**Tennessee**

**OVERVIEW**

**WHAT’S NEW**

Due to the COVID-19 pandemic, the Governor recommended all schools physically close in late March 2020, but programs were permitted to close on their own timeframe while following CDC and local health guidance. While physically closed, programs were required to provide remote learning instruction for preschoolers. The Tennessee State Department of Education provided guidance to programs on cleaning/disinfecting classrooms, identifying sick children, social distancing, supporting families in encouraging learning at home and supporting children’s learning.

**BACKGROUND**

Tennessee Voluntary Pre-K (VPK) was launched in 2005, building on the 1998 Early Childhood Education Pilot Project. Now, VPK classrooms can be found in 138 of the state’s 142 school districts. Children living in low-income households are prioritized for enrollment in VPK, as are children who are homeless, or in foster care.

The Tennessee State Department of Education, Division of Early Learning and Literacy, has administrative authority over VPK. Only local education agencies may apply for VPK grants, but districts may contract with private child care agencies, Head Start agencies, institutions of higher education, public housing authorities, and any community-based or private agency rated at least three stars on the state’s QRIS. Programs contracted to provide VPK services must operate within the jurisdiction of the school district.

Starting in 2018-2019, in-service professional development for directors, teachers, and assistant teachers in Tennessee Voluntary Pre-K increased from 24 to 30 clock hours per year, six of which must address developmentally appropriate literacy practices. Similar requirements for directors, teachers, and assistants are designed specifically to promote cooperative learning. Also, Tennessee’s Early Learning and Development Standards were revised, approved, and went into effect in 2018.

The state also continues to implement the Pre-k Quality Act of 2016 which served as a platform for revising the Tennessee Early Learning Development Standards, creating a shared definition of “quality” to guide quality improvements, establishing a vision for early learning at statewide trainings, supporting curriculum implementation, creating guidance for district leaders, reducing the number of approved curricula from 37 to 3, shifting to a competitive grant application based on program quality, piloting CLASS observations, training CLASS observers, and implementing pre-K Student Growth Portfolios statewide.

VPK relies on numerous funding sources, including general education revenue. Federal Head Start, IDEA, Title I, and other funds are used to provide the required 25% local match.
TENNESSEE VOLUNTARY PRE-K

ACCESS
Total state pre-K enrollment ................................................... 18,465
School districts that offer state program ......................................96%
Income requirement ...........................................................185% FPL
Minimum hours of operation ................. 5.5 hours/day; 5 days/week
Operating schedule .................................... School or academic year
Special education enrollment, ages 3 and 4 ......................... 8,100
Federally funded Head Start enrollment, ages 3 and 4 .......... 14,328
State-funded Head Start enrollment, ages 3 and 4 .............. 0
