New Mexico Increases Preschool Enrollment, Spending; Pandemic Could Threaten Progress

Federal/State Partnership Needed to Better Serve Young Children and their Families

NEW BRUNSWICK, NJ—The COVID-19 pandemic set back state preschool enrollment and funding across the country, according to the 2020 edition of *The State of Preschool Yearbook* by the National Institute for Early Education Research (NIEER) at the Rutgers Graduate School of Education.

Pre-pandemic, New Mexico saw an increase in enrollment and inflation-adjusted spending. The state met 9 of 10 minimum standards for high-quality preschool.

Now is the time for a renewed commitment to high-quality pre-K for all, beginning with those in the lowest income families.

Nationally, the report found that:

- Growth in state-funded preschool was slowing before the pandemic.
- The pandemic imposed serious setbacks and reversed recent progress.
- Uneven progress among states is worsening inequality in children's access to high-quality preschool.
- Most states spend too little per child to support high-quality, full-day pre-K and few reach all their 3- and 4-year-olds.

“It’s encouraging to see New Mexico continuing to invest more funding per child in state preschool to support the implementation of their standards for quality,” said Steven Barnett, Ph.D., NIEER’s founder and senior co-director. “The state has also continued to expand access while also serving more children in full-day pre-K.”

Nationwide, enrollment in state-funded preschool increased slightly in 2019-2020, but took a hit in 2020-2021 as many programs closed or only offered virtual learning and parents were hesitant to send children to in-person school during the pandemic.

“New Mexico must act now to mitigate the pandemic’s impacts on young children and pre-K programs and remain committed to long-term progress,” said Barnett. “The federal government should provide support for, and states commit to, high-quality pre-K. While federal rescue and recovery dollars can help, a new federal initiative NIEER has proposed could bring \$61.5 million in federal support to New Mexico for preschool during the next four years.”

Across the country the survey reveals bipartisan support for preschool with both "red" and "blue" states among the nation's leaders in high quality pre-K. That offers hope that the nation can move ahead to expand access to high-quality pre-K more rapidly in the future.

The 2020 State of Preschool Yearbook was supported with funding from the Heising-Simons Foundation and the Bill and Melinda Gates Foundation. Cost modeling and funding analyses were supported with funding from the PNC Foundation. For more information and detailed state-by-state profiles on quality, access, and funding, please visit www.nieer.org.

The National Institute for Early Education Research at the Rutgers Graduate School of Education, New Brunswick, NJ, supports early childhood education policy and practice through independent, objective research and the translation of research to policy and practice.

NEW MEXICO: 2020 FAST FACTS

Met 9 of 10 quality standards benchmarks.

Enrolled 12,067 children, an increase of 816 from 2018-19.

Total state funding was \$88,494,800, (including TANF), an increase of \$19,317,209 from 2018-19 (inflation adjusted).

State spending-per-child was \$7,334 compared to \$6,149 in 2018-19 (inflation adjusted).

New Mexico national rankings:

- 14 in access for 4-year-olds
- 16 in access for 3-year-olds
- 9 in state spending per child
