

American Samoa

NO PROGRAM

American Samoa does not provide publicly funded preschool as defined in this report but does support early childhood education in several other ways. The Early Childhood Education/Head Start (ECE/HS) division is housed within the American Samoa Department of Education (ASDOE). The ASDOE and both elementary and secondary schools operate early childhood education centers.

American Samoa's early learning guidelines, for children ages three to five, address multiple domains including social and emotional development, mathematics, science, approaches to learning, logic and reasoning, social studies, physical development and health, language development, literacy, English language development, and creative arts expression. The early learning guidelines are aligned with the Head Start Child Development and Learning Framework.

As of January 2017, American Samoa was in the late stages of developing a quality rating and improvement system (QRIS) with components including parent engagement, administration, professional development, and health/safety. However, given limited resources, the Child Care Division will begin with a Territory system for quality monitoring and develop a rating platform that better aligns with the unique island early learning and care environments in American Samoa.
