

Ohio

PERCENT OF STATE POPULATION ENROLLED

STATE SPENDING PER CHILD ENROLLED (2018 DOLLARS)

OVERVIEW

Ohio preschool enrolled 17,913 children in 2017-2018, an increase of 1,971 children from the prior year. State funding totaled \$71,672,000, up \$5,713,617 (9%), adjusted for inflation, since last year. State spending per child equaled \$4,001 in 2017-2018, down \$136 from 2016-2017, adjusted for inflation. Ohio met 5 of 10 quality standards benchmarks.

WHAT'S NEW

Ohio was awarded a Preschool Development Grant Birth through Five award in 2018 for nearly \$10.49 million to increase access to quality early childhood care and education; raise awareness about the Step Up to Quality program, the state's five-star tiered quality rating and improvement system (QRIS) for high-quality child care programs; and increase participation of children in quality settings.

BACKGROUND

The Ohio Public Preschool Program (PSP), established in 1990 following a four-year pilot program, strives to ensure children have access to quality programs through public preschool and publicly funded child care. All types of programs have access to both public preschool and child care funds. This report focuses on the Ohio Department of Education's publicly funded Early Childhood Education (ECE) program, excluding publicly funded child care and Head Start programs. In 2016-2017, grantees focused on serving as many 4-year-old children as possible, with a new policy that allowed 3-year-old children eligibility only if spots could not be filled by 4-year-old children by October 1.

Ohio is operating its publicly funded programs under common program and child standards, so a significant number of preschool-aged children receive services through a combination of these preschool programs, which are required to be highly rated. All Ohio ECE programs are required to receive 3 or more stars on the state's QRIS.

Program sites are monitored annually for quality via desk audits, internal monitoring materials, proposal of plans and documentation, along with annual licensing visits, classroom observations, and child assessments. Ohio began using an expanded tiered QRIS in 2013-14 for all state programs, including public preschool and child care programs. Programs are required to submit annual documentation of desk audits and program plans, and receive on-site visits, including classroom observations every two to three years based on the rating level of the program.
