Maryland

MARYLAND OVERVIEW

Maryland preschool enrolled 33,109 children in 2019-2020, an increase of 1,047 children from the prior year. State funding totaled $158,104,001, up $21,990,968 (16%), adjusted for inflation, since last year. State spending per child equaled $4,775 in 2019-2020, up $530 from 2018-2019, adjusted for inflation. Maryland met 7 of 10 quality standards benchmarks.

MARYLAND WHAT'S NEW

In the 2020 legislative session, the Blueprint for Maryland's Future bill was passed, and included significant investments in early childhood. Although the bill was vetoed by Governor Hogan, he did provide $380.8 million funding in the FY2021 budget for Maryland's Future Grant Program, which included $45.6 million for the Early Childhood Expansion (ECE) Grants and an estimated $64 million for the Prekindergarten Supplemental Grants. The ECE Grants would allow for $20 million in additional funding for the Prekindergarten Expansion Grants (on top of the $26.6 million in existing Prekindergarten Expansion Grant funding). However, the pandemic and economic crisis resulted in uncertainty in terms of future funding, so many local school systems were reluctant to expand their prekindergarten programs.

Also, in December 2019, Maryland was one of 23 states awarded a three-year PDG B-5 renewal grant for $8,942,996 designed to implement the strategic plan developed with the 2018 PDG B-5 planning grant.

All public schools and community-based child care programs were physically closed in Spring 2020 due to COVID-19, however, some community-based child care programs reopened to provide child care for children of essential workers. All programs were required to provide remote instruction if physically closed.

MARYLAND BACKGROUND

Maryland created the Extended Elementary Education Program (EEEP) in 1980 as a pilot preschool program in Baltimore City and Prince George's County. The Maryland Prekindergarten Program was started in 2002, giving local boards of education until 2007 to provide pre-K in public schools to all 4-year-olds from families with incomes at or below 185% FPL. Maryland enacted the Prekindergarten Expansion Act in 2014, adding $4.3 million per year to increase access to full-day public pre-K for 4-year-olds from families with household incomes up to 300% FPL.

The Division of Early Childhood (DEC) in the MSDE is responsible for early care and education. Funding for the Maryland Prekindergarten Program is provided through a school funding formula and is based on the K–12 per pupil amount, to support eligible children attending half-day programs. DEC staff monitor pre-K programs funded through the Prekindergarten Expansion Grants annually using a self-developed checklist. Prekindergarten Expansion Grantees are required to participate in Maryland EXCELS, the state's QRIS, and are able to access targeted technical assistance.

Maryland also has 53 “Judy Centers” located in Title 1 schools that work collaboratively with elementary schools and community-based providers to offer comprehensive, year-round early learning services for children birth to age 6.

Through recommendations from the Kirwan Commission, prekindergarten supplemental grants were provided to local boards of education, in which all additional prekindergarten students are provided full-day prekindergarten for fiscal years 2018 through 2020. The supplemental prekindergarten grant for eligible local boards equals the State share of the per pupil foundation amount multiplied by the number of full-time equivalent eligible children enrolled in a public full-day pre-K program on September 30 of the previous school year. The grant program phases in between 2018 and 2020. In 2020, the program was extended to all local boards of education for any 4-year-old served in full-day prekindergarten.
