-Year-Olds and School Based Pre-K**

- <sup>1</sup> PDE provides regulations and policy. Daily operations of the K4 program are conducted by school districts.
- <sup>2</sup> Enrollment figures reported are accurate as of January 2015, but are not final.
- <sup>3</sup> Districts may determine whether they will accept both 3- and 4-year-olds or if enrollment will be limited to only 4-year-olds.
- <sup>4</sup> K4 programs follow Kindergarten requirements so there are no class size limits, but most programs have 20 children and a 1:10 staff-child ratio. SBPK follows the school board regulations for pre-K that require a maximum class size of 20 and staff-child ratio of 1:10. SBPK programs determine locally whether to enroll 3-year-olds or limit enrollment only to 4-year-olds.
- <sup>5</sup> Provisions for English Language Learner supports are in place at the school district level.
- <sup>6</sup> Revised Early Learning Standards that include PA Core standards were released July 2014. The standards go into effect formally in July 2015, though some programs have already begun implementing.
- <sup>7</sup> As of the 2009-2010 school year, assistant teachers in SBPK must meet NCLB requirements and are required to have two years of post-secondary education/60 college credits, an AA or higher, or the ability to meet a rigorous standard of quality and to demonstrate through formal state or local assessments knowledge of the ability to assist in instruction; there is no minimum degree required for K4 programs.

### **PENNSYLVANIA - Pennsylvania Pre-K Counts**

- <sup>1</sup> For 2013-2014, grants were awarded through a competitive procurement process. The competitive grants run on a 5-year cycle.
- <sup>2</sup> Enrollment figures are accurate as of May 2014. There were four children in total who were 6-year-olds.
- <sup>3</sup> Programs must operate at least 180 days per year, though days can be stretched across the full calendar year rather than used in the traditional 9-month school calendar. This is a local decision. Partnerships to extend the program day are encouraged but no formal partnership agreement exists at the state level.
- <sup>4</sup> Local boards may decide exceptions for kindergarten. Children must be at least 3 years old and no more than 5 years old by the beginning of the program year. Children who are kindergarten age-eligible are not eligible for Pre-K Counts. The recommended kindergarten age cutoff is 5 by September 1, but this is locally determined. Children whose IEPs recommend an additional third year of pre-K may continue in the Pre-K Counts program, but they may not be funded through Pre-K Counts. Children who are not age-eligible for enrollment in Pre-K Counts may be enrolled if funding is provided by a non-state source. Districts may determine if a child may enter kindergarten prior to the eligibility date on an individual basis.
- <sup>5</sup> Families must demonstrate income eligibility. The recommended priority is at or below 250 percent FPL, though families can enroll at or below 300 percent FPL.
- <sup>6</sup> A class size of 17 students is recommended. The recommended staff-child ratio is 2:17; if the 1:10 ratio is used, other qualified staff must be present on site in case of emergency.
- <sup>7</sup> Immunizations and developmental screening are program requirements; however, method for referral is determined locally.
- <sup>8</sup> Support services are required via guidance, not law or regulation, and they are monitored. Parent conferences are recommended but not required.
- <sup>9</sup> Revised Early Learning Standards that include PA Core standards were released July 2014. The standards go into effect formally in July 2015, though some programs have already begun implementing.
- <sup>10</sup> By December 2011, lead teachers in all settings had to have a BA and ECE certification. The N-3 certification will no longer be issued, though teachers who currently have it will still be able to work in the program. Teachers who do not meet this requirement are considered not in compliance, which can lower the program's score on the Program Review Instrument and affect future funding.
- <sup>11</sup> Assistant teachers must meet NCLB requirements and are required to have two years of post-secondary education/60 college credits, an AA or higher, or the ability to meet a rigorous standard of quality and to demonstrate through formal state or local assessments knowledge of the ability to assist in instruction. A minimum of a CDA is required to demonstrate the knowledge of the ability to assist in instruction.
- <sup>12</sup> Child care agencies must participate in Pennsylvania's tiered quality improvement rating system at either of the top two levels (STARS 3 or 4).
- <sup>13</sup> The Pennsylvania Kindergarten Entry Inventory was piloted in 2013 and is required in focus and priority schools in 2014.

### **RHODE ISLAND - Rhode Island State Prekindergarten Program**

- <sup>1</sup> There is no formal partnership at the state level, but individual grantees are required to make extended-day services available either by providing such services directly or partnering with another agency which offers such services.
- <sup>2</sup> Determined locally. Districts have the option to adopt policies that allow for early entry to kindergarten only based on the determination that a child is developmentally ready for kindergarten.
- <sup>3</sup> All age-eligible children in districts offering the program may enroll. Children must reside in the district, town, or community in which the program is offered.
- <sup>4</sup> The early learning and development standards also address: Literacy, Mathematics, Science, Social Studies, and Creative Arts.
- <sup>5</sup> Two pre-kindergarten classrooms were funded in FY14 with RTT-ELC funds, as part of an exploratory study.
- <sup>6</sup> The Rhode Island Education Aid Foundation Formula approved in 2010 takes a phased-in approach to expanding access to high-quality Pre-K, starting with communities that have a high proportion of children eligible for free and reduced-price lunch. The phased-in approach, investing 10 million dollars over 10 years, will ensure that Pre-K expansion creates high-quality learning programs, improves access for the students who need it the most, and assures a smooth transition between early childhood and K-12.
- <sup>7</sup> BrightStars, Rhode Island's quality rating and improvement system, recognizes and supports quality in child care and early learning programs. Child care and afterschool programs voluntarily join to be rated by BrightStars and are assessed in the following areas: Health, Safety and Nutrition, Enrollment and Staffing, Staff Qualifications and Ongoing Professional Development, Administration, Early Learning and Development, and Family Engagement. Programs must demonstrate that they meet all the required standards at a particular star level (1 - 5) in order to receive the corresponding star rating. In the fall of 2013, BrightStars adopted new quality standards for program rating of child care centers/preschools and family child care homes. As of August 2014, BrightStars had rated 730 programs. More information is available at: <http://www.brightstars.org/>

### **SOUTH CAROLINA - South Carolina Child Development Education Pilot Program (CDEPP)**

- <sup>1</sup> SC Department of Education provides oversight for public schools and the SC First Steps provides oversight to private child care programs.
- <sup>2</sup> Those districts involved in the 2006 funding lawsuit are required to offer CDEPP. Funding was expanded to include 14 additional school districts
- <sup>3</sup> Enrollment includes estimate of 1,100 children served through First Steps in private/community settings. Enrollment figures are as of the 135th day of school, spring 2013.
- <sup>4</sup> There are exceptions for Kindergarten-age-eligible children with disabilities in limited instances to enroll in pre-K.
- <sup>5</sup> Income eligibility for Medicaid and/or free or reduced-price lunch are the primary criteria for eligibility. If classes are not full, developmental delay can be considered.

- 6 Programs are required to screen and assess all children; A home language survey is sent home at the beginning of the school year; Information must be presented to parents in their primary language; A systematic, written plan must be in place on how to work with English Language Learners
- 7 Lead teachers in nonpublic settings must have at least a two-year degree in early childhood education or a related field and must be enrolled in and demonstrating progress toward the completion of a teacher education program within four years. A large percentage of lead teachers in nonpublic settings have a BA or higher.
- 8 Assistant teachers are required to complete the early childhood development credential within 12 months of hire. Districts may request waivers to the assistant teacher specialization requirement if assistant teachers have been working in early childhood for a number of years.
- 9 State spending from the general fund is the appropriated amount rather than actual spending
- 10 Legislation has passed to evaluate the program for 2014-2015 school year.
- 11 In pre-K, Dial 3 or Dial 4 is used as a screening tool. CDEPP Sites are required to select an assessment from the following list: WSS, GOLD, High Scope's COR, Galileo PreK online assessment, Learning Accomplishment Profile. New legislation will require a Readiness Assessment be administered to all 4K and 5K students in 2014-2015

### **SOUTH CAROLINA - South Carolina Half-Day Child Development Program (4K)**

- 1 Those districts not participating in CDEPP are required to offer at least one half-day class for 4K students. Full-day 4K was expanded, so the number of districts participating in the half-day 4K decreased.
- 2 Children receive special education services through the 4K and CDEPP programs, but the state cannot determine exactly how many children receive special education services in each program.
- 3 Districts are required to have at least one part-day program, if they are not participating in the state funded CDEPP program. Some districts offer school-day programs but they are locally funded.
- 4 Health screenings and referrals are and always have been determined locally. Most districts offer health screenings even though this is not required in the State Board of Education regulations.
- 5 FY14 spending levels are not available at this time. The amounts reported are appropriated dollars.
- 6 The formula is based on the number of kindergarten students who are reported as eligible for free or reduced-price lunch.
- 7 Reductions in staff at the state level did not allow for program review.
- 8 Kindergarten programs are not required to assess children's learning and development. There is new legislation to require 5K entry assessment in 2014-15.

### **TENNESSEE - Tennessee Voluntary Pre-K**

- 1 Accurate figures for 2013-2014 are unavailable. Figures reported are based on 2012-2013 enrollment. Figures are reflective of the program since there has been no increase in program slots.
- 2 Children with IEPs are considered for enrollment in the VPK program after ensuring all income-eligible students are enrolled as a priority. All special education students are enrolled in VPK and participate 5 days a week, 5.5 hours a day. All 3-year-olds with IEPs are enrolled in PILOT VPK classes, which are allowed to serve both 3- and 4-year-old students. Five-year-olds can enroll if their IEPs indicate the pre-K setting is the most appropriate program to meet IEP goals.
- 3 Enrollment figures for 2013-2014 are unavailable; reported figures used for analysis based on 2012-2013 data. All classrooms are funded through the LEA and it is the responsibility of the LEA to ensure each classroom meets the requirements of the program regardless of location. While the LEA has administrative responsibility for all children, there are several children served in nonpublic school facilities. Naptime cannot be counted in the 5.5-hour minimum.
- 4 Tennessee passed legislation in 2012 that changes the birthdate requirement for pre-K and kindergarten from turning 4 or 5 on September 30 to August 31 for the 2013-14 school year. Pilot pre-K programs may also serve children who are 3 years old by August 31. Five-year-olds may participate if they have an IEP that identifies placement in a pre-K setting as the most appropriate program to meet the goals set out in the IEP. Request for enrollment is made to the Department of Education for approval before the child is enrolled in VPK program.
- 5 Tennessee has a three-tier eligibility system. Tier 1 includes children whose income would qualify them for free or reduced-price lunch as well as children who are homeless or in foster care. The second tier includes students with an IEP, a history of abuse or neglect, or who are English Language Learners. The third tier includes locally determined factors, which include (among other possibilities) parents with low education levels, parental substance abuse, risk that child will not be ready for kindergarten, teen parent, low birth weight or other health risk, or a parent on active military duty.
- 6 In mixed-age groups, a maximum of eight 3-year-olds can be in the class with twelve 4-year-olds. If there are nine or more 3-year-olds, the classroom capacity is 16 students.
- 7 The state regulates ELL services for K-12 students but because pre-K is not mandatory, LEAs are not required to provide ELL services. However, all programs include pre-K children in ELL screening and do provide some level of service as appropriate. Although no policy requires services for pre-K, there are opportunities for professional development afforded to pre-K teachers, information is presented to families in primary language, and translators are made available when needed.
- 8 The revised standards are aligned with the Kindergarten Common Core State Standards in both Math and English Language Arts. Other developmental and content areas align with state standards for Kindergarten. Creative Arts are also part of state early learning standards in addition to the subject areas listed.
- 9 The transitional license is for teachers with a BA but no license. Waivers are available for teachers with a license but not in pre-K. Teachers with a transitional license or waiver must complete requirements in two years. Interim B teachers have completed required coursework for license but have not passed all required Praxis tests. The Pre-K-4 and Pre-K-1 endorsements are no longer issued but are still accepted for pre-K teachers in public and nonpublic settings. Currently, 14 teachers are on transitional license or waiver; 34 teachers have a doctorate.
- 10 Fourteen teachers are on transitional license or waiver; 34 teachers have a doctorate.
- 11 All lead teachers working in schools must meet the state requirement of 30 hours of in-service credit per year. The 18 hours required in early childhood may be included in the 30 hours. For assistant teachers, 18 clock hours are required the first year of employment and 12 clock hours are required in the following years.
- 12 State law passed in 2005-2006 requires at least one educational assistant per classroom to hold a CDA, or AA, or actively work toward such credentials. If no person with such credentials is available, state law allows a person with a high school degree and relevant experience working with pre-K children or other early childhood programs to be employed. Assistants must demonstrate progress toward completion of a CDA to be rehired. Fifty-three percent of all assistant teachers have a CDA credential or higher level of education. There is no degree requirement for assistant teachers but they are required to receive a minimum of 12 hours of state approved professional development on ECERS, ELLCO, Personal Safety, Tennessee Early Learning Development Standards, Child care rules and regulations, and Social Emotional Learning Foundations. Training may occur prior to or during employment.
- 13 The LEA is required to provide a local match; however, the local match does not have to be in actual dollars but can be in-kind (facilities, utilities, staffing, etc.). The Basic Education Plan (BEP) formula is used to determine state share and local match based on the county's tax base. The average local match is approximately 21 percent of the cost of the classroom.
- 14 State statute mandates that an LEA may contract only with those agencies that have received the highest star rating (three stars) from the Quality Rating System (QRS) administered by the Department of Human Services (DHS), the licensing agency for all child care programs. LEA classrooms are not required to participate in the QRS; however, all community-based and Head Start child care facilities monitored by DHS must have received the highest star rating in order to partner with the LEA.

- 15 Program level outcomes are incorporated into a Plan of Action, which identifies areas of weakness found as a result of the ECERS-R and ELLCO. State statute mandates that an LEA may contract only with those agencies that have received the highest star rating (three stars) from the Quality Rating System (QRS) administered by the Department of Human Services (DHS), the licensing agency for all child care programs. LEA classrooms are not required to participate in the QRS; however, all community based and Head Start child care facilities monitored by DHS must have received the highest star rating in order to partner with the LEA. Program evaluators conduct a minimum of two visits per year to each classroom for compliance with health and safety rules. All education consultant positions were eliminated in May 2013. All self-assessment documentation is submitted to the Director of Early Childhood programs.
- 16 Peabody Research Institute at Vanderbilt University is involved in the fifth year of an ongoing study on the Effectiveness of the Voluntary Pre-K Program examining the impact of program characteristics on child outcomes, to identify essential classroom qualities and resources, and identify those with little or no impact on child outcomes that can be eliminated.
- 17 Student achievement scores count as 15 percent of a teacher's evaluation. Sixty percent of evaluation is based on classroom observation and the remaining 25 percent is based on student growth, which comes from either school-wide growth scores or district-wide growth scores from third grade.

## TEXAS - Texas Public School Prekindergarten

- 1 A district shall offer prekindergarten classes if the district identifies 15 or more eligible children who are at least four years of age by September 1 of the current school year. A school district may offer prekindergarten classes if the district identifies 15 or more eligible children who are at least three years of age.
- 2 While 469 5-year-olds were also enrolled in the program, these students would need to be funded by district sources, and so are not included in the enrollment count.
- 3 In addition to the children receiving special education services in the state-funded pre-K program, Texas also provides Early Education (EE), a grade level for students between the ages of zero and five who have not been placed in prekindergarten or kindergarten. This includes 9,908 3-year-olds and 7,936 4-year-olds receiving special education services who do not meet the two hours of instruction per day requirement for membership, and students in Head Start programs who do not meet the requirements for state funds.
- 4 The TEA specifically established the pre-K program to serve students who have not reached age 5. Five-year-olds do not receive state funding for pre-K and are paid for by the school district if enrolled.
- 5 For students to qualify as educationally disadvantaged, they must be eligible to participate in free or reduced-price lunch.
- 6 Districts are required to verify eligibility. Once a student is determined to be eligible, the student remains eligible for that year in the district in which he or she resides, or is otherwise entitled to Foundation School Program benefits.
- 7 There is no rule regarding prekindergarten class size or staff to child ratio, though school districts are encouraged to maintain classes no larger than 15 3-year-olds and 18 4-year-olds and not to exceed a staff-child ratio of 1 to 22. If a school district contracts with a private entity to operate the district's prekindergarten program, the program must comply with child care licensing standards.
- 8 Districts are not required to serve meals to pre-K students. However, most districts do serve either breakfast or lunch, and some offer both meals. All districts offering a full-day program provide lunch.
- 9 Translators are used for Language Proficiency Assessment Committees for parents who do not speak English and during parent/teacher meetings. Each school district with an enrollment of 20 or more students of limited English proficiency in any language classification in the same grade level must offer a bilingual education or special language program.
- 10 Credentials for nonpublic school teachers are overseen by the Texas Private School Accreditation Commission and vary based on school accreditation. There is no set state requirement for degrees and certifications in nonpublic schools.
- 11 Texas does not use the term assistant teachers though paraprofessionals serve as Educational Aides I, II, and III. Educational Aide I requires at least a high school diploma and experience working with students or parents. Educational Aide II requires at least a High School Diploma and one of the following requirements: two creditable years of experience; a minimum of 15 semester credit hours of college credit with emphasis on child development or related subject areas; demonstrated proficiency in a specialized skill area as determined by the school district; or experience working with students or parents. Educational Aide III requires at least a high school diploma and one of the following: three creditable years of experience; 30 semester credit hours of college credit with some emphasis on child growth and development or related subject areas; or experience working with students or parents.
- 12 The Texas School Ready! program and the funds from the Texas Workforce Commission were for grant programs and were not available statewide.
- 13 Prekindergarten students generate formula funding based on average daily attendance (ADA), in the same manner as K-12 students, with the provision that they are eligible for a maximum of one half-day ADA.
- 14 Districts are required to administer a Kindergarten reading instrument from a list adopted by the commissioner or by the district-level committee. Children are assessed in kindergarten at the beginning, middle, and/or end of the year, depending on which instrument is chosen.

## VERMONT - Vermont Early Education Initiative

- 1 This is a competitive grant program. A total of 42 grants were awarded in 2013-2014. Geographic distribution is not considered in awarding grants; the quality of the grant proposal is the main criterion.
- 2 A number of the 1,031 children who received early education through EEI grants were also served via publicly funded PreK. The actual number of these children is not available, but is estimated at 60 percent.
- 3 Many of the children in public schools are served in community-based programs.
- 4 The number of hours per week funded with EEI dollars ranges from 7 to 40 hours per week, depending on the grantee's delivery model. Several extended-day child care centers administer EEI programs although EEI funds only pay for a portion of a child's time. Most EEI programs are part day, 8 to 11 hours per week, for 2 to 3 days per week. Some children in the center-based programs may be in the program 40 to 50 hours per week. Head Start programs that have an EEI grant have wraparound services although EEI funds do not support these services. The EEI grants period operated from July 1, 2013 to June 30, 2014, though most programs only operate on the traditional September to June academic calendar.
- 5 EEI is for children ages 3 to 5, but grantees determine which age within those parameters they will serve. Kindergarten entry age is determined locally; state law requires the date be set on or between August 31 and January 1.
- 6 EEI is for at-risk children. At-risk is defined as low income (185 percent poverty), has developmental delays, is an English language learner, or victim of abuse or neglect. At least one criterion is required, but not all children must be low income.
- 7 There is no policy on meals. Some of the EEI programs serve snacks or meals, but that depends upon the service delivery model of the grantee.
- 8 Grantees that are school districts are required to participate in Child Find and provide screenings and referrals as needed. Additionally, children must be immunized to attend an in-school program. Grantees who are Head Start must abide by Head Start regulations regarding health screenings and referrals. The EEI funding stream does not have regulations of its own regarding screenings and referrals.
- 9 Work on revising and updating the Vermont Early Learning Standards began in January 2012. The new standards will be a birth-through-Grade 3 continuum that is aligned with the Common Core State Standards. The anticipated completion date is May 2015.
- 10 The personnel requirements for EEI grantees vary, depending on the type of grantee. Teachers in public school settings must have a bachelor's degree and a license in Early Childhood Education or Early Childhood Special Education. Teachers in nonpublic school center programs must at least meet licensing requirements; the person must have an AA, or a CDA, or a Child Care post-secondary certificate (9 specific classes at the Community College of Vermont). In 2013-2014 there were 61 teachers licensed in CE and 13 licensed in ECS across all grantees. In terms of degrees, 32 teachers had an MA, 79 a BA, and 10 an AA or CDA.

- 11 The personnel requirements for EEI grantees vary depending on the type of grantee. Teachers in public school settings must have a bachelor's degree and a license in Early Childhood Education or Early Childhood Special Education. Teachers in nonpublic school center programs must at least meet licensing requirements; the person must have an AA, or a CDA, or a Child Care post-secondary certificate (9 specific classes at the Community College of Vermont). In 2013-2014 there were 61 teachers licensed in ECE and 13 licensed in ECSE across all grantees. In terms of degrees, 32 teachers had an MA, 79 a BA, and 10 an AA or CDA.
- 12 Licensed lead teachers must complete 9 credit hours in 7 years. Under state child care licensing regulations, the requirement in nonpublic settings is 12 clock hours of professional development per year.
- 13 In public settings, an assistant must meet requirements to be highly qualified under ESEA. In nonpublic settings, there are two types of assistant teachers, teaching associates and teaching assistants. Teaching assistants must have a high school diploma and a 30-hour course in child development.
- 14 All EEI programs must conduct child progress assessments. Center-based programs must participate in the state quality rating system.
- 15 The statute that authorizes EEI does not require monitoring except for financial reports and a program's annual report, including child progress data. Agency of Education staff may conduct unannounced site visits.
- 16 Child assessments (TS GOLD) are used for accountability as well as for programs and teachers to inform instruction and curriculum, and provide feedback to families. Programs are required to use the tools, report the results to the state, and offer two family conferences per year.
- 17 The state collects statewide kindergarten readiness data using the Vermont Kindergarten Readiness Survey for all children during the first 6-8 weeks of kindergarten. Schools collect additional ongoing progress data on Kindergartners, but the use and frequency of these tools are locally determined. There is no requirement for a statewide assessment of progress in Kindergarten.

## VERMONT - Vermont Prekindergarten Education - Act 62

- 1 The Agency of Education and the Department for Children and Families within the Agency of Human Services are required to jointly administer Prekindergarten Education (Act 62).
- 2 Total pre-K enrollment includes the number of children ages 3 to 5 included in the October 1 census as Pre-K as well as an estimated 972 children who receive early childhood special education services in regular education settings (as per Child Count in December 2012). In Vermont's October 1 census, all children on IEP are counted as EEE (Vermont's term for Part B 619) and not included as pre-K although they are in a pre-K program.
- 3 Act 62 PreK allows school districts to partner with community early learning and development programs as well as Head Start; hence the location of services varies but the administrative authority resides with the school district.
- 4 Full-time pre-K is defined as 10 hours per week, but programs can provide anywhere from 6-40 hours per week. However, they do not get additional funds from the state for any hours beyond 10 per week. Most programs operate about 3 hours per day, 3 to 4 days per week. In all settings, programs must run for at least 35 weeks per year. If a child care program contracts with a school district to offer pre-K, the pre-K portion of the child's program is 10 hours, but the child may attend the child care program 40 hours or more per week. Additionally, a few school districts offer public school based PreK programs that run the full school day (about 35 hours/week).
- 5 Typically, the minimum age is two years prior to the kindergarten entry date. Kindergarten entry date is determined locally (and often set at September 1) but must be between August 31 and December 31. Act 62 allows districts to serve 3- and 4-year-olds or just 4-year-olds. While most children leave pre-K to enter kindergarten at age 5, Act 62 does allow families and districts to serve children who are age-eligible for kindergarten in a pre-K program if that is found to better suit the child's needs.
- 6 Vermont's Act 62 PreK program is universal. School districts have the option to offer pre-K to only 4-year-olds. Approximately a half dozen supervisory unions (LEAs) limit pre-K to 4-year-olds and do not serve 3-year-olds.
- 7 Since pre-K is part-time and only defined as 6-10 hours/week, meals are not mentioned in the Act 62 law. There are snacks in part-day programs and meals in full-day programs.
- 8 State regulations require immunizations. If children are suspected of having developmental delays or psychosocial/behavioral challenges, then they are required to refer (per Child Find). Act 62 does not specify this requirement, but it is in other state laws.
- 9 Work on revising and updating the Vermont Early Learning Standards began in January 2012. The new standards will be a birth-through-Grade 3 continuum that is aligned with the Common Core State Standards. The anticipated completion date is May 2015.
- 10 In public school settings, teachers must have a bachelor's degree and a license in Early Childhood Education or Early Childhood Special Education. Nonpublic school centers must have at least one person who is licensed in ECE or ECSE per center, rather than per classroom. In nonpublic center-based settings, the absolute minimum requirement for a lead teacher is meeting child care licensing requirements; the person must have an AA, or a CDA, or a Child Care post-secondary certificate (9 specific classes at the Community College of Vermont). Registered child care homes require 3 hours of supervision by a licensed ECE or ECSE teacher on weekly basis. The majority of lead teachers in all center-based settings have a BA and are certified.
- 11 Newly licensed teachers must complete 3 credits in the first 3 years of teaching (Level 1). Teachers with more than 3 years of experience must complete 9 credits in 7 years (Level 2).
- 12 Assistant teachers must have an AA or equivalent and must meet highly qualified standards in public settings. In nonpublic settings, there are two types of assistant teachers, teaching associates and teaching assistants. Teaching assistants need to have a high school diploma and a 30-hour course in child development. Other training is not specified in Act 62 and depends on the type of pre-K provider.
- 13 Districts reported their Pre-K expenditures as \$17,096,420. Since 76.6 percent of children on IEPs in the state are served in inclusive Pre-K classes, 76.6 percent of state funds used for Essential Early Education or EEE (Vermont's term for Part B 619), or \$12,871,129, was added to this figure. The EEE state funds were from the EEE Block Grants (\$6,039,944) and Education Fund dollars spent on EEE (\$10,763,096). Approximately 25 percent of all districts also use some Title I dollars to support Pre-K; however, districts are not asked to report expenditures by source, so the amount is unknown. The state's Education Fund provides funding for pre-K-12 education spending. Budgets are determined and approved at the local level and then funded through the Education Fund.
- 14 Districts are encouraged to contract with community early care and education programs. In most cases, the districts pay a negotiated per-child tuition amount. In some cases, the districts provide the licensed teacher, space, and other supports, in lieu of or in addition to child tuition payments.
- 15 In order to offer pre-K, a center must have NAEYC accreditation or 4-5 STARS in Vermont's quality rating system (or 3 STARS with an approved plan). As of the 2012-2013 school year, ECERS is now required for all programs applying for these upper STARS levels.
- 16 Act 62 allows the Agency of Education and Department of Children & Families staff to conduct unannounced visits specifically for Pre-K; however few are conducted specifically for these purposes. Since all Pre-K programs must be licensed and meet Child Care Regulations, licensors monitor compliance with child care licensing regulations.
- 17 Programs are required to conduct parent conferences twice a year to provide families with information on their child's progress (data collected through Teaching Strategies GOLD). Using these data to inform practices is encouraged through professional development.
- 18 Child assessment data are used to determine the efficacy of pre-K education; however, an evaluation has not yet been done.
- 19 The state collects statewide kindergarten readiness data using the Vermont Kindergarten Readiness Survey for all children during the first 6-8 weeks of kindergarten. Schools collect additional ongoing progress data on kindergartners, but the use and frequency of these tools are locally determined. There is no requirement for a statewide assessment of progress in kindergarten.

## VIRGINIA - Virginia Preschool Initiative

- 1 The number of school divisions changed from 136 to 135 because Bedford City and Bedford County were merged into one school system. The program is optional for eligible entities.
- 2 The enrollment total may include children who are also receiving special education services, but the state does not collect this information.

- 3 School divisions may assess a child born between October 1 and December 13 to determine his or her readiness for the kindergarten program. Kindergarten age-eligible children may enroll in pre-K at local program's discretion only, not solely at the request of parents.
- 4 While allocations to local school divisions are based on free lunch eligibility, enrollment criteria are based on locally determined risk factors. At least one risk factor is required. Additional risk factors may be determined locally.
- 5 The Appropriation Act and set of assurances does not mandate meals, but the state offers the opportunity for all programs to provide meals. The majority of programs are full day and thus offer at least one meal.
- 6 For program sites where public funds are paying for nonpublic personnel, localities report the highest degree and/or credential for the teacher who is the instructional lead. The instructional lead, who must hold a BA and have appropriate specialized training, supervises the classroom teachers and is responsible for managing and overseeing the program's curriculum and instructional practices. This individual must be onsite for a substantial portion of instructional time.
- 7 The state report does not aggregate number of teachers by level of education attainment; only percentages are available.
- 8 Figure reported may not fully represent actual total VPI spending as these figures account for the state contribution plus the local required match. Localities can spend more local funds on VPI than their match requires but figures are not available. The state funding formula for the Virginia Preschool Initiative provides a per-pupil rate of \$6,000, of which the state pays a portion and requires a local match based on the composite index of local ability to pay. The local match is capped at one-half the per-pupil amount.
- 9 Site visits by state staff or consultants are no longer conducted, due to budgetary constraints. Monitoring is limited to desk review of selected program documentation and no longer includes review of program facilities, onsite safety procedures, and program records. Program-level documentation reviews include state-established criteria for high-quality preschool curriculum, health and social services, transportation, and budgets.
- 10 The report done by the Joint Legislative Audit and Review Committee in 2007 was mandated by the General Assembly. The report done by the Curry School of Education at the University of Virginia in 2011 was not mandated.
- 11 Through the support of the state-funded Early Intervention Reading Initiative, localities may choose to use the PALS. All but one school division uses PALS.

### **WASHINGTON - Washington Early Childhood Education and Assistance Program (ECEAP)**

- 1 Of the three counties not served by this program, two are served by Head Start and the other is sparsely populated.
- 2 Slots were awarded through open competitive RFPs for the 2008-2009 and 2014-2015 school years. Slots were awarded based on county poverty levels for the 2011-2012 and 2013-2014 school years.
- 3 Total number is based on funded slots.
- 4 A minimum of 320 hours per year is required, and each class session must be at least 2.5 hours. The school year must be at least 30 calendar weeks. A typical program operates 3 hours a day, 3 or 4 days a week for the school year. Many children in wraparound child care at the same site are not counted in the school day category because ECEAP program standards are not in operation during those hours.
- 5 There are no exceptions for pre-K enrollment. For kindergarten, see exceptions at <https://www.k12.wa.us/EarlyLearning/Parents/EnrollingKindergarten.aspx>
- 6 Income and other risk factors are weighted via a priority point system. Children with the highest points are enrolled into available slots. 4-year-olds have higher priority than 3-year-olds. 4-year-old children who are homeless, in foster care, or from families with very low FPL have the highest priority.
- 7 Contractors offering sessions lasting fewer than 3 hours must provide a breakfast or lunch. An additional snack or meal must be offered when round-trip transportation extends the time children are away from home by an hour or more. Contractors providing sessions lasting 3 or more hours must provide breakfast or lunch, and provide a snack. Contractors must participate in the USDA CACFP or National School Breakfast and Lunch program, and many exceed these standards.
- 8 Performance standards require that contractors ensure a culturally relevant curriculum that reflects the cultures of enrolled children; supports ongoing development of each child's home language, while helping each child learn English; and includes and demonstrates respect for diverse family structures and cultures.
- 9 Parent-teacher conferences are required. Separately family support visits are required, but not required to be in the home.
- 10 All persons serving in the role of ECEAP lead teacher must meet one of the following qualifications: an AA or higher degree with the equivalent of 30 college quarter credits in early childhood education. These 30 credits may be included in the degree or in addition to the degree. A valid Washington State Teaching Certificate with an endorsement in Early Childhood Education (Pre-K–Grade 3) or Early Childhood Special Education. In parts of the state with a shortage of qualified teachers, some teachers currently have an HSD or CDA, but they are on an approved professional development plan to attain the full qualification.
- 11 For both public and nonpublic settings, assistant teachers must have a CDA or 12 quarter credits of ECE, or be grandfathered by holding this role for the same agency prior to July 1, 1999.
- 12 Non-required local spending amounts are unknown and include both financial resources and in-kind aid.
- 13 There must be no religious programming during ECEAP hours.
- 14 The state's QRIS system, Early Achievers, requires the use of ECERS-R and CLASS for structured observations. This system is in the pilot phase, starting with 86 of the 271 sites, and will be fully implemented by July 1, 2015. Starting in the 2012-2013 year, Teaching Strategies GOLD was used for documenting all children's learning. Additionally, there is an intensive onsite review of all ECEAP Performance Standards every 4 years.
- 15 The Washington State Institute for Public Policy (WSIPP) was directed by the state legislature to conduct a retrospective evaluation of ECEAP, using previously collected data to examine outcomes of children who have participated in the program compared with children who did not participate. WSIPP developed a statistical model to determine whether attending ECEAP had any impact on student academic outcomes. They found that ECEAP has a positive impact on third, fourth, and fifth grade test scores.
- 16 As of fall 2012, WaKIDS was mandatory for state-funded full-day kindergarten and voluntary in other schools. WaKIDS includes the Teaching Strategies GOLD child assessment at kindergarten entry. In the 2013-2014 year, 44 percent of the state's public school kindergarteners were assessed.

### **WEST VIRGINIA - West Virginia Universal Pre-K**

- 1 West Virginia Department of Education (WVDE) is responsible for the West Virginia Board of Education (WVBE) Policy 2525 overseeing universal pre-K; however the WVDE Office of Early Learning works collaboratively with the West Virginia Department of Health and Human Resources (WVDHHR) and the West Virginia Head Start State Collaboration Office to implement WVBE Policy 2525.
- 2 The West Virginia Education Information System (WVEIS) made adjustments to 2nd month head count calculations for SY14, resulting in a cleaner data set. The adjustments did not affect total enrollment, but made it possible to more clearly calculate 4-year-olds and 3-year-olds in the WV Pre-K System, in particular those in community partnerships. Additionally, the WVEIS system allows us to determine and exclude 3-year-old Head Start enrollees present in the pre-k, but only federally funded.
- 3 In West Virginia's collaborative pre-K model, all students are considered enrolled in public settings.
- 4 Programs must operate for at least 14 hours per week, and at least 128 instructional days. Beginning 2016-2017, all programs must operate full day, five days per week. Full day is defined as 25 or more hours per week (300 minutes per day). Program length is determined by the county early childhood collaborative team and approved by the WVDE and WVDHHR annually. In the 2013-2014 school year, 85 percent operated 4 days per week and 15 percent operated 5 days per week; 84 percent of classrooms operated a school day program and 16 percent operated a part-day program. WV Universal Pre-K allows collaboration with Head Start and child care centers in order for pre-K and options for extended day for families to be offered.
- 5 Three-year-olds with special needs may attend state pre-K. Some special exceptions are made for Kindergarten age-eligible children with documented need.

- 6 The maximum class size is 20 children as long as a minimum of 35 square feet per child is available. The maximum staff-child ratio is 1:10; however, 2 adults must be present with children regardless of group size.
- 7 Breakfast and/or lunch are required regardless of the number of hours a program operates per day, but which one is served depends on the time of day for the program. Part-day programs must offer one, and school-day programs typically offer both. Snacks are provided, depending on the meal pattern.
- 8 Full physical exam must examine neurological, head, eyes, nose, lungs, abdomen, back, strabismus, ears, heart, skin, reflexes, neck, throat, and pulse.
- 9 Beginning August 2013, all newly hired teachers in nonpublic settings must have a minimum of a BA in early childhood or a related field.
- 10 July 1, 2014, all assistant teachers must have a CDA or equivalent determined by the WVBE.
- 11 Children enrolled in West Virginia Pre-K generate state aid funding the same as K-12, depending on instructional hours.
- 12 County collaborative early childhood teams submit comprehensive information on fiscal data, ECERS-R data, professional development, standards, curriculum implementation, and changes to the approved county program structure annually. Documentation of children's learning and/or child outcomes was revised during the 2010-2011 school year and, as of the 2011-2012 school year, all programs now use the Early Learning Scale as well as health data for children's learning and/or child outcomes.
- 13 Beginning in 2011, policy revisions established a new comprehensive child assessment system using the Early Learning Scale, health data, and additional formative assessment of the state's early learning standards.
- 14 Beginning 2014-2015, all Kindergarten programs will begin Kindergarten reporting system, similar to pre-K, to assess children's learning and development during the Kindergarten year.

### **WISCONSIN - Wisconsin Four-Year-Old Kindergarten Program**

- 1 There are 413 elementary school districts, not including high school-only districts. Of these districts, approximately 105 work with child care or Head Start partners to implement the program. Districts are not required to have the program, but if they do provide 4K, it must be open to all age-eligible children.
- 2 Enrollment figures are based on third Friday count.
- 3 The enrollment total of children receiving special education services is a duplicated count. Age breakdown does not equal total enrollment because it includes children who are not between the ages of 3 and 5.
- 4 The number of hours varies as districts adopt different class schedules based on collaboration with community programs, transportation, and other considerations. Districts must provide a minimum of 437 hours of direct instruction per year, or 349.5 hours of instruction plus 87.5 hours of parent outreach. Most programs are part-day, 4-5 days per week, but districts may offer school-day programs 2-3 days per week. The 4K community approach models allow district contracts with child care, Head Start, and private schools.
- 5 The state defines ages for starting the program. An IEP team may determine a child's placement as 4K if they have considered the full range of options. Districts may or may not have policies on retention. Districts may adopt early entrance policies for pre-K.
- 6 Districts offering the 4K program must enroll all age-eligible children whose families wish them to attend.
- 7 Districts may consider the following staff-child ratios and class sizes: a 1:10 staff-child ratio with a maximum class size of 20; a 1:13 staff-child ratio with a maximum group size of 24; and early childhood special education inclusion models; or two teachers working with groups of 16 to 20 children as advised by NAEYC. Community approach models must follow child care or Head Start requirements.
- 8 Programs in child care or Head Start must follow those requirements. If a school-based program operates longer than 2.5 hours per day, it must provide a meal or snack through the school nutrition program.
- 9 State law supports vision, hearing, and health screenings prior to enrollment. When 4K uses the community approach with Head Start, screenings are required. Students entering 4K must have a physical exam (unless waived for religious reasons). There is a standard form but the physician has some discretion in what is done. Referrals and follow-up policies are locally determined.
- 10 At this time, the state allows schools to plan their 4K programs for ELLs/DLLs in a manner consistent with their other grade levels.
- 11 Wisconsin has a 'train the trainer' model for professional development and also a parent training module. A module exists for districts to align Wisconsin Model Early Learning Standards with the literacy standards in common core <http://www.livebinders.com/play/play?id=892140>
- 12 A different method of calculation was used this year compared to last year. This year the previous high degree was calculated from the person's license. This year the high degree was calculated from the staff data.
- 13 Teachers also have the option of doing a performance-based system that includes writing professional development plans, working with a mentor, and having a team review and approval.
- 14 Assistant teachers can meet one of three requirements: At least two years of higher education, an AA or higher, or meet a rigorous standard of quality through a state or local academic assessment regardless of degree. The requirement for assistant teachers in nonpublic settings reflects child care licensing regulations. School districts that are federal Head Start grantees may require assistant teachers to have an AA and assistant teacher license.
- 15 Spending figures are estimates, as 4K is part of the overall state school funding formula and it is difficult to break out costs of only one grade level. Funding for 4K is 0.5 of the funding for other grade levels. Districts may receive 0.6 if they provide 87.5 hours of parent outreach. When children with disabilities are enrolled in 4K, IDEA funds support their services per the IEP. Local districts may use Title I funds to supplement 4K. When districts partner with child care or Head Start, they may use TANF, CCDF, and USDA to support the program or extend services, based on the agreements and program models.
- 16 Spending figures are estimates, as 4K is part of the overall state school funding formula and it is difficult to break out costs of only one grade level. Funding for 4K is 0.5 of the funding for other grade levels. Districts may receive 0.6 if they provide 87.5 hours of parent outreach. When children with disabilities are enrolled in 4K, IDEA funds support their services per the IEP. Local districts may use Title I funds to supplement 4K. When districts partner with child care or Head Start, they may use TANF, CCDF, and USDA to support the program or extend services based on the agreements and program models. Local property taxes are part of the funding formula.
- 17 As part of the school funding, districts receive the funding but they can contract with Head Start and private agencies.
- 18 The state has started literacy screening with PALS-PreK in 2013-2014. The state does not require other assessment at 4K, so districts determine their own assessment process. Teaching Strategies GOLD and Ages and Stages are often used. Common applications of the assessment information are to identify needs that will guide teacher training or professional development, make adjustments to curricula, and track child and program level outcomes over time.
- 19 Literacy screening began statewide in 5-year-old kindergarten in 2012-2013.

### **WISCONSIN - Wisconsin Head Start State Supplement**

- 1 Funds are available to federal Head Start grantees choosing to implement the supplement.
- 2 The Department of Public Information does not collect information on the ages of the children enrolled in the program. Reported enrollment figure reflects funded slots.
- 3 The Head Start State Supplement is administered by DPI, which is the public agency for education. DPI funds a variety of Head Start grantees that could be schools, community action, or a range of other grantees. DPI does not have any administrative authority of the agencies receiving the grant (except for the grant itself). Some Head Start programs also have collaborative agreements with schools, and children may be considered in both programs.
- 4 Local programs determine operating schedule by the approved federal grant application model. Part-day is the most common schedule for hours per day, and summer-school and full-year programs exist. Extended-days are provided in collaboration with child care and school districts.

- <sup>5</sup> Districts and local Head Start programs may adopt early entrance policies or set later dates. While the state does not regulate the enrollment of kindergarten age-eligible children into Head Start, the state advises against it.
- <sup>6</sup> Children must meet the federal Head Start income guidelines. Effective as of 2007, 35 percent of enrollment may be children whose family incomes are between 100 and 130 percent FPL after priority is given to children at or below 100 percent FPL. Income is the primary determinant of eligibility. However, children in foster care, as well as those who are experiencing homelessness, are also eligible. With a federal waiver, children eligible for free lunch are also eligible for the program. Regulations also allow 10 percent of the children to be over-income and 10 percent with disabilities to be enrolled. Each Head Start grantee can prioritize risk in their selection process. Children with more risk factors have greater priority for enrollment.
- <sup>7</sup> For mixed-age groups, the maximum is 16 for class size and 1:8 for staff-child ratio.
- <sup>8</sup> The federal Head Start Performance Standards require that part-day programs provide children with at least one-third of their daily nutritional needs and school-day programs provide one-half to two-thirds of daily nutritional needs, depending on the length of the program day.
- <sup>9</sup> Other, as determined by federal Head Start requirements.
- <sup>10</sup> Based on federal Head Start standards. The screening tool must be sensitive to the child's cultural background. In Wisconsin, DLL approaches are more prevalent.
- <sup>11</sup> Wisconsin Model Early Learning Standards and Common Core are aligned for literacy and math
- <sup>12</sup> School districts that are federal Head Start grantees may require lead teachers to have a BA and appropriate licensure. Under the Head Start Reauthorization Act of 2007, all lead teachers were required to have at least an AA by October 2011; by September 30, 2013; 50 percent must have at least a BA. By September 30, 2013, all assistant teachers must have at least a CDA or be enrolled in a program to receive a CDA, AA, or BA within two years.
- <sup>13</sup> Per federal requirements, grantees must establish and implement a structured approach to staff training and development and provide academic credit whenever possible.
- <sup>14</sup> Programs receive federal funding directly from the US Administration on Children, Youth, and Families.
